

# Bachelor of Nursing

These Program Rules should be read in conjunction with the University's policies (<http://www.adelaide.edu.au/policies>).

## 1 Duration of program

The program of study shall extend over three years of full-time study.

## 2 Admission

- 2.1 The admission requirements for the degree are subject to selection procedures currently operating in the School.

International students (i.e. students not born or educated at primary or secondary school level in Australia or New Zealand) undertaking the Bachelor of Nursing program will be required to obtain an International Language Testing System (IELTS) score of 7 or greater, or an Occupational English Test (OET) for Nurses of a B pass or higher. The test must be undertaken within two years of applying to the Nursing and Midwifery Board of Australia for registration, or enrolment.

- 2.2 Status, exemption and credit transfer

A student who leaves the program without approval shall be deemed to have withdrawn his or her candidature for the degree, but may reapply for admission to the program in accordance with the procedures in operation at the time.

Students who have interrupted their studies may be required to resume at such a point in the program and/or to undertake such additional or special program of study as the Head of Discipline deems appropriate.

- 2.3 Physical fitness

The Bachelor of Nursing has an extensive clinical component that requires students to work as members of the health care team. To satisfactorily undertake this clinical component, students need to be physically fit. Students must satisfy the individual Occupational Health and Safety requirements of the institution in which they are undertaking the clinical component of the program.

- 2.4 Prescribed communicable infections policy

The University promotes a proactive public health approach to prescribed communicable infections (PCI) such as HIV/AIDS, Hepatitis B and Hepatitis C, and seeks to minimise the impact of these infections on students' academic progress. It offers understanding and practical support to students with such infections, and aims to provide a work and study environment free from discrimination, challenging views that result in discriminatory attitudes towards people with PCIs.

The University also has a legal and ethical obligation to take all reasonable measures to prevent the transmission of prescribed communicable infections among students, staff members and visitors, and recognises that some students with such infections may not be permitted to complete the Bachelor of Nursing, Bachelor Medicine and Bachelor of Surgery, Bachelor of Dental Surgery or other clinical programs offered by the Faculty of Health Sciences.

All prospective nursing students are strongly advised to consult the University's Students With Prescribed Communicable Infections Policy - available through the University's website at [www.adelaide.edu.au/policies/591/](http://www.adelaide.edu.au/policies/591/) - which makes reference to the relevant legislation, elaborates on the reasons for the adoption of this policy, and outlines procedures for implementing the policy.
