

## **REGISTER OF SENIOR RESEARCHERS FOR CONDUCTING GUIDED CONVERSATIONS**

**LIST LAST UPDATED**      **28<sup>TH</sup> October 2008**  
**LIST VALID UNTIL**        **30<sup>th</sup> June 2010**

Formal completion of each of the Future Research Leaders Program modules requires you to undertake a 'guided conversation' with a designated experienced researcher or senior research officer.

Attached is the initial list of designated University of Adelaide staff. We are still waiting for one or two areas to provide us with final details, and we will update this list as soon as that information is available.

The staff listed here are very busy people and have freely offered their time in support of the Future Research Leaders Program. Please ensure that you book time with them well in advance, through their Pas as appropriate, and please ensure that you get the full benefit of the guided conversation by preparing thoroughly.

Full instructions on the guided conversation, including information on what you should send out to the senior researchers in advance, are to be found in the Record of Completion documentation for each module.
