

SOLVING PROBLEMS

PREPARE YOURSELF

You can do it!

UNDERSTAND THE PROBLEM

Write or draw
– it helps you think.

What do all the words
and symbols mean?

Look for other
related information.

DECIDE WHAT TO DO

What is
the goal?

Look at other
problems for inspiration.

Break the problem
into smaller steps.

DO IT

Focus on one
step at a time.

Keep the goal
in mind.

If it isn't working,
try something else.

LOOK BACK

Did you reach
the goal?

Could someone else
understand your work?

Find something
you can learn.

REWARD YOURSELF

You did it!
