Introduction

If you have a combined (parent) course that needs to be split into separate (child) courses you can use the same Reading List for both courses.

Procedure

Add the Reading List to the first separate (child) course

1. Select My Lists from the menu, from any course Reading List

   ![Epidemiological Research Methods](image)

   - Updated a month ago
   - 46 items in 14 sections
   - 5/46 items are in process

   ![Manage course association]

   - Unpublish
   - Duplicate Citations in All Sections
   - Duplicate list
   - Lock
   - Manage course association
   - Configure list discussions
   - Permalink
   - LTI Direct Access
   - Export
   - Print
   - View list as a student
   - Display recent list changes
   - Delete

2. Open the Reading List from the combined (parent) course

3. Click on the ... icon at the top of the Reading List

4. Select Manage course association
5. Click the box next to **Look up course** and enter course details (course code or name) to find the separate (child) course

![Manage course association](image)

6. Click on **Associate & Close** (no need to edit any course details on this screen first)

![Manage course association](image)

**Duplicate this Reading List for the other separate (child) course**

7. Open the Reading List that was added to the first separate (child) course

8. Click on the **…** icon at the top of the Reading List

9. Select **Duplicate list**

![Duplicate list](image)

10. Select **Manage course association**

11. Repeat steps 5 and 6
