seek LIGHT

## **Drop-in centre**

The MLC Drop-In centre is a relaxed place where you can come to talk with friendly tutors about learning and using maths for your coursework. You don't need an appointment, just drop in!

**Opening Hours** 10am to 4pm, Mon - Fri during teaching weeks, SWOT and exams (also open at selected times during breaks — check the website for opening hours)

**Visit** Level 3, Hub Central, North Terrace Campus (underneath J11 on the campus map)

## **Seminars**

The MLC gives seminars on maths topics relating to your courses, as well as on learning skills to help you succeed. You can even request seminars if you feel there is something that would help you.

## **Online resources**

The MLC's website has resources to help with your maths skills, as well as resources tailored to particular uni courses, including assumed knowledge worksheets, reference sheets, video worked examples, and revision seminars.

## **Bridging course**

The MLC's self-paced bridging course can be used in place of SACE Mathematical Studies as a prerequisite. Students start at any time and work at their own pace using online materials.

## **Mathematical art and play**

The MLC runs games and art events throughout the year, including a weekly games and puzzle session called One Hundred Factorial. Everyone is welcome to join in the fun!
