IBP-R

Integrated Bridging Program - Research

Life Impact | The University of Adelaide

IBP-R Objectives

RED

The Integrated Bridging Program - Research is a compulsory research communication program for international postgraduate research students and is also available for local students.

The program aims to make explicit the specific discipline-related expectations of academic writing and oral presentation. Particular goals of the program are to

- provide induction into the academic, linguistic and cultural conventions relating to postgraduate research in the students' own disciplines and paradigms
- foster students' agency and autonomy in negotiating research and language outcomes
- develop independent communication skills and proficiency in English appropriate to the students' own area of specialisation
- develop techniques of citing and attribution to express critical perspective
- develop spoken English and presentation skills for communicating research

Options within the IBP-R

RED

On arrival, each international research student is given input based on a diagnostic task and the advice of the supervisors about the most effective option for them. The outcome could be any of the following:

- Full participation in the IBP-R in the first full semester of candidature (Full IBP Participants should attend the Induction and at least 8 other sessions of their choice along with all of the seminars)
- Negotiated participation in the IBP-R as negotiated between the student, their supervisor/s and the IBP-R staff

IBP-R Program Semester 3, 2010

RED

| Workshop Topic | Date | Time & Venue |
|--|--------|---------------------------------------|
| IBP-R Induction | 9 Nov | 2:00-4:00pm Engineering South S111 |
| Taking a Critical Approach to Scholarship in the Field | 16 Nov | 2:00-4:00pm Engineering South S111 |
| Reviewing Literature | 23 Nov | 2:00-4:00pm Engineering South S111 |
| Appropriate Citation and Avoiding Plagiarism | 30 Nov | 2:00-4:00pm Engineering South S111 |
| Presenting a Seminar in Your Discipline | 7 Dec | 2:00-4:00pm Engineering South S111 |
| Pronunciation for Researchers | 14 Dec | 2:00-4:00pm Engineering South S111 |
| Intonation Patterns of English | 21 Dec | 2:00-4:00pm Engineering South S111 |
| Research Proposals and Other Research Genres | 4 Jan | 2:00-4:00pm Engineering South S111 |
| Editing and Self-Editing in Research Writing | 11 Jan | 2:00-4:00pm Engineering South S111 |
| Cohesion and Coherence in Research Documents | 18 Jan | 2:00-4:00pm Engineering South S111 |
| Grammar for Researchers | 25 Jan | 2:00-4:00pm Engineering South S111 |
| Listening in Research Contexts | 1 Feb | 2:00-4:00pm tba |
| Being Supervised | 8 Feb | 2:00-4:00pm tba |
| Advanced Pronunciation | 15 Feb | 2:00-4:00pm tba |
| Reading & Note Taking for Researchers | 22 Feb | 2:00-4:00pm tba |
