Introduction

You can add as many sections as you need to your reading list and name them as you require to (e.g. by week, topic, kind of item). Sections can be added at any time and will appear in the Reading List immediately.

Procedure

1. Click **NEW SECTION**.

   ![Epidemiology for Health and Medical Sciences](image)

2. Add a title and a description, if required.
3. Add dates for when you want the reading list to be viewable by students.

   **Note**: if you don't add dates, the section will be visible for the whole course duration.
4. Click **CREATE**.
Title: Week 3

Description: Your resources for Week 3 - please view at least 5 items.

from- 19-March-2019   To- 26-March-2019

☐ Section visible only during these dates
