UTR1.155 - THE AUSTRALIAN STEEL INSTITUTE PRIZE

Whereas the Australian Steel Institute has agreed to provide an annual prize in Civil Engineering to encourage the study of steel structures, the following rules are hereby made:

1. The prize shall be known as ‘The Australian Steel Institute Prize’.
2. The prize shall be of the value of $200, or such other amount as shall be determined, in association with The Australian Steel Institute.
3. The prize shall be awarded on the recommendation of the Head of the School of Civil and Environmental Engineering, to the student achieving the best result in the examination component of the course C&ENVENG 3007 Structural Design III (Steel) in the program for the degree of Bachelor of Engineering (Civil and Structural).
4. No award shall be made if, there is no candidate of sufficient merit.
5. If in any year, two or more candidates obtain equal highest marks in the examination component of the course C&ENVENG 3007 Structural Design III (Steel), the prize shall be divided equally amongst such candidates.
6. These rules may be varied from time to time in association with The Australian Steel Institute, but the title and general purpose of the prize shall not be changed.

Note: The Australian Steel Institute will, in addition, present the successful candidate with a certificate.
