UTR2.212 - JEMIMA LENDRUM HONOURS GRANT FOR CANCER RESEARCH

Background –

A. In 2006, the sum of $15,000 was paid to the University of Adelaide (‘donation’) by the family of the late Jemima Lendrum (‘donors’) who wished to award a supplementary grant to an Honours student undertaking research relating to cancer within the Faculty of Health Sciences.

B. This is a Grant for a currently enrolled full-time Honours student within the Faculty of Health Sciences for research relating to cancer.

C. In February 2016, the approval of the Deputy Vice-Chancellor and Vice-President (Research) was given to provide a top-up to this grant of $250 per year from the John L Young Fund for Research (see UTR 2.6).

D. The University accepted the donation upon the trusts specified by the donors and the donation therefore became the capital subject to those trusts (‘capital sum’).

Name of the fund

1. The capital sum, all income arising from the capital sum and any accumulations and additions thereto together form a fund called the ‘Jemima Lendrum Honours Grant for Cancer Research’ (‘fund’).

Investment of the fund

2. The fund is to be amalgamated for the purposes of investment, and held in a common fund, and the net income earned by the common fund shall be credited, rateably, to the funds so amalgamated and thereafter distributed according to the trusts specified by the donors.

Obligations

3. In administering the fund, the University must adhere to the terms specified and is obliged:-

   (a) to invest the capital sum according to the directions of the donors; and

   (b) to establish a grant in the manner described in the following Rules.

Rules

4. The Jemima Lendrum Honours Grant for Cancer Research is administered according to the following Rules:-

   (1) The supervisor of the Honours student is to recommend a suitable and currently enrolled Honours student for the grant.
The student must be enrolled in a full-time Honours program within the Faculty of Health Sciences.

Selection will be made on the basis of academic merit, research potential and relevance of the research relating to cancer. Preference will be given to Honours students whose supervisor is a member of a University Institute or Research Centre. It is anticipated that the Honours student will have demonstrated high academic achievement in his/her undergraduate studies.

The Faculty of Health Sciences Research Committee will recommend an Honours student based on the above mentioned selection criteria.

The value of the Honours Grant is $1,000 per annum which consists of $750 from the Jemima Lendrum Honours Grant for Cancer Research Fund plus a top-up amount of $250 from the John L Young Fund for Research.

The recipient of the grant will be expected to provide reasonable assistance in promoting the research endeavours of the Faculty and to ensure all research undertaken during the Honours term makes reference to the Jemima Lendrum Prize for Cancer Research.
