3 Safety Performance of the Division

The committee noted the report.

Paul advised that it had been a very quiet quarter with very few incidents reported.

Overdue actions have now been closed.

Traffic light report is currently green.

Members were asked to go back to their areas and ask staff to go into the SSO system and under credential management to upload their certificates for warden, first aid and Child protection. As there was some confusion as to whether staff could add the child protection certificates Paul will clarify with HR. He will send around some instructions.

Action: Paul to clarify with HR and send around instructions for adding certificates

4 Effectiveness of safety processes in the Division.

- *Reports from Branches on completion dates of tasks in SPE*
- *Tasks that need to be completed in the next quarter for noting*

Paul tabled a copy of the Divisional SPE. After discussion it was agreed that it should be saved on the S Drive so that everyone has access and can go in and update the dates as necessary.

It was also noted that Vaccinations can be removed as the Division of University Operations now covers that for the whole University.

Action: Rosemary to send around the pathway for the HSW folder on the S drive and members to advise if they need access which she will then arrange.

5 Annual Hazard Review

<https://www.adelaide.edu.au/hr/hsw/intranet/docs/dd-report-q2-2019.pdf>
<https://www.adelaide.edu.au/hr/hsw/docs/haz-man-annual-hazard-review.docx>

Whilst this item was not fully discussed Hazard reviews should be sent to Rosemary who will include them with the minutes when they are sent out.

Action: All – please send Rosemary your updated and signed Hazard review as per the link asap.

6 Are there any safety concerns that staff representatives want to raise?

Rose-Marie raised the evacuation areas for the Library throughout the Fringe Festival and how they are quite a distance away and how would they know when it is safe to go back to their office. Paul advised that the Chief Warden should call a meeting of the floor wardens and discuss any changes and how they should be managed and the outcomes disseminated to relevant staff.

Dave asked if anyone had any questions regarding the coronavirus situation but there were none.

Linda raised that whilst she was on leave there was a broken step that no one else had reported in UniSafe and she had to remind staff that everyone can download the app and make a report.

Action: Rosemary to send a message to the whole Division to remind staff to download the app and to report any incidents.

7 Key changes to Divisional safety processes that need noting or discussion

Nothing to discuss.

8 Any Other Business

There was no other business.

2. UniSafe Overdue Corrective Actions Data

There are currently no overdue in UniSafe for DASE.

3. Workers Compensation Data

The total number of workers compensations claims to the end of Q1 2020 was 7 compared with 4 for Q1 2019. In Q1 2020 5 claims were from Health & Medical Sciences and 2 were from Sciences. For 2019 there were 33 claims and of these, 45% of claims were in the Faculty of Sciences and 18% were in Controlled Entities such as National Wine Centre and Adelaide Unicare.

4. HSW Internal Audit Outcomes

Changes to 2020 Internal Audit

1. Schedule

In 2019 feedback from the Faculties regarding the need for longer gaps between audits to more broadly apply the findings and undertake Faculty safety projects resulted in reconsideration of the quarterly program. This feedback was taken on board for 2020 it was planned to trial a move from a quarterly audit program to a half-yearly program with audits being conducted around May and November.

2. COVID-19 and the Audit Program

Due to COVID-19 and the requirement for many to stay at home, it has been decided that the first audit round in May 2020 will concentrate on statutory audits and follow up audits. Where possible these audits will be done in a desktop manner with the lightest possible touch on already overstretched Faculty resources. The statutory audits will comprise the required Injury Management, SSAN and Radiation audits. Follow-up audits will be conducted for those who had scored 25% or lower in the 2019 audit round via a review of the resultant actions documented in UniSafe.

All audits starting in May will take into account the situation we find ourselves in currently and will work with the areas to minimise operational disruptions

5. HSW Handbook chapters revised in the last quarter

The following table is provided to allow discussion on impending consultation or implementation issues resulting from new procedures or advice.

New/Revised Handbook Chapter/FAQ's	The key changes to the chapter for noting are -
Managing HSW in the work environment (including infrastructure and facilities) Out for consultation.	This chapter aims to fill a gap in our current HSW processes in regard to workspaces, the work environment and facilities by defining responsibilities to ensure that: <ul style="list-style-type: none">workers and students do not alter, modify, penetrate, change or remove any University owned or leased infrastructure without permission from the University's Infrastructure Branch;the University's infrastructure is only used in the way that it is intended;there is a traffic management plan for each University campus to manage the interaction between vehicles and pedestrians (including events) and the University community is aware of the plan;the work environment (e.g. space, lighting, air-quality, access and egress, facilities (including for those workers with special needs or disabilities) is managed; andaccess to spaces that are inherently hazardous or that contain hazardous items are managed (e.g. mobile plant, roof tops, biological hazards, power distribution boards, chemicals).

6. Draft DASE Traffic Light Report (Q1 2020)

The traffic light report (attached) is based on the information recorded by the incident investigator in UniSafe and the findings from HSW internal audits. Where actions are decided to address breaches of a HSW handbook chapter - and are completed - the traffic light report will be flagged as Green A. However, no recorded actions or outstanding actions will be recorded as Amber or Red depending on the due date of the action. This does not include Safety Reviews undertaken by the HSWO's. Therefore, it is important that the traffic light report is discussed within the Divisional safety committee meeting, to ensure that it is correct.
