Introduction
You can use Library Search from within your reading list to quickly find and add items that the Library holds.

Procedure
1. Click on the + to open the Add items column.

2. Click in the search box and add your search words. Then, click the search icon.
3. Hover your mouse over the item that you wish to add. Then, click-and-drag the item over into the relevant section of your reading list.

Note: you can move the item to another section of your reading list at any time by click-and-dragging it up or down.
