

Waite Campus Childrens Centre

Family portfolio review Date:

Child's name: **Educator who created the learning document:**

We have recently completed documentation about your child's learning at the Centre. It includes what educators see, hear, know and interpret about your child and their interactions, both with other children and educators.

We would love to hear about your child's learning at home.

1. Have you observed this same learning at home?
2. What do you see, hear and know about their learning from your observations at home?
3. How does this connect with what we have observed at WCCC?

Please provide any response to the new documentation (or respond by email):
