Introduction

The first time you open Course Readings the screen will prompt you to create a list. Once you have done this once you will not see this option again.

**Note:** When creating a list you will need to create at least one section as well, or you won't be able to save the list.

If you are rolling your course over for a new teaching period, you can re-use a course readings list. See guides: **Re-use an active list for a new teaching period** or **Re-use an old list for a new teaching period**.

Procedure

1. In your MyUni course you are preparing, click on **Course Readings**.

2. Under **Create a new reading list from scratch**, click **CREATE IT**.

3. Name your reading list using the same name as your course.

4. Add a description as required and click **CREATE**.
5. Under **Select a template**, click on **Blank**.

   ![Image of a template selection interface](image)

**Associate your list with a course**

**Note**: you can also come back and do this later by choosing the **NOT NOW** option.

1. Click on **ASSOCIATE LIST**.

   ![Image of an association interface](image)

2. Begin typing the name of your course and a list should be generated. Select your course name from the list.

   ![Image of a course search interface](image)
3. Check the course details and adjust if necessary. Then click **ASSOCIATE & CLOSE**.

![Manage course association](image)

**Add a section to your course**

1. Click on **NEW SECTION**.

![Epidemiological Research Methods](image)

2. Add a title and a description, if required.
3. Add dates for when you want the reading list to be viewable by students.

**Note:** if you don't add dates, the section will be visible for the whole course duration.

4. Click **CREATE**.
