- 9.1 Each candidate (including those on remote candidature) will be enrolled on a provisional basis for at least the first twelve months of the degree.
- 9.2 A major review of progress after twelve months will recommend confirmation of Masters candidature, or a further period of conditional candidature not exceeding six months, or termination.
- 9.3 Candidates granted a further period of conditional enrolment will undergo a second major review at the end of this time period. No further periods of conditional enrolment will be permitted.
- 9.4 Continuation of enrolment at the end of this period will depend on overall academic progress and the completion of set activities to the satisfaction of the School/Discipline concerned. These activities will form part of a Structured Program of activities extending through the candidature.
- 9.5 Such activities will be determined by the School/Discipline through which the candidate is enrolled and in the first year must include the completion and presentation of the research proposal and other programs and skills training deemed necessary by the School/Discipline.
- 9.6 The research proposal must be agreed and submitted to the Adelaide Graduate Centre preferably within three, but no later than six months (or half-time equivalent) from the commencement of candidature.
- 9.7 Transfer to the Doctor of Philosophy may be approved after twelve months of candidature or part-time equivalent subject to the following conditions:
  - a Having met the admission requirements for the Doctor of Philosophy at the time of enrolment into the Master of Clinical Science
  - b Satisfactory completion of the Major Review of Progress
  - c Approval of the application to upgrade candidature, which shall include a revised research proposal, by the Faculty and the Committee.
- 9.8 Transfer to the Doctor of Philosophy may be approved after eighteen months of candidature or part-time equivalent subject to the following conditions:

- a Satisfactory completion of the Major Review of Progress and demonstrated significant research output
- b For students in the mixed research and coursework stream, completion of a minimum of 12 units of coursework and demonstration of research output
- c Approval of the application to upgrade candidature, which shall include a revised research proposal, by the Faculty and the Committee.

## 10 Remote candidature

- 10.1 Initial enrolment as a remote candidate may be permitted on academic grounds where the School/Discipline concerned can ensure the provision of external supervision, facilities and affiliation to the satisfaction of the Research Education and Development Committee.
- 10.2 Unless otherwise exempted, a remote candidate will meet all the requirements of the Core Component either by study online or by attending the University of Adelaide for periods defined in their enrolment documentation.
- 10.3 A remote candidate may be permitted to convert to an internal mode of attendance at any time and shall be subject to the conditions normally applied.
- 10.4 Notwithstanding Rules 10.1 to 10.3 above, remote candidates are also required to abide by the other Rules and guidelines for the degree of Master of Clinical Science.

## 11 Review of academic progress

- 11.1 The Committee may review the progress of a candidate at any time during the program of candidature and, if the candidate's progress is unsatisfactory, may terminate the candidature.
- 11.2 Progress and confirmation of candidature will occur twelve months after enrolment (see 9.2 above). Additional reviews will occur around October each year with written reports forwarded to the Dean of Graduate Studies. A candidate's re-enrolment in the following year is conditional upon satisfactory progress in the year of the review.

## 12 Absence from the University

Except for remote candidates, the Committee, on the recommendation of the School/Discipline concerned, may permit a candidate to pursue away from the University work connected with the research for the degree. Such permission may only be granted under special circumstances during provisional candidature.

## 13 Leave of absence

A candidate whose work is interrupted for a period of time may be granted cumulative leave by the Committee of up to twelve months. If an application for leave is approved, the minimum and maximum periods specified in Rule 7 will be adjusted accordingly by adding the length of the approved leave.

- 14 In exceptional circumstances, the Committee may grant a candidate cumulative leave in excess of 12 months. Where a student is granted this exceptional leave, the University will endeavour to ensure, but cannot guarantee, that appropriate supervision and resources will be available to support the student on return from leave.
- 15 In some fields of study, time plays a critical role in the currency of the research. In such cases, the research project may no longer be current following leave and the University may not be able to secure supervision in an area where currency is compromised. Additionally, the University may not be able to accommodate an amendment to the research project. Under these circumstances, continuation of candidature may not be possible and the only options will be:
- a withdrawal by the candidate
  - or
  - b termination of candidature by the University.
- 16 The candidature of a student who takes leave from the University without approval will be suspended immediately, on notification of the Adelaide Graduate Centre.
- 17 A candidate granted leave must inform the Adelaide Graduate Centre in writing of resumption of candidature within two weeks of the approved date of return.
- 18 A candidate seeking to extend a period of leave must apply in writing for an extension of leave at least one week prior to the originally approved date of return.

## 19 Withdrawal from candidature

- 19.1 A student may withdraw from candidature at any time.
- 19.2 Candidature may be reinstated at a future date without academic consequences, subject to the continuing currency of the research undertaken prior to withdrawal and the currency of the research skills of the candidate. The approval of the Head of School and the ongoing availability of appropriate supervision and resources are also required.

## 20 Suspension of candidature

A student's candidature may be suspended for failure to comply with any formal requirement of candidature, including:

- a failing to abide by the responsibilities of research candidates as detailed in the Research Student Handbook
- b failing to undertake a required review of progress by the due date or extended due date
- c failing to respond to any University correspondence sent to the nominated mailing address or campus email address within two months of the requested date of response
- d failing to accept reasonable offers of supervision facilitated by the University
- e taking leave without prior approval
- f failing to return from leave on the agreed date
- g failing to notify the Adelaide Graduate Centre of return from leave within two weeks of return
- and

## 21 Termination of candidature

A student's candidature may be terminated where:

- a progress is unsatisfactory following a review of progress, whether programmed or otherwise
- or
- b where candidature has been suspended for more than twelve months
- or
- c where the candidate has failed to complete the core component of the structured program within six months or half-time equivalent of commencement.

- 22 A terminated candidature may only be reinstated following a successful appeal.

## 23 Extension of candidature

Irrespective of full-time or half-time status, a candidate may be granted by the Committee one extension of candidature only of six months beyond the maximum period specified in Rule 7. If the thesis has not been submitted by the end of the extended period, the candidature will lapse.

## 24 Completion of thesis outside the University

A candidate who has completed the equivalent of one year of full-time work under the control of the University, who has completed the experimental work (where appropriate) and whose progress is sufficiently well advanced to permit the satisfactory completion of

the thesis outside the University, may be granted permission by the Committee to complete the writing-up of the thesis outside the University. If such permission is granted the candidate will be allowed either twelve months or until the end of candidature, whichever is the lesser, to submit the thesis. If the thesis has not been submitted by the end of the writing-up period the candidature will lapse.

## 25 Lapsed candidature

- 25.1 Candidature shall be deemed to have lapsed if the candidate fails to submit his/her thesis within the maximum duration of the program as specified in Rule 7, provided that candidature has not otherwise been withdrawn, suspended or terminated.
- 25.2 A candidature, which has lapsed for not more than twelve months, may be resumed if the completed thesis, which has not departed from the field of study that was being pursued before the candidature lapsed, is subsequently submitted to the Director of Adelaide Graduate Centre. The thesis will only be accepted for examination if the School/Discipline certifies that it is satisfactory to that School/Discipline.
- 25.3 Approval of the Committee is required for the resumption of a lapsed candidature under any other conditions.

## 26 Intention to submit thesis

A candidate shall notify the Director of Adelaide Graduate Centre, in writing, approximately three months before he or she expects to submit a thesis for examination. A summary of the thesis, together with the proposed thesis title, shall be submitted at or prior to lodgement of the thesis.

## 27 Submission and examination of the thesis

- 27.1 a On completion of the approved program of study and research, including all coursework requirements, a candidate shall submit a thesis embodying the results of that study and research, and may submit also, in support of the thesis, other relevant material.

- c The thesis shall embody the values described in Rule 3.2.
- 27.2 a A thesis will normally be written in English.

- c If the Dean of Graduate Studies approves the submission of a thesis in a language other than English, the submission must be accompanied by an abstract written in English.
- 27.3 The format of a thesis which incorporates publications and/or manuscripts shall be in accordance with Rules 8.10 to 8.14.
- 27.4 The Head of School/Discipline shall certify that the thesis is worthy of examination.
- 27.5 The thesis and any other material submitted shall be assessed by at least one examiner who is external to the University.
- 27.6 No thesis, material or publications presented for any other degree within this or any other institution shall be so submitted.
- 27.7 With the exception of suitably referenced work, material, both physical and intellectual, presented for examination should have been generated during the period of candidature.
- 27.8 The Committee shall prescribe the form in which the thesis shall be submitted and the number of copies to be submitted.

## 28 Appointment of examiners

- 28.1 Candidates shall have the right, prior to the commencement of the examination process, to identify people they do not wish to examine their theses. Any such objections should be submitted to the Director of Adelaide Graduate Centre, at the same time as the notification of intention to submit required under Rule 26. Such objections do not serve as a veto.
- 28.2 Assessment of the thesis shall in every case be by no fewer than two examiners appointed by the Committee of whom:
- a at least one shall be external to the University
- b at least one shall be an academic member or affiliate of a tertiary institution.
- 28.3 The candidate's supervisors shall not be eligible to act as examiners.

- 28.5 After consideration of the reports of the examiners, the Committee may appoint a third external examiner and/or an external arbitrator.

## 29 Examination results

- or*
- c the candidate be not awarded the degree of Master of Clinical Science but be permitted to resubmit the thesis for re-examination in revised form
- or*
- d the candidate be not awarded the degree of Master of Clinical Science.
- 29.2 Where the Committee determines that the candidate be awarded the degree of Master of Clinical Science, the Committee shall also determine an overall grade.
- 29.3 In the case of a thesis presented for re-examination as provided for in Rule 29.1(c), the thesis will, as far as possible, be assessed by the original examiners.
- 29.4 A thesis presented for re-examination will not be submitted for further re-examination.
- 30 Examiners may if necessary request REDC to grant an oral or viva examination to clarify points of the thesis or to satisfy themselves of the candidate's contribution to jointly authored works presented in the thesis.
- ## 31 Thesis amendments following examination
- The time limits for revision of the thesis are:
- a three months where the examination result is to award the degree following corrections or revisions to be made to the satisfaction of the University (see Rule 29.1(a and b))
- and*
- b twelve months where the examination result is not to award the degree but to permit resubmission of the thesis in a revised form (see Rule 29.1(c)).
- 32 Candidates who require additional time to complete revisions must apply to the Dean of Graduate Studies for permission, stating the reasons for the

request. The request should be approved by the principal supervisor and the Head of School/Discipline or the Postgraduate Coordinator.

Upon revocation, the person is taken never to have received the award.
