

St Peter's College  
Cambridge

Dec 1. 1885

Mr W. H. Bragg of Trinity  
College read with me as  
his Tutor while preparing  
for his degree in June 1884.  
Having thus watched his  
progress through the usual  
Mathematical subjects I  
am able to certify that  
he has great Mathematical  
talent. He read with

care & attention and thus  
made rapid progress. His  
place as third Wrangler  
in the Tripos is a sufficient  
proof of this. In the  
final examination where  
the questions are confined  
to the higher parts of  
Mathematics he was placed  
in the first class. This  
degree is a certificate from  
the University that he has  
an excellent knowledge  
of Mathematics. I am

therefore glad to recommend  
him to the electors & believe  
that he will prove an  
efficient Professor.

Edward I Routh

D.Sc. F.R.S. &c

Honorary Fellow of St Peter's  
College &c.
