

- Notes from. 1942
- 136 2 Note from De Martonne on marine forms in lakes--not necessarily indication that lakes are remnants of old seas. De Martonne, Geographic Physique, 2nd ed., 1913. 1913
- 137 8 J. T. J. title "Australia Physiography." Notes and references. 1913
- 138 2 Copy of mimeo. sheet A.A.A.S. (19--?) section C. Pres. Address title "The Pre Cambrian rocks of W. A." E. de C. C. proposed excursions. 1927
- 139 2 Ref. to Johnson (p. 278), James (p. 194) and other refs. not given, except by author only. 1937
- 140 4 Handsketched maps of Pt. Campbell district coast. 1937
- 141 9 Correspondence on Steele's Cr. beds, Portarlinton, with A. Coulson and F. Chapman. 1935
- 142 2 Correspondence J. T. J. - Frank Chapman re request to look over shell nomenclature re joint paper with A. Coulson. 1936
- 143 10 Correspondence with A. Coulson re Portarlinton paper. Incl. refs. to elementary school teaching post at Portland, in letter 21/9/36. 1936
- 144 2 Correspondence 24/11/36 F. Chapman - J.T.J. re fossils. 1936
- 145 8 Correspondence with F. Chapman following presentation of Portarlinton paper incl. nomenclature problem, and congratulation from F. Chapman on "good piece of work." 1937
- 146 19 Correspondence mainly with Coulson, but also with Chapman and Stillwell (Royal Soc.) re publication of Portarlinton paper. Ref. to Hills "impertinent" remarks. 1937
- 147 2 Notes on "Solution beaching" and "water-levelling" by C. K. Wentworth Jour. Geom., 1:6-32. 1938

- 148 2 Note on beach terraces or berms, no author given. Geog. Rev., July 1939:409, footnote 5. 1939
- 149 3 Extracts from "Hurricanes and shorelines changes in Rhode Islands." C. W. Brown, Geog. Rev., July 1939, p. 416 et seq. Important evaluation of effect of storms. 1939
- 150 2 Note from: "Sand and shingle formations in Cardigan Bay." Geog. Jour., Sept. 1939:209-227. On effect of Nov. 1938 storm. 1939
- 151 2 Extracts from "Hurricane modification of the offshore bar of Long Island, New York." A. D. Howard, Geog. Rev., July 1939, pp. 400-415. 1939
- 152 5 Notes from various sources on the geology of India, c.p.r.t. "Alterations of Level and Denundation (fluvial and aeolian)." J.T.J. title to notes.
- 153 2 Ref. to "Pigment [sic]: coast-line Tulum to Flinders" Records Geol. Surv. Vic., 5:4:653-54. Ref. to abrasion ramp and "ultimate" platform. 1937
- 154 13 Extensive notes from T.W.E. David's "R. M. Johnston Memorial Lectures. Geological evidence of the antiquity of man in the Commonwealth, with special reference to the Tasmanian aborigines." Notes mainly on evidence of raised Beaches (J.T.J. note). 1924
- 155 4 Notes from H. T. Stearns "Ancient shore lines on the Island of Landi, Hawaii." Bull. Geol. Soc. Am., 49:615-628. Stormwave benches and benches of eustatic origin. 1938
- 156 2 Refs. on wave-cut platforms. (1) Melb. Leader article 29/10/32 ("copy in my papers"-J.T.J.) (2) E. de C. Clarke Junior Physiography & Geology, 1932. 1932
- 157 4 References to Portland geology and physiography, drawn from A. Coulson's Portland paper ("M.S. seen by me"

J.T.J.)

1877-1938

- 158 2 Correspondence J.T.J.-City Engineer
re. effect of erection "of sea walls,
groynes, baths etc. on Pt. Phillip
Bay. June 1935
- 159 2 Abstract (author) "Glacial geomor-
phology and glacial motion." by
O. D. von Engeln. Am. Jour. Sci.
June 1938, 426-440. Ref. effect of
various agents of denudation, wind,
water, ice. 1938
- 160 1 Copy of "Discussion of winds, waves,
and currents." The Age, July 9, 1938,
by Prof. Ken Grant. 1938
- 161 2 Copy "Transport of sand by the wind,"
The Age, Sept. 17, 1938 by Prof. Ken
Grant. 1938
- 162 3 Refs. on ocean controls affecting the
Aust. coast from "An adventitious occurrence
of nautilus pampilius luin, with a short
bibliography on ocean currents affecting
the Aust. coast." A. R. Riddle,
Trans. & Proc. Roy. Soc. S.A.,
44:257-262. 1920
- 163 3 Extract from E. V. Clark Trans. Roy.
Soc. S.A., 53:18-190 and Howchin's
remarks on raised beaches on York Pen.
and in St. Vincent Gulf. 1928
- 164 2 Notes on the coral reef problem: Daly
vs. Darwin theories. From: (1) P. H.
Kuenen "Geology of coral reefs." From
Snelling Expedition in the Eastern Part
of the N.E.I. Vol. V. pt. 2, Geological
Results. (2) Ref. to "The foundations of
atolls," Hoffmeister, J. E. Ladd, H. S.,
Jour. Geol. 43, 1935, 653-65. 1935
- 165 2 Note on causes of fluctuation of sea
level; diastrophism, atmos. moisture,
glacial control-favoured. Wanles &
Shepard Bull. Geol. Soc. Am.,
47:1177-1206. 1936
- 166 2 J.T.J. title "Publication to go
through to note remarks re. origin of

shore platforms." Incomplete refs. to:
Geikie, Le Conte, Dana, Prestwick, Lyell,
Ramsay, Johnson, Davis, Gulliver,
Chamberlain & Salisbury, Latec and
Rastall, Perau (?) & Schubert, Ward.

- 167 1 On classification of storm shingle. Refs.
to S. Ting. Scot. Geog. Mag. May 1936,
Geog. Mag. 1937.
- 168 1 Notes on coastal forms in granite. Ref.
not clear. Jardine "Beaches in the
littoral of Eastern Australia." J.A.
Steers, Geog. Jour. V. 74. Extracts
appear to be from the letter pp.
350-387 (note of J.T.J. suggests
this).
- 169 1 Copy of "Argus" 5/3/37, article
"Beach reserves may be lost" from report
of minister of Public Works (Mr. Goudie)
Victoria. On coastal erosion. 1937
- 170 5 1) Letter 7 Oct. 1936 G. H. Halligan
to J.T.J. with refs. to N.S.W. coastal
literature. 2) 2 pp. refs. on N.S.W.
coastal lit. prepared by A. Voisey for
J.T.J. Both very useful for coastal
literature. 1936
- 171 3 Notes from "The Geomorphology of
Stewart Island, New Zealand," G.
Williams, PhD. Geog. Jour. Apr.
1936, 328-337. J.T.J. remarks
"Interesting paper." 1936
- 172 4 1) Notes from The Biology of the
Sea Shore. Y. W. Flatteby & C. L.
Walton, London, 1922. Particularly
on rock boring organisms. 2) Ref. to
W. T. Calmorn and J. J. Jehu on biol.
& rock erosion. 1922
- 173 1 On determination of sea level. Notes
from: D. Johnson, New England-Acadian
Shoreline. Murray, The Ocean, James.
Intermediate Geography. Herbertson,
The Senior Geography. Geikie.
Textbook (ref.)
On determination of seal level - what it
means i.r.t. tidal levels etc. Refs. &
notes. D. Johnson.

- 173a 2 Notes from R. A. Daly, "A general sinking of the sea Level in Recent time." Proc. Nat. Acad. Sci. U.S.A. Vol. 6. Ref. to Andrews, Sussmilch, Cadll. 1920
- 174 3 Typed extract from "The geology of the Orkneys," G. V. Wilson and others. Dept. Sci. & Ind. Research. Memoirs of the Geol. Surv. of Scotland, published by H.M.S.O. Section P.9 on "Coastal Features." 1935
- 175 5 Correspondence with F. Chapman re. alga from samphire flats behind the coastal sand hills between Torquay and Bream Creek; and Spring Creek. Mar. 4-May 18, 1934. 1934
- 176 3 Notes (extracts) from T. S. Hall "On certain incrustations on wood in dune areas." Vict. Nat., 28:47-52. 1901-1902
- 177 6 Extracts from R. A. Daly "The geology fo St. Helena Island." Proc. Amer. Acad. Arts. & Sci. V 62 No. 2, 31-92. (Shaler Memorial Series.) - on calcareous sand dunes. Source - exposed shelf in glacial time & high winds - most likely. 1927
- 178 6 Extracts from "Observations on sand dunes of the coast of Victoria," R. Etheridge, Trans & Proc. Roy. Soc. Vic., 12:2-5. With important refs. to work of J.E.T. Woods, Jukes Williamson, Burr, Ford. 1874
- 179 8 Extracts from "The discovery of supposed human footprints on aeolian rock at Warnambool," C.G.W. Officer, Vict. Nat. 9:32-39. On dune limestone & recent dunes. 1892-3
Refs. to J.E.T. Woods, C.S. Wilkinson, Tate, Dennant, Archibald, Darwin, Rev. J. Matthews, Prof. Spenser, - but no refs. given by the author (officer).
- 180 3 Extracts from F. Chapman "Open-air studies in Australia," (ref. not given) re. raised beaches & kitchen middens in Pt. Phillip Bay.

- 181 11 Lengthy extracts from R. A. Daly "A general sinking of sea level in Recent times." Proc. Nat. Acad. Sci., U.S.A. V. 6. Incl. ref. to work of Andrews, Sussmilch and Cadel. 1920
- 182 3 General references on Australian coastal physiography. Le Sowef, T. S. Hart, R. T. Patton, A. Coulson, W. H. Maze, Saint-Smith.
- 183a 2 Notes from "Swinging sea level of the Ice Age." R. A. Daly. Bull. Geol. Soc. Am., 40:721-734. Incl. refs. (incomplete to other workers. - with particular refs. to 5m. recent up-lift). 1929
- 183 12 (Sea Level Terraces) Extensive notes from J. A. Steers, The Unstable Earth. Some Recent Views in Geomorphology. London. Incl. ref. to Davis, Baulig, Daly. Mainly on terraces & related forms. 1932
- 184 7 The Wave cut benches & notes from R.A. Daly, Our Mobile Earth. Notes re world wide occurrence of a c. 20ft bench and to 20 ft. drop in sea level. 1926
- 185 1 Storm Beach. Extract from "The geology North Rona." Geol Mag. Apr. 1932: 179. Re. power of storm waves. 1932
- 186 1 On elevation & depression of a coast line, Japan, after earthquake (incomplete ref.). See Geog. Jour., March 1924, p. 241. 1924
- 187 1 Refs. to Victorian coastal physiography & geology. T.S. Hall, Sorrento dunes, Vict. Nat., 1901; T. S. Hall, Vic. Hill & Dale; T. S. Hall, Gippsland lakes, Vic. Nat.; Chapman & Gabriel, Warnambool tuff, Le Souff, (all incomplete refs.). 1901
- 188 4 1) Summary of Pt. Phillip Bay paper read at Roy. Soc. Vic. 10/9/30
2) Copy Argus writing and J.T.J.'s Roy. Soc. paper about Pt. Phillip

- Bay erosion. 3) Longhand & typed versions. Full title: "Erosion and sedimentation in Port Phillip Bay and their bearing on the theory of a Recent relative uplift of the sea floor."
- 189 4 Correspondence with Skeats and Singleton re prep. and publication of Pt. Phillip Bay paper. Concerns reduction of size mainly.
- 190 4 Correspondence with State Rivers & Water Supply Commission re obtaining height in r. to Pt. Phillip Bay work. Letters of no particular consequence.
- 191 6 Refs. and some notes on raised beaches, river terraces and coastal physiography generally. Daly, Reid, Johnson, Twenhofel, La Touche, Patton, Wright, etc.
- 192 10 Extensive notes from R. A. Daly. "A Recent worldwide sinking of ocean level." Geol. Mag., June 1920:246-241. 1920
- 193 7 Extensive extracts from R. A. Daly "Pleistocene changes of sea level." Am. Jour. Sci., 10:281. 1925
- 194 4 Notes of date and location of beach sand collected by J.T.J. No indication of what done with them. 13/2/28-22/11/28.
- 195 2 Notes on the origin of terraces (river) from Hardman. Notes and Proc. Leg. Cl(?) W. A. 1882 2nd session. (Appendix D to J. Forrest's paper No. 23) J.T.J. note. 1883
- 196 2 General reference on Australian physiography. S.A., Vic., N.S.W., Tas., 1874-1923.
- 197 2 Notes on asymmetrical divides along shores from Johnson's Development of the Shore-line. J.T.J. marginal note: "Bearing of this on Griff Taylor's idea of faulting along a coast to account for short coastal streams."
- 198 8 1) Notes on: Newer Basalt topography, river terraces, raised beaches, recent
