

Work Pattern Guide - Minute to Decimal Conversion

Introduction

When submitting an online Voluntary Flexible Work Arrangement request, the requestor will be asked to complete a new work pattern. Hours and minutes for the new work pattern must be entered in decimal format. This Work Pattern Guide is a tool to assist you when converting to decimal format.

Converting to Decimal Format

When converting your working hours and minutes to decimal format you will always need to divide the minutes by 60. The hour's value will remain the same.

The standard work day is 7 hours and 21 minutes = 7.35

Quick Reference Guide - Minutes to Decimal Conversions

Minutes	Decimal	Minutes	Decimal	Minutes	Decimal			
1	=	0.02	21	=	0.35	41	=	0.68
2	=	0.03	22	=	0.37	42	=	0.7
3	=	0.05	23	=	0.38	43	=	0.72
4	=	0.07	24	=	0.4	44	=	0.73
5	=	0.08	25	=	0.42	45	=	0.75
6	=	0.1	26	=	0.43	46	=	0.77
