

THE UNIVERSITY
of ADELAIDE

English for Uni

The free **English for Uni** website assists students with English grammar and academic writing skills through

- > amusing videos;
- > instructional explanations; and
- > interactive exercises.

Each video is based on situations students can relate to, such as TV game shows, old-style detective stories, or a university seminar setting.

Lecturers from any discipline can direct students to the site to learn more about English, and teachers of any language can enhance their students' grammar awareness.
