

FACULTY OF THE PROFESSIONS GRADUATE ATTRIBUTES 2007

Graduate Diploma of Advanced Economics
Graduate Diploma of Applied Economics
Graduate Diploma of Economics
Graduate Diploma of International Economics

Program Objectives

To provide students with analytical and econometric skills that will provide an understanding of economic policy issues for holders of a Bachelors degree in a field other than economics.

Graduate attributes

Explain and critically evaluate the use of economic theory and basic econometric methods in the analysis of economic policies contained in government publications by the Central Bank, Departments of Treasury and Finance or the ACCC and other similar regulatory bodies.

Generic Skills

- 1) Mastery of Excel or equivalent software for basic econometric analysis
- 2) Apply the analytical skills obtained to provide precise written and oral reports
