UTR1.27 - THE RENNIE SCHOLARSHIP FOR RESEARCH IN CHEMISTRY

Establishment

The prize has been established by a contribution of $640 made to the University in 1930 and the increase of the sum to $4,011 in 2007 by capitalisation of accumulated income. The purpose of the prize is to promote research in chemistry and to perpetuate the memory of Edward Henry Rennie, Angas Professor of Chemistry in the University from 1884 to 1926.

Value

The value of the prize will be $250.00 or such other amount as the University shall from time to time determine.

Selection of Candidate

The Discipline of Chemistry will award the prize to the student obtaining the highest mark in the Bachelor of Science Honours degree in Chemistry.

The prize will be awarded annually during the School of Chemistry and Physics Prizes and Awards Ceremony.

If there is no candidate of sufficient merit in a given year then the prize will not be awarded in that year and the money will be used in subsequent years.

Variations

The University may vary the rules from time to time in a manner consistent with the original objectives of the prize.

(Up to date as at 29 May 2014)
