OVERVIEW

The University aims to provide attractive conditions of employment for its staff. This policy supports the University's primary goals of teaching, learning and research by supporting the attraction, retention, recognition and rewarding of staff through remuneration and a range of other benefits.

SCOPE AND APPLICATION

This policy applies to all staff members. Any exceptions are detailed in the relevant procedures. This policy is intended to operate in conjunction with other complementary University policies, the University of Adelaide Enterprise Agreement (as amended) and with practices and business processes that collectively enhance the University's good governance and best management practice objectives.

POLICY PRINCIPLES

Conditions of employment with the University in relation to remuneration and financial/non-financial benefits are based on the following principles:

1. Remuneration and conditions of employment encourage, recognise and reward high performance by staff members and contribute to the overall success of the University.
2. Remuneration and conditions of employment comply with relevant legislation, industrial requirements and obligations.
3. Remuneration levels and conditions of employment are set according to the University's strategic and operational requirements, the Executive Manager Framework and reflect the broader economic environment in which the University operates.
4. Remuneration practices are based on principles of fairness and pay equity.
5. Remuneration practices are transparent and remuneration information is maintained confidentially and in accordance with privacy requirements.
6. Work value and classification standards are recognised as the underlying elements for determining remuneration.
7. Financial and non-financial rewards motivate staff to achieve high performance and where possible are tailored to meet the needs of the individual and the University.
