You will need the CoE to lodge a student visa application at the Australian Embassy, Consulate or High Commission you nominated in the Acceptance Agreement.

## 1.2 Fees

### Tuition Fees

As an international student at the University of Adelaide, you are required to pay international student fees for your program of study. The indicative annual tuition fee for a particular program is based upon the standard full-time enrolment load of 24 units per year. The amount to be paid therefore depends upon your program of study and your enrolment load. Should you 'overload' or 'underload', your fees will be increased or decreased accordingly. The University invoices you (or your sponsor) each semester/trimester according to your enrolment load in that semester/trimester.

The quoted fee is a base fee that will be subject to an annual increase of up to 9% for each of the subsequent years in the program. Students completing the program beyond the duration published in the International Prospectuses for the admission year will be subject to a new base fee. All new international students are required to pay a tuition fee deposit when accepting an offer. The payment will be counted as credit towards your tuition fees in your first semester/trimester. After enrolment, you will be invoiced for the balance of your fees in that semester/trimester.

Fees are calculated according to the program in which you are enrolled and will not vary according to discipline of study. International students are encouraged to undertake a full-time study load to ensure that they complete their program prior to the expiration of their visa. If your fees are not paid when they are due the University will cancel your enrolment. If your enrolment is cancelled you are no longer permitted to participate in teaching, learning or assessment of any University course. The University is required to inform DIAC that you no longer meet your visa requirements.

For information on the University's Refund Policy for International Students, see Section 1.9.

### Overseas Student Health Cover (OSHC)

The Australian Government requires all international students and their families to pay for health insurance in Australia through the Overseas Student Health Cover (OSHC) scheme. OSHC helps pay for medical care you may need when you are studying in Australia. You will need evidence that you have OSHC before you can obtain your Australian student visa. Membership of a health insurance scheme in your home country does not exempt you from paying OSHC. There are several providers of OSHC in Australia. The University's preferred provider of OSHC is Worldcare. Further information on OSHC Worldcare and its cover is available on its website: [www.worldcare.com.au](http://www.worldcare.com.au). If you insure with OSHC Worldcare through the University, the University will disclose your relevant personal details to OSHC Worldcare for registering your OSHC.

It is a DIAC requirement that all students have OSHC for the proposed duration of their student visa at the time of visa application. The total fee for OSHC is quoted in your Offer Statement and Acceptance Agreement, unless otherwise stated.

More information about coverage and charges is available at: [www.international.adelaide.edu.au/cost/health/](http://www.international.adelaide.edu.au/cost/health/)

The PEP helps students who have achieved an IELTS (or equivalent) score slightly below the admission requirements to improve their academic English, and can provide an alternative entry pathway for applicants who have received conditional offers. Applicants must complete all aspects of the appropriate PEP to the satisfaction of the PEP Assessment Committee. On successful completion at the required standard these applicants are granted direct entry into the University.

The PEP also provides an excellent preparation for study for international students who have the required English Language proficiency score for entry into the University of Adelaide and wish to improve their language and academic skills before commencing their academic program.

Please refer to the English Language Centre website for more information, including details of the minimum entry requirements for entry to the PEP: [www.adelaide.edu.au/elc/courses/pep](http://www.adelaide.edu.au/elc/courses/pep)

#### Applying for the PEP

There is no separate application form for the PEP if you have received a conditional offer for a full degree program. To confirm your PEP enrolment, please complete the relevant section in the Acceptance Agreement and return it with the correct payment to the International Office.

Before enrolling into any PEP, please read the Enrolment, Refund, Transfer and Late Arrival Policy of the English Language Centre at: [www.adelaide.edu.au/elc/apply](http://www.adelaide.edu.au/elc/apply)

If you intend to bring your partner and/or children to Australia, please be aware there can be significant costs for childcare and schooling in South Australia. School attendance is compulsory for all children in Australia between six and sixteen years of age, with most children commencing school at five years of age. We understand that there are additional pressures and requirements for students with families as they prepare for their time at the University of Adelaide.

To help with planning, please refer to our website at: [www.international.adelaide.edu.au/living/family](http://www.international.adelaide.edu.au/living/family)

The University cannot release any information about a student's results, attendance, application status or any other matters to their parents. The University issues results at the end of each semester, in June and November. If parents wish to monitor academic results they need to make an arrangement for their son or daughter to provide the results to them.

More information is available in the University's Privacy Policy at: [www.adelaide.edu.au/policies/62](http://www.adelaide.edu.au/policies/62)

### 3.8 Education Services for Overseas Students Act

The Commonwealth government is committed to ensuring that students receive quality tuition, are treated fairly regarding payment of tuition fees and receiving refunds, and be offered support services to assist them to settle into Australia and complete their studies. This law also requires that the University assist the government to check that international students comply with their visa conditions, and advise the Department of Immigration and Citizenship (DIAC) if its students breach their visa conditions.
