

Technology for Nurture in Large Classes: **a workshop**

Presented by Dr Michael Bulmer
School of Mathematics and Physics
University of Queensland
ALTC Associate Fellow

One of the underlying challenges in teaching large classes is developing and maintaining an understanding of the diversity of student learning experiences. This workshop will give a practical overview of several technology-based approaches to assisting academics in engaging with and supporting the student experience, with a particular emphasis on the effective aspects of student learning. These include online reflective writings combined with simple web interfaces as well as insights from text mining.

There will also be time for informal discussion about the use of reflective writing for ongoing course evaluation and scholarship.

Date: Wednesday 12 August 2009

Time: 10:00am – 12:00pm

Location: NAPIER 210

Please contact Kerrie Le Lievre at kerrie.lelievre@adelaide.edu.au or on 36923 to confirm attendance.

Sponsored by the Education Research Group of Adelaide.
