

## INTERNET & EMAIL CONFIGURATION

### GPRS INTERNET

#### SETTINGS OVERVIEW

Macquarie Vodafone Access Point: vfinetnet.au

Macquarie Telstra Access Point: telstra.wap

#### CONFIGURATION GUIDE

1. Press the Start button.
2. Browse to Settings.
3. Browse to the Connections tab.
4. Browse to GPRS Setting.
5. Select PAP authentication and press OK.
6. Browse to Connections icon.
7. Under the top menu select Manage existing connections.
8. If no connection exists, Press the New button. If a connection exists, Press the Edit button to confirm the connection is setup properly.
9. Enter a name for the connection eg. "GPRS Internet".
10. Select "Cellular Line (GPRS, 3G)" as the modem type.
11. Press the Next button.
12. For vodafone devices, enter "vfinetnet.au" as the access point name (if you are unsure which carrier your Macquarie service is with please contact Telecommunications on 33333 for clarification).
13. For telstra devices, enter "telstra.wap" as the access point name.
14. Press the Next button.
15. Leave the User name, Password and Domain fields empty.
16. Press the Advanced button.
17. Tick the Use server-assigned IP address box.
18. Leave the Use software and IP header compression boxes Unticked.
19. Browse to the Servers tab.
20. Tick the Use server-assigned addresses box.
21. Press the OK button.
22. Press the Finish button.

## OUTLOOK EMAIL

### SETTINGS OVERVIEW

Email address: Your University address (eg. firstname.lastname@adelaide.edu.au)

Username: Your University login (eg. a1234567)

Password: Your University password

Mail server type: IMAP

Incoming mail server: mail.adelaide.edu.au

Outgoing mail server (vodafone): smtp.vodafone.net.au

Outgoing mail server (Telstra): mail.bigpond.com

### CONFIGURATION GUIDE

1. Press the Start button.
2. Browse to Messaging (sometimes Email or Inbox).
3. Press the Menu button.
4. Browse to Tools/Options.
5. Under the Accounts tab press New Account.
6. Enter your E-mail address (eg. john.smith@adelaide.edu.au).
