# Extended Major Review of Progress for Masters by Research Programs

## Division of Research and Innovation

When provisional status has been extended, a further Major Review of Progress (the Extended Major Review of Progress) at the end of the extended period will recommend confirmation of candidature, termination, or conversion to a Master's enrolment.

### Candidature Confirmation Review Committee

The members of the Candidature Committee that recommended the initial extension of provisional candidature should conduct the Extended Major Review of Progress. If all members of the original Committee are not available for the review a new Committee may be established but this Committee should determine if the student has met the milestones and recommendations of the initial committee and not introduce new issues.

### Guidelines for the Candidature Confirmation Review Committee

The Committee's role is to:

- Reassess the candidate's progress and determine if the student has met the milestones recommended in the initial Major Review of Progress.
- Where candidature is to be confirmed following an extension of provisional candidature, ensure that the scope of the candidate's research project is achievable within the required timeframe for the degree.
- Provide one of the following recommendations to the Research Education and Development Committee (REDC):
  - 1 **Confirmation of Candidature**
    - a) Completion in the minimum timeframe supported of 18 months; or
    - b) Candidate will submit within maximum candidature period of 2 years.
  - 2 **Further extension of provisional status**

Please note that, including previous extensions of provisional status, the maximum extension permitted is a total of six months.
  - 3 **Termination of Candidature**

**Please Note:** Recommendations should be made in the 'Candidature Committee Review Panel Recommendation to REDC' section on page 5 of this form. The Committee should adhere to the Specific Guidelines in that section when making a determination.

## Minimum Requirements for the Confirmation of Candidature

Confirmation of candidature requires at a minimum:

- Completion of the online induction program;
- Satisfactory completion of the Core Component of the Structured Program including:
- Submission of an updated CaRST Development Plan and print out of the CaRST record from CaRST Online (for students commencing from 2017);
- Excellent or satisfactory progress during the preceding twelve months (or half-time equivalent) in terms of all the review criteria required for completion within the required timeframe for the degree as determined by the Candidature Confirmation Review Panel;
- The generation of a Gantt chart or equivalent detailing the research completion plan for the remainder of candidature. The Gantt chart may be prepared in the format of one of the examples listed on the Graduate Research School's website at:  
<http://www.adelaide.edu.au/graduate-research/current-students/forms#milestones>
- A completed risk assessment detailing contingency plans should be compiled, maintained by the School/Discipline and should detail how to proceed in the event that:
  - the research direction(s) pursued prove(s) unsuccessful, or not worth pursuing;
  - supervisor(s) will be absent e.g. on study leave;
  - existing skills/experience are inadequate to undertake the planned research (i.e. training is required);
  - existing resources are inadequate to undertake the planned research;
  - Candidate has taken excessive leave
- Recommendation for consideration by REDC

## Candidature Committee Review Panel Recommendation to REDC

Please refer to the Guidelines below in italics when completing this section.

### 1 Confirmation of Candidature

- 1a  Candidature should be confirmed and completion may reasonably be anticipated in the minimum timeframe supported.

*Select this option when all measures in the Student Capability Measures Table are 'Excellent' or 'Above Expectations' and all other requirements are met.*

- 1b  Candidature should be confirmed. Candidate may reasonably be anticipated to submit within maximum candidature period of 2 years.

*Select this option when measures in the Student Capability Measures Table are a mixture of 'Satisfactory' and 'Excellent' and all other requirements are met.*

### 2 Further extension of provisional candidature (Note that a maximum total of 6 months extension of provisional status is permitted. Period(s) of extension previously approved must be taken into account when making this recommendation.) THIS OPTION IS NOT AVAILABLE IF THE STUDENT HAS ALREADY HAD THE MAXIMUM 6 MONTHS EXTENSION.

- Where a committee is still unsure of a candidate's potential for success and wishes to further extend provisional candidature for a period before final review.

*With reference to the Student Capability Measures Table, select this recommendation where the following apply:*

- (i) one (only) Student Capability Measure was rated 'Unsatisfactory'; and/or*
- (ii) one or more Student Capability Measures were rated 'Satisfactory with Reservations', and/or*
- (iii) progress is not consistent with completion of the degree within 2 years from commencement.*

*A recommendation to further extend provisional status indicates the student has made progress but is not yet ready for confirmation. The Candidature Confirmation Review Committee will make a final recommendation following a further review at the end of the further extended provisional candidature period.*

We recommend an extension of provisional candidature for \_\_\_\_\_ months.

### 3 Termination of Candidature

- This option must be selected where three (3) or more measures have been rated as 'Unsatisfactory'.

#### Please note:

- a) A rating of 'Unsatisfactory' or 'Satisfactory with Reservations' for Student Capability questions 7 or 8 need not result in recommendations to terminate candidature if the School/Discipline provides details of the strategies to address the situation in the section '**Details of Risks and Unsatisfactory Progress**' below.
- b) If 'Termination of Candidature' is recommended please address the issues regarding unsatisfactory progress leading to this recommendation in the section '**Reasons for Termination of Candidature**' below

**Details of Risks and Unsatisfactory Progress**

Please provide a brief report on the student's progress, the project, supervision, and CaRST (if applicable) and an explanation of the reasons for the recommendation. Where applicable please include details of plans to address any reservations (attach additional pages if required).

**Further extension of provisional status**

Where the Committee has recommended a further extension of provisional candidature, details of the milestones to be completed by the student must be recorded (attach additional pages if required).

**Reasons for Termination of Candidature Recommendation**

Where the Committee recommends termination please provide a report on measures taken to address unsatisfactory progress and issues leading to the recommendation. (attach additional pages if required)

## Student's Certification and Assessment of Progress

I certify that I:

- have attached a *GANTT chart/timeline* detailing my research plan from candidature commencement to completion of my thesis, and
- have attached a *CaRST Development Plan* and print out of the *CaRST* record from *CaRST Online* (for students commencing from 2017), and
- agree with the *Candidature Committee Review Panel's* assessment of my progress and recommendation, and
- (if applicable) agree with the milestones set for completion during the further extended period of my provisional status.

*Note: If you disagree with your School/Discipline's assessment and/or recommendation, you may attach a confidential report to this form for the attention of the Dean of Graduate Studies. A confidential meeting with the Dean of Graduate Studies may also be requested. Refer to the Unsatisfactory Academic Progress section of the [Research Student Handbook](#) for further information.*

If a recommendation for termination of candidature is upheld by the Faculty Higher Degrees Committee and the Research Education and Development Committee (REDC) the candidate may appeal the decision in accordance with the guidelines detailed in the Student Grievance Resolution Process (refer to the section on grievances, complaints and problems during candidature in the [Research Student Handbook](#)).

## Assessment by the Candidature Review Committee and School/Discipline

The undersigned endorse the recommendation to REDC detailed above

**Please note:** Three different signatures are required to approve the Candidature Committee Review Panel's recommendation at School level. Normally, the Chair of the Candidature Committee Review Panel (who is usually the Postgraduate Coordinator) should sign this form together with the principal supervisor and the Head of School/Discipline.

However, if the Postgraduate Coordinator is a member of the student's supervisory panel he or she is ineligible to be the Chair of the Candidature Review Panel and another Chair, who is not a supervisor, must be appointed. If the Head of School/Discipline is appointed to be the Chair, he or she cannot also sign the form in the capacity of Head of School/Discipline. Consequently, another senior member of the Academic Staff of the School, who is not a supervisor, should sign the form on the fourth signature line†.

If an external Discipline Expert is a member of the Committee he or she may sign the form††.
