

## Farming is a Business

Lors Thmey is a social enterprise that helps improve the incomes and resilience of rural households. We sell high-quality agricultural inputs backed up by technical advice to improve the quality, quantity, and diversity of smallholder production. We contract with many of our farmer clients to purchase their crops for on-selling to premium markets. Since its inception in 2005, Lors Thmey has served more than 75,000 Cambodian farmers.
