

- 246 2 Notes on Pleistocene & Recent -- Malay States - from R. F. C. Reed, Geol. of British Emp. Evidence of submergence & uplift.
- 247 10 Notes on the Pleistocene of India from Geology of India for Students, D. N. Wadia, Macmillan, London, 1926. Extensive notes. 1926
- 248 3 Notes on "Classification and duration of the Pleistocene period," G. F. Kay, Bull. geol. Soc. Amer., 42:425-466, 1931. Definition of the Pleistocene, with historical review. 1931
- 249 3 Notes on the Quaternary from L. D. Stamp, An Introduction to Stratigraphy, 2nd Ed., London, 1934. 1934
- 250 2 Notes on Pleistocene from J. W. Gregory & B. H. Barrett General Stratigraphy, Methuen London, 1931. 1931
- 251 Notes on Quaternary period from R. C. Moore, Historical Geology, McGraw-Hill, New York & London, 1933. Extensive notes. 1933
- 252 2 Notes on geomorphology from W. C. Hatfield "The geology of the Solwezi District, Northern Rhodesia," Q. J. g. S., 93:2:127-155. 1937
- 253 1 Copy title page of reprint of McCann, E. T. (1938) on New Mexico (no notes). 1938
- 254 1 J. T. J. title (group) page of correspondence with Clarke re W. A. Physiog. & W. A. text book. Mss. 254-259.
- 255 3 prints (photos) not copied.
- 256 3 Maps (sketch) & section. 256(1) Section A-B (see 256 (2)) near (north of) Perth. 256(2) sketch map in Perth district. 265(3) sketch map at Ballsbrook (near Perth).

- 257 16 Correspondence with E. de C. C. re Clarke's Swan Physiography and Geology (High school text). Also J. T. J. criticism of same sent to E. de C. C. (257 (7-12)) Impt. corresp. & critique.
- 258 9 Correspondence with E. C. Clarke on personal matters, with some professional remarks. Important series in portraying the character of both Clarke & Jutson. Feb. 9, 1932-Nov. 30, 1932 (several letters).
- 259 28 (See correspondence with E. de C. Clarke on professional matters including origin of the Darling Scarp - and discussion of Johnson's ideas on it given in talk in W. A. Aug. 1929 -- Jan. 1932 (258 & 257) follow chronologically on these.
- 260 2 Refs. to Chapman F. on the cherty limestone with Planorbis, Mt. Elder Range, W. A. Proc. Roy. Soc. Vic., 50:1(n.s.):59 et seq.
- 261 3 Newspaper cutting on freak whirlwind in Melb. The Sun, Mon., Jan. 18, 1937 photo. and description.
- 262 10 Copy of Clarke's report on W. A. to ANZAAZ Mtg Melb. 1935. (1) The Extent of the Cretaceous sea.
(2) Eocene-Oligocene emergence. Sign. of duricrust is questionable.
(3) The Miocene submergence
(4) Post Miocene Events
Summary. 1935
- 263 3 Correspondence E. de C. C. to J. T. J., Feb. 18, 1935. Reply to J. T. J. letter of "6'th inst. with enclosed report" [?] (1) On Darling Scarp; (2) suggested fault bet. Zanthers & Kitchener; (3) on selection of rocks for J. T. J. from his [survey?] collection. 1935
- 264 5 Dated 13/11/1934. Copy of: ANZAAS Research Committie on Structural

and Landforms. Report on W. Australia
by J. T. J. Copy sent to Fenner
13/11/1934.

1934

- 265 3 Argus cuttings on mining leases that
include reference from "Jutson's
Boulder" near "Jutson's Rocks", W. A.
Argus 2/5/1923, 1/3/1923. 265(3) Refs.
to Jutson's Rocks "apparently near
Mt. Shanton." (1) See Annual Rept. Govt.
Geologist W. A., 1923 p. 23. (2) Report
on the mining features in Ann. Rept.
Mines Dept. W. A. 1923 p. 53-57.
(3) "[?] in Talbot's account of the
Mt. Shanton Country in ALM Prog. Rep.
G. S. W. A., 1919. 1934
- 266 5 Correspondence with Dr. Charles
Fenner desire to drop out of the
ANZAAS physiographic committee "for
purely personal reasons." Fenner
requests written rept. if not spoken,
& J. T. J. agrees, rather than leave
Fenner stuck. Aug. 20 - Sept. 22,
1934. 1932 1934
- 267 7 Correspondence with Charles
Fenner & E. de C. Clarke re ANZAAS
Struct. & Landforms comm. report.
Both J. T. J.'s & E. C. C.'s
were at Melbourne mtg. 1934.
Despite differences of views
expressed in the two reports. 1932 1934-35
- 268 2 Note from "Block faulting in the
Klamath Lakes region, U. S. A.",
D. W. Johnson, Jour. geol. V.
26, no. 3 Ap-May 1918. Note on
antecedence & dislocation of
drainage. "This reminds me of
Woolnough's explanation of the
Stirling River, WA." 1918
- 269 2 Refs. on W. A. geology: E. de C. Clarke
on Precambrian. Press. Address,
Jour. & Proc. R. Soc. W. A., V. 9;
L. Glauret on fossil plants,
Jour. & Proc. R. S. W. A., V. 10;
E. S. Simpson on new mineral
"goongarrite." Jour. & Proc.
R. S. W. A., V. 10 1932 1923-23

- 270 6 Correspondence with L. C. Ball
(Chief geol. Q'ld) & E. de C.
Clarke re possible fault between
Zanthus & Kitchener, W. A.
- 271 3 Extracts from "The geology &
petroleum prospects of part of
O. P. A. 253 H. near Dangaragan"
(F. G. Forman). Ann. Prog. Rept.
G. S. W. A., 1934. Re history
of Moore River & Dandaragan Scarp. 1934
- 271a 2 Ext. from F. G. Forman "Final
report on the correlation of the
artesian bores in the metropolitan
area, Perth," Ann. Prog. Rept.
G. S. W. A., 1932:9-10. Ref. to
coastal L/S to 180 ft. B.S.L. 1932
- 271b 2 Ref. to F. G. Forman on rock holes,
gnammas, pools & soaks. Between
Thatcher's Creek & Elder Cr. in

Warburton Range Area. F. F.
Forman, Ann. Prog. Rept. Geol
Survey W. A., 1932. 1932
- 272 4 Notes from R. W. Fletchers, R. A.
Hobson "The physiography &
geology of the upper swan area,"
Jour. Roy. Soc. W. A., V. 18.
Mainly on duricrust and
laterite. 1931-32
- 273 2 Extracts from F. G. Forman on
"shelving bottom of a dry lake."
In Ann. Prog. Rept. Geol. Surv.
W. A., 1931, 17-19. On alunite
deposits on a lake 4 mi. south of
Lake Shandler, W. A. Focus (JTJ)
on shelving bottom of the lake and
uneven nature of the lake floor. 1931
- 274 3 Extracts from F. G. Forman on the
Boogardie Deep Loaad. Ann. Prog.
Rept. G. S. W. A., 1932:11-12.
On the nature of the deposits
therein; including laterite. 1932
- 275 2 Ref. & brief note on laterite in the
Denmark Dist., W. A. by Blatchford
in Ann. Prog. Rept. W. A. G. S.,

1931. Laterite on hill crests and in lower portions (of the topog.). 1931
- 276 2 Notes from "coastline between Denmark & Normalup inlet, W. A." Blatchford, Ann. Prog. Rept. G. S. W. A., 1931:4, on the dune deposits that extend a few miles inland - beach sand the source - lying on gneissic floor. 1931
- 277 2 Extracts from Blatchford, Ann. Prog. Rept. G. S. W. A., on coastal lime sand. -- from Augusta on the south to at least Geraldton in the north. Origin present action, shell fragments & wind action. At Boranup, sand dunes several miles long & wide at least 200' thick have buried a forest. 1931
- 278 3 Notes from F. G. Forman "inspection of Gingin district for the Department of Agriculture, Ann. Prog. Rept. G. S. W. A., 1932:8-9. Junction of sandy plateau & coastal plain sediments marked by the Poison Hill Quinn's Pole scarp -- prob. a fault. Continuation of Darling Fault J. T. J. notes - is it branch of the main fault, or Woodward "bifurcation." On recent coastal dunes with limestone patches. 1932
- 279 2 Extracts from F. G. Forman "Artesian water possibilities on Kimberley Downs & Napier Downs Stations, West Kimberley," Ann. Prog. Rept. G. S. W. A. 1930:9-10. Notes on wet & dry season features of Lennard R. & surrounding physiography on Mesozoic sediments. 1930
- 280 2 Notes (extracts) from F. G. Forman on caves at Point Walter Recreation Reserve, Perth: from "The underground water supply at Point Walter Recreation Reserve," Ann. Prog. Rept. G. S. W. A., 1930:10-11. On caves in coastal ls. & calc. S. S. -- from underground streams, not sea

- caves. 1930
- 281 2 Notes on haematite jasper ridges & quartz blows in the Edjudina District from "Notes on the geology of Thompson's Find, Edjudina," Ann. Prog. Rept. Geol. Surv. W. A. 1930, p. 12. 1930
- 282 2 Brief notes & refs. from Ann. Prog. Rept. G. S. W. A. To Blatchford on the sunkland bounded by the Darling Scarp....p. 10-12. Forman on the Desert Basin, W. A., p. 21 et seq. 1930
- 283 2 From Blatchford & Clarke on the Precambrian of W. A. Ref. to A. Montgomery's views expressed in address to Roy. Soc. W. A. regarding W. A. physiog. history as deduced from Nallagine, Mosquito Cr. & Kalgoolie series. 1929
- 284 2 Notes from Ann. Prog. Geol. Surv. W. A., 1929. Blatchford on distribution of the Miocene p. 8-9. 1929
- 285 2 Notes from Ann. Prog. Dept. Geol. Surv. W. A., 1929. Blatchford on evidence of cyclic salt in rock pool on granite outcrop. 1929
See also Ann. Rept. for 1928 on cyclic salt & refs.
- 286 2 Ref. to the work of the Mackay Aerial Survey Expedition to Western and South Australia, 1935. See the Australian Geographer 2:8:3-7, with map showing sandridges & dry-lakes. 1935
- 287 29 287(1-18) Lily Jutson longhand description Christmas 1911 trip to Perth, Busselton & Yallingup caves. 18 pp.
- 287(3) Note Lily Grose of Melb.
287(19-29) Description of day trips to Yallingup & Margaret caves, W. A. 1911-12 (Dec. 21 - Jan. 3 period).
- 288 6 Typed copy of Report to AAAS (Hobart Mtg. 1928) by JTJ. "Geographical
