

# Course Readings: add Cite It! to your browser toolbar

## Introduction

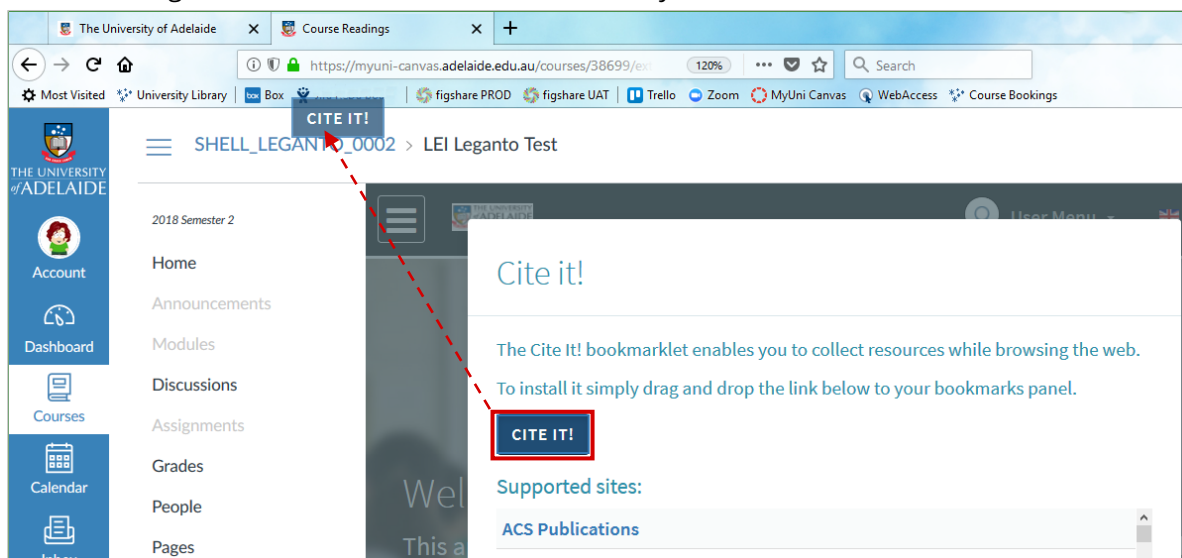

Cite It! is a browser bookmarklet that allows you to add items from the web to your reading list. You only need to add Cite It! to your browser once, but you will need to add it for each browser you use (e.g. Chrome and Firefox).

## Procedure

1. From the **Course Readings** homepage in your MyUni course, select **User Menu** and then **Cite It!**.

2. Click-and-drag on the **Cite It!** button to move it onto your browser's Bookmarks Toolbar area.

3. Click on the **Cite It!** link on your browser toolbar to use at any time.
