Beyond the Library of the Future

University Library Strategic Plan 2019-2021

Introduction

In early 2016 the University officially endorsed the Library of the Future Report and its recommendations. This strategic document was the outcome of an extensive consultation process, coordinated by a comprehensively representative committee from across the University.

The report made 25 recommendations for "a bold and agile future library" under the themes of Library Services, Library Collections, Library Organisation, and Library Facilities and Systems.

In what has been a period of significant change, most of the recommendations from that report are now completed or embedded in policy and practice. Without losing sight of the invaluable work that informed that report, it is now time to move on.

In the latter stages of 2018, library staff were actively engaged in a series of workshops to develop a new strategic plan that would take us "Beyond the Library of the Future".

A matrix-like approach to presenting the library’s strategic priorities demonstrates clear alignment with the University’s strategic direction and will ensure the library continues to be a bold, agile, and essential contributor to the learning, teaching and research aspirations of the University.

THEMES THAT FORM A FRAMEWORK FOR THE PLAN:

LEADERSHIP IN INFORMATION MANAGEMENT
HIGHLY SKILLED, MOTIVATED AND INNOVATIVE STAFF
QUALITY FACILITIES, RESOURCES, SYSTEMS AND SERVICES
PROACTIVE PARTNERSHIPS

THESE THEMES HAVE BEEN CROSS-REFERENCED AGAINST THE UNIVERSITY’S STRATEGIC PILLARS:

CONNECTED TO THE GLOBAL WORLD OF IDEAS
A RICH AND DIVERSE COMMUNITY OF TALENT
RESEARCH THAT SHAPES THE FUTURE
A 21ST CENTURY EDUCATION FOR A GROWING COMMUNITY OF LEARNERS
THE BEATING HEART OF ADELAIDE

Leaders in Information Management

> Take the lead in the development of a Digital Preservation Strategy and Information Management Policy for the University
> Continue to improve access to, and discovery of, library information resources
> Advocate and communicate on emerging trends and issues in scholarly information practice, including Open Access and developments in FAIR programs and projects
Staff who are highly skilled, motivated, and innovative

> Perform a skills audit to formulate development plans for all staff
> Undertake workforce planning to identify single points of failure and solutions to address
> Develop an internal communications plan
Quality facilities, resources, systems and services

- Undertake an audit of all data and statistics collected, review for value and purpose, and identify those that best inform development and improvement
- Develop a physical collection management plan for each library and store
- Produce a service catalogue
- Improve financial management processes and procedures, with an emphasis on those associated with the library resources budget
- Undertake space and service reviews for Waite and Roseworthy libraries
- Review library and UniARK systems, applications and integrations; identify future priorities and implement a new support model with ITDS
- Develop and embed an online information literacy training program
- Provide researchers with top quality research support and services
Proactive partnerships

> Grow the Library Endowment fund to increase investment in the development of deep and broad library collections, prioritising the purchase of primary source digitised content, electronic books, and electronic journal archives
> Formalise agreements with internal and external partners
> Develop an engagement plan, including an external communication plan
> Review Rare Books & Special Collections and University Archives’ potential to develop academic and community engagement
> Work with relevant areas of DASE on the University’s recruitment and retention strategy and consequential projects and activities
> Leverage Yaitya Ngutupira and appointment of Indigenous Liaison Librarian to develop engagement with Wirulta Yarlu
In order to be successful we will:

- Ensure staff are appropriately skilled
- Prioritise and plan internal and external communication
- Plan effectively, establishing timeframes, budget, scope, and responsibility
- Engage and empower staff by fostering a positive and energetic culture
- Put in place the relevant and necessary systems, processes, and policies
We will know we are successful if we:

- Achieve our goals
- Complete projects within the pre-defined parameters
- See evidence of improved team culture
- Observe that staff have increased their skill set
- Have examples of positive follow up and consequences, and evidence of continuous improvement for individuals, teams, and the library as a whole
