Whereas a sum of money has been made available for the purpose of establishing a prize in commemoration of the work of Charles Angas Hurst in the Department of Mathematical Physics over thirty years, the following rules are hereby made:

1. A prize to be known as ‘The Angas Hurst Prize’ shall be awarded annually during the School of Chemistry and Physics Prizes and Awards Ceremony.

2. The value of the prize will be $150.00 or such other amount as the University shall from time to time determine.

3. The Discipline of Physics will award the prize to the student majoring in Theoretical Physics with the highest grade point average in Level III Physics courses contributing to the major.

4. Students will be considered for the prize in the year they satisfy the requirements for a major in Theoretical Physics.

5. If two or more candidates are of equal merit, the prize shall be shared equally.

6. If there is no candidate of sufficient merit in a given year then the Prize will not be awarded in that year and the money will be used in subsequent years.

7. The University may vary the rules from time to time in a manner consistent with the original objectives of the Prize.
