Rostrevor College

Computer Science Student

About Project Plus

The program places undergraduates and honours students with a company under a collaborative agreement to carry out a project whilst studying. The project is usually an assessable part of the students academic program and can cover a period of 3 to 9 months. The program has a dual mission, to enhance students skills through relevant real-world projects in research development and to profit industry through, expertise transfer, innovation and development.

Industry Sponsored Organisation

A Catholic School for Boys

Rostrevor College is a Catholic, all boys, day and boarding school. Its Junior, Middle and Senior Schools share the same 16 hectare campus situated in the foothills of the Mount Lofty Ranges only 8 kilometres from the Adelaide CBD.

Rostrevor's Christian Brother tradition has ensured a diversity of educational experiences for boys at all levels. Rostrevor has a fine tradition of producing leaders in academic, cultural and sporting spheres. It is this breadth of experience, provided in a caring and nurturing environment, that is the hallmark of an all boys Rostrevor education.

Project Title

Web Database
