The model is successful in the Graduate Diploma in Nursing Science (Mental Health Nursing) and its use is proposed in the new program. We expect that students will be enrolling in the program to extend their clinical expertise and skills in working with people with mental health and addiction problems. The program is designed to develop these expertise and skills.

Students will critically evaluate both the body of knowledge and latest research in Addiction and Mental Health. They will learn strategies to engage and work with people with Mental Health and Addiction problems. It is envisioned that they will extend their clinical practice and improve their skill in this manner. Examples of extended clinical expertise and skills include:

## 7 Required program of activities at the commencement of candidature

- 7.1 Each candidate (including those on remote candidature) will be enrolled on a provisional basis for the first twelve months of the degree.
- 7.2 Continuation of enrolment at the end of this period will depend on overall academic progress and the completion of set activities to the satisfaction of the School. These activities will form part of a Structured Program of activities extending through the candidature
- 7.3 Such activities will be determined by the School and in the first year will include the completion and presentation of the research proposal and other programs and skills training deemed necessary by the School. In the case of international students, completion of the Integrated Bridging Program is also required, except in those cases where an exemption has been granted.
- 7.4 The research proposal will be agreed and submitted to the Adelaide Graduate Centre preferably within nine, but no later than twelve months from the commencement of candidature.
- 7.5 A major review of progress after twelve months will recommend confirmation of candidature, termination, or the extension of provisional status. In the case of extension, a further review after a clearly defined period, normally three but not in excess of six months would form the basis for confirmation or termination or change to a single program enrolment.

## 8 Remote candidature

- 8.1 Enrolment as a remote candidate may be permitted for some periods of the candidature associated with the research project on the conditions that the School can ensure, and the Research Education and Development Committee is satisfied, that appropriate external supervision, with appropriate affiliation, and facilities are available.

- 8.3 Notwithstanding Rule 8.2, a remote candidate will normally be required to undertake their candidature in an internal attendance mode until such time as the Core Component of the Structured Program has been completed.
- 8.4 In accordance with Rule 4 a remote candidate may proceed to the degree either by full-time or half-time study.

- 8.5 On the recommendation of the School, the Committee at any time may permit an enrolled student to enrol as a remote candidate subject to the conditions specified in 8.1, 8.2, 8.3 and 8.4 above.
- 8.6 A remote candidate may be permitted to convert to an internal mode of attendance and shall be subject to the conditions normally applied.
- 8.7 Notwithstanding Rules 8.1 to 8.6 above, remote candidates are also required to abide by the other Rules and guidelines for the degree of Master of Psychology (Clinical)/ Doctor of Philosophy.

## 9 Review of academic progress

- 9.1 The Committee or Faculty may review the progress of a candidate at any time during the program and, if the candidate's progress is unsatisfactory, may terminate the candidature and the student shall cease to be enrolled for the degree.
- 9.2 A formal review of the candidate's progress shall be conducted by the School at least once a year in accordance with the guidelines determined by the Research Education and Development Committee and outlined in the Research Student Handbook.
- 9.3 A formal review and confirmation of candidature will occur twelve months after enrolment (see 7.5 above). Additional reviews will occur around October each year with written reports forwarded to the Dean of Graduate Studies. A candidate's re-enrolment in the following year is conditional upon satisfactory progress in the year of the review.
- 9.4 A student who fails a course and desires to take this course again shall attend the lectures and seminars and do such written and practical work as the teaching staff concerned may prescribe. No student shall be permitted to repeat a course more than once without the approval in writing of the Head of the School concerned.

## 10 Absence from the University

Except for remote candidates, the Committee, on the recommendation of the School concerned, may permit a candidate to pursue, away from the University, work connected with the research for the degree. Such permission may only be granted under special circumstances during provisional candidature.

### Leave of absence

- 11 A candidate whose work is interrupted for a period of time may be granted cumulative leave by the Committee of up to twelve months. If an application for leave is approved, the minimum and maximum periods specified in Rule 4 will be adjusted accordingly by adding the length of the approved leave.
- 12 In exceptional circumstances, the Committee may grant a candidate cumulative leave in excess of 12 months. Where a student is granted this exceptional leave, the University will endeavour

to ensure, but cannot guarantee, that appropriate supervision and resources will be available to support the student on return from leave.

- 13 In some fields of study, time plays a critical role in the currency of the research. In such cases, the research project may no longer be current following leave and the University may not be able to secure supervision in an area where currency is compromised. Additionally, the University may not be able to accommodate an amendment to the research project. Under these circumstances, continuation of candidature may not be possible and the only options will be:
- i withdrawal by the candidate *or*
  - ii termination of candidature by the University.
- 14 The candidature of a student who takes leave from the University without approval will be suspended immediately, on notification of the Adelaide Graduate Centre.
- 15 A candidate granted leave must inform the Adelaide Graduate Centre in writing of resumption of candidature within two weeks of the approved date of return.
- 16 A candidate seeking to extend a period of leave must apply in writing for an extension of leave at least one week prior to the originally approved date of return.

## 17 Withdrawal from candidature

A student may withdraw from candidature at any time. Candidature may be reinstated at a future date without academic consequences, subject to the continuing currency of the research undertaken prior to withdrawal and the currency of the research skills of the candidate. The approval of the Head of School and the ongoing availability of appropriate supervision and resources are also required.

## 18 Suspension of candidature

A student's candidature may be suspended for failure to comply with any formal requirement of candidature, including:

- i failing to abide by the responsibilities of research candidates as detailed in the Research Student Handbook
- ii failing to undertake a required review of progress by the due date or extended due date
- iii failing to respond to any University correspondence sent to the nominated mailing address or campus email address within two months of the requested date of response
- iv failing to accept reasonable offers of supervision facilitated by the University
- v taking leave without prior approval
- vi failing to return from leave on the agreed date
- vii failing to notify the Graduate Centre of return from leave within two weeks of return
- viii non-payment of University fees and charges.

## Termination of candidature

- 19 A student's candidature may be terminated where:
- i progress is unsatisfactory following a review of progress, whether programmed or otherwise *and*
  - ii where candidature has been suspended for more than twelve months.
- 20 A terminated candidature may only be reinstated following a successful appeal.

## 21 Extension of candidature

A candidate may be granted, by the Committee, only one extension of candidature of twelve months beyond the maximum period specified in Rule 4. If the thesis has not been submitted by the end of the extended period, the candidature will lapse.

## 22 Completion of thesis outside the University

A candidate who has completed the equivalent of two years of full-time work under the control of the University and who has completed the required experimental work, coursework, and placements and whose research progress is sufficiently well advanced to permit the satisfactory completion of the thesis outside the University, may be granted permission by the Committee to complete the writing-up of the thesis outside the University. If such permission is granted the candidate will be allowed either twelve months or until the end of candidature, whichever is the lesser, to submit the thesis. If the thesis has not been submitted by the end of the writing-up period the candidature will lapse.

## 23 Lapsed candidature

- 23.1 A candidature that has lapsed will be resumed if the completed thesis, which has not departed from the field of study that was being pursued before the candidature lapsed, is subsequently submitted to the Manager, Graduate Administration and Scholarships. The thesis will only be accepted if the School certifies that it is satisfactory to that School.
- 23.2 Approval of the Committee is required for resumption of a lapsed candidature under any other conditions.

## 24 Intention to submit thesis

A candidate shall notify the Manager, Graduate Administration and Scholarships, in writing, approximately three months before he or she expects to submit the thesis required under Rule 25. A summary of the thesis, together with the proposed thesis title, shall be submitted at the same time.

## 25 Submission of thesis

- 25.1 On completion of the approved program of study and research, including all coursework and placement requirements, a candidate shall submit a thesis embodying the results of that study and research, and may submit also, in support of the thesis, other relevant material.
- 25.2 The thesis shall:
- a display original and critical thought
  - b be a significant contribution to knowledge
  - c relate the topic of research to the broader framework of clinical psychology *and*
  - d be clearly, accurately and cogently written and be suitable illustrated and documented.
- 25.3 The Committee shall prescribe the form in which the thesis shall be submitted and the number of copies to be submitted.

## 26 Appointment of thesis examiners

- 26.1 Candidates shall have the right to submit objections to the appointment of potential examiners of their thesis. Any such objections should be submitted to the Manager, Graduate Administration and Scholarships, at the same time as the notification of intention to submit required under Rule 24.
- 26.2 The Committee shall appoint two thesis examiners who are external to the University, taking account of any objections raised under Rule 26.1 and the recommendations of the Head of the School.
- 26.3 The examiners shall be requested to report in such form as the Committee will determine and to recommend one of the alternatives listed in Rule 27.
- 26.4 After consideration of the reports of the examiners, the Committee may appoint a third external examiner and/or an external arbitrator.

## Examination results

- 27.1 After consideration of the reports of the examiners, the Committee shall determine that:
- a the thesis meets criteria for the Doctor of Philosophy and the candidate therefore be awarded the Master of Psychology (Clinical)/ Doctor of Philosophy *or*
  - b the thesis meets criteria for the Doctor of Philosophy and the candidate therefore be awarded the Master of Psychology (Clinical)/Doctor of Philosophy but that minor amendments be made to the thesis *or*
  - c the thesis meets criteria for the Doctor of Philosophy and the candidate therefore be awarded the Master of Psychology (Clinical)/ Doctor of Philosophy subject to specified amendments being made to the thesis *or*

- d the thesis does not meet criteria for the Doctor of Philosophy and therefore the candidate be not awarded the Master of Psychology (Clinical)/Doctor of Philosophy but be permitted to re-submit the thesis for examination in a revised form *or*
  - e the thesis meets criteria for the Master of Medical Science *or*
  - f the thesis meets the criteria for the Master of Medical Science upon making suitable amendments to the thesis *or*
  - g the thesis does not meet the criteria for the Master of Medical Science
- 27.2 In the event of an examination outcome of (e), (f) or (g), providing that all coursework and placement requirements have been completed satisfactorily, the candidate may be permitted on the recommendation of the Head of the School to re-enrol in the Master of Psychology (Clinical) and to present additional aspects of research to satisfy requirements for award of the Master of Psychology (Clinical) degree.
- 28 In the case of a thesis presented for re-examination as provided for in Rule 27.1(d), the thesis will, as far as possible, be assessed by the original examiners.
- 29 A thesis presented for re-examination will not be submitted for further re-examination.

### **Thesis amendments following examination**

- 30 The time limits for revision of the thesis are:
- i three months where the examination result is to award the degree following minor amendments to the thesis (see Rule 298.1(b)), or where the examination result is to award the degree subject to the specified amendments being made to the thesis (see Rule 27.1(c)) *and*
  - ii twelve months where the examination result is not to award the degree but to permit resubmission of the thesis in a revised form (see Rule 27.1(d)).
- 31 Candidates who require additional time to complete revisions must apply to the Dean of Graduate Studies for permission, stating the reasons for the request. The request should be approved by the principal supervisor and the Head of School or the Postgraduate Coordinator.

### **32 Deposit of thesis in the library**

Such number of copies of a thesis and any other material on which the degree is awarded shall be deposited in the Barr Smith Library or elsewhere as determined by the Committee. Unless otherwise determined by the Committee the copies shall be available for loan and photocopy.

### **33 Loan or photocopy of thesis**

A candidate who does not wish to allow the thesis to be lent or photo-copied when it is deposited in the Library under Rule 32 shall make written application to the Manager, Graduate Administration and Scholarships, at the same time as he or she notifies his or her intention to submit under Rule 24. The withholding of such permission and the period of time involved shall be determined by the Committee.

### **34 Posthumous award**

If a person dies after completing, or in the opinion of the Committee, substantially completing the requirements of the award, the University may confer the award posthumously.

### **35 Revoking the award**

If the Committee is satisfied that, when the Master of Clinical Psychology/Doctor of Philosophy was conferred on a person, the person

- a did not possess the relevant qualification *or*
- b had not completed the necessary requirements,

the Vice-Chancellor with authority devolved to her/him by Council may revoke the award.

Upon revocation, the person is taken never to have received the award.

### **36 Return of documents**

If requested by the Dean of Graduate Studies, the recipient of a Master of Clinical Psychology/Doctor of Philosophy must deliver to the University the documents certifying or evidencing the award.

## 7 Prescribed Communicable Infections Policy

The University promotes a pro-active public health approach to prescribed communicable infections (PCI) such as HIV/AIDS, Hepatitis B and Hepatitis C, and seeks to minimise the impact of these infections on students' academic progress. It offers understanding and practical support to students with such infections, and aims to provide a work and study environment free from discrimination, challenging views that result in discriminatory attitudes towards people with PCIs.

The University also has a legal and ethical obligation to take all reasonable measures to prevent the transmission of prescribed communicable

infections among students, staff members and visitors, and recognises that some students with such infections will not be permitted to complete clinical programs offered by the Faculty of Health Sciences.

All prospective medical and dental school students are strongly advised to consult the University's Students With Prescribed Communicable Infections Policy - available through the University's website at:

[www.adelaide.edu.au/student/current/policies.html](http://www.adelaide.edu.au/student/current/policies.html)

which makes reference to the relevant legislation, elaborates on the reasons for the adoption of this policy, and outlines procedures for implementing the policy.
