

Issue #3

Welcome to our new HSRs

The nomination and election process for [Health and Safety Representatives](#) across the University has been completed. Please refer to the [HSR Register](#) to see the HSR in your designated work group. Some positions remain vacant as noted the register. If you would like to nominate for a vacant position or have any questions, please contact the hswteam@adelaide.edu.au.

UniSafe upgrade - now live

Have you downloaded the new UniSafe App or visited the reporting webpage? UniSafe is our Health, Safety and Wellbeing issue reporting

system. The App allows you to report a safety issue with just a few easy questions.

Download the Roam 5 app now from the [App store](#) or [Google play](#). [More information](#).

Roam 5

October is National SafeWork Month

Each year, Australian workplaces recognise the importance of safety during SafeWork Month. At the University, we will be hosting a number of HSW and Wellbeing sessions covering topics such as: Safety for Supervisors, Chemical Management, Risk Assessment and Wellbeing sessions focusing on mental health. Watch out for further promotion of the sessions in September.

Wellbeing

Check out [current Wellbeing events](#) and subscribe to the [Staff Wellbeing Newsletter](#) to keep up to date on all things Wellbeing at the University.

The 400th and 415th subscribers win a free coffee from a Hub Central cafe.

First aid QR posters

You may have seen new First Aid posters across the University. These will continue to be installed across all University buildings providing a QR code which when scanned, will link to an up-to-date register of staff who have been trained by the University to provide first aid.

Safety Notice

A power outlet burnt out from use of a domestic oil heater in a damp environment. The power outlet showed clear signs of damage and should not have been used. The oil heater was disposed of, and the damaged power outlet was replaced following a service request.

The key message should be if damaged infrastructure is identified, isolate or tag it out and report it via a service request - [Infrastructure | University of Adelaide](#).

Where there is damaged or suspect equipment that is managed by a School or Branch isolate or tag it out and report it via [UniSafe](#).

Radiation Procedure consultation

Feedback will be sought shortly on the review of the HSW Radiation Safety Management procedure. The updated version will be available through Staff news on the 5th September. Any comments may be submitted via the [draft Policies page](#) by COB of 27th September.
