Introduction

This guide will assist you in clearing your cache, cookies and temporary internet files from Google Chrome. Please be warned that this will clear any active logins to website and saved passwords. This process cannot be undone.

Procedure

1. In Chrome, select the settings Icon in the top right (≡)
2. Select History
3. Click the Clear browsing data… button
4. Select Obliterate the following items from the beginning of time.
5. Ensure all checkboxes are checked except for Deauthorize content licenses.
6. Click Clear browsing data
