

Years

Class of 1971 Golden Jubilee

make history.

Welcome message from the Chancellor

I am delighted to welcome the classes of 1970 and 1971 to this 50-year Golden Jubilee reunion. I acknowledge that many alumni are unable to be with us because of the impact of COVID-19; they will be missed.

This event has a personal significance for me as it marks the 50-year anniversary of the conferral of my Law degree in 1970. I am thrilled to be part of this cohort and am looking forward to catching up with my fellow alumni. To be able to do so as the Chancellor of the University of Adelaide is indeed a special honour.

Graduates from the University of Adelaide go on to be pioneers and leaders in their respective fields, and many here today have done just that.

The last 50 years have seen many changes to universities and tertiary education. Funding models are vastly different, our staff and student bodies are much more diverse, and new technologies have enabled an evolution in teaching and learning methods that were beyond our imagination as undergraduates.

It is the University's Governing Council's responsibility to approve the mission and strategic direction of the University, and we have also had to adapt to these changes over time to ensure the continued growth and success of our institution. But the University of Adelaide's commitment to providing an inspiring university experience and producing talented and skilled graduates well equipped for the future has remained constant.

Today, we are a truly global University and our high-quality teaching and research is informed by industry priorities. Through our values of integrity, respect, collegiality, excellence and discovery we are building a stronger, modern and inclusive culture.

I trust the experiences and friendships made during your time at university have stayed with you in the intervening years and that you value these connections. I hope you continue to remember and engage with the University of Adelaide in the years to come.

My own memories of my time at university 50 years ago remain dear to me. I hope we all make new memories together during this Golden Jubilee reunion.

The Honourable Catherine Branson AC QC Chancellor

The Golden Jubilee celebration for the classes of 1970 and 1971 were combined in 2021 after the 2020 event was cancelled because of COVID-19 restrictions.

It gives me great pleasure to welcome the class of 1970 and 1971 alumni back to the University of Adelaide to celebrate your Golden Jubilee reunion and the 50th anniversary of the conferral of your degree.

This year we combine two cohorts as the event was cancelled in 2020 because of the COVID-19 pandemic.

This is my first Golden Jubilee as Vice-Chancellor of the University of Adelaide, and I am delighted that it coincides with the Chancellor's 50-year anniversary of the conferral of her first degree.

The University is proud of its alumni and the significant contributions you have made to your communities and wider society. You are among more than 152,000 alumni in 147 countries around the world and are our greatest ambassadors, representing and connecting us locally and globally through business, industry, government, or as volunteers.

Today is about celebrating this milestone with your fellow graduates, friends and family. It is an opportunity for you to return to your alma mater to reminisce about the places, events, people and activities that made your time at university memorable. During your time on campus, we hope you have the opportunity to take tours. We welcome you back at any time.

The University of Adelaide will turn 150 in 2024. As we plan for this milestone, I hope you will keep in touch. If you are able to, I encourage you to join us at alumni events. research seminars or concerts at Elder Hall there are many ways to remain connected.

Thank you to everyone who has taken the time to contribute to this book by submitting your biographies, memories and photographs. Your valuable input helps to make this booklet a treasured memento of your Golden Jubilee. I look forward to reading the contributions you have made to your professions and communities over the past 50 years.

I trust that your graduation day was a memorable experience 50 years ago, and hope the Golden Jubilee reunion is just as

Professor Peter Høj AC Vice-Chancellor and President

Past Golden Jubilee Addresses

The first Golden Jubilee Commemoration was held in 1986 to coincide with the 50th anniversary of the opening of Bonython Hall.

The graduates and diplomates of 1936 who returned to the University for that first Golden Jubilee Commemoration began a tradition that is being continued this year by the graduates and diplomates of 1970 and 1971

The previous Golden Jubilee Addresses have been delivered by:

1986 C Warren Bonython AO

1987 The Hon Dr John J Bray AC

1988 Helen Crisp AM

1989 Dr Mervyn K Smith CBE

1990 Dr Kathleen Woodroofe

1991 Dr Reg C Sprigg AO

1992 Sir Russel Tullie Madigan OBE

1993 Kenneth Berndt

1994 Joan Brewer AM

1995 Milton Spurling

1996 Dr James A Bonnin

1997 Dr Alan Kerr Grant AO

1998 The Hon Dr Samuel J Jacobs AO

1999 Dr Harry Medlin

2000 Emeritus Professor Tasman Brown

2001 Dr Rex Lipman AO

2002 Professor Fay Gale

2003 Dr Jeanette Linn OAM

2004 The Honourable Justice Leslie T Olsson

2005 Mathew Wilfred Anthonisz

2006 Elizabeth Silsbury OAM

 ${\bf 2007}$ The Most Reverend Dr Ian George AO

2008 John Halbert MBE

2009 Professor Richard Deane Terrell AO

2010 Robert Cowan (Bob)

2011 Ken Allen AM

2012 Professor Richard Blandy (Dick)

2013 Dr Cheong Choong Kong

2014 The Hon Margaret Nyland AM

2015 Professor Rob Morrison OAM

2016 Professor Jock Findlay AO

2017 Emeritus Professor John Taplin

2018 Dr Baden Teague

2019 Professor Julian Disney AO

2021 The Honourable Catherine Branson AC QC

Graduates, Diplomates, Alumni

The Enabling State Government
Legislation in 1990 for the mergers
between the University of Adelaide,
Roseworthy Agricultural College and
the City Campus of the South Australian
College of Advanced Education conferred
graduate status upon holders of University
Awards, regulated by the Statutes and
Regulations. Accordingly, all diploma
holders and some certificate holders are
known as graduates in the same way as
those with degrees.

Acknowledgements

The Golden Jubilee Commemoration Ceremony and Reunion Luncheon were organised by External Relations' staff.

We would like to acknowledge the University of Adelaide Archives office for helping prepare this event.

A very special thank you to our volunteer Ellen Randva (B Sc 1973) for her help in compiling the Commemoration Book. We would also like to thank Maria Blackmore for sharing her story, and photographer, Andy Steven.

Brian Ashton

66

Give things your best shot.

Document your successes as well as your failures - and you will have them.

Have confidence."

Brian Ashton

Qualifications

Roseworthy Diploma in Agriculture (University of Adelaide, 1971) Roseworthy Diploma in Agricultural Technology (University of Adelaide, 1972)

University memories

I formed many lifelong friends.

Career and life accomplishments

In the 1982 drought on Eyre Peninsula, I encouraged many farmers to keep their sheep in feedlot containment areas. This was the first time this practice had been used on farms - at a time of great stress. In previous droughts sheep had been left to suffer and cause erosion in paddocks, or sold at a loss. It was a great success and is now a practice used around Australia at times of feed shortage. I surveyed the farmers involved and documented their experiences so that we all learnt for the next drought.

I published the book "Feeding Sheep" which became a best seller and is still used by farmers around Australia.

I spoke at many meetings to assist farmers and was a key speaker at the International Conference "Feeding sheep and goats" held in Brazil.

The most exciting project was "Better Breeding" where we helped farmers choose better rams and then evaluate the progeny compared to their previous rams. This project also had an impact Australia-wide.

I lead a project to encourage farmers to consider lambing at a later time. This had benefit on farm practices and also improved the flow of lambs onto the market.

Advice to your 20-year-old self

Give things your best shot. Document your successes as well as your failures - and you will have them. Have confidence.

David Badenoch

Qualifications

Diploma in Teaching (Secondary General) (University of Adelaide, 1970)

Bachelor of Arts (University of Adelaide, 1971)

Diploma in Physical Education (University of Adelaide, 1971)
Diploma in Education (University of Adelaide, 1974)

Honours and awards

Awarded a UniSA record 14 Individual Teaching Excellence Awards during a 25 year period (1984-2008) as a Head of Department, Senior Lecturer and Head of School including:

The Lydia Longmore Memorial Award (1989) for teaching excellence and research on Play.

Three Vice Chancellor's Excellence in Teaching Awards; including the Inaugural individual award (1992, 2003, 2007).

A UniSA Citation for Outstanding Contributions to Student Learning (2006).

A National Carrick Teaching Excellence Award (2007) for a sustained (25 years), innovative and scholarly approach to reflective teaching and student-centred learning facilitating high levels of student satisfaction and advancement of graduate qualities.

University memories

I have fond memories of the 1965 Freshers' camp at O'Sullivan's beach, valuing special personal relationships, developing lifelong friendships, playing football for the Blacks, being a member of the 1965 A1 Premiers team, an Intervarsity representative in swimming, water polo and football, an Intercollege representative for Adelaide Teachers College in football, athletics and swimming, an eager participant in Prosh week, ball celebrations and Vietnam protests. However, my most enduring memory was my awakening to the value of love, friendship, intellectual curiosity, logical reasoning and pursuing one's passion, finding them the most enduring and sustaining virtues one can experience.

Career and life accomplishments

Sharing the joint privilege of raising our sons, Adam and Ben.

Making a valued contribution to my students' lives.

Pioneering two University programs by co-designing Australia's first Recreation programs and first Sport and Play Studies Major for UniSA programs.

Elected Chairperson: International Perspectives on Best Practices in Programs for At Risk Populations, Monash University Centre, Italy, 2006.

International Olympic Academy and Australian Olympic Committee's sole appointee, representing Australian Universities at the International Academy Session for Higher Education, Olympia, Greece, 2008.

Ranked in National top 10 masters swimmers for my age group for Butterfly and Freestyle 50m events (1981, 1989 and 2011).

Advice to your 20-year-old self

Make the most of the privileged opportunity that a broad experience at University provides by immersing yourself in its intellectual, cultural, sporting and social life.

When deciding your university course, consider what you love doing, your core values and what really matters to you. Trust your heart and follow the career path that is your passion, since working in an area that you love provides meaningful challenges, a purposeful existence and lifelong enjoyment.

If necessary, embrace a directional change if you find your initial course does not align with your passion.

Margaret Barbalet (nee Hardy)

Qualifications

Bachelor of Arts (Hons) (University of Adelaide, 1971) Master of Arts (University of Adelaide, 1974)

University memories

My fondest memories are of two things: the gracious Barr Smith Library Reading Room and the glorious foot-warmers; second, the lively campus atmosphere: my generation, led by Anne Summers, were the founders of feminism and the campus was alive with long-lasting, evolving protests against the Vietnam War.

Career and life accomplishments

First, my eight published books: 'Far from a Low Gutter Girl,' Oxford University Press 1983; then four novels, Penguin, and two children's books, Penguin. (See: www.margaretbarbalet.com).

Second, my time in DFAT & my postings to Kuala Lumpur & Abu Dhabi.

Third, my three terrific sons, and four grandchildren.

Advice to your 20-year-old self

Persevere, endure.

Peter Beavis

Qualifications

Bachelor of Science (University of Adelaide, 1971)
Diploma in Teaching (University of Adelaide, 1971)

Career and life accomplishments

I had a successful career in secondary teaching and also worked as both a setting and marking examiner for SSABSA for many years. As well as teaching in the sciences I was heavily involved in outdoor education teaching bushwalking, rock-climbing, kayaking and surfing. I had a few years in TAFE during which time I wrote the national science curriculum for the IVEC course. Between 1992 and 2002 I coordinated and taught in a Foundation Science Program for Indigenous students at the University of Adelaide aiming to provide the requisite academic background to enter a science based degree. I worked with some amazing Indigenous students during those years, including Gary Rivett who had a career as a forensic scientist with the federal police; Dr. Kali Hayward, former president of AIDA and Indigenous representative on the AMA board, who had her third and fourth child while studying medicine at Adelaide; Dr. Richard Bosworth who, having left school after year nine, in his 50s became the first Indigenous PhD graduate in Environmental Science; Dr Kathryn O'Donoghue-Scarce president of the Indigenous Dentists Association and her sister Dr. Olivia O'Donoghue. In 2002 the University chose to terminate this program, so I spent the rest of my career teaching Chemistry and Biology to international students at Bradford College (later renamed The University of Adelaide College).

■ Dr Glenys Bishop (nee Willing)

Qualifications

Bachelor of Science (University of Adelaide, 1970)

Bachelor of Science (Hons) (University of Adelaide, 1971)

Diploma in Computing Science (University of Adelaide, 1975)

PhD (University of Adelaide, 1989)

University memories

Undergraduate days were a good time to meet members of the opposite sex.

In 1967, the first Computer Ball was held. Each person completed a questionnaire; answers were fed into a computer which paired up people to attend the ball together. I went out with the boy, to whom I was matched, for about 18 months afterwards.

One day, in 1969, in a Pure Maths 3 lecture, a fellow student tapped me on the arm and handed me a note, asking if he could buy me a coffee. This led to a romance and, eventually, marriage and two children.

Career and life accomplishments

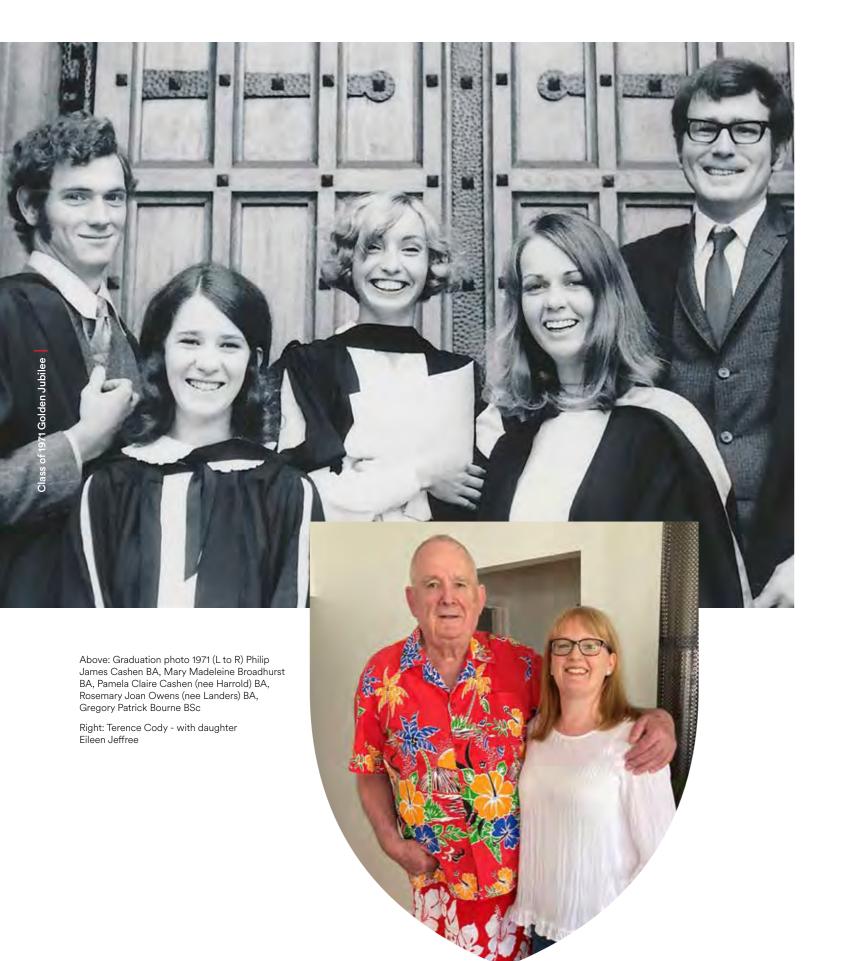

I think my greatest accomplishment was to have had enjoyable work all my adult life. My longest period out of the workforce was eight months after the birth of my second child. I had to reinvent myself several times, but Statistics was an excellent subject for that. It enabled me to work in several cities in Australia, to travel overseas, and to collaborate with agricultural scientists, economists, medical and health researchers, engineers, philosophers and official statisticians. All this in spite of being told at the age of 20, by potential employers, that women were too risky for them to employ.

Dr Brenton Burfield

Qualifications

Bachelor of Dental Surgery (University of Adelaide, 1959) Master of Dental Surgery (University of Adelaide, 1971)

Pamela Cashen (nee Harrold)

Qualifications

Bachelor of Arts (University of Adelaide, 1971)
Diploma in Education (University of Adelaide, 1972)
Diploma in Library Studies (University of Adelaide, 1980)
Bachelor of Arts (Hons) (University of Adelaide, 1989)
Master of Education (Adult Education) (University of South Australia, 2007)

University memories

My strongest memories of university life in the late 60s and early 70s recall a vibrant and varied campus life. This was the time of the Vietnam War and student political activity was a key part of the fabric of university life. The Barr Smith lawns were the focus of social and political life at the university. The campus was a very lively and politically active space - there were as many ideas explored outside the formal education framework of the university as there were within it. These ideas shaped the people that we became. The university was a sociable place - lifelong friendships for me started there. I recall fondly dinners at the refectory, some study in the Barr Smith Reading Room, movies in Union Hall (now gone alas), lunch in the Union Cellar. It was a great time to be at uni and for many of us this was a totally new world because we were the first in our families to go to university.

Career and life accomplishments

Between 1997 and retirement in 2010 I had the privilege of managing the Hamilton Secondary College Adult Campus. In this role I worked with a team of excellent teachers and administrators to provide academic, vocational and catch-up education to thousands of adults returning to secondary education. This was a challenging and wonderfully rewarding professional experience.

Philip Cashen

Qualifications

Bachelor of Arts (University of Adelaide, 1971)

Diploma in Teaching (Secondary General) (University of Adelaide, 1971)

Diploma in Education (University of Adelaide, 1974)

Advanced Diploma in Education (University of Adelaide, 1977)
Master in Education (University of Adelaide, 1981)

University memories

For me, university was the first real sense of what true education involved and the potential it offered. At the same time, student politics was a pressing distraction. Life-long friendships were made.

Career and life accomplishments

Career-wise: Secondary Principal (Para West Adult Campus, Unley High School) and Superintendent, Education Department SA.

Other professional interests: work as a social historian.

Advice to your 20-year-old self

Take the study part of it all a bit more seriously.

Grant Chapman

Bachelor of Arts (University of Adelaide, 1970)

Bachelor of Arts (Honours) (University of Adelaide, 1971)

Business Innovation and Entrepreneurship Certificate (South Australian Institute of Technology)

Graduate of the Australian Institute of Company Directors

Honours and awards

Knight of St John

Queen's Silver Jubilee Medal, 1977

Grand Cross, Orden Bernardo O'Higgins, awarded by the President of Chile, 2003, for contribution to international relations.

University memories

Friendships made and retained; playing cricket for A.U.C.C. on beautiful Adelaide University Oval No. 1; remaining at S.R.C. and University Union meetings until the early hours of the morning to counter the influence of the "left."

Career and life accomplishments

My family: wife, children and grandchildren.

My contribution to the South Australian community through my nearly thirty years' service in the Australian Parliament.

Advice to your 20-year-old self

Given that I turned 20 in April 1969, with the benefit of subsequent hindsight, advice to have invested my then cash savings in 1600 Poseidon shares, before the September 1969 boom and then to sell them in February 1970, instead of the shares in which I did invest in early 1969.

Barry Childs

Qualifications

Bachelor of Technology (Electrical) (University of Adelaide, 1961)
Bachelor of Economics (University of Adelaide, 1971)

Honours and awards

Prize in Economic Statistics

University memories

Being allowed to do Industrial Sociology as a final year subject, especially the practical sessions.

Career and life accomplishments

Giving a technical lecture for the Institution of Engineers Australia.

Obtaining top in a Management course held at Melbourne University.

Being selected as the national Planning Engineer for the Intelligent Network Project in Melbourne.

Robert Childs OAM

Qualifications

Bachelor of Arts (Hons) (University of Adelaide, 1971)

Honours and awards

OAM (2004) for services to music through SCALA (Songwriters, Composers And Lyricists Association) Inducted into SA Music Industry Hall of Fame (2019)

University memories

I enjoyed all my years at university.

Terence Cody

Qualifications

Bachelor of Technology (Electrical) (University of Adelaide, 1971)

Master of Business Administration

Honours and awards

Member, Institution of Engineers Australia (Retired)

University memories

The ability to interact with people who wanted to make a difference in their careers.

Career and life accomplishments

Having two children who have forged outstanding careers of their own. Been able to undertake outstanding achievements in my construction work in Telstra. Development of specialised monitoring alarm systems for the disabled and aged community.

Advice to your 20-year-old self

Always give it a go continually looking forward and upwards. Do not listen to anyone who attempts to dissuade you in what you want to achieve.

Professor John Crompton AM RFD

Qualifications

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1971)

Honours and awards

AM (2021) "for significant services to ophthalmology, and to the community of the Asia-Pacific region"

Awarded the RANZCO College Medal (2014)

FRANZCO – Fellow of the Royal Australian & New Zealand College of Ophthalmologists

FRACS – Fellow of the Royal Australasian College of Surgeons
RFD – Reserve Forces Decoration

University memories

Forming deep friendships with my various clinical groups on rotation.

Six years with Adelaide University Regiment.

Christine Crosby (nee Wilson)

Qualifications

Bachelor of Music (University of Adelaide, 1970)

Bachelor of Music (Honours) (University of Adelaide, 1971)

Bachelor of Arts (Social Work) 1979

University memories

I enjoyed the privilege of studying, playing music and relating with many of the most gifted musicians in Australia.

Career and life accomplishments

I am proud and pleased that many people in both sacred and secular settings have been entertained and uplifted by my piano playing.

Advice to your 20-year-old self

Believe in yourself and the unique gifts you have to offer to the world.

Christine Crosby - graduation day, 12 May 1971

John Crosby AM

Qualifications

Roseworthy Diploma in Agriculture (University of Adelaide, 1971)

Honours and awards

AM - "for significant service to agribusiness, and to the farming sector", 2021

Distinguished Alumni, 2017

ROCA Award of Merit, 2018

University memories

Roseworthy was a great place to learn how to investigate and assess many things from a broad background. Many long standing friendships developed from these years. Sport was a great confidence builder and leveller.

Career and life accomplishments

As a part of a team convincing the Reserve Bank to drop its high interest rate/high exchange rate policy; floating Elders; building a port on Eyre Peninsula (ongoing). National Farmers Federation senior Vice President, Agribusiness Association of Australia, President.

Advice to your 20-year-old self

Take risks and treat failure as a stepping stone to success.

Susan Dawe (nee McKenzie)

Qualifications

Bachelor of Science (University of Adelaide, 1970)
Diploma in Education (University of Adelaide, 1971)
Master of Science (University of Adelaide, 1980)

University memories

Orientation Camp and Week were great including Miss Fresher Contest as Miss Science. Student Council Meetings and party at the Vice Chancellor's house. University Revue and Prosh Day were great. Being part of the first large class in Microbiology and Biochemistry.

Career and life accomplishments

Medical science research for twenty years on contracts in Adelaide – SA Institute of Technology School of Pharmacy; Glasgow University - School of Biochemistry (WHO grant); University of Adelaide School of Pharmacology, and Inorganic Chemistry; IMVS, CSIRO - Human Nutrition; and Royal College of Surgeons.

Education Research - SSABSA (SACE) and Vocational Education and Training Research - NCVER - started TAFE/VET Graduate Survey and Employer Satisfaction Survey for Australia and also in Malaysia. Many research books published including 'Vocational education and training for adult prisoners and offenders in Australia: Research readings'.

Advice you would give to your 20-year-old self

Enjoy what you are doing and make the most of your time at university.

Dr David Gambling

Qualifications

Bachelor of Science (Hons) (University of Adelaide, 1964)

Master of Science (University of Adelaide, 1967)

PhD (University of Adelaide, 1971)

University memories

I enjoyed the freedom and camaraderie with fellow students. I had particular respect for Prof Harry Medlin who related exceptionally well with his students. I made many friendships studying my PhD at the Adelaide University Physics Department.

Career and life accomplishments

Breaking new ground in infrared physics, and leading accomplished scientists and engineers in major defence projects. I am blessed with a wonderful wife, children and grand-children who have brought much love and joy to my life.

Advice you would give to your 20-year-old self

Remember to seek personal and career advice from peers, superiors and others external to your organisation.

Dr Elizabeth Gordon-Mills (nee Gordon)

Qualifications

Bachelor of Science (University of Adelaide, 1964)
Bachelor of Science (Hons) (University of Adelaide, 1965)
PhD (University of Adelaide, 1971)

Honours and awards

Ernest Ayers scholarship in Botany, 1964, for my Honours Botany Thesis, best demonstrating a contribution to Science.

University memories

My four years of research for the degree of PhD were my fondest memories. This process was a personal challenge to produce an original work for publication, to be recognised by the international community. The camaraderie of the other students, the field trips to remote places on the Southern Australian Coast, the pressure to compile the thesis, print it out and have it bound involved very primitive methods by today's standards, but all contributed to developing maturity and responsibility for a career in science.

Career and life accomplishments

My career has varied over the years. High school teaching morphed into a PhD at the University of Adelaide in taxonomy of marine algae. Postdoctoral work in algal chemistry was at McMaster University, Canada, for five years. There I married Alan Mills and then brought him to my home country for a lectureship in Music, eventually at the University of Adelaide. I survived on soft money and short-term contracts while having our two children, Vanessa and Graham. Eventually we bought a farm near Langhorne Creek, where Alan grew reed cane for saxophones and clarinets, and I had an orchard of quandongs. Now, my main interest is in music. I conduct a community choir in Yankalilla and play the pipe organ at the local Anglican church.

Advice to your 20-year-old self

Don't panic.

Denis Harrison

Qualifications

Bachelor of Laws (University of Adelaide, 1964)
Bachelor of Architecture (University of Adelaide, 1971)

Honours and awards

Life Fellow of the Australian Institute of Architects – "...through principled leadership, exemplary project work and sustained advocacy for the integration of Art and Architecture...", 2017

University memories

Foreign movies at the Union Hall; the Union Hall; The Blacks: The Adelaide University Football Club 1960-1970 (220 games) and Life Member.

Career and life accomplishments

Following graduation in Law, studied architecture at the University of Adelaide.

Practised architecture for 40 years. Initially as sole practitioner then with South Australian Public Buildings Department and its various reincarnations. Principal Architect from 1991 until retirement in 2012

Responsible for the design of many major public buildings – courts, correctional institutions, fire stations, educational buildings (primary and tertiary) and the redevelopment of the Adelaide Stock Exchange

Advice to your 20-year-old self

The importance of setting out on something that is of great interest, not to be confused with some passing fancy or based on someone else's recommendation.

Qualifications

Diploma in Teaching (Secondary General) (University of Adelaide, 1969)

Bachelor of Arts (University of Adelaide, 1971)

Bachelor Education (University of South Australia)

Honours and awards

Anton Hawdio

School Community Award – presented by Rowan Ramsay MP, Federal Member for Grey, for 'Service to the School', 2013

RFD (Reserve Force Decoration) for 15 years of Service as an Army Officer, 1984

University memories

Tutorials - working with other students and ensuing discussions.

Racing down from lecture rooms to the Barr Smith Library to get the best books for our assignments.

Social interactions with students from the various disciplines.

The freedom to express my opinions with fellow students and staff.

Passing my subjects.

Attending student drama productions.

The enrichment that university life brought to my life.

Refectory life - great place to meet and interact.

Meeting the challenges presented by tutors and lecturers.

Attending functions organised by the student union, such as Prosh Week and fund-raising walkathons.

Orientation Week.

Career and life accomplishments

Gaining promotion to Senior Master after three years of teaching.

Assisting and guiding young or new teachers.

Gaining my Bachelor of Education as part of my postgraduate studies.

Reception at Government House to celebrate and recognise 25 years of involvement in the Student Exchange Program between our state and Germany.

Receiving the School Community Award in 2013 from Mr Rowan Ramsay, Federal MP.

Working with Secondary Students for 48 years.

Receiving many letters of appreciation from students and parents.

Member of St Johns Ambulance from 1965 to 1972.

Member of the Army Reserve for 27 years, retiring with the rank of Captain.

Advice to your 20-year-old self

Study hard from the beginning. Take heed of the people who are involved in your life, your role models, and your educators.

Think very carefully about your life choices before deciding on your career, where you want to be in 10 years' time.

Qualifications

Bachelor of Music (University of Adelaide, 1971)

University memories

My fondest memories are of time spent at the Elder Conservatorium studying under renowned clarinettist Gabor Reeves. He, the University of Adelaide Wind Quintet members and other world class performers/lecturers, were a constant inspiration and a window into a wonderful new musical world, coming as I had from a popular, largely rock and roll background. This was prior to the establishment of the jazz studies course, but I will always be most grateful for the classical training which was invaluable in giving me the versatility which was the cornerstone of my career.

Career and life accomplishments

Some proud accomplishments:

- accompanying Sammy Davis Jr, Peggy Lee, Donald O'Connor, Juliet Prowse, Diana Ross and The Supremes, Harry Secombe, Cilla Black, Shirley Bassey, Georgie Fame, The Bee Gees, Anthony Warlow, et al.
- playing alongside original members of famous 'Swing Era' Big Bands.
- soloist and member of MSO, ASO and Opera Australia Orchestra.
- member of theatre orchestras for 'Evita', 'Funny Girl', 'Sound of Music', 'Barnum', 'Annie' et al, including Australian cast recordings
- personally requested to lead woodwind section by Tommy Tycho when touring.
- teaching/lecturing/examining all levels and setting up Jazz and Commercial Music course for TAFE, now available nationally, including universities.

Advice to your 20-year-old self

Always give your best but don't be disappointed when life does not progress smoothly, either personally, emotionally or professionally. Life and learning don't emulate a smooth graph but consist of a series of peaks, troughs and plateaus. It's a well-worn cliché, but just 'hang in there' and learn to deal with the inevitable bullies and narcissists. Importantly, never fail to appreciate the value of support from family and then a wife/husband/life partner if you are as lucky as I am to find and commit for life with.

David Henstridge

Qualifications

Bachelor of Science (University of Adelaide, 1970)
Bachelor of Science (Hons) (University of Adelaide, 1971)

University memories

Fondest memories remain the camaraderie and often fun times being associated with a like-minded group of people moving along the same geological pathway. We were taught by dedicated lecturers who were not only great tutors but also mentors who encouraged us to do our best and focus on our future career paths. I have never forgotten that the university education process gave me the necessary tools to start and complete a successful lifetime career in world-wide junior company mineral exploration.

Career and life accomplishments

Graduating as a geologist, I have had over 50 years world-wide mineral exploration experience including 20 years in managing public-listed companies. I have been associated with mineral discoveries in Australia, Peru, Mexico, Sweden and Finland and worked in many other countries. Moving into the Canadian capital markets in 1993, I have been directly involved with Companies raising more than \$200 million for exploration and project development plus a co-founder of seven Toronto Venture Exchange listed start-up exploration Companies. One of my proudest achievements has been to share this journey with my tolerant wife Sandra, three children and grandchildren.

Advice to your 20-year-old self

To my younger self, I would have said "Keep going no matter what. Hard work and discipline will pay off and see you through the occasional low points in your career. Geology will give you and your family the excitement of discovery, the adventure of travel to distant lands and the opportunity to meet an extraordinarily diverse range of people, many of whom will become lifelong friends."

Julienne Hewton (nee Pearce)

Qualifications

Bachelor of Arts (University of Adelaide, 1970)

Diploma in Education (University of Adelaide, 1971)

Graduate Diploma of Education (School Counselling)
(University of South Australia, 1995)

Honours and awards

Asia Education Fellowship, 1995

University memories

Discussing the state of the world in the Refectory and Cloisters. Meeting my husband Terry. Riding my scooter to uni. Sharing a flat with fellow students Jan, Jeanette, Helena and others. Student parties. Stimulating lectures and tutorials with Peter Burns, Peter Phillips, Hugh Atkinson and Tony Slade. Marching in the Vietnam Moratoriums. Prosh parades, balls, sculling competitions. Meeting fellow students with different views and backgrounds. The feeling of freedom, the world opening up, endless possibilities, new perspectives and ideas.

Career and life accomplishments

I enjoyed many years as a teacher of English and History and as a student counsellor. My frequent wonderful overseas trips with Terry included many hotspots such as Northern Ireland during the Troubles, Nicaragua in 1985, the Philippines in 1989, Syria and Jordan in 2001 and Libya and Tunisia in 2008. We taught as volunteers in Thailand and Indonesia, and spent several years teaching in England in the 1970s and sharing houses with people from around the world. I studied at Yonsei University Summer School in Seoul, Korea. Recently Terry and I have travelled often to France, Ireland and England.

Advice to your 20-year-old self

Enjoy the balance between study and social life and make the most of your carefree years at university.

Dr Roderick (Rod) Hill

Qualifications

Bachelor of Science (University of Adelaide, 1970)

Bachelor of Science (Hons) (University of Adelaide, 1971)

PhD (University of Adelaide, 1976)

Doctor of Science (University of Adelaide, 1991)

Honours and awards

Centenary Medal, "for service to Australian society in applied mineralogy", 2003

New mineral 'Hillite' named in acknowledgement of "Contributions to mineralogy", 2003

Fellow of the Australian Academy of Technological Sciences and Engineering 1999

Fellow of the Australasian Institute of Mining and Metallurgy 1990

Solid State Division Medal, Royal Australian Chemical Institute, 1989

Ludwig Leichhardt Fellowship, University of Würzburg, Germany, 1987

David Rivett Medal, CSIRO, 1988

Fellow of the Mineralogical Society of America 1980

Queen Elizabeth II Fellowship, 1978

Kraus-Glass Biennial Crystallographic Research Award, Mineralogical Society of America, 1977

Jaycee Science Fair winner, Junior Section, 1963, for building a 6" astronomical telescope.

University memories

My time at the University of Adelaide marked the beginning of my emerging from family life into the wider world. It opened my horizons immeasurably to what life had to offer. It was an exciting, exhilarating and immensely satisfying period, especially when I moved into research as a graduate student.

"I will always be grateful to the University for giving me this opportunity to blossom."

Career and life accomplishments

Dr Roderick Hill

Having a new mineral, "Hillite" named after me.

After solving the crystal structure of several minerals, being the only person in the world, at that moment, who knew the arrangement of the atoms in those materials.

Discovering the so-called, and now commonly used "ZMV" relationship between the scale factors of different phases in the diffraction pattern of a mixture and their relative abundances.

While at CSIRO, contributing to the funding and management of research on mineral processing in the resources sector.

Achieving the level of Chief Research Scientist in CSIRO.

Being appointed Group Executive for Minerals, Mining and Manufacturing at CSIRO.

Helping to secure commitment to, and funding for the Australian Synchrotron at Clayton, Victoria.

Leading the team that secured \$89M of Federal funding for the New Horizons engineering and science building at Monash University.

Sharing with my wife Monica, the joy and wonder of seeing 10 total solar eclipses in remote and amazing locations all around the world

Sharing with her the joys of designing and making a home from scratch on 80 acres of wonderful land in central Victoria.

Advice to your 20-year-old self

To better understand other people's perspectives by investing more time with them.

Helen Jervis

Qualifications

Bachelor of Arts (University of Adelaide, 1971)

Diploma in Education (University of Adelaide, 1977)

University memories

Neal Blewett's tutorials, given his devastating wit and insistence on valid evidence. Norman Hetherington's lectures and tutorials - so refreshingly different and so engaging. Brian Abbey's parties. Third year tutorials at the Hackney. Becoming politically active. Prosh Day when Rundle Mall was still a street!

Career and life accomplishments

Taught at secondary level for 48 years, having started at 20 whilst finishing my B.A. Mainly senior (History, English and later Research Project which I managed). When I started uni I had no intention of becoming a teacher but after returning from a two year plus stint overseas, discovered I loved it and revelled in my students' successes.

Advice to your 20-year-old self

Learn how to manage your time! Am still challenged by this have decided that I live in the continuous present.

Professor Bruce Kemp AO

Qualifications

Bachelor of Agricultural Science (University of Adelaide, 1970)

Bachelor of Agricultural Science (Hons) (University of Adelaide, 1971)

Honours and awards

AO 2019 - For distinguished service to biomedical research, particularly to the study of protein phosphorylation.

John Kopcheff

Qualifications

Bachelor of Science (University of Adelaide, 1970)

Bachelor of Science (Hons) (University of Adelaide, 1971)

Honours and awards

2007 - Legend Award- Outstanding contribution to oil and gas industry-Excellence in Upstream Energy Conference.

2009 - Victoria Petroleum- 2009 Explorer Award- Good Oil Conference- 25 year commitment to oil and gas exploration and successes in SA Cooper Basin and Queensland.

2018 - Man of the Half Century- 1968 to 2018-University of Adelaide - School of Geology graduates 50 year Reunionvoted by peers- October 2018

University memories

Sharing geology lectures and field excursions with fellow geology students at Woolshed Flat, Pichi Richi Pass, Flinders Ranges and Manna Hill. Lunches on the lawn in front of the Barr Smith library.

Career and life accomplishments

My Honours Geology & Geophysics degree as the first in my immigrant family to gain a degree. Starting a Perth based ASX listed junior oil exploration company Victoria Petroleum as Managing Director for 26 years and with the team achieving exploration success and turning it into the large company that is now Senex Energy. Personally, most proud and humbled of being recognised by my peers in the industry as a 'successful oil and gas explorer' and 'legend' and by my fellow graduates voting me as 'man of the half century' at our University of Adelaide School of Geology 50th Reunion in 2018.

Advice to your 20-year-old self

Study to the best of your ability at University, choose a career you are passionate about, act with honour and integrity with all people you meet. If choose an exploration career, you will many times experience failure, accept it gracefully, learn and build on it and maintain your enthusiasm. Enthusiasm is infectious to people you are working with. Be prepared to go outside bounds of accepted dogma where to explore. Many great discoveries are found this way. When you achieve success recognise and praise the achievement of the people you work with. Where you can, always lend a helping hand to your fellow explorers as this will often be repaid ten-fold.

Professor Waltraud (Trudy) Kriven

Qualifications

Bachelor of Science (University of Adelaide, 1970)

Bachelor of Science (Hons) (University of Adelaide, 1971)

PhD (University of Adelaide, 1976)

University memories

Studying in the Barr Smith Library on evenings and weekends.

Being an active member of the Adelaide University Science

Association, the Judo Club and the Tae Kwon Do Club

Career and life accomplishments

Earning a PhD in Physical and Inorganic Chemistry. Becoming a post-doctoral researcher and lecturer at the University of California at Berkeley (1977-1980); Research scientist at the Max Planck Institute fur Werkstoffwissenschaften in Stuttgart, Germany; joining the University of Illinois at Urbana-Champaign in 1984, where I have been a faculty member ever since, in the Department of Materials Science and Engineering. Elected to the World Academy of Ceramics, Fellow of the Australian Ceramic Society, Fellow of the American Ceramic Society, Member of the European Union (EU) Academy of Sciences.

Advice you would give to your 20-year-old self

What's right is right - what's wrong is wrong.

Dr Anthony (Tony) Laver FFARACS FANZCA

Qualifications

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1971)

Honours and awards

Fellowship of the Faculty of Anaesthetists of the Royal Australasian College of Surgeons

Fellow of the Australian and New Zealand College of Anaesthetists

Career and life accomplishments

Chairman FANZCA (South Australia)

Regions Educational Officer FANZCA

Advice to your 20-year-old self

Stay the distance.

Christine (Chris) Lincoln (nee Hall)

Qualifications

Bachelor of Arts (University of Adelaide, 1971)
Diploma in Teaching

University memories

Roger Hainsworth and George Rude's History lectures.

Career and life accomplishments

My proudest moment was when our family all had degrees from the University of Adelaide.

Teaching for more than 40 years was my main achievement as it was an uphill battle.

Advice to your 20-year-old self

Never give up.

Emeritus Professor David Lockett AM

Hilary Marshall (nee Baker)

Bachelor of Music (University of Adelaide, 1971)
Bachelor of Music (Hons) (University of Adelaide, 1972)
Master of Music (University of Adelaide, 1981)

Doctor of Music (University of Adelaide, 2004)

Honours and awards

Hon. Fellowship in Music Australia (recognition of career as performer and educator as well as sustained service to the Australian Music Examinations Board as an examiner, board member and syllabus consultant), 2018

AM - "for service to music as a concert pianist, educator and researcher, and as an advocate and supporter of Australian music and composers, 2010

Stephen Cole the Elder prize for excellence in teaching, University of Adelaide, 1998

University memories

Making music with colleagues and visiting artists, and the privilege of working with a diverse cohort of students.

Career and life accomplishments

Performance, recording and editing of piano music by the Australian composer Margaret Sutherland; development of new piano syllabus for the Australian Music Examinations Board and the compilation and editing of 22 pedagogical publications for that organisation.

Advice to your 20-year-old self

Aspire to be the best you can possibly be in your profession but do not allow yourself to be defined only by your work, nor invest so much in it that you are unable to be a complete human being.

Qualifications

Bachelor of Arts (University of Adelaide, 1970)

Diploma in Education (University of Adelaide, 1971)

Graduate Diploma of Education (T.E.S.O.L.) (University of South Australia. 1995)

University memories

As I attended university as an adult, my memories are those of the joy and satisfaction of learning.

Career and life accomplishments

Starting in my thirties, I taught German and, later, ESL to adults at a mainstream high school.

Having retired at the turn of the century, I have continued my teaching by assisting undergraduate and graduate students (both native speakers and non-native speakers) with improving their English and have proof-read many doctoral theses.

I still teach the occasional school class at Buddha House and help, online, other senior students (mainly secondary, with an occasional tertiary one) with sections of their assignments relating to religion and sometimes, to modern society.

Advice you would give to your 20-year-old self

Learn to recognise what the really important aspects of life are and the way to deal with them.

Most things in life are not worth becoming unhappy about as everything is impermanent.

Find a good way to live your life and do your best with it.

Barry Martin

Qualifications

Bachelor of Technology (Electrical) (University of Adelaide, 1961) Bachelor of Economics (University of Adelaide, 1971)

Honours and awards

Prize in Economic Statistics

University memories

Being allowed to do Industrial Sociology as a final year subject, especially the practical sessions.

Career and life accomplishments

Giving a technical lecture for the Institution of Engineers Australia.

Obtaining top in a Management course held at Melbourne University.

Being selected as the national Planning Engineer for the Intelligent Network Project in Melbourne.

Dr Linley (Lin) Martin (nee Oertel) AO

Qualifications

Bachelor of Science (University of Adelaide, 1971)

Bachelor of Science (Hons) (University of Adelaide, 1972)

Master of Science (University of Adelaide, 1976)

Diploma in Computer Science (University of Adelaide, 1985)

PhD (University of Melbourne)

Honours and awards

AO - "for distinguished service to education, particularly to student equity, educational standards and academic administration".

University memories

Great academics and time in the Applied Maths Department, 1968-71 and playing sports for the university.

Career and life accomplishments

First class honours in Applied Maths in 1971, and a long and successful career in university administration in eight universities from 1974 to 2020. I was also an advisor on the National Review of Higher Education (the Bradley Review) in 2008. In 2020 I was awarded the AO in 2020 for work I did in 1994 on a national student equity policy framework for Australian higher education, and for advancing the quality of higher education in Australia.

Advice to your 20-year-old self

Work less hard and enjoy life more.

The Honourable Milton (Kym) Mayes

Qualifications

Bachelor of Economics (University of Adelaide, 1971)

University memories

Marching in the Vietnam war demonstrations on a Friday afternoon, attending history 1B lectures, Gretel Dunstan's Eco tutorial, playing footy for the blacks, enjoying Geoff Harcourt's lectures and Prosh Day. Lincoln College.

Career and life accomplishments

Being preselected by the ALP to represent the state electorate of Unley; passing the first EPA; attempting to educate my kids about what is a fair society; watching my daughter graduate from UQ; being a member of a fantastic ALP caucus with John Bannon, CJ Sumner, Susan Lenehan, J Cornwall, G Keneally, and the great member for Henley Beach.

Advice you would give to your 20-year-old self

Relax, set your highest goals, take life as it comes and strive for the best.

Bachelor of Science (University of Adelaide, 1970)

Bachelor of Science (Hons) (University of Adelaide, 1971)

University memories

Making new friends and Geology field camps and trips.

Career and life accomplishments

My geology degree was sponsored by a Government Scholarship. I worked for the South Australian Geological Survey until retirement in 2017. Proud father of four children.

Advice to your 20-year-old self

Dare to dream and follow your passion.

Dr Trevor (Trev) Mount

Qualifications

Bachelor of Science (University of Adelaide, 1970)

Bachelor of Science (Hons) (University of Adelaide, 1971)

PhD (University of Adelaide, 1976)

University memories

Exploring the contents of the Barr Smith Library, and the geological fieldwork in the Flinders Ranges.

Career and life accomplishments

Contributing to our understanding of the spectacular geology of the Flinders Ranges; especially the salt intrusions ('diapirs'), and its record of early complex life forms. Described the Moorowie Formation and its ancient reefs, as host to the earliest (Early Cambrian) candidate corals.

Advice you would give to your 20-year-old self

Obsessive attention to detail has its rewards when challenging 'long-established' views. For younger geologists, ditch the iPhone and read a diversity of books with unrelenting passion.

Robert (Bob) Nairn FIEAust LFITE

Bachelor of Engineering (Civil) (University of Adelaide, 1960) Bachelor of Economics (University of Adelaide, 1971)

Honours and awards

Fellow of the Institution of Engineers Australia

Life Fellow Institute of Transportation Engineers

University memories

Playing in Intervarsity Rugby and Athletics games particularly on Interstate trips. My final year sociology classes. Helping post-graduate students with their projects. Time spent in the Refectory between classes.

Career and life accomplishments

My marriage and four children all of whom have university degrees in Music, Computing Science, Health Science and Arts. Singing in choirs. Working on the MATS plan. Establishing my own consulting firm in transport planning and seeing it grow in Australia and with projects in 40 different countries. Being enrolled in the ACT Engineers Hall of Fame.

Advice to your 20-year-old self

Question everything you see and hear but have faith in yourself.

Hugh Ness

Qualifications

Bachelor of Engineering (Chemical) (University of Adelaide, 1971)

Bachelor of Arts (University of New England, 2003)

Master of Arts (Macquarie University, 2008)

University memories

Professor Frank Bull's lectures on the history of engineering. Sitting in the old part of the Barr Smith Library on a cold day with shoes off and feet on the heating bar.

Having coffee in the basement of Union Hall.

Career and life accomplishments

Being the first person in my family to attend university and to graduate with a degree.

Twenty-eight years employment in the Australian Patents and Designs Offices.

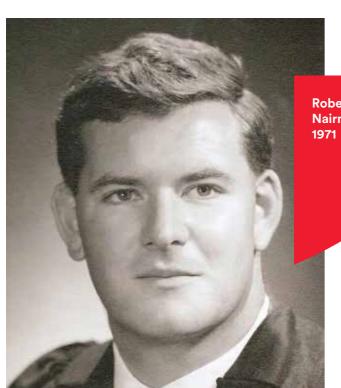

Undertaking missions, for the World Industrial Property Organization, to Brunei, Singapore, India and Laos, to assist with the introduction or amendment of Patents and Designs legislation in these countries.

Completing BA and MA degrees, in Modern History.

Three years secondary teaching mathematics, history and technical drawing. Seven years casual mathematics and English tutoring for automotive and electrotechnology students at the Canberra Institute of Technology.

Starting a tutoring business fourteen years ago, and still running, and specialising in mathematics, English and essay writing.

Being married to Erlinda for 46 years and for us to see our son and daughter successfully complete undergraduate and postgraduate university studies.

Robert (Bob) Nairn - graduation 1971

Alastair Nimmo

Qualifications

Bachelor of Arts (University of Adelaide, 1971)
Bachelor of Arts (Hons) (University of Adelaide, 1972)
Diploma of Education (University of Adelaide, 1973)

University memories

Meeting life-long friends

Career and life accomplishments

Spending 40 plus years as a secondary teacher and enjoying the cut and thrust with the students.

Advice you would give to your 20-year-old self

Stay away from the Hackney hotel.

Master Peter Norman OAM

Qualifications

Bachelor of Laws (University of Adelaide, 1971)

Honours and awards

OAM, - "for service to the law, particularly through contributions in the areas of crime prevention, forensic science and offender welfare", 2008

University memories

Memories of the Staff of the Law School who were all interesting in their various ways; the freedom and self-responsibility of life as an undergraduate compared with school days; making new friendships; good social life at the university.

Career and life accomplishments

Graduation from university and admission as a legal practitioner; involvement in prominent litigation on a wide range of topics both in Australia and overseas; leadership achievements in voluntary organisations including International Prisoners' Aid Association and Australian Crime Prevention Council; and appointments to the Bench in the District and Supreme Courts of SA.

Advice to your 20-year-old self

Be self-confident in your abilities and in achieving your ambitions.

Richard Oborn

Qualifications

Bachelor of Arts (University of Adelaide, 1970)
Bachelor of Arts (Hons) (University of Adelaide, 1971)
Master of Psychology (Clinical) (2004)

Honours and awards

Fellow of the Australian Psychological Society (APS), awarded on a private nomination by my professional peers on the basis of their perception of my professional expertise and contribution to the workings of the profession over many years.

Fellow of the College of Clinical Psychologists, on the basis of achieving an assessed level of professional expertise following the gaining of the Master's degree.

University memories

The collegiate life at St Mark's College, my membership of the Student's Representative Council, lunchtimes in the Refectory, and the fostering of my sense of personal capacity by a number of my tutors.

Career and life accomplishments

Being married for forty-one years, finding a skill in photography and arts later in life, being able to serve in community mental health, the friendships I have forged in my involvement in professional affairs, being conferred as a Fellow by the APS.

Advice you would give to your 20-year-old self

Be calmer, don't be so driven by uncertainty. Take the time to consider your strengths and where you have been brave, and be sure enough of yourself to work to develop those.

Emerita Professor Rosemary Owens (nee Landers) AO

Qualifications

Bachelor of Arts (University of Adelaide, 1971)

Diploma in Education (University of Adelaide, 1972)

Bachelor of Arts (Hons) (University of Adelaide, 1973)

Bachelor of Laws (Hons) (University of Adelaide, 1988)

Honours and awards

AO - "for distinguished service to the law, as an academic and administrator; to international and national labour organisations; and to women", 2014

University memories

Lazing on the Barr Smith lawns with new (and now lifelong) friends; gazing at the ceiling in the Barr Smith Reading room and melting the soles of my shoes on the foot warmers under the desks there; spending hours in the WEA bookshop behind the Mitchell Building and later in the new Union building, discovering a world beyond the curriculum - eg reading Germaine Greer's The Female Eunuch soon after its publication; studying with inspiring and passionate teachers (eg David Hester and Austin Gough - nearly all of them men at that time); morning coffee and cream cheese rolls next to the Arthur Boyd paintings in the Union cellar; Wednesday afternoon movies in Union Hall; heated debates in the Newman and Bosco Societies about the Vietnam war and marching for a moratorium; cheering the politics' student setting fire to his exam paper at Centennial Hall; balls and parties and dancing to music from Zorba the Greek; and much more ...

Career and life accomplishments

The most important thing in my life is my family and friends. Their love and support has been fundamental to a career in which I have been fortunate to experience many highlights including: Dame Roma Mitchell Chair of Law, The University of Adelaide (2008-2015); Dean of Law, The University of Adelaide (2007-2011); Member, Committee of Experts on the Application of Conventions and Recommendations of the International Labour Organisation (United Nations) (2010 - present); Emerita Professor of The University of Adelaide (2015 - present)

Advice to your 20-year-old self

Enjoy every minute and always try to keep things in balance. 'Life is what happens when you're making other plans' - and life can be far more interesting and rewarding than anything you might plan. There's a lot of luck - both good and bad - in everyone's life, so seize the day and make the most of the opportunities you are given.

Dr Robert (Bob) Penhall

Qualifications

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1971)

Honours and awards

Diploma of Obstetrics Royal College of Obstetricians and Gynaecologists.

Fellow of the Royal Australasian College of Physicians.

Associate Fellow of the Royal Australasian College of Medical Administrators.

Fellow of the Royal College of Physicians.

Alumni Fellow, University of Adelaide, 2012, for significant contribution to the governance of the Alumni Association, the Florey Medical Network, and various selection committees for alumni awards.

Fellowship, 2012, and Life Member, 2018, of the Australian and New Zealand Society for Geriatric Medicine for distinguished career.

Fellow, 2000, and Distinguished Member, 2016, of the Australian Association of Gerontology for outstanding professional contribution.

Robert Penhall Early Career Research Award awarded annually from 2017 by the Australian Association of Gerontology SA Division.

Benchmark healthcare Chairman's Award for Excellence, 2000, for the establishment and success of an acute geriatric unit at College Grove Private Hospital.

University memories

Enjoying the range of course subjects, the variety of experiences and the various clinical settings with a good bunch of people from a wide background while participating in the broader university life and numerous outside activities and interests.

Career and life accomplishments

Having a supportive wife, and proudly four children, and now grandchildren.

Being recognised for and having a significant role over many years (1987 to 2012) in training the first doctors from across Indonesia in geriatric medicine and seeing geriatric medicine become an established clinical specialty there.

Inventing and establishing the University of Adelaide undergraduate course in geriatric medicine.

Being able to run a complete geriatric medicine service from acute hospital to rehabilitation to community support and assessment which included undergraduate teaching, postgraduate training and teaching, research, administration and outreach consulting.

Co-establishing the Centre for Physical Activity in Ageing at Hampstead Rehabilitation Centre which supported the recognition of exercise physiology as an allied health discipline and its role in geriatric medicine.

Establishing and proving the viability of an acute geriatric service in a private hospital setting at College Grove Private Hospital.

Advice to your 20-year-old self

Enjoy it all while you can, university and what the wider world offers

Tim Prance

Qualifications

Roseworthy Diploma in Agriculture (University of Adelaide, 1971)

Roseworthy Diploma in Agricultural Technology (University of Adelaide, 1973)

Honours and awards

Old Scholars Cup for Second Aggregate in all Diploma subjects, 1971

RAC Football Club Best Club Man, 1970

University memories

Fellowship with other students; farm work; college trips to various parts of South Australia; footy trips to Longerenong and Dookie Ag Colleges in Victoria, plus stooking sheaved hay, sewing bags of wheat and picking oranges and grapes for pocket money with others in my year group.

Career and life accomplishments

Providing advice to farmers in South Australia and interstate regarding soil and pasture management and livestock production from pastures for the last 50 years, and still practicing as an Agricultural Consultant.

Married to Janice for 43 years with three wonderful children.

Advice to your 20-year-old self

Don't be afraid to try something new or different. Always listen carefully.

Gavan Ranger

Qualifications

Bachelor of Architecture (University of Adelaide, 1971)

Master of Science (Engineering Science) (University of California Berkeley, 1976)

Graduate, Australian Institute of Directors, 2006

Honours and awards

Life Fellow of the Australian Institute of Architects, 1996 (Service and leadership to the profession)

Design Institute of Australia (SA) Design Icon, 2017 (Development of DIA in SA and contribution to the profession)

Design Institute of Australia National Hall of Fame, 2019 (Design advocacy throughout Gavan Ranger's career)

University memories

The camaraderie within the studio is certainly memorable; the peak of my involvement in the architecture student body was assisting in the construction and then the mounting of the architecture exhibition in the reflecting pool.

Career and life accomplishments

Career: Being appointed Chief Architect (Transport) within the Commonwealth Government; initiating the successful bid to redevelop the Adelaide Station site; establishing and operating a successful design company, Ranger Design, in Adelaide; while in Canberra being appointed for the consultancy to design the Hellfire Pass Memorial Museum in Thailand, and attending its opening and the dawn service on the following morning at the invitation of the Prime Minister of Australia; and being appointed project director for the restoration of the Brisbane City Hall. I have been a regular contributor to professional organisations and not-for-profits at a senior level for over 40 years, and continue to do so.

Life: Fathering two wonderful sons, one of whom is now a Supreme Court judge and the other a senior incident coordinator for a State Emergency Service, and living a great life which has been full of wonderful relationships and extensive travel.

Advice to your 20-year-old self

Rather than being influenced by negative people, believe in yourself, maintain a positive outlook and give back whenever you can, but never forget the value of family and friends.

ROCA Honorary Life Member 2017 services and support of the Roseworthy Old Collegians Association.

Life accomplishments are centred around marriage and family. I am proud to be married for 45 years and to be a father of three great men who are themselves married with their own children. They are all University graduates with fulfilling careers.

As a graduate you will leave your course with a great skill balance right between work and play.

David Spencer

Qualifications

Roseworthy Diploma in Agriculture (University of Adelaide, 1971) Roseworthy Diploma in Agricultural Technology (University of Adelaide, 1972)

Diploma in Teaching (Secondary) (Adelaide Teachers College, 1973) Master of Social Science (Counselling) (University of South Australia, 1999)

Honours and awards

Archives and ROCA".

University memories

My four years at Roseworthy Agricultural College as a live-in full-time student was a terrific experience. It was both academically stimulating and a great time socially, as it was 24/7 surrounded by a great mob of blokes who remain life-long friends. It was study and partying all in one; we got on well with each other and accepted a range of attitudes and values that any random group can present. As a live-in student group, it was like another family. Unknowingly, we influenced each other in our formative years, rounding off our individual and academic skills to set the scene for the rest of our career and personal journeys.

Career and life accomplishments

In my career I moved through a wide range of experiences within the Education sector. I began as a High School teacher developing physical facilities that were varied and stimulating to hopefully infuse an interest in animals and plants. Later I moved into TAFE SA as a rural lecturer, co-ordinating an Onfarm Training Scheme, then lecturing in Farm Office Practice. My final appointment was as a TAFE Student Counsellor.

Advice to your 20-year-old self

set. You may forget a lot of the facts and figures you honed in your undergraduate years but you will have capabilities that will enable you to tackle a whole range of career and life opportunities. You have learned how to learn, analyse, absorb, organise, interpret, report and so on. Time as a student is a unique period in your life journey; the challenge is to get the

Dr Graham Staker

Qualifications

Bachelor of Science (University of Adelaide, 1971) Bachelor of Science (Hons) (University of Adelaide, 1972) PhD (University of Adelaide, 1977)

University memories

The earliest ones would have been the Science Association activities including winery tours and card nights, the lunchtime concerts on the Barr Smith lawn and later on as a tutor, the parties with the students. During my time as a research student I particularly valued the comradeship of my colleagues in the Chemistry Department and the inspirational guidance of my supervisor, the late Dr Peter Dunlop.

Career and life accomplishments

It has been a rollercoaster ride but the university experience prepared me for the future. Instead of being a chemist I pursued endeavours in other fields such as remote sensing, GIS, geophysics, IT development and support. The highlights would undoubtedly have included my 13 year employment at WMC exploration division and my current tenure with the WA Mines Department (20 years) both of which gave me the opportunity to excel in the above fields. More importantly though I am proud to be a father of four and grandfather of five and celebrating 46 years of happily married life with Therese.

Advice to your 20-year-old self

You are ready to go, the world is your oyster, you are invincible. Well, you might be lucky and everything goes as planned but in reality this is rarely the case. In academia you have to fight for tenure, in private industry you have to be prepared for economic decisions that do not favour your job security, in your own business you fight to survive. Despite this you have been trained to think critically, make rational decisions and above all to be flexible. Make the most of what you have learned so far, this is just the beginning of your lifelong educational experience.

Terry Stoneman

Qualifications

Bachelor of Science (Hons) (University of Adelaide, 1968) Master of Science (University of Adelaide, 1971)

University memories

One of my fondest memories of the university is walking around the stacks of the old Barr Smith library in my first year as a fresher in 1964.

Advice you would give to your 20-year-old self

Don't study all the time - join one of the uni clubs and chill out for a while.

Emeritus Professor Peter

Roberts-Thomson AM

Bachelor of Medicine, Bachelor of Surgery (University of

Doctor of Medicine (University of Adelaide, 1988)

AM, 2021, for Medical Education and Immunology

Father of three daughters and six grandchildren.

Medical Consultant at Flinders Medical Centre for 40 years.

Career and life accomplishments

Qualifications

Doctor of Philosophy (Oxford)

Honours and awards

Bachelor of Arts (University of Adelaide, 1970)
Bachelor of Arts (Hons) (University of Adelaide, 1971)
PhD (University of Adelaide, 1984)

University memories

My fondest memories are the teaching of luminaries such as Hugh Stretton (history), Jack Peters (music) and Eric Barnes (mathematics), plus my membership of the Adelaide University Choral Society (AUCS) and attending annual Intervarsity Choral Festivals interstate.

Career and life accomplishments

I had a 34-year career in the SA Public Service in music education and arts funding. In 1984 I was awarded a PhD in musicology from the University of Adelaide, and since my retirement in 2007 I have been a Visiting Research Fellow at the Elder Conservatorium of Music. I continue to research and publish in the fields of 17th Century Italian music and colonial Australian music, and with my partner Sylvan Elhay, established the Journal of Music Research Online (www.jmro.org.au).

Advice to your 20-year-old self

My one piece of advice would be to treasure the friendships made at the university.

Above: Jula Szuster - 1970 graduation Right: Julienne Hewton at Prosh procession

Dr John Turner

Qualifications

Bachelor of Science (University of Adelaide, 1970)

Bachelor of Science (Hons) (University of Adelaide, 1971)

PhD (University of Adelaide, 1975)

Honours and awards

Rennie Scholarship for Research in Chemistry (1970: prize for top First Class Honours BSc)

William Culross Prize for Research (1973: prize for top PhD in Science & Engineering)

C J Everard Scholarship No1 (1975: award for research at U A & Waite Institute re synthetic plant-growth regulators)

Fulbright Scholarship (1982 for '83): award for research at California Institute of Technology, USA

University memories

I started university in 1967 aged 21, with much 'catch-up-learning' required due to back & forth family migration.

University provided a stimulating & relatively stable environment to make friends with similar interests (e.g. Science Club).

Students stopped a biochem lecture at 1.30pm 21 July 1969: we wanted to watch the (tiny black & white) TV and Neil Armstrong walk on the moon! I enjoyed the apparent mysteries of science and especially devising ways to solve problems. At the time, I didn't realise these studies would enable my future career to advance in many different but rewarding directions.

Career and life accomplishments

In 1965 and '66 I worked and studied part time alone in the UK to qualify for university. Choosing Adelaide (over London) was a pivotal decision. Following first-year 1967, I won a Commonwealth Scholarship and later, a Commonwealth Postgraduate Research Award for PhD research (inventing new reactions to make synthetic plant-growth-regulators) concluding 1973. In 1974, I joined Prof Sir Derek Barton (Nobel

Laureate) at Imperial College London. The group devised reactions for converting Penicillin into Cephalosporins. In 1978, I became an ANU Research Fellow and 'lieutenant' for Professor Lewis Mander AC, FAA, FRS (formerly my PhD supervisor at Adelaide). A research high-point for me was elaborating the labile Gibberellic Acid A-ring for the GA total synthesis. I went to CALTECH in 1983 (as a Fulbright Scholar) and was impressed that top USA universities collaborated with industries and venture capital companies to develop valuable new technologies. This seemed a potentially rewarding career direction. So, in summary, during the next 25 years my career evolved from being a scientist into: (a) Federal Government strategic planner for new technologies in industry, (b) Managing Director of a technology investment company, (c) Businesses Advisor on IP, technology and investment, (d) World Intellectual Property Organisation (Geneva) 'Expert' consultant (for approx.15 years) assisting developing countries modernise economies through IP creation, protection and commercialisation.

Advice to your 20-year old self

Have a vision for your future and set goals for a path that will take you closer to that vision. However, in many ways our world is evolving and your vision might have to change accordingly. Therefore keep learning new and useful things that could help you adapt and thrive in changing circumstances, some of which might be out of your control.

"Be optimistic and don't be afraid when you encounter problems; view these as a challenge and a learning opportunity. If necessary seek help, no one knows everything!"

Dr John Turner

Adjunct Associate Professor Adrian Vicary

Qualifications

Bachelor of Arts (University of Adelaide, 1970)
Bachelor of Arts (Hons) (University of Adelaide, 1971)
Diploma in Education (University of Adelaide, 1972)
Master of Arts (University of Adelaide, 1983)
PhD (Flinders University, 1999)

University memories

I had great teachers and mentors in the disciplines of Politics, History and Education at Adelaide. Their wisdom, encouragement and advice prepared me well for my activities in education, social policy and international engagement in later life. At a time of enlightened activism, I was elected as the first student representative to the University of Adelaide Council. I enjoyed the collegiality between students and academic and professional staff in decision-making.

Career and life accomplishments

After teaching Politics for four years at Adelaide, I had a career spanning 40 years at the South Australian Institute of Technology and University of South Australia from 1975 to my retirement in 2014. I held senior academic and management positions, retiring in the position of Dean: International and External Engagement. During this time I participated in decision-making in education and social policy forums, and represented the SA higher education sector in state, national and international forums. I continue to play a role in advocacy for the inclusion of arts and culture in international engagement and well-being. I am equally proud of my adult children who continue to achieve their aspirations in their different fields.

Advice to your 20-year-old self

Don't be daunted by leaving high school after completing third year. Your work experience in banking will prepare you well for study as a mature-age student at Teachers College and University.

Peter Wade

Qualifications

Bachelor of Science (University of Adelaide, 1971)

University memories

Playing field hockey with the University Hockey Club, with a trip to Fiji after graduating and then playing with the Graduates hockey team later on.

Career and life accomplishments

Helped establish a new up-to-date (as it was then in the 1970s) central computer facility for APPM Forest Products in Tasmania. At the end of my career being a Technical advisor travelling throughout Australia, New Zealand and even Western Samoa assisting Councils with upgrades to their IT hardware and software.

Advice to your 20-year-old self

Just study harder and live up to the promise that I showed at secondary school.

Thomas (Mike) Wake

Qualifications

Roseworthy Diploma in Agriculture (University of Adelaide, 1971) Roseworthy Diploma in Agricultural Technology (University of Adelaide, 1972)

Honours and awards

Certified Financial Planner

CPAg

As a qualified Life Insurance Salesman and Financial Planner, Member of Million Dollar Round Table and Top of the Table.

University memories

Created lifetime mates. Gave us the ability to be able to search out and put into place best practice in agriculture and vineyards.

Career and life accomplishments

To be able to fulfil our passion to own and operate our own farms. To enhance the life of our friends in Zambia through support for education and rural development. My wife Tessa with a farming background and values along with a work ethic.

Advice to your 20-year-old self

I would do part of tertiary education in an overseas country.

Ian D'Arcy Walsh

Qualifications

Bachelor of Science (University of Adelaide 1971)

Honours and awards

Honorary Doctorate of Education (Ed.D.) from the University of Baguio (Philippines) and the Philippine Commission for Higher Education (CHED) and an Honorary Dato for my services to education in the Philippines over almost twenty years.

Recipient of the 1989 South Australian Science Teachers
Association Medal for "Outstanding service to science education".

Life Member of the Australian Science Teachers Association - 1990 Life Member of the Prospect District Cricket Club - 1992

University memories

The social life - the large Faculty Balls, the Prosh and Induction functions and the sporting activities. It was also great to graduate and I do have good memories of some of our Lecturers and their lectures. I also vividly recall being sent home from the 11am Organic II lecture on July 20th 1969 so we could watch the first men land on the moon.

Career and life accomplishments

Project Director of the very successful \$72m Australian supported BEAM project in the Southern Philippines - Basic Education Assistance for Mindanao. A project that addressed peace and order and poverty alleviation in some of the troubled areas of Central and Southern Mindanao and concentrated on improving the quality of and access to Basic Education for all. It was a project consistently ranked by AusAID as one of its "best practice" projects with incredible impact in the Philippines even up to today. We were regularly sought out by other donor groups working in the area for our understanding of the peace and order situation in Mindanao and of the role that education could play in that situation both in the formal and informal sectors. It culminated in me being awarded an Honorary Doctorate from the formal education sector and an Honorary Dato from the Muslim sector.

Advice to your 20-year-old self

Be adventurous, follow your dreams, nothing is impossible if you want it enough and put in the effort.

68

of 1971 Golden Jubilee

Qualifications

Bachelor of Science (University of Adelaide, 1970)

Bachelor of Science (Hons) (University of Adelaide, 1971)

PhD (University of Adelaide, 1975)

Master of Business Administration (University of Adelaide, 1989)

University memories

Camaraderie with fellow students, including life at Aquinas College. The excitement of mathematical discovery and writing the associated thesis. Integration of student life with the various political and social changes occurring at the time (1967-1974). Adelaide University Football Club.

Career and life accomplishments

Supporting the growth and development of a family of three children and five grandchildren. Development in the CSIRO (1976-1980) of mathematical models to simulate the thermal performance of buildings - still in use today and underpins the National Home Energy Rating System. Chair, SA branches of ANZ Solar Energy Society (1982-1987) and Australian Institute of Energy (2001-2006). Application of the National Competition Policy in South Australia (1994-1998). Establishment of regime of independent economic regulation in the State (1995-2000). Chair and CEO Essential Services Commission of SA (2005-2016); equivalent role in the Northern Territory (2011-2018).

Advice to your 20-year-old self

The need for continuing development throughout your career. Be flexible about your options and ambitions. Seize the day!

Geoffrey (Geoff) Weaver

Qualifications

Bachelor of Agricultural Science (University of Adelaide, 1971)
Roseworthy Diploma in Oenology (University of Adelaide, 1974)

University memories

Great fun with really good mates. And we learnt some good lessons from the fine teachers at the Waite.

Career and life accomplishments

My family as well as making some lovely wines and paintings.

Advice to your 20-year-old self

Persevere. Don't give up.

Stephen (Steve) West

Qualifications

Bachelor of Engineering (Civil) (Hons) (University of Adelaide, 1971) Master of Environmental Studies (University of Adelaide, 1980)

University memories

The camaraderie generated from spending many, many hours at work and play with a bunch of like minded colleagues generates sustaining bonds of friendship and understanding which remain for life.

Career and life accomplishments

Professionally, having played a key role in erosion control, flood management and Indigenous revegetation of Adelaide's urban creeks gives me the most joy. I am very proud of being a contributor to the workplace successes and accomplishments of my wife Lea and daughters Georgia, Chloe and Anaise.

Advice to your 20-year-old self

Follow your heart with conviction!

Thomas (Tom) Yeatman

Qualifications

Roseworthy Diploma in Agriculture (University of Adelaide, 1971) Roseworthy Diploma in Agricultural Technology (University of Adelaide, 1972)

Graduate Diploma in Plant Protection (University of Queensland)

1970 and 1971 Golden Jubilee Class Gift

Traditionally, the Golden Jubilee cohort makes a collective gift to the Golden Jubilee Scholarship Fund.

First established by the Class of 1961, the Fund supports Augustus Short Scholarships at the University, and is a meaningful way to commemorate the 50th anniversary of your graduation.

In 2014, Maria Blackmore received an Augustus Short Scholarship to study teaching and arts. Now Maria is giving back to her community as a teacher and Elected Council Member. Maria is testament to the transformative impact that scholarships have on recipients, and the wider community.

"I had a difficult start to life, and a university education seemed out of reach. I was born in rural Victoria, and at 12-years-old I entered the foster care system. Despite life's challenges, my teachers always saw my value. As I considered the path I wanted to take after school, I thought of the teachers who had influenced my life, and dreamt of graduating from university with a teaching degree," she said.

The scholarship helped Maria pay bills and buy textbooks throughout university, and allowed her to be more selective of the types of jobs she undertook. When volunteering or representative opportunities arose, like Youth Parliament, Maria was able to say "yes" to participating because she had the time.

"The scholarship formed the foundation for my career as a teacher and Council Member. It empowered me to shape my own future and was a wonderful sign that people in the community believed in me."

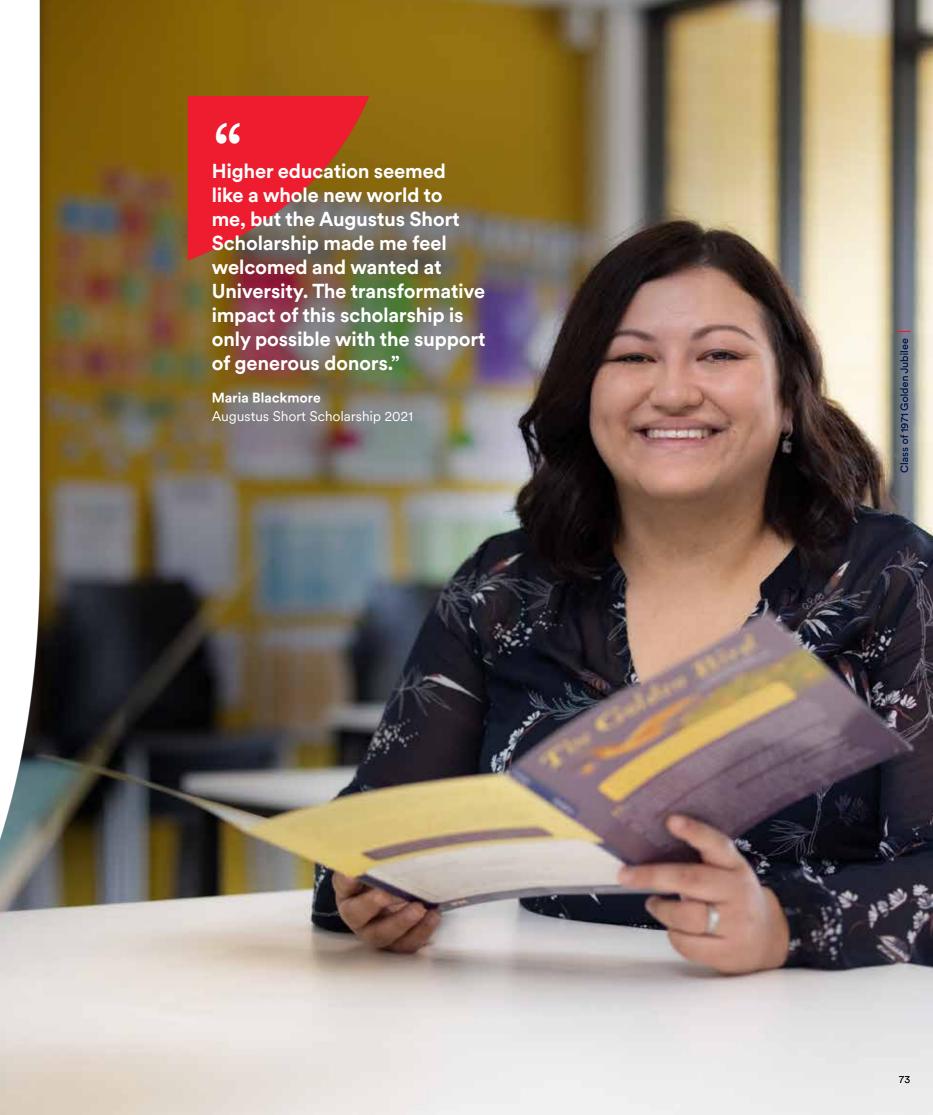

Changing lives through scholarships

The University of Adelaide's first Vice-Chancellor, Dr Augustus Short, believed that tertiary education should be accessible to all students of high academic merit, regardless of birth or wealth. Named in his honour and funded through the generous support of donors, Augustus Short Scholarships are available to students of outstanding academic ability who come from rural or remote areas, face challenging financial circumstances or another disadvantage. To date, Augustus Short Scholarships have supported 56 students through their degrees.

Our aim is to offer sustainable support to students in need. \$125,000 over the next five years will underwrite a specially named Jubilee Augustus Short Scholarship, in perpetuity, as a commemoration of this annual event. With your contribution to the Class Gift of 1970 & 1971, we can reach this year's target of \$25,000. After a generous gift of \$10,000 from Siew Cher Mok (BE (Chem) (Hons) 1970), we are already on the path to making this goal a reality.

Your gift will impact the lives of students at the University for decades to come.

Make a gift today by calling us on 08) 8313 5800 or by visiting give.adelaide. edu.au/golden-jubilee-class-gift

Kaurna acknowledgement

We acknowledge and pay our respects to the Kaurna people, the original custodians of the Adelaide Plains and the land on which the University of Adelaide's campuses at North Terrace, Waite, and Roseworthy are built. We acknowledge the deep feelings of attachment and relationship of the Kaurna people to country and we respect and value their past, present and ongoing connection to the land and cultural beliefs. The University continues to develop respectful and reciprocal relationships with all Indigenous peoples in Australia, and with other Indigenous peoples throughout the world.
