Services

All University IT services, apart from printing, can be accessed using the wireless network. These include:

- **Remote file access to your data**
<https://remotefiles.adelaide.edu.au>
- **Internet access (internal and external)***
- **Email access**
<http://webmail.adelaide.edu.au>
- **MyUni**
<https://myuni.adelaide.edu.au>
- **Access Adelaide**
<https://access.adelaide.edu.au>

* External internet access is charged to your internet quota.

Support

Student wireless network support is available at the Barr Smith Library IT Student Support desk located on Level 3 (Library Information Desk). Operating hours are between 9am to 5pm weekdays during semester time only. All other wireless enquiries outside of semester time should be directed to the IT Services Helpdesk on 8303 3000.

Support for University staff is also available through the IT Services Helpdesk on 33000.

Wireless Network Information

Life Impact The University of Adelaide

The University of Adelaide Wireless Network

The University of Adelaide Wireless Network provides students and staff with a convenient alternative to the University wired network. Students and staff can connect personal computers to wireless and access the intranet, internet, email and online education.

The service is offered free of charge to all students and staff and no traffic charges will be applicable to any data from University of Adelaide On-Line Education Systems, internal web servers, library system and other internal services. However all Internet traffic downloaded over this service will be charged against your web traffic quota.

Coverage

Wireless coverage is available in almost all areas of the main campus as well as many areas on remote campuses such as Waite and Roseworthy. If you find an area that does not have coverage please use the feedback form to advise us. We will endeavour to fulfil all requests, however it may not always be feasible.

eduroam

Students and staff who travel to other universities can access the **eduroam** Wireless Network. For information regarding this service, please see:

<http://wireless.adelaide.edu.au/eduroam>
