

# Course Readings: export a bibliography

## Introduction

Course Readings allows you to export or print individual readings, sections or a full reading list as a bibliography. The bibliography can be exported into several different citation formats including APA, Chicago, Harvard (UofA) or MLA, with or without permalinks and can be saved in various file formats including Word, PDF and Excel.

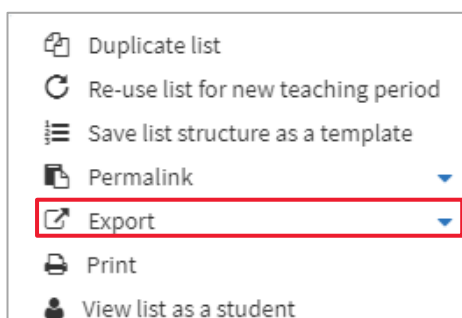

**Note:** You may need to manually edit exported citations to conform to the chosen referencing style.

## Procedure

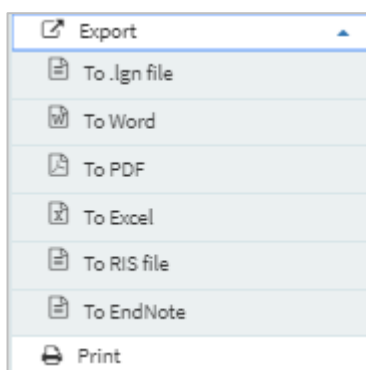

1. Open the relevant Reading List
2. Click on the **...** icon at the top of the Reading List to export the full Reading List

3. Select the **Export** drop down list

4. Select the relevant **file format** from the drop down list

5. Select the desired **bibliographic style** from the drop down list
6. Check or uncheck the **Permalink** options

### Export To Word

Bibliography style: Harvard (UofA)

Include the following fields:

Permalinks  
 Brief link  Full link

CANCEL EXPORT

7. Click on **Export**. Your file will download as the file type you specified.

**Note:** You can also complete this process at the individual citation and section level. To do this click on the relevant ... icon follow the same procedure.
