## Intensive Language Courses

Intensive courses are designed for beginners who wish to learn a language in a short period of time.

Classes are held twice weekly and provide 60 hours of instruction over 10 weeks. The intensive courses enable students to retain grammar and vocabulary and develop communication skills at a greater rate than in equivalent courses of longer duration. Students should be prepared to commit to an intensive study program during these ten weeks, with equivalent home and classroom hours.

You may elect to take an optional Assessment of Competency and will be awarded a Certificate of Competency upon achieving the required standard. Textbooks are required at an additional cost, details available upon enrolment.

Upon completion, you can enrol directly into the second level of the 30-week language program that commences in April.

## Introduction Language Courses

Introduction courses are short in duration, targeted at complete beginners and provide a very basic, yet practical, introduction to the language. Classes are held once a week and provide 16 hours of instruction over 8 weeks.

Ideal for simple social interaction and travel, these practical courses will give you the confidence to communicate in routine and high-frequency situations and, importantly, will also enhance your socio-cultural understanding and survival skills where the language is spoken.

## Full Year Language Courses

Full year courses are designed to provide a quality learning experience to busy adult learners. Classes are held once a week and provide 60 hours of instruction over 30 weeks with a mid-year break from 8th to 19th July 2019.

We offer a suite of courses catering for the beginner through to the more advanced learner.

You may elect to take an optional Assessment of Competency and will be awarded a Certificate of Competency upon achieving the required standard. Textbooks are required at an additional cost, details available upon enrolment.

Upon completion, you can enrol directly into the subsequent level of the language that begins in 2020.

## Start at anytime of the year!

Start studying in our full year courses at any time of the year. Our Full Year Courses run from April-November but if you already have some language experience you can join at any time of the year.

## No entry requirements

Open to all adult learners, PCE's language courses do not have entry requirements and do not require any prior knowledge of the language to commence a beginner's course.

Our courses have been developed as an educational course and are not credit bearing, therefore are not intended to lead to a qualification or institutional credit. There may be institutions that offer credit for completion of study; please check with respective institutions before enrolling.
