

Accessing The HPE Content Manager Web Client

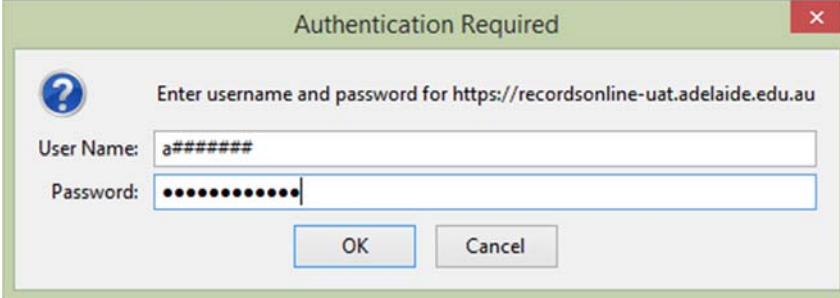

Introduction

The HPE Content Manager Web Client allows you to connect to the University's records system using a web browser. It offers a streamlined interface that includes the most frequently used HPE Content Manager features.

Note: Chrome and Firefox are recommended browsers. Internet Explorer may not provide an optimal user experience with the Web Client.

Procedure

1. Open a **Chrome** or **Firefox web browser** and access the Web Client using this address:
<https://recordsonline.adelaide.edu.au/hpecontentmanager>
2. **Log in** using your usual **UofA** credentials.

3. Click **OK**.
4. Save the webpage as a **favourite / bookmark**.
