3. PRINCIPLES

3.1 Attraction/Retention Loading

An Attraction/Retention loading allows managers flexibility to attract and retain staff with specialised expertise in their discipline or profession, recognising the demand within the current employment market.

- 3.1.1 The loading will be paid fortnightly and is included in the salary package. As such, when the individual is on paid leave the loading will continue to apply (e.g. annual, parental leave). The loading will be expressed as a fixed dollar amount, which does not increase with salary increments or with increases to the base salary.
- 3.1.2 The Faculty/Division is financially responsible for any external salary review request. Loadings will be charged to the same cost centre to which the staff member's salary is charged and the School/Branch is responsible for the cost of the loading.
- 3.1.3 Attraction/Retention loadings (unless approved prior to the 28th December 2012) are not superannuable except as required to meet the Superannuation Guarantee with respect to superannuation payable on [Ordinary Time Earnings](#). The cost of meeting any superannuation payable will be borne by the School/Branch.

3.2 Higher Duties Allowance

Professional staff members who are required to perform duties at a higher level than their existing position, are entitled to payment of a higher duties allowance in accordance with clause 3.7 of the University of Adelaide [Enterprise Agreement \(as amended\)](#). The higher duties allowance does not apply to academic staff. Where:

- 3.2.1 The difference is less than 1.5% of their substantive salary, the higher duties allowance will be paid at the next appropriate increment.
- 3.2.2 It is expected that the higher duties allowance will only be granted for the period that the staff member performs the higher classified position, and that the allowance is a **temporary** arrangement (e.g. often used to back-fill for leave).
- 3.2.3 A professional staff member has been in receipt of a higher duties allowance in excess of two (2) years, they will be appointed to the higher classified position where that higher classification position is vacant and where the previous staff member will not be returning to the higher classified position.
- 3.2.4 The higher duties allowance may be adjusted if the staff member will not be undertaking the full function of the position.

3.3 Responsibility Loading

A Responsibility Loading provides managers with the flexibility to remunerate an academic or professional staff member who performs duties or holds a greater level of responsibility in addition to their substantive position.

- 3.3.1 A professional staff member may be paid a responsibility loading where deemed appropriate if they are ineligible for a higher duties allowance.
- 3.3.2 The loading will be paid fortnightly and is included in the salary package. The loading will be expressed as a fixed dollar amount, which does not increase with salary increments or with pay increases to the base salary and will be charged to the same cost centre to which the staff member's salary is charged.
- 3.3.3 Responsibility Loadings (unless approved prior to the 28th December 2012) are not superannuable except as required to meet the Superannuation Guarantee with respect to superannuation payable on [Ordinary Time Earnings](#). The cost of meeting any superannuation payable will be borne by the School/Branch.

3.4 Performance Bonus

A Performance Bonus provides managers with the flexibility to recognise exceptional and outstanding performance in achieving specific outcomes.

- 3.4.1 Performance Bonus payments are not superannuable except as required to meet the Superannuation Guarantee with respect to superannuation payable on Ordinary Time Earnings (see definition).
- 3.4.2 The cost of meeting any superannuation payable will be borne by the Faculty/School/Branch.
- 3.4.3 The respective School/Branch is responsible for the cost of the bonus payment.
- 3.4.4 The performance bonus is a one-off payment and is expressed as a fixed dollar amount.

4. PROCEDURES

- 4.1.2 To determine when an Attraction/Retention Loading may be appropriate, the Head of School or Branch/Faculty Executive Manager/Faculty Executive Director (or delegate) will:
 - 4.1.2.1 Determine whether the skills or attributes proposed to be remunerated through the loading are aligned with the University's strategic objectives and consider the ability of the School/Branch to meet these objectives if the staff member or new appointee is not appointed or retained.
 - 4.1.2.2 Determine that the skills, experience and attributes of the staff member or new appointee (to be assessed for the loading) are at a significantly high level and are in high demand within the employment market.
 - 4.1.2.3 Assess the financial position of the School/Branch, where the University is paying the loading, and its ability to commit to the payment of a loading for the period proposed.

 - 4.4.1.4 Determine whether the staff member has outstanding performance that has produced specific outcomes and where the staff member has performed exceptionally but has reached the top of their incremental steps so that an accelerated increment is not an option.

Note: There is no obligation on the University to pay a performance bonus in subsequent years.

- 4.4.1.6 Ensure that a staff member has participated in the PDR process. An exception to this rule would be where a bonus is paid to recognise the efforts in a once-off extraordinary event.
