

Presentation of Mini Projects

Objectives

1. Situation analysis/problems and research questions
2. Mapping the chain
3. External influence, governance and performance
4. Gender roles and barriers
5. Opportunities to improve chain performance
6. Social issues affecting adoption
7. Conclusions and recommendations

Research process

Research problems → Research questions

Research objectives

Research Methods

Sampling

Data collection → Analysis & reporting³

Guide for preparation – main contents

- **Research questions**
- **Research objectives**
- **Methods used for data collection (& reflections)**
- **Key findings**, including chain mapping, opportunities & challenges (based on your research questions – research objectives, and some reflections on research questions)
- **Possible interventions**
