

## FACULTY OF THE PROFESSIONS GRADUATE ATTRIBUTES 2007

### *Master of Economics (Coursework)*

#### Program Objectives

To provide students with analytical and econometric skills that will enable them to perform as a professional economist in the public or private sectors.

#### Graduate attributes

Explain, apply and critically evaluate the use of economic theory and advanced econometric methods in the analysis of economic policies contained in government publications by the Central Bank, Departments of Treasury and Finance or the ACCC and other similar regulatory bodies.

#### Generic Skills

On completion of the program students should be able to demonstrate;

- 1) Mastery of software for advanced econometric analysis (Eviews or equivalent)
- 2) Apply the analytical skills obtained to provide precise written and oral reports
- 3) The capacity to gain publication in ranked field journals
