

I N V I T A T I O N

*connect... collaborate... create...*

...and celebrate!

Join the team at Adelaide Research & Innovation for Christmas drinks, to celebrate the University of Adelaide's 2009 applied research achievements.

Research at the Uni has certainly made an Impact this year, delivering real results which contribute to Australia's social, economic, cultural and environmental wellbeing. ARI, the University's commercial development company, is proud to be a part of this. We would like to take the opportunity to reflect on the year together with our partners - the University's researchers and their industry & government collaborators.

To further inspire you, we've invited science ambassador and 702 ABC Sydney radio announcer

Adam Spencer to share his thoughts on research Impact (you may know him from Triple J, ABC television's science show 'The Sleek Geeks', or the comedy smashes 'Good News Week' and 'The Glass House').

So take this opportunity to *connect... collaborate... create... and celebrate!* with your peers in the innovation sector.

RSVP essential.

*Guest speaker:  
Adam Spencer  
ABC radio  
announcer  
& science  
ambassador*
