INTRODUCTION

The Guide outlines the process for the completion of position descriptions. A position description is used to:

- clarify the role requirements;
- classify a position;
- inform prospective candidates about a position;
- provide the basis for identifying and discussing work objectives and formulating a development plan in the Planning, Development and Review process; and
- assist with career planning.

The position description should clearly outline the nature of the work and describe the responsibilities and outcomes; capabilities and behaviours; knowledge and experience necessary to successfully perform in the position.

The position description should describe the position, not the person holding the position.

To prepare a position description use the Position Description Template found at 'Forms & Templates' <http://www.adelaide.edu.au/hr/development/performance/position/>

RESPONSIBILITIES

Manager/Supervisor The immediate line manager/supervisor is responsible for completing the position description in consultation with the incumbent (except when the position is new or an existing position is vacant). Managers / supervisors are encouraged to liaise with their HR Advisor for advice on how to complete the position description template.

Head of School/Branch The Head of School / Branch has the delegation to authorise the content of the position description (in the authorisation section at the top of the first page) before forwarding it to Human Resources.

Human Resources Human Resources will ensure the position description is formally classified in accordance with the University of Adelaide Enterprise Agreement (EA) Classification Standards (Professional Staff).

The position description will be authorised with a name and date.

A position number will be created when a request for a new contract is submitted where there is no existing position number.
