## **TIME MATED RODENT AGREEMENT**

Laboratory Animal Services can only guarantee that animals have been mated on a specific date by observation of a vaginal plug. We cannot guarantee the outcome of the mating.

Your order will be accepted if you acknowledge and agree to the following conditions.

A copy of this form will be faxed/scanned to you when you place your order.

Laboratory Animal Services cannot guarantee that a mouse or rat is:

- ❖ Pregnant even though a vaginal plug has been observed
- ❖ Pregnant by palpation up to 13 days after the vaginal plug is found
- ❖ That palpated pregnant animals will retain their pregnancy
- ❖ That animals will give birth on a particular day
- ❖ We cannot guarantee that the number of animals requested to be mated on a particular day will in fact mate on that day
- ❖ Credit or refunds will not be given for time mated orders

I acknowledge and agree to the above terms and conditions.
