Welcome Function for HDA Scholars

Friday 31 March, 5.30 - 6.30pm
University of Adelaide Staff Club – Hoods Room (1st floor)

Congratulations to Leigh, Siew, Anne and Lynlea on being awarded a Healthy Development Adelaide Scholarship in 2006, and for being one of the research cluster's inaugural HDA Scholars. They will be the first cohort to undertake the HDA Research Training Program.

The aim of the HDA Research Training Program is to add value to current research training with a specific emphasis on multidisciplinary approaches and translation of research outcomes, to promote effective mentorship, professional development and career aspirations, to achieve recognition as a ‘flagship’ program for HDA, and to enhance recruitment of outstanding scholars with interests in all discipline areas of relevance to healthy development.

Please come and join us to welcome our inaugural HDA Scholars for 2006.
