Vice-Chancellor and President
Professor Peter Rathjen
Message from the Vice-Chancellor and President
Founded in 1874, the University of Adelaide is Australia’s third-oldest university and consistently ranked in the top 1% globally and number one in South Australia. Our reputation for excellence and breaking new ground has been forged by a continuous stream of exceptional people. We proudly count among our distinguished alumni five Nobel Laureates and over 100 Rhodes Scholars. Australia’s first female prime minister and Supreme Court judge were also University of Adelaide graduates.

Today, our vibrant culture continues to attract some of the world’s best and brightest—academic leaders from all corners of the globe and students from more than 100 countries.

**Outstanding teaching**

University of Adelaide students learn with the guidance and support of exceptional academic staff. Operating at their disciplines’ cutting edge, they enthusiastically share their passion for new knowledge and encourage students’ own pursuits of world-changing discoveries.

The University also provides a wide range of student support services and opportunities, all of which are detailed in these pages. This nurturing environment—and unwavering commitment to the highest teaching standards—enables students to fulfil their potential and make significant contributions to the world.

**Global research impact**

The University of Adelaide is committed to conducting world-class research with global, real-world impact. A member of Australia’s prestigious Group of Eight research-intensive universities, we enhance and sustain life for people and planet by addressing the world’s most significant challenges.

Our areas of particular strength include: food and wine; defence and security; health and medicine; engineering and technology; life sciences; mining and energy; and the environment.

* Economist Intelligence Unit Global Liveability Index 2018
The QS Intelligence Unit rates the University of Adelaide a Five Stars Plus institution, based on rigorous independent data collection and performance metrics analysis.

**5 STARS PLUS QS RATING**
- Teaching
- Employability
- Research
- Internationalisation
- Facilities
- Innovation
- Inclusiveness
- Life Sciences and Medicine

**27,000 STUDENTS**

**7,000 INTERNATIONAL STUDENTS**

**AREAS OF STUDY**

- Education, Humanities, Music and Social Sciences
- Health and Medical Sciences
- Architecture, Business, Economics and Law
- Engineering, Computer and Mathematical Sciences

**100 COUNTRIES REPRESENTED IN STUDENT POPULATION**

**TOP 7 REGIONS**
- 01 China
- 02 Malaysia
- 03 Hong Kong
- 04 Singapore
- 05 India
- 06 Vietnam
- 07 Indonesia
**FACILITIES**

The University has invested over AUD $500 million across our campuses since 2011 in a major capital works program, delivering a suite of world-class facilities and infrastructure.

**Graduate attributes**

The Adelaide education experience equips graduates with:
- career and leadership readiness
- deep discipline knowledge
- critical thinking and problem-solving skills
- teamwork and communication capabilities
- intercultural and ethical competency
- self-awareness and emotional intelligence.

**Study Overseas**

We are committed to providing all students with opportunities to study internationally. Students have the possibility of a ‘third country experience’ through a range of programs, including student exchange, study tours, summer and winter schools, internships and placements. With planning, there is no need to extend a degree to accommodate these experiences. Credit is usually awarded for the study undertaken.

Students participating in an exchange program remain enrolled as full-time students at the University of Adelaide while overseas, and continue to pay their usual tuition fees. They do not pay tuition fees at the host university. There are many exciting opportunities in the Americas, Europe, Asia-Pacific region and Africa.

To discover more, visit: adelaide.edu.au/study-overseas

^ Includes the disciplines of: Anthropology and Development Studies; Asian Studies; Sociology, Criminology and Gender Studies; Geography, Environment and Population; Politics and International Relations.

# Includes the Entrepreneurship, Commercialisation and Innovation Centre (ECIC).
The University of Adelaide has three campuses in South Australia: North Terrace, Roseworthy and Waite.

North Terrace
The University’s main campus on North Terrace is renowned for its historic architecture and lively atmosphere. Located in the heart of Adelaide’s central business and shopping district, the campus is adjacent to the State Library, Festival Theatre, South Australian Museum, Art Gallery of South Australia, Adelaide Zoo, and Botanic Gardens.

The University’s Adelaide Health and Medical Sciences building is also within walking distance, in the South Australian Health and Biomedical Precinct.

Waite
The Waite campus is home to the internationally renowned Waite Research Institute—the largest agricultural research institute in the southern hemisphere and third largest in the world. A number of research partners are also co-located there. Staff and students work closely with these organisations, providing a unique opportunity for collaboration on national and international research projects. Research areas include wine, plant biotechnology, plant breeding, sustainable agriculture and land management.

The campus is located eight kilometres south of the city centre and is easily accessible by public transport and a Waite-North Terrace campus shuttle bus service. Campus services include a childcare centre, library, cafe, gym and sporting facilities.

Roseworthy
Roseworthy campus is an internationally renowned centre for excellence in dryland agriculture, natural resource management and animal production. Set on over 1,600 hectares of land, it is home to South Australia’s only veterinary school. It features an AUD $37 million veterinary clinic, where students can gain clinical experience while studying.

The campus is located 55 kilometres north of Adelaide and 10 kilometres from the town of Gawler (population 26,000). Access is available by a North Terrace-Roseworthy campus shuttle bus. Campus services include student accommodation, a swimming pool, library, cafe and fitness centre.

WHY STUDENTS LOVE ADELAIDE

With all the advantages of a major city but few of the inconveniences, Adelaide offers an enviable lifestyle and ideal study environment.

**Australia’s most affordable mainland city**
Adelaide is one of the most affordable mainland cities in Australia. The cost of living in Adelaide is up to 19% lower than Sydney and Melbourne.*

**A truly liveable city**
Safe and relaxed, Adelaide ranked as one of the world’s top 10 most liveable cities.^

**Culturally diverse**
South Australians hail from over 120 different countries, creating a wonderful mix of cultures and influences. One in five South Australians were born overseas!

Adelaide is a great city for international students.

It has a bustling, energetic city centre and is renowned for its festivals, cultural life and sporting events. With great shopping, beaches, a café culture, affordable student accommodation and friendly residents, Adelaide offers a relaxed lifestyle with all the convenience of city living.

LIVE CENTRALLY

Student accommodation is more affordable in Adelaide than in many other Australian cities, and much of it is in the heart of the CBD. Many students can simply walk to their lectures.

For more information, visit: southaustralia.com
Adelaide is a vibrant city that’s easy to navigate. Broad, spacious boulevards accommodate an efficient network of public buses, trains and trams, with international students receiving the same discounts as locals.

CAFÉ CULTURE
Adelaide is one of Australia’s most cosmopolitan cities, with an array of cafés, restaurants and shops reflecting the diversity of its ethnic communities. Adelaide is reputed to have more cafés and restaurants per head of population than any other city in Australia.

SHOPPING
Adelaide boasts a range of shopping experiences comparable to anywhere in Australia. Within the CBD, Rundle Mall has the biggest concentration of department and chain stores, while within walking distance are trendy boutiques, pubs and cafes.

EASY TO GET AROUND
Adelaide is a vibrant city that’s easy to navigate. Broad, spacious boulevards accommodate an efficient network of public buses, trains and trams, with international students receiving the same discounts as locals.

HIT THE BEACH
Adelaide is a coastal city, with pristine white sandy beaches that attract thousands for relaxation and recreation in the summer. It takes just 20 minutes on the tram to get from the city centre to the beach.
Friendly staff are available to help students manage their studies, assist with student visa-related queries, help with health or disability needs, support students as they fit into their new life in Adelaide, and help solve personal problems. In addition, doctors at the North Terrace campus’ Health Practice can provide students with year-round health support.

**International Student Support**  Ongoing, one-on-one support from international student advisors, orientation and social programs for all students, and assistance with student visa-related queries.
international.adelaide.edu.au/life-on-campus

**Careers Service**  Advice and workshops to help students develop employability skills, a Career Hub database of employment opportunities, and annual career-related events including the Careers Expo.
adelaide.edu.au/student/careers

**Writing Centre**  Support with writing academic English through one-on-one advice from writing mentors, workshops, and comprehensive support resources.
adelaide.edu.au/writingcentre

**Maths Learning Centre**  Help for all students to develop mathematics skills at every level, with drop-in sessions, lectures, games, and resources.
adelaide.edu.au/learning

**Childcare**  Full-time and part-time care for children of students and staff, located on the North Terrace and Waite campuses.
adelaide.edu.au/childcare

**Counselling Support**  Professional and confidential one-on-one support for students encountering issues that affect their study and life.
adelaide.edu.au/counselling

**Disability Support**  Support for all students who have an ongoing medical condition, to help them focus on their studies.
adelaide.edu.au/disability

**Elite Athlete Support**  Support to help student athletes balance their academic and sporting commitments, by providing a flexible and responsive approach to study.
adelaide.edu.au/eliteathletes

**Health Practice**  Comprehensive health care for all students and staff, including male and female doctors (GPs), health checks, immunisations, and mental health support.
adelaideunicare.com.au

**Library**  One of the state’s most extensive research collections, quiet study spaces, and support from specialist research librarians.
adelaide.edu.au/library

**Peer Assisted Study Sessions (PASS)**  Regular extra-curricular sessions led by student mentors to help students improve their grades in specific courses.
adelaide.edu.au/pass

The University offers a range of support services to help international students succeed at university.
The University of Adelaide offers a stimulating environment where students are encouraged to take part in a wide range of extracurricular activities.

**Social programs**

international.adelaide.edu.au/life-on-campus/social-programs-clubs-and-sports

The University offers a variety of social programs to help international students adjust to their studies and make new friends. These include ongoing English conversation practise (Talking with Aussies), regular culturally-themed social nights (Language and Cultural Engagement program), a chance to connect with locals (Experience Adelaide), and opportunities to develop leadership and employability skills (Peer Mentor program).

**StudyAdelaide**

studyadelaide.com

StudyAdelaide provides information and support to students both before they arrive in Adelaide and after they settle into life in their new home. It conducts a busy schedule of events and activities each year. These include everything from a welcome ceremony with the Lord Mayor, international student awards, career advancement workshops, wine education functions, regional trips and social events, such as sports days.

Facebook: facebook.com/studyadelaide
Twitter: @studyadelaide
Instagram: @studyadelaide
Students benefit from the advantages that come from choosing to study in a city where accommodation of all types, including our University-managed accommodation, is not only accessible but more affordable than in other Australian cities.

The University recommends students adopt the **RECAS** approach to identifying an accommodation option to suit their individual needs and support a positive educational experience.

- Research all available accommodation options
- Establish a realistic budget
- Consider the value of managed student accommodation
- Avoid extended temporary accommodation
- Seek assistance from the University Accommodation Service

Students unfamiliar with Adelaide are encouraged to consider living in managed student accommodation during their first year of university.

Managed student accommodation provides new students with the opportunity to become better acquainted with the city, settle into their academic program and make new friends, without having to worry about the challenges of the private rental market.

### Long-term student accommodation

*adelaide.edu.au/accommodation*

The University assists international students to obtain suitable longer-term housing. Students may choose any of the following options.

#### The University of Adelaide Village

The University of Adelaide Village is the largest of our accommodation properties. The Village is home to over 400 students, who experience the safety and security of having access to University staff on-site, 24 hours a day, seven days a week.

Students need only bring their personal belongings, as furniture, kitchen appliances, utilities (including electricity), phone and Internet are all included in the accommodation fees. The only additional costs are for meals (students must cook and clean for themselves) and the on-site, coin-operated laundry facilities.

#### Roseworthy Residential College

This accommodation is operated by the University and is only available to students of the University’s Roseworthy campus, offering them the opportunity to enjoy the benefits of on-campus residential living.

#### Independent residential colleges

There are five independent residential colleges situated in North Adelaide that offer accommodation to students. These independent residential colleges are privately owned and operated. They are not owned or operated by the University.

Students can contact the residential colleges directly to better understand what’s available. These residential colleges include: Aquinas, Lincoln, St Ann’s, St Mark’s and Kathleen Lumley College.

#### Commercial student accommodation

Commercial student accommodation refers to purpose-built off-campus student accommodation facilities, run by private management companies not affiliated with the University of Adelaide. These facilities offer fully-furnished, self-contained
apartments that give students flexibility to live alone or share with others. There are also rooms for couples.

In addition to rent, students may need to budget for additional expenses, including:

- gas
- electricity
- telephone connection (optional)
- Internet connection (optional).

Places in commercial student accommodation facilities are offered on a 6 or 12-month fixed-term lease. It’s important to note that these facilities are not directly affiliated with the University of Adelaide and students are advised to inspect them before committing.

**Private rental and share accommodation**

Affordable share accommodation can also be found in the private rental market, so the University offers a rental database (adelaide.edu.au/accommodation) for our students’ exclusive use.

Our enrolled students can access the database from our Accommodation Service, Level 4, Hub Central, North Terrace campus, with a user name and password. The database is only promoted among the University community, and most accommodation listings are offered by people affiliated with us who would like to share their room/property with a University of Adelaide student.

Students wishing to find share or rental accommodation when they arrive in Adelaide are encouraged to book temporary accommodation in the first instance. Once in Adelaide, students should visit the University’s Accommodation Service for information on all available options and support in identifying and securing quality long-term living arrangements. Students are discouraged from sending money from offshore to secure share or rental accommodation prior to inspecting it.

**Accommodation for families**

Students accompanied by family members will find private rental accommodation in houses or apartments the most suitable accommodation option.

It’s easier for an individual student to initially travel to Adelaide on their own to arrange suitable permanent family accommodation. Spouses and children who arrive later can then move straight in.

**Arrival reception and temporary accommodation**

Temporary accommodation and arrival reception services are available to commencing international students. Eligible students can book an arrival reception service and be met by a University representative at Adelaide Airport, via a domestic or international flight. Students will then be transported to their accommodation.

Eligible students who choose not to secure long-term managed student accommodation for their arrival in Adelaide may also be eligible for seven nights of temporary accommodation booked through the University. It is important to note that temporary accommodation options arranged through the University are unlikely to be extended further than a period of seven nights due to high demand for short-term accommodation during the traditional student intake periods.

For more information on eligibility criteria, arrival reception and temporary accommodation services, contact:

**Accommodation Service**

Opening hours: Mon to Fri, 9am to 5pm
The University of Adelaide
Level 4, Hub Central
SA 5005 Australia
Telephone: +61 8 8313 5220
Fax: +61 8 8313 3338
Email: accommodation@adelaide.edu.au
Web: adelaide.edu.au/accommodation
Skype: uoaaccommodation

For more information, visit: adelaide.edu.au/accommodation
As part of planning, applicants need to consider the financial requirements before applying at the University, and are advised to set a realistic budget.

**Incidental costs**
Prospective students should allow at least AUD $500 per year for textbooks and basic study materials. Depending on the degree, other costs may include: specialist equipment (e.g. laboratory coats, microscopes, stethoscopes); optional supplementary reading and academic program materials; field trips; and expenses such as thesis preparation, printing and binding.

**Accommodation**
Although living in Adelaide is more affordable than many other Australian cities, accommodation remains students’ largest variable expense. It can cost anywhere from around AUD $135 per week for share accommodation outside the city centre to AUD $259 per week (including electricity, water, gas and unlimited Wi-Fi) for University-managed accommodation within the city centre. The average rent for a private studio apartment in the CBD is approximately AUD $400 per week.

**Application fee**
An application fee of AUD $110 must be paid with the University of Adelaide undergraduate online application. An exemption may apply for some government or externally-sponsored students.

**Tuition fees**
International students are required to pay international student tuition fees, which cover the cost of teaching and many student support services. The indicative annual tuition fee quoted in this prospectus is based on the standard full-time enrolment load of 24 units per year, or 12 units per semester.

New international students are required to pay a tuition fee deposit when accepting an offer of admission. After enrolment, students are then invoiced for the balance of their fees in that enrolment period. The University invoices students (or their sponsor) each enrolment period according to students’ enrolment load.

**Student Services and Amenities Fee**
International students commencing in 2020 will be required to pay an annual Student Services and Amenities Fee. This covers activities such as clubs, sporting and recreational activities, and many other services. The fee was AUD $303 for 2019 and is indexed annually.
For more information, visit: adelaide.edu.au/student/finance/ssaf

**Student Fees Refund Policy**
All applicants must read the University’s policy on refunds and adjustments before accepting an offer of admission. The policy complies with all requirements for tuition fee refunds stipulated in the Education Services for Overseas Students Act 2000 (ESOS), associated Australian Government regulations, and the ESOS National Code of Practice (2018). For policy details, visit: adelaide.edu.au/policies/4343
For information about refund administration and refund amounts, visit: adelaide.edu.au/student/finance/refunds

**Health and medical**
Student visa holders and their dependants are required to have health insurance for the duration of their student visa through the Overseas Student Health Cover (OSHC) scheme. The University’s preferred OSHC provider is Allianz Global Assistance. Visit: allianzassistancehealth.com.au/en/student-visa-oshc
For additional information, please refer to: international.adelaide.edu.au/student-support/support-services
Students with families

International students who bring their families to Australia will need to take into account additional costs associated with health cover, housing, food, transport, childcare and education.

For information and advice, visit: internationalstudents.sa.edu.au/en/students/dependants

Part-time work

Many international students and their dependants hope to obtain part-time work to supplement funds for living costs. While this may be possible, we recommend students not rely on it for essential expenses. Obtaining a job is not guaranteed and can take time. Students should also be aware the workload for many degrees is intense, so they may not have time to undertake employment. International students who do find part-time work should be aware that they have the same workplace rights as all other workers in Australia.

For more information on working while studying, visit: homeaffairs.gov.au/trav/stud

Additional details are also available at: fairwork.gov.au/find-help-for/visa-holders-and-migrants

Change to permanent resident status

Different quota restrictions (imposed by the University and the Australian Government) apply to admissions for international students than for Australian residents.

International students whose immigration status changes to Australian Permanent Resident will be required to transfer to a domestic fee-paying place. They may subsequently apply to transfer into a Commonwealth-supported place, depending on their degree.

Scholarships

A number of scholarships will be available for international students who wish to study at the University of Adelaide commencing in 2020. For information on the application process, minimum eligibility criteria and important deadlines, visit international.adelaide.edu.au/admissions/scholarships

A selection of scholarships are also available from the Australian Government. For information on these, visit: australiaawards.gov.au

All scholarship details are subject to change, so interested students are encouraged to check these websites regularly.

STUDY-RELATED COSTS

This should be viewed as a guide only, as costs can vary significantly from one student to another. These are basic living costs at the time of publication and do not include program tuition fees, costs for textbooks, other study-related needs, running a car, medical expenses, or any luxuries.

- Master of Psychology (Health)2
- Master of Psychology (Organisational and Human Factors)2

| School of Psychology | Overall band score of 7.0 and Band score of 7.0 in all bands | Not accepted | Not accepted | Overall score 185 and Individual score of 185 in writing, speaking, reading and listening |
The University accepts the following language tests:
- IELTS (International English Language Testing System) Academic Test
- TOEFL (Test of English as a Foreign Language)
- Pearson Test of English (Academic)
- Cambridge Certificate in Advanced English (CAE).

Other evidence of English proficiency may be accepted in individual cases.

Students whose English test score levels do not satisfy the University's minimum requirements will need to satisfactorily complete an intensive English language program before being admitted to the University of Adelaide.

The University can arrange an appropriate Academic English Pre-enrolment English Program (PEP) in Adelaide at the English Language Centre (refer to page 24).

These programs provide an alternative entry pathway for prospective students who have received offers to the University conditional upon English proficiency. On successful completion of the PEP, students can be granted entry into the majority of degrees at the University.

* Applicants seeking entry to these degrees must present the required IELTS/TOEFL/Pearson/CAE scores to meet the English language proficiency requirements and are not permitted to undertake an Academic English PEP pathway.

1. These entry requirements are correct at the time of printing. For up-to-date information, visit: international.adelaide.edu.au/apply. The University of Adelaide reserves the right to make the final decision regarding admission to the University.

2. Applicants to master degrees offered by the School of Psychology must provide an IELTS unless eligible for an exemption in accordance with the Psychology Board of Australia requirements prescribed at: www.psychologyboard.gov.au/Registration/Overseas-Applicants.aspx

---

*Notes: Applicants whose English test scores are slightly below their preferred degree’s requirements may choose to enrol in an appropriate Academic English Pre-enrolment English Program (PEP) as an alternative means for meeting the English language proficiency requirements. Students who successfully complete the PEP at the required standard will be eligible for direct entry to the degree nominated in their offer without any further English test requirements. An offer to the PEP is included for eligible students. PEP entry requirements are listed at: adelaide.edu.au/ele/courses/pep
The University’s English Language Centre (ELC) provides outstanding academic English, general English programs and English teacher training services for international students and groups.

Academic English (PEP)

The University of Adelaide offers an academic English pathway for students who have not met their postgraduate coursework degree’s minimum English language entry requirements.

This is a direct entry pathway into further studies at the University of Adelaide. The length of the program depends on the applicant’s English proficiency test score. Students who successfully complete the Pre-enrolment English Program (PEP) at the required level do not need to sit another English test before entering their University degree.

The PEP is offered in lengths of 10, 15, 20 and 25 weeks.

For more information on the PEP, visit: adelaide.edu.au/elc/courses/pep

Academic English PEP Pathway – Extended

The PEP Extended 30 and 35-week courses combine General English for Academic Purposes (GEAP) classes (see below) and PEP classes. Commencing in the GEAP allows students to develop the fundamental linguistic building blocks of grammar and vocabulary for academic-level study, before progressing to English classes specifically tailored for students entering an award program.

- PEP Extended 30-week students will complete 5 weeks of GEAP before commencing 25 weeks of PEP classes.
- PEP Extended 35-week students will complete 10 weeks of GEAP before commencing 25 weeks of PEP classes.

Eligibility

To find out which PEP they are eligible for, students should refer to the diagram opposite.

Other programs

Academic English (GEAP)

Our General English for Academic Purposes (GEAP) program is for students wishing to develop effective oral and written communication skills—and boost their learning confidence—at one of the most prestigious universities in Australia.

Delivered in the University of Adelaide’s academic environment and attracting students from all around the world, GEAP is offered in five levels of language proficiency—from elementary through to advanced. All levels focus on developing speaking, listening, reading and writing skills, with academic tasks added as the student’s proficiency increases. Students can choose to enrol for anywhere from five to 45 weeks.

Group Study Tour programs

Group Study Tour programs offer an ideal mix of academic excellence and cultural experience for groups of international students or professionals looking for a rewarding Australian experience. Programs are tailored to each group’s specific needs and can be for any length of time, but are usually between two and eight weeks. Homestay accommodation can also be included.

Academic sessions can focus on general English tuition or a specific discipline or interest, while cultural activities include excursions to destinations of cultural, historical, geographical and social interest.

TOEFL Test

The Test of English as a Foreign Language Internet-based Test (TOEFL iBT) measures students’ proficiency in speaking, reading, writing and listening to ensure they can communicate their ideas and interact in real life, classroom and campus situations.

The TOEFL iBT is accepted at all Australian universities and can be taken at the University of Adelaide. Tests are held regularly throughout the year at our ELC.

For more information and dates, visit: adelaide.edu.au/elc/toefl

Academic English (PEP) timelines and costs

In addition to the fees below, an enrolment fee of AUD$295 will apply to the Academic English Pathway program (PEP).

For information on trimester (three-monthly) intake programs please visit: adelaide.edu.au/elc/courses/pep/dates-fees

* Students in PEP Extended 35- and 30-week courses will first participate in General English for Academic Purposes (GEAP) classes until the 25-week PEP intake, then take classes with other PEP students.

**IMPORTANT INFORMATION**

For students applying for degrees with higher English language requirements, or with an English test score other than IELTS. Some postgraduate degrees require a higher level of English ability. When Academic English Pathway programs are studied in combination with postgraduate coursework degrees that require a higher level of English ability than others, different entry requirements than those shown in the tables are required.

Please note that as well as the IELTS test, the English Language Centre accepts the TOEFL iBT, TOEFL PBT, Pearson and Cambridge Advanced test of English (CAE) for entry into Academic English Pathway programs.

**Trimester programs (three-monthly)**

For students studying trimester-entry programs, there are various Academic English pathway options available. For details, visit: adelaide.edu.au/elc/courses/pep/dates-fees

For more information on scores required, visit: adelaide.edu.au/elc/courses/pep/entry-requirements
Postgraduate entry requirements

Entry is competitive—the minimum academic entry requirement for most postgraduate coursework degrees is an Australian bachelor degree or equivalent qualification, from a recognised institution, at a level of academic achievement specified by the relevant faculty or school.

Entry requirements vary between degrees. Some of the graduate certificates and graduate diplomas offered may be accepted as a requirement for entry to a master degree, or as professional qualifications in their own right.

For information on particular degree requirements, please refer to the list of academic programs and minimum entry requirements on pages 88-93. More detailed information regarding postgraduate coursework degrees is available in the University of Adelaide Calendar at: adelaide.edu.au/calendar

International students must also meet the University’s English language requirements—see page 22-23 for details.

Deferral of admission

Applicants who have been offered a place in a degree may apply to defer their enrolment for up to two years. Some exceptions apply.
Credit for previous study
In some cases, international students may be credited with advanced standing (status/exemptions) on the basis of previous studies at another institution. Applicants seeking advanced standing must submit detailed syllabuses (course outlines) of the subjects they’ve completed with their application.

Student personal information
Under Australia’s strict privacy laws there are very limited circumstances in which the University can release personal or academic information about a student. Such information will usually only be released to Australian government departments where legislatively required, or in a health or safety emergency.

The University cannot release any information about a student’s results, attendance, application status or any other matters to their parents.

For more information on the University’s Privacy Policy and Management Plan, visit: adelaide.edu.au/policies/62

* APPLICANTS MUST APPLY AT LEAST SIX WEEKS PRIOR TO THE COMMENCEMENT OF THEIR PREFERRED INTAKE, with the exception of those applying for the degrees listed above. Applicants who apply after that date will have their applications considered for the most suitable intake given their circumstances.

For further information, visit: international.adelaide.edu.au/admissions/how-to-apply/application-deadlines

Application information  27
**HOW TO APPLY**

8 steps to enrolment

**STEP 1**

**APPLICATION**

Apply through one of the University’s official international representatives or via our online application system at: international.adelaide.edu.au/admissions/how-to-apply#step-4-apply

**Payment and documents required**

- A non-refundable AUD$100 application fee.
- Certified copies of student academic qualifications, transcripts, English language test results (if required) and any other supporting documents.

Copies can be certified by a justice of the peace, notary public, University of Adelaide official representative/staff member, police officer or examining authority.

**Further information and contact details**

future.ask.adelaide.edu.au/app/ask_a_question

**International representatives**

For a full listing of our international representatives and their contact details, visit: international.adelaide.edu.au/admissions/find-a-university-of-adelaide-agent

**STEP 2**

**APPLICATION ASSESSMENT**

All applications will be assessed. Successful applicants will be emailed directly (if they applied directly), or via their official representative.

Successful applicants will receive the following:

- Offer Statement
- Acceptance Agreement
- Genuine Temporary Entrant (GTE) Questionnaire*
- Payment Form
- Declaration of Financial Capacity
- Acceptance Information leaflet.

Unsuccessful applicants will be informed by email.

* Where applicable

**STEP 3**

**ACCEPT OFFER**

To accept their offer, students should:

- Complete and sign all pages of the Offer Statement and Acceptance Agreement.
- Complete the Payment Form and Declaration of Financial Capacity.
- Provide a copy of the personal details section of their passport.
- Arrange payment of tuition fee deposit as per instructions in Offer letter.
- Arrange for payment of Overseas Student Health Cover (OSHC) for duration of visa.
- Arrange for payment of English language program fees (if applicable).

Applicants can pay online.

**Conditional offers**

Students who receive a conditional offer must provide documentary evidence that they’ve met any outstanding conditions, and send the relevant documentation directly with their acceptance documentation. A new Offer Statement is not sent unless required for scholarship or sponsorship purposes.
STEP 4 CONFIRMATION OF ENROLMENT
After receiving the acceptance documentation listed, the University sends applicants a Confirmation of Enrolment (CoE). Students should use the CoE to apply for an Australian student visa.

STEP 5 OBTAIN INTERNATIONAL STUDENT VISA
Applicants should lodge their student visa application immediately. This may be done with the assistance of a recognised University of Adelaide agent or representative. Or, if applying directly, by visiting homeaffairs.gov.au/trav/visa/immi to create an ImmiAccount.

STEP 6 PREPARE FOR DEPARTURE
After making travel arrangements, students should consider their accommodation options by visiting: adelaide.edu.au/accommodation
While there, they can also book an airport pickup and temporary accommodation if required (fees apply).

STEP 7 ENROLMENT
Prior to orientation, students will receive information about obtaining their University login and password. Then, when enrolments open, students will be able to login to the Access Adelaide section of the University website and enrol.

STEP 8 ARRIVE AND ATTEND ORIENTATION
Students should aim to arrive in Adelaide in time to attend the international student orientation program. Participation in this program will help familiarise students with the city and campus, and provide a chance to meet staff and other students and make friends before commencing studies.
For more information, visit: international.adelaide.edu.au/preparing-to-arrive/orientation

WELCOME TO THE UNIVERSITY OF ADELAIDE!
ARCHITECTURE

* QS World University Rankings by Subject 2018
We specialise in delivering internationally recognised postgraduate degrees in architecture, landscape architecture, planning, urban design, property and construction management.

As a student of our school, you’ll benefit from our bigger-picture world view. Our curriculum focuses on the built environment as a whole, not just its individual components.

To become a practising architect, you’ll need to complete a minimum five years’ study: a three-year undergraduate degree in architectural design, followed by a two-year master degree.

The University of Adelaide is the only institution in South Australia to offer a double degree pathway at master level in architecture. Completing the double master requires only one extra year of study, and will qualify you in two disciplines, thereby enhancing your career prospects.

Features of our school

• We’ve invested in three industry professors. Each an award winning professional in their own right, they bring a high degree of inspiration and reality to their teaching.

• Our internship program provides master-degree students with professional work placements within Australian or overseas businesses and professional practices.

• Students have 24-hour access to our computer-aided architectural design (CAAD) studio and state-of-the-art model-making laboratory—one of the best equipped architectural design labs at any Australian university.

Professionally accredited by:

• Australian Institute of Architects
• Australian Institute of Landscape Architects
• Planning Institute of Australia
• Royal Institution of Chartered Surveyors
• Architectural Practice Board of South Australia.

“The world is facing growing challenges of explosive population growth. I chose an architectural degree, because architects are uniquely placed to meet these challenges head on.”

Hayley Edwards
Master of Architecture with Master of Landscape Architecture
The Master of Architecture with Master of Landscape Architecture is a combined degree that examines the vital relationship between architecture and landscape architecture, exploring how they work in concert to create functional, innovative, and beautiful buildings and places.

In our Master of Architecture with Master of Landscape Architecture you’ll:

- Explore advanced ecological, construction, and landscape technologies, material cultures, and complex buildings.
- Share design studios with students across the School of Architecture and Built Environment.
- Develop your own position on the relationship between the two areas of study.
- Undertake research-led design projects and immersive overseas studios.
- Engage with the many industry professionals who teach and tutor in classes as well as specialise in high-performance building technologies.
- Apply life cycle and system thinking approaches to the management of construction and civil projects.
- Draw on business and project management expertise from across the Faculty of the Professions.
- Complete a supervised research project.

Where could it take you?

You’ll graduate as an accredited graduate architect and landscape professional, well prepared to pursue architectural, landscaping, or managerial roles. You could combine building and landscape architecture principles to innovate on residential complexes or skyscraper sites. You might become a green architect, focused on eco-design and native gardens. Perhaps you’ll be a project manager for emerging community hubs, social spaces, playgrounds, campus gardens, or parks.

Professional accreditation

The Master of Architecture is accredited by the Architectural Practice Board of South Australia. The Master of Landscape Architecture is accredited by the Australian Institute of Landscape Architects.
**MASTER OF LANDSCAPE ARCHITECTURE**

CRICOS CODE 09313B
DURATION 2 years full-time
CAMPUS North Terrace

* Applicants will be considered for the July intake on a case-by-case basis and may have a limited choice of electives.

INDICATIVE ANNUAL TUITION FEE $37,000

adelaide.edu.au/degree-finder

Landscape architecture is about working with open spaces and built environments engaging with natural systems and human cultures. As a creative and contemporary practice, it is always growing and evolving.

Our Master of Landscape Architecture teaches you to use design to expand possibilities, not memorise fixed definitions.

**What will you do?**

- Explore and extend your capacity for creativity.
- Share design studies with students across the School of Architecture and Built Environment.
- Learn to work with advanced ecological, construction and landscape technologies.
- Develop your own position on current disciplinary, social and political issues.
- Undertake individual design projects.
- Apply and advance your learning through internship electives.
- Undertake immersive overseas studios.
- Engage with the many industry professionals who teach and tutor in classes as well as extra-curricular activities.

**Where could it take you?**

- You might work in government or private practice finding solutions to pressing societal challenges.
- This degree qualifies you to begin the journey to registration as an RLA (Registered Landscape Architect).
- Collaborate with engineers, architects, policymakers, artists and others in the design professions.
- Design exterior spaces at a variety of scales and for various clients and users, both public and private, from innovative playgrounds, dynamic waterfronts, thoughtful memorials and special-use gardens to local, regional and national parks and critical infrastructure projects.

**Professional accreditation**
The Master of Landscape Architecture is accredited by the Australian Institute of Landscape Architects.

---

**MASTER OF PLANNING**

CRICOS CODE 062044G
DURATION 2 years full-time
CAMPUS North Terrace

INDICATIVE ANNUAL TUITION FEE $37,000

adelaide.edu.au/degree-finder

Urban planning is about how we organise, regulate and manage our cities, neighbourhoods and buildings. With cities getting larger and more complex all around the world, it’s important we manage their growth in intelligent ways.

Planners make sure our cities are attractive places to live and work now, and sustainable into the future.

**What will you do?**

Our Master of Planning is an intensive, broad-based degree that builds knowledge and skills for the professional realm. You will:

- study urbanisation, policy, theory, practice and planning law
- understand urban development processes in depth
- consider resilience to natural disasters and climate change
- explore techniques for engaging communities in planning
- apply your learning in real-life planning simulations and an architectural design project.

**Where could it take you?**

You might write policy to guide long-term regional planning. You could work to protect and preserve natural and historic heritage sites. Perhaps you’ll renew declining urban areas or develop master plans for housing, transport or infrastructure.

**Professional accreditation**
The Master of Planning is accredited by the Planning Institute of Australia.

---

**MASTER OF PLANNING (URBAN DESIGN)**

CRICOS CODE 062045G
CAMPUS North Terrace

DURATION 2 years full-time
INTAKES February, July

INDICATIVE ANNUAL TUITION FEE $37,000

adelaide.edu.au/degree-finder

Urban designers transform streets, squares, malls and other public areas to enhance community, cultivate culture and draw people. They’re creative and strategic. They make sure the city areas experienced by residents, workers, shoppers and visitors are attractive, usable and safe.

**What will you do?**

Our Master of Planning (Urban Design) gives you the skills and knowledge to design functional and attractive urban spaces. You will:

- study urbanisation, policy, theory, practice and planning law
- understand urban design principles in depth
- learn techniques for engaging communities in planning
- consider environmental impacts and relationships
- explore planning policy and law
- apply your learning in real-life planning simulations and a major culminating design project.

**Where could it take you?**

You could use colour and texture to transform city squares and walkways. You might beautify buildings and clean city air at the same time with vertical gardens and living walls. Perhaps you’ll design spaces that encourage learning, play and socialising between strangers.

**Professional accreditation**
The Master of Planning (Urban Design) is accredited by the Planning Institute of Australia.
MASTER OF PLANNING (URBAN DESIGN) WITH MASTER OF LANDSCAPE ARCHITECTURE

CRICOS CODE  065078G  CAMPUS  North Terrace
DURATION  3 years full-time  INTAKES  February, July
INDICATIVE ANNUAL TUITION FEE  $37,000

Urban designers and landscape architects work with natural and built environments engaging with natural systems and human cultures—as a creative and contemporary practice, it is always evolving. They design and upgrade our parks, streets, squares and waterfronts. They’re responsible for creating functional, beautiful, sustainable and safe sites that enhance communities, cultivate culture and draw people in.

What will you do?
Our Master of Planning (Urban Design) with Master of Landscape Architecture has a strong focus on practical design studies. You will:
• explore ecological issues and the broad context of urban development
• establish positions on current disciplinary, social and environmental issues
• learn to work with advanced ecological and landscape technologies
• build techniques for engaging communities in planning
• share design studios with students across the School of Architecture and Built Environment
• propose and complete major urban planning and landscape architectural projects.

Where could it take you?
You might:
• work in government or private practice finding solutions to pressing societal challenges
• begin the journey to registration as an RLA (Registered Landscape Architect)
• collaborate with engineers, architects, policy-makers, artists and others in the design professions
• design exterior spaces at a variety of scales and for various clients and users, both public and private, from innovative playgrounds, dynamic waterfronts, thoughtful memorials and special-use gardens to local, regional and national parks and critical infrastructure projects.

Professional accreditation
The Master of Planning (Urban Design) is accredited by the Planning Institute of Australia.
The Master of Landscape Architecture is accredited by the Australian Institute of Landscape Architects.

MASTER OF PROPERTY

CRICOS CODE  086021F  CAMPUS  North Terrace
DURATION  2 years full-time  INTAKES  February, July
INDICATIVE ANNUAL TUITION FEE  $37,000

The world is becoming more and more urbanised. Investments in land, infrastructure, offices, housing, retail and recreation facilities are increasing across the globe. Property developers work to get the best results for all involved. They make sure developments are safe, productive, sustainable, high-quality and profitable.

What will you do?
Our Master of Property draws on the expertise of multiple University faculties. You will:
• take core courses in finance, project management, law, development and construction
• build skills through development and design simulations
• travel overseas for a course on International Property
• share a studio with the Master of Architecture and Master of Planning students
• complete a major supervised project on property issues.

Where could it take you?
You might assess the feasibility of a multi-storey tower in Dubai. You could work with landlords and tenants managing retail centres in Sydney. Perhaps you’ll assess the redevelopment potential of properties or advise sponsors on how best to invest.

Professional accreditation
The Master of Property is accredited by the Royal Institution of Chartered Surveyors.
OUR CURRICULUM FOCUSES ON THE BUILT ENVIRONMENT AS A WHOLE, NOT JUST ITS INDIVIDUAL COMPONENTS. WE SPECIALISE IN THREE PARTICULAR STREAMS OF THE DISCIPLINE: ARCHITECTURE, LANDSCAPE ARCHITECTURE, AND URBAN DESIGN.
ARTS
Fulfil your personal and professional potential with postgraduate studies in the arts.

Become an expert in your field
Postgraduate arts study at the University of Adelaide will help you develop specialist knowledge and skills well beyond those gained at undergraduate level. Learning from leading researchers and practitioners, you’ll sharpen your analytical thinking and research skills, and develop advanced transferable skills relevant to the workplace or research environment.

Expand your career
The greater academic depth gained from postgraduate arts study will set you apart and enhance your career opportunities. Surveys show 72.5% of our humanities and social sciences postgraduates rate the skills and knowledge gained in their degree as significant for their current full-time employment. And importantly, postgraduates’ salaries are higher than undergraduates’ in every employment sector. In 2018, the median salary for humanities culture and social sciences graduates was $83,000. Furthermore, the employment rate for University of Adelaide graduates overall is 96.1%.*

Grow personally and professionally
Further study in the arts offers outstanding personal development and career opportunities if you’re seeking to: get promoted, or be considered for higher-level roles; extend or update your industry knowledge mid-career; or branch out into a new field. * 2018 Graduate Outcomes Survey, www.qilt.edu.au/about-this-site/graduate-employment

“WITH A VALUED DEGREE FROM UNIVERSITY OF ADELAIDE, I AM ABLE TO LOOK FOR MORE JOB OPPORTUNITIES BOTH IN AUSTRALIA AND AROUND THE WORLD.”

Mengru Chen
Master of Translation and Transcultural Communication

**Curatorial expertise demands curiosity, a great eye, intellectual creativity, and a broad suite of practical and theoretical knowledge and skills in the history of art and visual cultures.**

Our Master of Arts (Curatorial and Museum Studies) is delivered in cooperation with the Art Gallery of South Australia and other Australian cultural organisations. We give you the specialised training and networks needed to thrive in the global museum and gallery sector.

**What will you do?**

In our Master of Arts (Curatorial and Museum Studies) you will:

- learn about collection and exhibition development
- research, document and interpret images and objects
- explore issues of conservation and heritage
- build skills in museum and gallery management
- complete two minor research projects
- undertake a four-week internship in a state or national institution
- gain experience with databases and digital tools used in cultural organisations
- learn about public programs, marketing, copyright and registration.

**Where could it take you?**

You might be a program manager for a living arts festival. You could develop an innovative concept for an international exhibition or discover the work of an emerging contemporary artist. Perhaps you’ll travel the world collecting unique pieces for a national body.

This degree is for students fluent in both Chinese and English seeking a career as a professional interpreter and/or translator.

It is endorsed by the National Accreditation Authority for Translators and Interpreters (NAATI).

**What will you do?**

In our Master of Arts (Interpreting, Translation and Transcultural Communication) you’ll:

- take courses in cultural and social studies
- explore approaches to cross-cultural communication
- build practical interpreting and translation skills
- undertake a 9-unit research dissertation. Extended (12 unit) dissertation options are also available and can lead to admission to a Doctor of Philosophy program.

**Where could it take you?**

When you graduate, you’ll be eligible to undertake NAATI’s Certified Interpreter and Certified Translator tests. From here you might become a medical, judiciary or literary translator. You could pursue interpreting roles in business, tourism, education or public relations. Perhaps you’ll work with government alongside foreign affairs ministers.

**Professional accreditation**

The degree is endorsed by the National Accreditation Authority for Translators and Interpreters (NAATT). That means you’ll be eligible to undertake NAATI’s Certified Interpreter and Certified Translator tests to pursue work as a translator or interpreter in Australia.
**MASTER OF ARTS (STUDIES IN ART HISTORY)**

CRICOS CODE 094060K  CAMPUS North Terrace

DURATION 2 years full-time  INTAKES February, July

INDICATIVE ANNUAL TUITION FEE $35,500

Works of art are portals of discovery that offer insights into past and present societies and cultures. Images and objects are repositories of our histories, revealing the things that seduce us, challenge us, inspire us, and communicate the complexity of human creativity.

This degree is designed to extend your knowledge in an area of art history you studied during the Graduate Diploma in Art History.

**What will you do?**

The Master of Arts (Studies in Art History) includes supervision by research-active art historians. You will:

• research and write a minor thesis on an independent topic
• partner with an individual academic mentor who’ll support and encourage your intellectual development.
• build advanced skills in visual analysis, critical thinking and communication
• learn about the professional practice of art historians.

**Where could it take you?**

The minor thesis is designed to qualify you for higher degrees by research such as the Master of Philosophy or Doctor of Philosophy. You could also pursue careers in galleries, museums and auction houses. You might move into arts journalism or policy development. Perhaps you’ll work in marketing and communications or use your knowledge as a creative foundation area for primary and secondary teaching.

**Related degrees**

• Graduate Certificate in Art History
• Graduate Diploma in Art History

---

**MASTER OF ENVIRONMENTAL POLICY AND MANAGEMENT**

CRICOS CODE 083482A  CAMPUS North Terrace

DURATION 2 years full-time  INTAKES February, July

INDICATIVE ANNUAL TUITION FEE $35,500

Responding effectively to environmental problems involves far more than applying scientific knowledge, or the ‘top-down’ regulation of people and their environments. The future of our planet relies on informed and creative thinking around policy and practice. This kind of environmental expertise is critical and in high demand.

**What will you do?**

Our Master of Environmental Policy and Management addresses how the signature environmental issues of our time are to be managed. You will:

• choose between a coursework or research specialisation
• explore environmental governance and planning in depth
• apply your knowledge to real-world issues
• pursue electives aligned to your personal and professional interests
• undertake meaningful research projects.

**Where could it take you?**

You could set up environmental programs for the public to air their concerns or better understand issues that affect them. You might negotiate policy design with private businesses and government sectors to generate sustainable management systems. Or, perhaps you’ll research economic incentives or decentralised solutions for better environmental outcomes.
BUSINESS AND ECONOMICS
Through a combination of cutting-edge research and real-world experience, our postgraduate business and economics degrees will enhance your initiative, encourage creativity and give you advanced skills applicable to any profession.

With a large and diverse range to choose from, you’re sure to find an ideal qualification to help you start, broaden or diversify your career in business—whatever your previous undergraduate degree.

**Internationally recognised education quality**

Adelaide Business School and the University of Adelaide’s Entrepreneurship, Commercialisation and Innovation Centre (ECIC) are accredited by the international Association to Advance Collegiate Schools of Business (AACSB). AACSB accreditation is the hallmark of excellence in business education, and has been earned by less than 5% of universities worldwide.

The Business School also has close affiliations with many other professional bodies to ensure our degrees are practical and relevant in the real world; and it’s home to Australia’s oldest MBA (55 years), ranked number five in Australia.*

**Access vast expertise**

Through the University’s Centre for Global Food and Resources you can advance your knowledge and research skills in: food, water and environmental policy; behavioural economics; food security; food value chain analysis; post-harvest horticultural science; and agriculture’s role in growth and development.

Through our School of Economics you can develop theoretical and practical mastery of the global language—wherever you travel, your economics knowledge and skills will be immediately relevant.

The Institute for International Trade can deepen your understanding of current international trade, services and investment issues—including the negotiating environment’s political dynamics, and globalisation’s opportunities and challenges.

And the ECIC can hone your entrepreneurial instincts through its ThincLab business incubators and the Australian eChallenge new-venture accelerator program—a competition-based learning experience that develops strategic business thinking for early-stage enterprises.

**Receive structured peer support**

Our Postgraduate Mentor Program will provide you with valuable social and academic support. Ensuring a smooth transition into postgraduate tertiary study, it will enhance your entire student experience by developing professional networks with peers, academics and potential employers.

---

"UNIVERSITY TAUGHT ME TO WORK HARD TOWARDS MY DREAM CAREER, BECOME AN INDEPENDENT WOMAN. I’VE HAD A LOT OF LIFE-CHANGING EXPERIENCES HERE AND WOULDN’T TRADE THEM FOR ANYTHING. I REALLY ENJOY MY TIME AT UNIVERSITY OF ADELAIDE."

Dewi Batubara
Master of Global Food and Agricultural Business
Modern economies depend on good accounting. We need experts who understand and can explain financial and social business environments to others. Our Master of Accounting offers an intensive two-year path to careers in accounting, financial management, auditing and business advising.

What will you do?
• Learn the fundamentals of financial and management accounting.
• Study advanced accounting concepts and techniques.
• Take courses in taxation and auditing.
• Explore relevant business areas such as economics, finance, information systems and business law.
• Work on a large-scale applied research project.

Where could it take you?
Accounting graduates are in demand and enjoy both stability and variety. Due to changes in reporting practices, career opportunities are increasing across public and private sectors.
You might work with a charity, in education or for the government. Perhaps you’ll become chief financial officer at a company or manage budgets in the sporting world. You could even unmask financial deceptions as a forensic accountant.

Professional accreditation
Our Master of Accounting satisfies the requirements for associate membership of CPA Australia, and Chartered Accountants Australia and New Zealand.

Combined knowledge in accounting and finance has never been more in demand. There’s a wealth of career opportunities for employees who can draw upon and synthesise the two. Our Master of Accounting and Finance offers an intensive two-year path to financial expertise and a professional accounting qualification.

What will you do?
• Explore financial and management accounting, auditing, and taxation.
• Study management theory, business maths, business law, and economics.
• Learn how financial managers make investment and financing decisions.
• Understand how financial instruments and capital markets are used to enhance returns and manage risks.
• Build critical thinking, communication and leadership skills.

Where could it take you?
You’ll graduate career-ready and able to adapt to the demands of a global economy. You might secure a job as a company auditor or finance manager. You could take on an accounting role in a flourishing organisation. Perhaps you’ll consult on corporate mergers and acquisitions.

Professional accreditation
Our Master of Accounting and Finance satisfies the requirements for associate membership of CPA Australia, and Chartered Accountants Australia and New Zealand.

Accounting and marketing are key to good business strategy. The two areas work together to please customers and create value in both the short and long term. In a complex business world, broad perspectives and skill sets are invaluable. Our Master of Accounting and Marketing sets you up for success and employability across the professional realm.

What will you do?
This intensive program meets the needs of entrants from both relevant and non-relevant fields. You will:
• explore economic concepts, theories and analytical techniques
• learn the fundamentals of financial and management accounting
• study future-oriented marketing concepts
• undertake a marketing research project.

Where could it take you?
You might use your marketing skills to promote your own accounting business. You could balance costs and evaluate campaign impact for major fashion or tech brands. Perhaps you’ll cook up international sales strategies for winemakers or start your own enterprise.

Professional accreditation
Our Master of Accounting and Marketing satisfies the requirements for associate membership of CPA Australia, and Chartered Accountants Australia and New Zealand.
**MASTER OF ADVANCED ECONOMICS**

CRICOS CODE 092239D  |  CAMPUS North Terrace
DURATION 1.5 years full-time  |  INTAKES February
INDICATIVE ANNUAL TUITION FEE $42,500

Want to explore a whole new world of thinking? Where finding the right questions is almost as important as finding answers to them; where logic, systematic development of argument and attention to evidence and data are more important than ever before; and where independent and creative approaches to ideas are highly valued?

Our Master of Advanced Economics is suited to students with high-level economic understandings and quantitative skills, who want to move into cutting-edge research.

**What will you do?**

- Hone your knowledge in advanced econometrics, micro and macroeconomics.
- Partner with an academic supervisor who’ll support and encourage your intellectual development.
- Undertake research projects and complete a major thesis.

**Where could it take you?**

This program offers a direct pathway into research-based degrees such as the Doctor of Philosophy (PhD) or the Master of Philosophy (M.Phil) in Economics. You’ll also be ready to move into jobs with private and public employers that ask for high level economic research skills.

You might design policies to distribute water and natural resources between farmers, industry and consumers. You could prepare interest rate recommendations for central banks, evaluate development aid policies or advise on the impact of trade agreements on jobs, investment and wages. Perhaps you’ll look into the structure of the health care system or the economic impact of carbon taxes.

---

**MASTER OF AGRIBUSINESS**

CRICOS CODE 097872E  |  CAMPUS North Terrace
DURATION 4 trimesters  |  INTAKES January, May, September
INDICATIVE ANNUAL TUITION FEE $42,500

Based in the heart of the Australian food, wine and agriculture industry, our Master of Agribusiness creates future food and agribusiness leaders through a unique mix of business fundamentals, practical experience and global connections.

With growing global populations and climate challenges impacting our ability to feed the world sustainably, our master degree prepares you to meet these challenges, and equips you for leadership and problem-solving in an ever-expanding and increasingly complex global marketplace.

**What will you do?**

Our Centre for Global Food and Resources has conducted extensive research with some of Australia’s leading agribusiness firms to develop a program that effectively integrates academic knowledge with industry application. This degree will help you refine the practical research, advisory, and business skills necessary for a successful career in food and agricultural related industries.

**You will**

- complete a capstone research project that lets you showcase the skills you have learned across the program.
- have access to two elective options that give you the flexibility to tailor your degree to your interests and career objectives, these electives including a full range of internship options with leading agribusiness companies.

**Where could it take you?**

The agribusiness value chain is one of Australia’s largest and most important industry sectors. When considering the whole chain from production through to retailing, the agribusiness industry currently employs approximately 1.4 million people across Australia and is forecasted to continue providing positive labour outlooks for years to come.

With recent reports indicating there have been as many as five agri-business job openings per graduate in recent years, favourable employability outcomes exist for you in the local, national, and global value chain networks, including key areas such as: food retailers, processors, traders, producers as well as a full range of service providers including financial agencies, agricultural consultancies and input and support suppliers.

---

"**THE UNIVERSITY HELPS ME GAIN IN-DEPTH UNDERSTANDING OF THE MOST CURRENT ACCOUNTING PRACTICES AND FINANCIAL ANALYSIS.**"

Muhammad Azhar Fridaus
Master of Accounting and Finance
Economists analyse the decisions of individuals, governments and businesses and their impact on our lives and welfare. Armed with these insights, they can give expert advice on business strategy, understand the background behind the news, influence public policy for a better world and make informed personal financial decisions.

What will you do?
Our Master of Applied Economics is suited to students with or without prior knowledge in the field. You will:
• hone your understanding of incentives, opportunity costs, trade-offs, supply and demand, and efficiency
• apply economic concepts to a range of fields—from public policy and finance to international trade and natural resources
• practise advanced techniques for analysing and managing data
• explore economic growth and development and the organisation of markets.

Where could it take you?
Economics graduates go on to all sorts of exciting careers and research pathways. You might assess telecommunications mergers as an economic analyst, or reform regulatory frameworks for public forests as a policy officer with state government. You could work on the stock market, in an aid agency researching the best return on aid donations or in banking and financial services. Perhaps you’ll use your analytics and modelling skills to develop optimal strategies for efficient HR recruitment.

The financial realm is complex. Navigating it successfully requires practical experience and high levels of competence. Our Master of Applied Finance secures you with an advanced suite of financial skills and a competitive edge in the industry.

What will you do?
This intensive degree focuses on managerial effectiveness and best practices for financial problem-solving. You will:
• take core accounting, economics and finance courses
• build practical and real-world skills through five applied courses
• pursue electives according to your interests and career goals
• learn a wide range of advanced analytical tools for financial decision-making
• build strong communication and leadership skills.

Where could it take you?
A Master of Applied Finance sets you up for success in the finance sector. You could be a business manager in New York, London, Shanghai or Hong Kong or become an investment consultant or financial analyst in Sydney. Perhaps you’ll pursue a senior role in commercial banking.

Professional accreditation
The University of Adelaide is recognised as a CFA (Chartered Financial Analyst) Program Partner through the Master of Applied Finance degree. This signals to employers and the marketplace that the Adelaide Business School’s curriculum is closely tied to professional practice and well suited to preparing students for employment in the finance and investment industry.

Entrepreneurs and investors are necessary in all areas and industries—from science and health to media, arts and education. They take the risks needed to start up new businesses and social ventures. This intensive 1.5-year degree sets you up to build sustainable organisations, grow wealth for stakeholders and make positive impacts in your community.

What will you do?
Our Master of Applied Innovation and Entrepreneurship gives you practical knowledge, access to networks and a growth mindset for success. You will:
• build tools for assessing and implementing ambitious ideas and ventures
• learn how to create supportive environments that foster and enable innovation
• examine entrepreneurial investment and management practices
• create a business plan for a real-world venture through a 6-unit research project.

Where could it take you?
You might shine a spotlight on an unexpected renewable energy source. You could explore ecotourism or virtual reality. Perhaps you’ll invest in a world-changing approach to everyday healthcare. This degree is also suitable if you want to be a corporate intrapreneur, driving innovative products and services for employers. You could even find alternative career pathways in government and not-for-profit sectors.
### MASTER OF APPLIED PROJECT MANAGEMENT

**CRICOS CODE 086353J**

**DURATION** 4 trimesters

**INTAKES** January, May, September

**INDICATIVE ANNUAL TUITION FEE** $42,500

[adelaide.edu.au/degree-finder](adelaide.edu.au/degree-finder)

---

Project management is about delivering successful results for business, government and the community. It requires passion, resolve and vision. This intensive degree will set you up to manage projects at whole new scales and levels of complexity.

**What will you do?**

Our Master of Applied Project Management places a strong emphasis on holistic and systems-based project management. You will:

- Learn scalable project management concepts, methodologies and tools
- Build your understandings around world-leading practices (PMBOK®, Guide and PRINCE2™)
- Confidently apply your learning to meet professional and organisational goals
- Develop the leadership skills required for large-scale projects
- Undertake significant research projects.

**Where could it take you?**

You could organise major sporting events or coordinate living arts festivals. You might manage megaprojects in healthcare, science, manufacturing, catering, entertainment or the defence sector. Perhaps you’ll lead a marketing team in Silicon Valley or oversee the development of a multi-storey tower in Dubai.

**Professional accreditation**

The University of Adelaide is a Registered Education Provider for the Project Management Institute (PMI®) and approved by PMI® to issue Professional Development Units for its approved training courses. PMI is a registered mark of the Project Management Institute, Inc.

---

### MASTER OF APPLIED PROJECT MANAGEMENT (PROJECT SYSTEMS)

**CRICOS CODE 075813J**

**DURATION** 2 years full-time (8 trimesters)

**INTAKES** January, May, September

**INDICATIVE ANNUAL TUITION FEE** $42,500

[adelaide.edu.au/degree-finder](adelaide.edu.au/degree-finder)

---

Advanced project management is about delivering successful results in complex environments. It requires great vision, strategic thinking and problem-solving skills. This intensive degree sets you up to manage the entire life cycle of large projects.

**What will you do?**

In our Master of Applied Project Management (Project Systems) you’ll:

- Gain a firm understanding of complex systems, linear project planning and risk assessment
- Consider how project inputs, transformations, outputs and feedback loops impact on productivity
- Examine the role of stakeholders and external influences
- Undertake a major research project
- Develop the advanced leadership skills needed for large-scale projects.

**Where could it take you?**

You might coordinate civil engineers and urban planners on major infrastructure projects. You could design explicit climate change strategies with a global team. Perhaps you’ll start a logistics company and help start-ups realise their dreams.

**Professional accreditation**

The University of Adelaide is a Registered Education Provider for the Project Management Institute (PMI®) and is approved by PMI® to issue Professional Development Units for its approved courses. PMI is a registered mark of the Project Management Institute, Inc.

---

### MASTER OF BUSINESS ADMINISTRATION

**CRICOS CODE 099067E**

**DURATION** 4 trimesters

**INTAKES** January, May, September

**INDICATIVE ANNUAL TUITION FEE** $48,500

[adelaide.edu.au/degree-finder](adelaide.edu.au/degree-finder)

---

We are living in a world that is at times volatile, unexpected and ambiguous. It is essential that current and future leaders be equipped to deal with complex problems in a systemic, integrated and collaborative fashion.

Our Master of Business Administration (MBA) creates leaders who can deliver on the demands of an increasingly complex world, as demonstrated by our broad network of alumni in the business community.

**What will you do?**

The Adelaide MBA is student-focused, with maximum flexibility to suit the needs of busy professionals. You will:

- Build professional relationships and networks
- Gain advanced problem-solving, analytical and critical thinking skills
- Develop strong leadership skills necessary for driving innovation and positive change within organisations
- Cultivate a global outlook, strategic mindset, and the ability to see the bigger picture
- Understand the management of critical business functions through coursework including finance, accounting, economics and marketing.

There are also opportunities for international exchanges at world-leading business schools.

**Professional accreditation**

The Adelaide MBA holds a five-star rating from the Graduate Management Association of Australia and is ranked number five nationally by The Australian Financial Review’s influential ‘BOSS’ magazine.* The degree is also recognised as a Tier 1 MBA by CEO Magazine.^

---

* Ranking released September 2017
^ Ranking released March 2018
Curious about trends and changes in the commercial realm? Business-minded but thinking bigger than the nine-to-five? Our Master of Business Research is designed for graduates of a business coursework master degree who want to start on a research pathway or reinforce their edge in the labour market.

What will you do?
There are many different areas of business you can research during your study. You might investigate organisational resilience or mentor-protégé relationships. You could research machine-learning classification techniques and how they’re used to predict movement in the stock market. You might be interested in consumer behaviour, marketing strategies in the wine industry or the impact of cryptography on audit procedures. Perhaps you’ll examine management practice in family businesses or women’s experiences in leadership positions.

Over the course of the program you will:
• discover how to do meaningful research
• plan and conduct your research with high levels of independence, guided by an academic mentor who’ll support and encourage your intellectual development
• develop skills for problem-solving, analytical and critical thinking, project management, self-management and communication
• drive innovation and progress in an area you’re passionate about
• become part of the academic community and build your professional and global networks
• complete a dissertation comprising 33 percent of the program.

Where could it take you?
Completion of this degree satisfies the entry requirements for a PhD but many employers will also value the research skills, networks and experiences you can draw from as a graduate of our master program.

The University of Adelaide’s Business School has been pushing boundaries in business education for over 140 years. We have a wide range of innovative postgraduate courses designed to build advanced business skills and knowledge. Our Master of Commerce provides an opportunity to design an individual study program tailored to your needs, interests and career goals.

What will you do?
Your degree can include courses from a variety of different disciplines. You will:
• enrol in five core topics
• choose eight electives—from Strategic Marketing or Understanding Consumers to Income Taxation and Derivatives
• undertake industry internships and placements subject to approval
• complete three research courses.

Where could it take you?
If your strengths lie in understanding and working with people you might pursue marketing or project management. You could put your skills to use championing early-stage start-ups. Perhaps you’ve a knack for patterns and numbers that will see you move into corporate accounting or market research.

Finance professionals are pragmatic, quick-thinking and ambitious. They’re skilled problem-solvers who stay informed and get results. With advanced courses in research, funds management and corporate policy, our Master of Finance offers a competitive edge in the finance world.

What will you do?
• Study Australian and international financial markets in depth.
• Learn about derivative assets and their specific markets’ operation.
• Explore different areas of the finance industry according to your interests and career goals.
• Analyse and interpret developments in financial practice.
• Work on a large-scale applied research project.

Professional accreditation
This degree will provide you with an excellent grounding for pursuing Chartered Financial Analyst (CFA) qualifications. Its courses capture large elements of the CFA curriculum.
Our Master of Finance and Business Economics is suited to business or economics graduates seeking in-depth advancement in their area. It also meets the needs of graduates with related degrees looking to comprehensively adapt to the fields of economics and finance.

What will you do?
While the degree includes study in both areas, students must specialise in one. Depending on your goals and interests you will:
- study wealth management and financial modelling in depth
- learn analytical tools for financial decision-making
- analyse theoretical and applied aspects of modern economics and econometrics
- discover advanced techniques for analysing and managing data
- explore matters relating to the growth and stability of the whole economic system.

Where could it take you?
You might be a high-stakes stockbroker, a banker, a data analyst in a government agency or a health economist with a pharmaceutical group. You could be a demand planner in a big wine company.

Professional accreditation
In our finance specialisation you’ll gain necessary educational grounding for further professional studies towards the Chartered Financial Analyst qualification.

CRICOS CODE 056498F CAMPUS North Terrace
DURATION 2 years full-time INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $44,000

Base yourself in Australia’s agricultural hub and be alongside world-class researchers, primary producers and agribusiness leaders, discovering the economic, policy, environmental and social issues affecting agribusinesses and global food systems.

What will you do?
Our Master of Global Food and Agricultural Business will help you develop the conceptual and practical skills necessary for management decision-making, marketing, finance, policy analysis and problem-solving in an ever-expanding and increasingly complex global food and agricultural marketplace.

To complement the fundamental competencies developed through the core courses, you will have the opportunity to:
- customise the program to an area of your interest and career objectives through the available elective units
- develop practical skill sets by completing a full range of internship options with leading agribusiness companies
- undertake a research project that will analyse real-world food and agricultural business problems, issues, or strategic opportunities.

Where could it take you?
The Master of Global Food and Agricultural Business provides you with the necessary conceptual and practical skills to solve global challenges and start a rich career in food and agriculture-related industries. Whether you are interested in the public or private sector, the program opens up a wide number of possible career paths, including government departments, research centres, international funding agencies, food retailers, financial agencies, agricultural consultancy services, and non-government organisations.

CRICOS CODE 089735C CAMPUS North Terrace
DURATION 2 years full-time (6 trimesters) INTAKES January, September
INDICATIVE ANNUAL TUITION FEE $42,500

Entrepreneurs and investors are necessary in all areas and industries—from science and health to media, arts and education. They take the risks needed to start up new businesses and social ventures. This rigorous two-year degree sets you up to build sustainable organisations, grow wealth for stakeholders and make positive impacts in your community.

What will you do?
Our Master of Innovation and Entrepreneurship gives you practical knowledge, access to networks and a growth mindset for success. In core courses you will:
- build tools for assessing and implementing ambitious ideas and ventures
- learn how to create supportive environments that foster and enable innovation
- examine entrepreneurial investment and management practices
- complete a six-unit research project.

There’s also a research track available, designed to qualify you for higher degrees by research. In this pathway you’ll complete a 12-unit project.

Where could it take you?
You might shine a spotlight on an unexpected renewable energy source. You could explore ecotourism or virtual reality. Perhaps you’ll invest in a world-changing approach to everyday healthcare. This degree is also suitable if you want to be a corporate intrapreneur, driving innovative products and services for employers. adelaide.edu.au/degree-finder
International business managers help different types of organisations to benefit from the complex and dynamic forces of globalisation. The University of Adelaide takes a practical approach to equip students from all around the world with the skills needed to manage these complexities and impact the international market.

**What will you do?**

With a combination of foundation and specialised courses, this degree is suited to entrants from non-business backgrounds. A shorter, 4 trimester option is available for entrants with an undergraduate degree in related fields. These might include accounting, business management, human resources management, banking and finance.

You will:

- learn to spot and seize international business opportunities, get the best out of the culturally diverse workforce, negotiate across cultures, and deliver value to different types of organisations
- benefit from diverse cohorts and small class environments
- build advanced business, communication and leadership skills
- expand your cultural awareness.

You’ll also gain real-world experience through one of the following:

- a domestic internship with an international project
- an international internship
- an international study tour.

**Where could it take you?**

Your role on the global stage is dictated only by your own ambitions. You could land a management role in import and export trading. Perhaps you’ll even end up working in the diplomatic corps or a government body that looks after international trade and investment.

In a conflicted and inequitable world, practical and informed steps towards positive growth are key. Global collaboration is needed to secure a stable, positive future for our planet.

Our Master of International Trade and Development (MITTD) equips you for leading roles in areas related to economic growth and development. We help you build the knowledge, networks and capacity to enable change.

**What will you do?**

- Gain practical insights into the political dynamics of trading environments.
- Understand the roles of key domestic, regional and global players.
- Consider opportunities and challenges facing businesses and economies in a globalised world.
- Build advanced legal and commercial knowledge.
- Learn negotiation and leveraging strategies through case-based learning experiences.

**Where could it take you?**

Your role on the global stage is dictated only by your own ambitions. You could find yourself at a world summit, coming up with strategies for achieving long-term international goals. You might look after your community’s interests as a local MP. Perhaps you’ll be an international marketing manager, investment consultant, corporate export director or economic researcher.

Marketing experts are strategists, innovators and communicators. They craft irresistible experiences, delight customers and create value.

Our Master of Marketing is an advanced degree designed to skyrocket students into senior marketing positions.

**What will you do?**

This intensive program will challenge marketing and non-marketing undergraduates alike. You will:

- explore future-oriented marketing concepts
- learn to make informed finance and accounting decisions
- develop advanced strategic thinking and leadership skills
- apply cutting-edge analytical tools and techniques
- pursue electives aligned to your interests and career goals—from Social Entrepreneurship to Direct Wine Marketing
- gain deep insights into international pressures and global markets.

**Where could it take you?**

Our graduates go on to exciting marketing careers in business, government, community service and not-for-profit organisations. You could shape the future of global food, fashion or tech brands. You might analyse consumer data and suggest sales strategies based on your research. Perhaps you’ll connect with partners in public relations or represent the athletic elite as a sports agent. Your role in today’s marketing environment is dictated only by your own ambitions.
**MASTER OF PROFESSIONAL ACCOUNTING**

**CRICOS CODE 072988K**  
**CAMPUS** North Terrace

**DURATION** 1.5 years full-time  
**INTAKES** February, July  
**INDICATIVE ANNUAL TUITION FEE** $44,000

Modern economies depend on good accounting. We need experts who understand and can explain the financial and social business environment to others. Our Master of Professional Accounting offers an intensive 1.5-year path to careers in accounting, financial management, auditing and business advising.

**What will you do?**
- Learn the fundamentals of financial and management accounting.
- Study advanced accounting concepts and analytical techniques.
- Take courses in taxation and auditing.
- Explore relevant business areas such as economics, finance, information systems and business law.
- Consider the role of technology and ways to build positive client relationships.

**Where could it take you?**
Accounting graduates are always in demand and enjoy both stability and variety. Due to changes in reporting practices, career opportunities are increasing across public and private sectors. You might work with a charity, in education or for the government. Perhaps you’ll become chief financial officer at a company or manage budgets in the sporting world. You could even unmask financial deceptions as a forensic accountant.

**Professional accreditation**
Our Master of Professional Accounting satisfies the requirements for associate membership of CPA Australia, and Chartered Accountants Australia and New Zealand.

---

**MASTER OF WINE BUSINESS**

**CRICOS CODE 081149G**  
**CAMPUS** North Terrace

**DURATION** 2 years full-time (6 trimesters)  
**INTAKES** January, May, September  
**INDICATIVE ANNUAL TUITION FEE** $44,000

Home to some of the most innovative and revered winemakers in Australia, South Australia is the ideal location for you to study how business operates in the wine industry. This intensive degree sets you up to have a positive impact on the entire wine value chain; a capability demanded of wine business professionals worldwide.

**What will you do?**
Our Master of Wine Business is designed for both current and aspiring wine business owners, marketers, managers, winemakers, sommeliers, and staff. You will:
- benefit from flexible study modes  
- build working knowledge and skills in both winemaking and viticulture  
- learn about direct wine marketing  
- understand how to evaluate domestic and international markets  
- study the foundations of wine science  
- explore legal aspects of the business  
- undertake a six-unit research project. There are also internship opportunities across South Australia’s booming wine industry.

**Where could it take you?**
You might manage a cellar door or an up-and-coming winery. You could work in marketing, sales, tourism or events, delighting customers and crafting irresistible experiences for wine lovers. Perhaps you’ll export South Australia’s best or take on a strategic role in a regional governing body.
RANKED #1 IN AUSTRALIA AND
43 IN THE WORLD FOR COMPUTER
SCIENCE AND ENGINEERING*
INTERNATIONALLY
RECOGNISED
75% FASTEST GROWING
OCCUPATIONS REQUIRE
STEM SUBJECTS^

*Academic Ranking of World Universities 2018
^‘A Smart Move: Future-proofing Australia’s Workforce’ report, PwC 2017
Every day, computer scientists work on software that pushes the limits of human endeavour in areas as varied as disease treatment, weather prediction, cyber security, international finance and space exploration.

As a University of Adelaide computer science graduate, you will be equipped to drive that transformation—to effectively program the future.

Our innovative degrees are at the forefront of the digital technologies revolution. We have strong links with industry. And we’re internationally renowned in multiple areas: computer vision, distributed and high-performance computing, evolutionary systems, formal methods and software architectures.

Learn from outstanding academic staff
The University’s award-winning educators and world-leading researchers provide an exciting, innovative and comprehensive education environment. They also draw on years of education and industry experience to deliver invaluable guidance and mentorship.

Be nationally accredited and globally recognised
All our computer science degrees are accredited by the Australian Computer Society. They also provide the necessary academic requirements for membership of the global Institute of Electrical and Electronic Engineers and the Association for Computing Machinery. Your University of Adelaide qualification can take you anywhere.

Graduate career-ready
You will emerge as a highly skilled, adaptable graduate, ready to design computer-based solutions to many of society’s challenges. You’ll possess a diverse suite of valuable skills sought-after by employers throughout the economy—from finance, defence and information technology, to scientific research, logistics and teaching.

“ONE OF THE MOST ENJOYABLE THINGS ABOUT STUDYING AT THE UNIVERSITY OF ADELAIDE IS THE BROAD NETWORKING EXPERIENCE IT PROVIDES. FROM ACADEMIC TO SOCIAL EVENTS, YOU GET TO MEET AMAZING NEW PEOPLE WITH RICH HISTORY AND CULTURE.”

Sohaib Irshad
Master of Computing and Innovation
Our Master of Computer Science has a major research component and projects are supervised by leading academics from world-class research groups. Their fields of expertise include computer vision, evolutionary computation, distributed systems, computer networks, high-performance computing, formal verification and systems modelling.

**What will you do?**
- Build advanced technical knowledge and skills.
- Learn to design and construct large software systems.
- Propose and conduct an advanced research project.
- Deliver a report and public presentation on your work.

**Foundational programming skills and familiarity with at least one object-oriented programming language are required to enter the program. Our assignments are usually written in Java or C++.**

**Where could it take you?**
High-performing graduates may be able to proceed to further research study. You might help big businesses use data to make more informed decisions in the face of uncertainty. You could analyse data from apps to drive UX updates. Perhaps you’ll come up with innovative management systems as a data architect.

Big data and data science is an emerging area of necessity for many fields—from science and engineering to economics and digital humanities.

The Master of Data Science explores how data is changing our world. We give you the knowledge and skills to contribute in the areas you care about.

**What will you do?**
- Undertake a specialised introductory IT program in your first semester.
- Learn C++ language and programming.
- Understand fundamental data structures and computer systems.
- Benefit from the guidance and mentorship of highly experienced, award-winning educators and world-leading researchers.
- Learn to design and construct large software systems.
- Build management and innovation skills through core courses.
- Apply your learning in a significant project.

This degree will still be invaluable if you already have computer science qualifications. You will be able to vary your program to reflect your existing knowledge.

**Where could it take you?**
You’ll graduate ready to take on a wide range of IT-based roles. You could be a computer scientist, web developer or tech entrepreneur. You might manage IT contracts and projects in the government sector. Perhaps you’ll work in marketing, selling exciting new IT products to the public.

Note: After completing the equivalent of a major in computer science, you’ll be eligible to apply for entry into our Master of Computer Science or Master of Software Engineering. Depending on your prior study, this major may take up to 2 years to complete. Options for converting to a graduate diploma or graduate certificate program are also available. If you’re looking to convert between programs, seek advice from the Faculty of Engineering, Computer and Mathematical Sciences, as not all courses can be counted towards the new program.
Governments and organisations all over the world are actively seeking cyber security experts with advanced technical skills and an understanding of the social and legal contexts of the digital world. The need is urgent. It spans all sectors. And your pathway is here.

What will you do?
Our Master of Cyber Security will equip you to lead cutting-edge cyber security programs — for governments, law enforcement agencies, companies and NGOs alike.

The industry-driven content is delivered over 18-24 months full-time. There’s a flexible blend of online and intensive on-campus learning, with mentoring from world-class cyber security researchers.

You will gain:
• a deep, interdisciplinary understanding of complex cyber security needs and considerations across multiple industries
• highly advanced technical skills and the ability to apply them in real-world contexts
• a sophisticated grasp of cyber security policy and governance considerations—social, legal and commercial
• the ability to critically analyse and evaluate relevant data and technology
• the refined interpersonal skills to effectively communicate issues and strategies to a range of stakeholders.

You’ll also take specialist courses in your chosen major—Cyber Security Management or Secure Software Development. And you’ll apply and expand your learning through a major research project, or industry-based practise.

Where could it take you?
To the discipline’s highest levels. You could develop strategies to secure health providers’ patient data. Or protect social media users’ personal details. Perhaps you’ll prevent cyber theft for global financial institutions. Or ensure undercover police officers’ identities aren’t compromised. Wherever your interests lie, your expertise will be in demand.
EDUCATION
Teacher. School leader. Educational researcher. Whatever your career stage, our qualifications can help you advance your career in education.

**A degree to start your teaching career**

If you’ve previously completed an approved undergraduate degree, our Master of Teaching (Middle and Secondary) will give you the qualification you need to change paths and become a practising teacher.

You’ll focus on developing the pedagogical knowledge and skills to teach two subject areas. You will also take courses on contemporary educational issues and practice, relevant to both the middle and secondary years of schooling. Particular emphasis will be placed on understanding adolescent behaviour and promoting wellbeing.

Our Master of Teaching (Middle and Secondary) is accredited by the Teachers Registration Board of South Australia. Graduates may register to teach in South Australia, and in most cases, interstate and overseas.

**A degree to take your existing education career further**

If you’re a registered teacher, trainer, vocational educator, educational consultant or university lecturer or supervisor, our Master of Education will refresh and expand your professional knowledge and skills—and help you step up into more senior roles.

It enables you to gain specialist training in:
- educational leadership and innovation
- wellbeing
- entrepreneurship education
- science, technology, engineering and mathematics (STEM) education
- English language teaching (ELT/TEFL)
- research.

"I REALLY ENJOY INTERACTING WITH INTERNATIONAL STUDENTS FROM DIVERSE COMMUNITIES, AND LEARNING THEIR UNIQUE CULTURES GAVE ME A SENSE OF CROSS-CULTURAL UNDERSTANDING DURING MY UNIVERSITY LIFE."

Wai Maung  Master of Education
Passionate about education but don’t see yourself working at the chalkface? Want to lead changes and innovations in the field? This unique degree is designed for education professionals seeking to develop their knowledge and skills in key areas of the sector.

What will you do?
We offer six areas of specialisation:
• Educational Leadership and Innovation
  Study leadership and management theory in depth and consider how it can be applied to lead educational change.
• Wellbeing
  Examine evidence-based approaches to wellbeing support—a key knowledge area for all educators.
• Entrepreneurship Education
  Explore entrepreneurship and innovation and its impact on education, schools and systems.
• Science, Technology, Engineering and Mathematics (STEM) Education
  Investigate issues, opportunities and student engagement in STEM areas.
• English Language Teaching (ELT/TESOL)
  Learn the latest strategies for effective English Language Teaching.
• Research
  Strengthen your educational research skills and understandings, with opportunities to go on to a PhD.

Where could it take you?
You’ll graduate ready to pursue a rewarding education career outside of the school classroom. You could revolutionise the field with a new approach to assessment or integrated curriculums. You might want to teach English to adults or work in higher education. Perhaps you’ll be an education consultant or transition into research and publish your own book.

If you’ve already completed a teaching qualification and worked as a teacher in Australia for two years, you may be granted up to 24 units of credit.

Professional accreditation
This program does not constitute the requirements for a recognised teaching qualification. If you would like to become a practising teacher, please refer to the Master of Teaching (Middle and Secondary).
"MY TIME AT THE UNIVERSITY OF ADELAIDE WAS FUN AND EDUCATIONAL. THE FRIENDS MADE HERE HAVE HELPED ME THROUGH PERSONAL AND ACADEMIC CHALLENGES. THE UNIVERSITY ALLOWED ME TO EXPLORE DIFFERENT CAREER OPTIONS FOR MY DEGREES AND PROVIDED FLEXIBLE LEARNING OPTIONS. SUPPORT AT THE UNIVERSITY WAS ALSO VERY USEFUL."

Jordon Della-Pietra  Master of Teaching
ENGINEERING

* Excellence for Research in Australia (ERA), December 2015.
** Academic Ranking of World Universities 2018.
Whether you’re a recent engineering graduate or a practising professional with relevant work experience, our highly ranked postgraduate engineering degrees are your passport to senior high-tech roles around the world.

In addition to graduating with broad, adaptable skill sets applicable to a wide variety of industries, you will also have the chance to enhance your career pathways by specialising in cutting-edge technologies. This solid technical foundation can open up opportunities in many specialist engineering areas, including: chemical, civil, environmental, mining, electrical and electronic, mechanical, petroleum, data science, and software.

**Graduate career-ready**

The University of Adelaide has an outstanding reputation for high-quality engineering teaching, research and industry links. You will emerge from this ideal educational environment perfectly equipped to immediately make a difference in people’s lives.

**Nationally accredited and globally recognised degrees**

Our engineering postgraduates enjoy lucrative national and international job prospects and rewarding long-term careers involving imagination, innovation and leadership. All our Master of Engineering degrees are fully accredited by Australia’s peak professional engineering body, Engineers Australia.

---

“**UNIVERSITY PROVIDES A VARIETY OF OPPORTUNITIES TO INTERNATIONALISE YOUR STUDENT EXPERIENCE, STUDY ABROAD, CONNECT WITH OTHER INTERNATIONAL STUDENTS AND DEVELOP A GLOBAL OUTLOOK, WHICH EMPLOYERS WILL VALUE.”**

Yogesh Dolphode
Master of Engineering (Mechanical Engineering)
Aerospace engineers push the boundaries of what is possible. They develop new technologies and materials for aeronautical, space and defence industries. This intensive degree is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

What will you do?
Our Master of Engineering (Aerospace) comprises a foundation year and an advanced studies year. You will:
• take courses in space vehicle design
• study applied aerodynamics and aeronautical engineering
• build skills in business and project management
• pursue specialist topics according to interests and career goals—from Aircraft Design to Fracture Mechanics
• undertake a significant research project.
To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.

Where could it take you?
You could develop better combat droids, jet engines, or laser-guided weapons systems. You might be an aerospace technician or drafter. Perhaps you’ll plan, build and test robotic systems with artificial intelligence, or engineer the next generation of satellites.

Chemical engineers sustain and improve industries as diverse as food processing, petrochemicals, ceramics, petroleum refining, primary metals, plastics, biotechnology, pharmaceuticals, glass and specialty chemicals. Our Master of Engineering (Chemical) is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

What will you do?
This intensive degree comprises a foundation year and an advanced studies year. You will:
• explore separation processes and simulation design
• build skills in business and project management
• study fluid and particle mechanics
• pursue electives according to interests and career goals—from Pyrometallurgy to Transport Processes in the Environment
• undertake a significant research project.
To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.

Where could it take you?
You could develop pharmaceuticals, biofuels, cosmetics or foods. You might work in water treatment, waste management or even tissue engineering. You could conduct safety and risk assessments on process plants. Perhaps you’ll design environmentally sustainable combustion systems.

Civil and structural engineers create and maintain buildings, systems and infrastructure. They make sure bridges, roads, tunnels, railways, dams, airports and water channels meet the needs of our society in safe and sustainable ways. This intensive degree is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

What will you do?
Our Master of Engineering (Civil and Structural) comprises a foundation year and an advanced studies year. We have a strong focus on design and analysis using modern, computer-based methods. You will:
• study structural dynamics, reinforced concrete and steel design
• develop and evaluate geotechnical models
• pursue specialist topics according to your interests and career goals
• build communication and project management skills
• undertake a significant research project.
To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.
Civil and environmental engineers design sustainable solutions for meeting society’s needs. They build and improve the infrastructure and systems underpinning modern life, without compromising our environment or future generations. This intensive degree is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

What will you do?
Our Master of Engineering (Civil and Environmental) comprises a foundation year and an advanced studies year. You will:
• practise advanced civil engineering analysis and design
• study environmental science and engineering principles
• pursue specialist topics according to your interests and career goals
• build communication and project management skills
• undertake a significant research project.
To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.

Where could it take you?
You might manage coastal erosion, develop policy on energy futures or come up with large-scale recycling schemes. You could supervise major urban water projects. Perhaps you’ll design high-speed railways or help with the construction of the world’s next state-of-the-art sporting facility.

Electrical engineers are designers and problem-solvers. They tackle large-scale electrical challenges, develop innovative technologies and improve the quality of modern life. This intensive degree is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

What will you do?
Our Master of Engineering (Electrical) comprises a foundation year and an advanced studies year. You will:
• practise modelling, analysing and operating electric energy systems
• build communication and project management skills
• gain advanced understandings in mathematics and systems engineering
• pursue specialist topics—from Power Quality and Fault Diagnostics to Distributed Generation Technologies
• undertake a significant research project.
To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.

Where could it take you?
You might become a project engineer for a national energy company. You could create and maintain sensor systems for smart cities. Perhaps you’ll help developing communities build electrical grids or telecommunication systems from scratch.

Electronic engineers develop highly sought-after skills and knowledge systems. They design and construct tools we use each and every day—from smart devices to medical imagery and defence technologies. This intensive degree is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

What will you do?
Our Master of Engineering (Electronic) comprises a foundation year and an advanced studies year. You will:
• study the principles of control and communication systems
• explore radio-frequency engineering and signals processing
• build mathematics, communication and project management skills
• pursue specialist topics—from Telecommunications and Microelectronics to Image Sensors and Processing
• undertake a significant research project.
To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.

Where could it take you?
You could drive research and development into autonomous vehicles or energy-efficient transport. You might work on state-of-the-art avionics as an electronic engineer with the air force. Perhaps you’ll build digital hardware for computers or artificial intelligence.
Mechanical engineers are experts in everything from prosthetic limbs and robots to motor vehicles, aircrafts and space stations. They design and develop materials, processes and products—always innovating new ways to improve our lives and the world.

This intensive degree is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

**What will you do?**

Our Master of Engineering (Mechanical) comprises a foundation year and an advanced studies year. With a strong hands-on learning and design focus, you’ll:

- explore advanced mechanics and structural design
- study applied aerodynamics and thermodynamics
- pursue specialist topics according to your interests and career goals
- build communication and project management skills
- undertake a significant research project.

To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.

**Where could it take you?**

You could develop life-saving medical technologies, or innovate in the sustainable energy field. You might design, build and test robots and robotic systems with artificial intelligence. Perhaps you’ll be an aerospace engineer or check naval ships for damage using vibration mechanics.

---

Mechatronic engineering combines mechanics, electronics and computing. Mechatronic engineers work comfortably across all three areas, often creating complex and intelligent technologies.

This intensive degree is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

**What will you do?**

Our Master of Engineering (Mechatronic) comprises a foundation year and an advanced studies year. You will:

- take advanced courses in mechanical engineering and programming
- gain hands-on mechatronic experience through small-group projects
- pursue specialist topics according to your interests and career goals
- build communication and project management skills
- undertake a significant research project.

To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.

**Where could it take you?**

You might design and optimise micromachines, craft the next generation of cameras or help build underwater exploration vehicles. You could maintain a fully automated robotic assembly line. Perhaps you’ll develop cutting-edge defence or medical technologies.
### Master of Engineering (Mining)

**CRICOS CODE**: 073207G  
**CAMPUS**: North Terrace

**Duration**: 2 years full-time  
**Indicative Annual Tuition Fee**: $43,000

Mining engineers work with all aspects of ore extraction and processing. They gather valuable minerals or metals and provide a backbone industry for our society. This intensive degree is suited to high-achieving engineering graduates, as well as engineers with relevant work experience. It is fully accredited by Engineers Australia.

**What will you do?**

Our Master of Engineering (Mining) comprises a foundation year and an advanced studies year. You will:
- study geomechanics, geotechnical engineering and geostatistics
- build skills in mine design, modelling and simulation
- conduct risk and uncertainty analyses
- explore mine management, planning and sustainable practices
- pursue specialist topics according to your interests and career goals
- undertake a significant research project.

To stay in the program, you’ll need to maintain a high grade point average. An exit path will be available if you’re only completing the foundation year. In this case you’ll receive a graduate diploma.

**Where could it take you?**

You might process minerals, take on a managerial role or work with artificial intelligence designed for mining. You could be a highly paid drilling or geotechnical engineer. Perhaps you’ll work in exciting developing fields like deep-sea or space mining.

---

### Master of Marine Engineering

**CRICOS CODE**: 073629M  
**CAMPUS**: North Terrace

**Duration**: 1.5 years full-time  
**Indicative Annual Tuition Fee**: $44,000

South Australia has a world-class maritime industry base and the sector is growing rapidly. We’re currently witnessing a time of multi-billion dollar spending on submarines and surface ships. The University of Adelaide is Australia’s leading university in defence, and partnered with industry both locally and internationally. Whether you’re looking to upskill or change careers, we’ll help match your professional goals to industry objectives.

**What will you do?**

Our new Master of Marine Engineering is flexible, and co-designed with defence partners. You will:
- develop and enhance prior expertise
- build highly sought after knowledge and practical skills
- take core courses intensively, allowing you to complete Submarine Design, Naval Ship Engineering and Systems Engineering within six months
- choose from a wide range of specialist electives and study paths.

Industry-sponsored students will also gain practical experience through workplace projects.

This degree is delivered in steps. Exit paths will be available after six and 12 months of full-time study, at which points you’ll receive a Graduate Certificate or Graduate Diploma in Marine Engineering.

**Dual Master of Marine Engineering with ENSTA Bretagne**

The University of Adelaide also offers a premium dual 1.5-year Master of Marine Engineering program with ENSTA Bretagne in France. Students spend one semester in Adelaide and a third semester in a jointly-supervised internship.

The new dual program feeds directly into the defence engineering skills base available to South Australia and France. Graduates receive two internationally-recognised qualifications—a Master of Marine Engineering from the University of Adelaide and a Master of Science in Marine Engineering, Surface Ships and Submarines from ENSTA Bretagne.

Intending students should consult with the Faculty if you are interested in finding out more about this exciting opportunity.

---

### Master of Materials Engineering

**CRICOS CODE**: 099708A  
**CAMPUS**: North Terrace

**Duration**: 2 years full-time  
**Indicative Annual Tuition Fee**: $43,000

Investment in the advanced materials market is expanding the world over—in the space industry, medical technologies, defence, manufacturing, energy, telecommunications and more. Experts who have the advanced expertise to lead discoveries in materials engineering are in high demand across a diverse range of industries.

**What will you do?**

Our Master of Materials Engineering will equip you with high-level knowledge—and practical research skills—at the real-world interface between materials with engineering, chemistry, and physics. The industry-driven content is delivered over two years full-time, through a flexible blend of online and intensive face-to-face learning. If you’re currently employed full-time and looking to upskill, courses within the Master of Materials Engineering can be taken individually or combined as a Graduate Diploma or Graduate Certificate —enabling you to fit study around you.

You will:
- work in the University’s state-of-the-art engineering research labs
- have access to cutting-edge on-campus research and development facilities
- be mentored by world-class materials engineering researchers — including from the University of Adelaide Centre for Materials in Energy and Catalysis, and the ARC Research Hub for Graphene Enabled Industry Transformation.

You’ll also be able to take specialist courses in your chosen major: Energy; Quantum; or Optical. And you’ll apply and expand your learning through a major research project supervised by world-class Adelaide engineers and scientists.

**Where could it take you?**

You could enable smaller, more energy dense batteries. You might allow creation of a high-agility suit for more productive spacewalks. Perhaps your innovation will lead to the conversion of sun light to transportable fuels to power our car and society. You may even wish to continue your studies in a materials engineering PhD.
Petroleum engineers help sustain society’s way of life. They provide oil and gas in efficient, safe, and environmentally responsible ways.

Our Master of Petroleum Engineering is designed for graduates of a Bachelor of Engineering (Honours) or equivalent science and mathematics degrees. It’s also open to petro-technical professionals seeking to advance their technical careers with formal qualifications.

Our petroleum engineering degrees are developed and taught by industry-trained academics through the Australian School of Petroleum. This is Australia and Southeast Asia’s academic centre for petroleum research and education, and the only school of its kind in Australia.

**What will you do?**

- Learn all about well testing and drilling engineering.
- Explore unconventional resources and recovery.
- Access our Tempest reservoir simulator.
- Gain field experience at an Australian sedimentary basin.
- Take integrated courses in business, economics and project management.
- Complete a six unit research project thesis.

**Where could it take you?**

You’ll graduate ready to enter the upstream sector of the petroleum industry. You could drill exploratory wells for oil, gas and energy companies. You might search for underground or underwater oil fields with a government agency. Perhaps you’ll move into a supervising or managerial role.

Note: Mid-year entry into this program is open to domestic students only and is subject to availability. This entry point is best suited to applicants wishing to study part-time while continuing to work in the industry. Applicants seeking mid-year entry into this program should be aware that their program will only be available part-time and therefore cannot be completed in 1.5 years.
OUR ENGINEERING POSTGRADUATES ENJOY LUCRATIVE NATIONAL AND INTERNATIONAL JOB PROSPECTS AND REWARDING LONG-TERM CAREERS INVOLVING IMAGINATION, INNOVATION AND LEADERSHIP.
HEALTH
The University of Adelaide’s wide range of postgraduate health degrees can provide the knowledge and skills to advance your career and make a positive difference for humanity.

**Industry-driven and connected**

All our postgraduate health degrees are highly informed by real-world needs. Throughout your studies, you’ll be given the opportunity to learn from practising industry experts and significantly develop your professional networks.

**High-level guidance and mentoring**

The pride we take in attracting leading academics and researchers from around the world ensures you will learn from the best. Our staff are experts in their field and have outstanding international reputations, with many recognised as high-cite professors. What’s more, our low student-to-staff ratios mean you’ll get plenty of one-to-one attention during your time with us.

**State-of-the-art facilities**

The University’s $246 million Adelaide Health and Medical Sciences (AHMS) building opened in 2017 in the heart of the Adelaide BioMed City precinct. Here—just metres from the new Royal Adelaide Hospital and the South Australian Health and Medical Research Institute—you will learn alongside more than 1700 of our students and 600 University of Adelaide health researchers in a vibrant and innovative environment.

---

“I CHOSE TO STUDY THE MASTER OF PUBLIC HEALTH AT THE UNIVERSITY OF ADELAIDE TO GAIN A GLOBAL PERSPECTIVE ON PUBLIC HEALTH ISSUES AND IMPROVE MY KNOWLEDGE AND SKILLS TO FURTHER MY CAREER.”

Romy Hidayat
Master of Public Health
DOCTOR OF CLINICAL DENTISTRY

CRICOS CODE 088341G
CAMPUS Teaching Hospitals
DURATION 3 years full-time
INTAKE February
INDICATIVE ANNUAL TUITION FEE $56,000

MINIMUM ENTRY REQUIREMENTS
Bachelor of Dental Surgery (or equivalent) or higher. Applicants who hold a relevant honours or master degree (or equivalent) will also be considered. Applicants must have:
• at least two years of general practice and an honours (research training) degree OR
• successfully completed the Primary Examinations of the Royal Australasian College of Dental Surgeons OR
• successfully completed the Primary Examinations of the Royal College of Dental Surgeons (UK).

ADDITIONAL ENTRY REQUIREMENTS
All applicants must complete the online application form at health.adelaide.edu.au/admissions/dclindent/application.html and provide:
• a short description of their research interests and aptitudes
• evidence of professional qualifications
• employment history details
• two professional referees
• a full CV, including work history and publications.

Students applying for the following specialisations must complete an interview in person via phone or Skype: Periodontics; Oral Pathology; Endodontics; Paediatric; Special Needs; and Prosthodontic.

Students applying for the specialisation in Orthodontics must complete a multiple mini-interview (MMI) in person, and manual dexterity assessments.

ADDITIONAL NOTES
Students accepted into the degree are required to maintain AHPRA registration and the appropriate level of immunisations and criminal history clearances. Please refer to: health.adelaide.edu.au/study-with-us/student-support/clinical-placements

APPLICATION CLOSING DATE 30 April 2019

adelaide.edu.au/degree-finder

Adelaide Dental School is ranked 1st in Australia and number 39 in the world*. Our leading-edge expertise gives our graduates a competitive edge in a flexible and rewarding profession.

This 3-year degree provides specialist dental education through clinical training and research.

What will you do?
Our Doctor of Clinical Dentistry is a professional postgraduate training program, not a PhD. You will:
• undertake clinical placements in metropolitan, rural, public and private health care settings
• conduct evidence-based clinical research
• propose, present and submit a major dissertation
• advance your knowledge and technical skills in a specialisation of your choice.

We offer the following specialist training areas:
• Endodontics
• Oral Pathology
• Orthodontics
• Paediatric Dentistry
• Periodontics
• Prosthodontics
• Special Needs Dentistry.

Where could it take you?
You’ll graduate ready to change lives on your chosen dentistry path. You’ll be eligible for specialty registration in Australia provided you’ve fulfilled all the qualifications and strict conditions outlined by the Australian Health Practitioner Regulation Agency.

Note: Before applying, make sure this degree allows you to register in the country where you intend to work.

Professional accreditation
All Doctor of Clinical Dentistry specialisations are accredited by the Australian Dental Council.

* Academic Ranking of World Universities of Academic Subjects 2017

GRADUATE CERTIFICATE IN ALCOHOL AND DRUG STUDIES

CRICOS CODE Online only
CAMPUS North Terrace
DURATION 6 months full-time
INTAKE February
INDICATIVE ANNUAL TUITION FEE $11,500

MINIMUM ENTRY REQUIREMENTS
A relevant 4-year undergraduate degree with a high level of academic achievement.

ADDITIONAL NOTES
This degree is delivered online only. It is not available to international applicants who hold or require an Australian student visa. International applications will, however, be accepted from candidates who will undertake their studies offshore, or who hold a valid Australian visa permitting online study.

What will you do?
• Study the biological mechanisms behind addiction.
• Consider underlying genetic and social factors.
• Explore current approaches to drug problems—from short-term treatments to long-term and community-based management.
• Investigate future developments in drug treatments and the field at large.

Where could it take you?
This certificate will be beneficial in a range of professions that interact with drug and alcohol addiction. These might include medical practitioners, nurses, psychologists, social workers, pharmacists, educators, law enforcement officers, counsellors, and project and policy officers.

Substance abuse is a common issue in today’s world. It continues to take a great toll on both individuals and society.

This is a flexible online certificate, ideally suited to professionals maintaining regular work commitments in Australia or overseas. It focuses on building advanced knowledge around drugs and alcohol, and the ways in which addiction can be treated.

## MINIMUM ENTRY REQUIREMENTS

Applicants must be registered (or eligible for registration as a Nurse) in Australia or New Zealand and hold a degree of the Bachelor of Nursing or equivalent; or have at least 2 years’ experience as a registered nurse in the specialist field they wish to study.

## ADDITIONAL ENTRY REQUIREMENTS

Within 10 days of submitting a formal application, candidates must provide all required additional information online at: health.adelaide.edu.au/admissions/gdnurssci/application.html

Admission: gdforensicodontology/application.html and provide:

- a statement of interests and aptitudes
- a curriculum vitae
- two referees’ contact details
- complete certified transcripts of degrees and diplomas (showing passes and fails)
- complete certified evidence of other qualifications
- copies of current registration certificates.

Applicants are also required to supply a national police clearance. Students accepted into the degree must maintain AHPRA registration and the appropriate level of immunisations and criminal history clearances.

## CLOSING DATE 30 June 2019

Nurses are highly respected members of the community. They help treat patients in all sorts of medical settings and touch lives with empathy, compassion and humour.

Our Graduate Diploma in Nursing Science is highly flexible. It’s well suited to those not yet working in a specialty.

**What will you do?**

You’ll consolidate and build on essential knowledge and skills.

- gain insight into different nursing specialisations and career opportunities
- benefit from strong links to industry and expert teaching
- explore professional issues such as accountability, ethics, advocacy, leadership, cultural competence and evidence-based practice
- pursue electives according to your interests and career goals
- develop research skills for further study options.

**Where could it take you?**

You’ll graduate prepared for advanced nursing roles. You might become a clinical practice nurse. You could be a hospital team leader. Perhaps you’ll take on a senior position within a community practice.

## ENTRY REQUIREMENTS

Bachelor of Dental Surgery or equivalent, and eligibility to register in Australia.

## ADDITIONAL ENTRY REQUIREMENTS

All applicants must complete the online application form at health.adelaide.edu.au/admissions/gdforensicodontology/application.html and provide:

- a statement of interests and aptitudes
- a curriculum vitae
- two referees’ contact details
- complete certified transcripts of degrees and diplomas (showing passes and fails)
- complete certified evidence of other qualifications
- copies of current registration certificates.

Applicants are also required to supply a national police clearance. Students accepted into the degree must maintain AHPRA registration and the appropriate level of immunisations and criminal history clearances.

## CLOSING DATE 30 June 2019

Forensic odontology is a specialist dental science required within the criminal justice system. Forensic odontologists perform examinations required by law enforcement agencies, medical examiners and coroners. They work to identify perpetrators and victims, usually by comparing dental records with human remains and bite marks.

**What will you do?**

Our Graduate Diploma in Forensic Odontology has a practical focus. It looks at the professional handling, examination, interpretation and presentation of dental and oral evidence. You will:

- conduct oral autopsies, bite-mark examinations and age estimations
- study the history and ethics of dental forensics and its role within the law
- prepare case records and reports
- explore video and computer imaging techniques.

Note: The nature of the concepts and casework required are often confronting and may be distressing to some people.

</tbody>
</table>

## MINIMUM ENTRY REQUIREMENTS

Successful completion of a bachelor degree or equivalent with at least a pass average in a field other than nursing. Applicants must have successfully completed a university level 1 Human Biology subject or equivalent.

## WHERE COULD IT TAKE YOU?

You’ll emerge with an advanced professional qualification recognised Australia-wide. You could assist in operating theatres, emergency wards, and a multitude of other health care environments. You might pursue hospital roles in acute care, aged care or mental health. Perhaps you’ll work in rural communities or with aid organisations.
MASTER OF COUNSELLING AND PSYCHOTHERAPY

CRICOS CODE 091225G  CAMPUS North Terrace

DURATION 2 years full-time  INTAKES February

INDICATIVE ANNUAL TUITION FEE $36,500

MINIMUM ENTRY REQUIREMENTS
A bachelor degree or equivalent.

ADDITIONAL ENTRY REQUIREMENTS
All applicants must:
• submit a resume (including academic transcripts) as part of their application
• attend an interview (by phone or Skype).
If the number of applicants exceeds the number of places available, applicants will be ranked according to a standardised interview assessment process and the University will offer places in order of rank.

Counsellors support others in exploring and overcoming emotional, mental and lifestyle issues. Counselling is a rewarding career choice for students who want to develop personal wisdom and transform the lives of others.

What will you do?
Our Master of Counselling and Psychotherapy supports the development of ethically aware, research-informed and clinically effective counsellors. You will:
• learn from academics with extensive professional counselling experience
• build hands-on skills through experiential learning
• benefit from case-based learning in small group workshops
• gain a core understanding of CBT, grief, attachment theory and ethical practice.

From second year you’ll begin tailoring your studies to your personal interests, from second year you’ll begin tailoring

Where could it take you?
You could support young people in your community through roles and programs in schools or youth work. You might run a private practice or conduct group therapy at a centre. Perhaps you’ll be a relationship or return-to-work counsellor.

Professional accreditation
Our clinical pathway graduates can register as an intern with the Psychotherapy and Counselling Federation of Australia and, after further clinical experience, apply for full registration.

MASTER OF MINIMALLY INVASIVE SURGERY

CRICOS CODE Available to non-student visa holders only.  CAMPUS Teaching Hospitals

DURATION 1 year full-time  INTAKES February

INDICATIVE ANNUAL TUITION FEE $39,500

MINIMUM ENTRY REQUIREMENTS
Applicants must be experienced surgeons who have completed, or are within one year of completing, FRACS (Fellow of the Royal Australasian College of Surgeons), FRANZCOG (Fellow of the Royal Australian and New Zealand College of Obstetricians and Gynaecologists) or equivalent training. Applicants should have a surgical fellowship or consultant post with a major interest in minimally invasive surgery. They must also hold a clinical position. This is not automatically offered with the Master of Minimally Invasive Surgery and applicants are personally responsible for obtaining a suitable position.

ADDITIONAL ENTRY REQUIREMENTS
International applicants must be resident in Australia; meet the requirements of the Temporary Business (Long Stay) 457 visa; and register with the Australian Health Practitioner Regulation Agency. They must also hold a clinical position. This is not automatically offered with the Master of Minimally Invasive Surgery and applicants are personally responsible for obtaining a suitable position.

Our Master of Minimally Invasive Surgery is for surgeons who wish to make minimally invasive surgical techniques an integral part of their career. You’ll gain the required professional qualification—accredited by the Royal Australasian College of Surgeons—and a thorough clinical grounding in laparoscopic surgery.

What will you do?
The degree is comprised of online modules with weekly online tutorials and four clinical immersion sessions throughout the year. You will:
• develop advanced theoretical understandings of minimally invasive surgical procedures
• consolidate and improve clinical skills
• gain exposure to robotic surgical techniques.

MASTER OF NURSING SCIENCE

CRICOS CODE 022523B  CAMPUS Teaching Hospitals

DURATION 2 years full-time  INTAKES February, July

INDICATIVE ANNUAL TUITION FEE $33,500

MINIMUM ENTRY REQUIREMENTS
A completed Graduate Diploma in Nursing Science or equivalent and at least two years’ post-registration nursing experience.

ADDITIONAL ENTRY REQUIREMENTS
Within 10 days of submitting a formal application, candidates must provide all required additional information online at: health.adelaide.edu.au/admissions/mmnurs/sci/application.html

ADDITIONAL NOTES
The generic Master of Nursing Science can be awarded without one of the listed specialisations. Specialty courses are subject to availability each year and are not guaranteed.

Nurses are an integral part of society. They are problem-solvers and pillars of strength. Through scholarship and leadership, nurses can challenge, reform, improve and enrich healthcare now and into the future.

This advanced degree is suited to nurses with a solid foundation in clinical practice who want to pursue research or leadership positions.

What will you do?
Our Master of Nursing Science offers a comprehensive grounding in research methods and critical analysis. You will:
• build clinical enquiry and management skills
• take new courses in advanced clinical practice
• gain hands-on experience in simulations and skills laboratories
• partner with an expert in your field of study who’ll support and encourage your academic development
• undertake a 9-unit research project.

If you want to continue to further PhD study, you’ll complete 12 units of research. An exit path for the Graduate Diploma in Nursing Science will be available after the first year.

Where could it take you?
You could develop mental health programs for psychiatric wards or prisons. You might come up with innovative ways to support surgeons in emergency. Perhaps you’ll do large-scale research on cancer pain management or cardiovascular risk factors.

Note: International students on a student visa are required to study on campus in Adelaide.
What can you specialise in?
- Acute Care
- Anaesthetic and Recovery
- Cardiac
- Emergency
- Intensive Care
- Oncology
- Orthopaedic
- Perioperative
- Mental Health

Related degrees
- Graduate Certificate in Nursing Science (Infection Control Nursing)
- Graduate Diploma in Nursing Science

MASTER OF PUBLIC HEALTH

CIRCO CODE 081148J
CAMPUS North Terrace
DURATION 2 years full-time
INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $36,500
ENTRY REQUIREMENTS Bachelor degree or equivalent with a minimum GPA of 5.0.

adelaide.edu.au/degree-finder

Ready to think creatively about policies and practices that prevent disease and prolong life? Our Master of Public Health offers you a simplified two-year path to working—and making a difference—in the health sector.

What will you do?
- Develop specialist knowledge of practice and policy.
- Connect with mentors, active researchers, practitioners and policy makers.
- Learn strong problem-solving and research skills.
- Gain hands-on experience in real-life settings.
- Build professional networks.
- Tailor your study to personal goals and aspirations.

Specialisations are offered in:
- Public Health
- Population Oral Health

Where could it take you?
You could work with communities to manage local health problems or keep the nation informed during times of crisis. You might design and implement educational campaigns and health programs. Perhaps you’ll advise on policy or be a research officer for clinical trials.
MASTER OF SCIENCE IN ADDICTION STUDIES

Our Master of Science in Addiction Studies offers you a unique pathway to making a difference. It’s delivered online through three of the world’s leading universities in addiction sciences: The University of Adelaide; Virginia Commonwealth University; and the Institute of Psychiatry, King’s College London. On completion of the degree, you’ll be recognised as a graduate of all three universities.

What will you do?
• Learn from world experts in addiction.
• Access multiple libraries and resources.
• Explore all aspects of addiction—from pharmacological and psychosocial approaches to public health and policy.
• Work through forward-thinking lectures, readings and modules.
• Develop international networks.
• Study from anywhere in the world.

We accept applications until 1 July and classes commence in August of each academic year. For more information, including admissions criteria, application forms, curriculum outline and tuition fees, visit: www.ipas.vcu.edu

Where could it take you?
Maybe you’re in law enforcement or social work and want to support changes in your community. Perhaps you’re a counsellor looking to take on a specialised role in addiction. Maybe you’re a research scientist or a public health graduate pursuing innovation and policy changes.

MASTER OF PSYCHOLOGY (CLINICAL)

Our Master of Psychology (Clinical) provides the knowledge and skills needed to practise as a registered psychologist. Clinical psychologists work with clients with high and low prevalent mental health issues—from anxiety and depression to disability and relationship challenges.

What will you do?
• Benefit from our strong links with a professional community of clinical practitioners.
• Undertake three clinical placements totalling over 1000 hours.
• Enjoy small class sizes and face-to-face teaching.
• Hone listening, empathy and interviewing skills.
• Network with future employers in mental health and health care settings.
• Complete a significant research project in clinical psychology.

Where could it take you?
Upon successful completion, you’ll be eligible to apply for full registration with the Psychology Board of Australia. You’ll be set to find work in a wide variety of public and private settings. To gain clinical endorsement, further postgraduate supervision is required.

Professional accreditation
The Master of Psychology (Clinical) is accredited by the Psychology Board of Australia (PBA), and will enable you to register with the PBA as a psychologist. With additional supervised work experience as prescribed by the PBA, you can then become a clinical psychologist.
Mental and physical health are inextricably connected. Health psychologists explore brain—body interactions with a view to improving client wellbeing. This requires advanced psychological skills and clinical expertise.

Our Master of Psychology (Health) is one of only two health psychology degrees currently available in Australia. It provides the professional knowledge needed to practise as a registered health psychologist.

**What will you do?**
- Enjoy small class sizes with leading health psychologists and educators.
- Learn about illness, disease, and the promotion and maintenance of health.
- Study health care systems and policy.
- Explore psychological factors that contribute to ill health.
- Undertake three industry placements totalling over 1000 hours.
- Network with future employers in mental health, health care and government settings.

**Where could it take you?**
Upon successful completion, you’ll be eligible to apply for full registration with the Psychology Board of Australia. You could design public health campaigns to prevent addiction, injury and illness. You might help people manage chronic pain or cope with diagnoses and medical treatments. Perhaps you’ll work to shift individual attitudes, beliefs and behaviours in the clinic. To gain endorsement, further postgraduate supervision is required.

**Professional accreditation**
The Master of Psychology (Health) is accredited by the Psychology Board of Australia (PBA), and will enable you to register with the PBA as a psychologist. With additional supervised work experience as prescribed by the PBA, you can then become an endorsed health psychologist.
RANKED IN TOP 100 LAW SCHOOLS WORLDWIDE*

AUSTRALIA’S SECOND OLDEST LAW PROGRAM

15 PRODUCED 15 RHODES SCHOLARS IN LAW

* QS World University Rankings by Subject 2018

LAW
The Adelaide Law School is South Australia’s highest ranked law school* and houses a vibrant community of scholars and teachers, committed to advancing humanity’s understanding and application of law.

Our range of high-quality postgraduate degrees—all of which benefit from a strong commercial and international focus—will significantly expand both your professional capabilities and career opportunities.

* QS World University Rankings by Subject 2018.

**Degrees for law graduates and lawyers**

If you’re a law graduate or practising lawyer, our competitive, flexible postgraduate coursework degrees will dramatically accelerate your professional development. You’ll enhance and broaden your scholarly skills in legal research and writing, and access a range of elective courses to suit your interests and career aspirations, such as international and comparative commercial law.

**Degrees for non-law graduates**

Similarly, if you’re a non-law graduate, you can greatly broaden your career options by studying our selection of postgraduate degrees that extend your knowledge in business studies, with a focus in the law.

**All with the opportunity to study internationally**

The Adelaide Law School has partnerships with nine leading overseas universities at which you will have the chance to study on exchange:

- University of Copenhagen (Denmark)
- University of Mannheim (Germany)
- Pace University (United States)
- University of Poitiers (France)
- University of Alberta (Canada)
- Peking University (China)
- KU Leuven (Belgium)
- Shanghai Jiao Tong University (China)
- University of Montreal (Canada).

"**THE GDLP OFFERS BOTH PROFESSIONAL AND SOCIAL ADVANTAGES TO ITS STUDENTS. IMPORTANTLY, IT IS STRUCTURED IN A MANNER THAT PROVIDES FLEXIBILITY, ALLOWING STUDENTS WHO WORK PART-TIME OR FULL-TIME THE ABILITY TO COMPLETE THE COURSE REQUIREMENTS IN A TIMELY MANNER.**"

Peta Spyrou
Graduate Diploma in Legal Practice
The Graduate Diploma in Legal Practice (GDLP) is a compulsory requirement to be admitted as a barrister and solicitor in South Australia. It provides practical legal training for law graduates.

To apply, you must have successfully completed a Bachelor of Laws (LLB), or met the criteria specified by admitting authorities in your state or territory. If you studied your LLB overseas you’ll need to have your qualifications accredited by the South Australian Board of Examiners before you can commence the GDLP. You can contact the Law Society of South Australia (www.lawsocietysa.asn.au) to discuss these requirements.

What will you do?
The GDLP program is designed to be flexible around other requirements. You’ll choose between weekday, after-hours and weekend classes. There is also an accelerated pathway, which can be completed in 20 weeks. You will:

- complete five core courses
- select two electives aligned to your interests and career goals
- undertake five hours minimum of continuing professional development
- build real-world skills through 30 days (225 hours) of legal practice placement.

After gaining admission, you can apply for a Practising Certificate in other Australian states and territories via mutual recognition.

Want to bolster your business skills with legal expertise?
The ability to understand, analyse and use legal information can be critical for strength and longevity in the business realm. Postgraduate law courses provide an overview of legal issues within a contemporary business context.

What will you do?
Our Master of Business Law caters to the needs of busy professionals. The majority of courses are taught intensively over one or two weeks and some include evening and weekend sessions. You will:

- learn about different laws affecting your business sector
- build legal communication skills
- undertake a substantial research project
- learn best practices for dealing with legal and regulatory challenges
- broaden your networks through the University’s Lex Salus, Next Steps and Law Students’ Society events.

Note: Applicants must hold an undergraduate degree and entry is competitive. Selection is based on academic merit and usually requires a credit average or better.

Comparative law explores the different legal systems that endure across the globe. It’s about examining these diverse families in order to understand, improve and sometimes reconcile their differences. This innovative degree is offered jointly by the Adelaide Law School and the University of Mannheim’s Faculty of Law in Germany.

What will you do?
Our Master of Comparative Laws is conducted entirely in English. However, if you’re proficient in German you may choose to study in that language at Mannheim. You will:

- spend up to one semester in Adelaide and one at Mannheim
- study the different systems of law throughout the world—from common and civil to Islamic law
- understand the European Union’s legal framework in detail
- undertake a dissertation at your ‘home’ institution.

Where could it take you?
You might draft new legal bills in local government. You could be an international trade policy adviser. Perhaps you’ll use your advanced understanding of the law to balance the scales of justice against corporate criminals.
Studying law is more challenging and intellectually adventurous than ever before. In an expanding and evolving legal landscape, extended development is a strategic door opener.

Our Master of Laws is suited to students proceeding directly from undergraduate study, as well as experienced legal practitioners looking to specialise.

**What will you do?**

- Focus your program through a range of elective options—including international and comparative commercial law.
- Develop advanced legal writing, reasoning and analysis skills.
- Study with legal professionals, former judges and international academics.
- Broaden your networks through the University’s Lex Salus, Next Steps and Law Students’ Society events.
- Undertake a substantial research project.

**Where could it take you?**

You might help update evidence laws around internet activity and new technologies. You could move into property or Native Title law. Perhaps you’ll become a co-owner in a Hong Kong law firm. Whether you want to uphold, use or change the system—a master in law can take you just about anywhere.
MATHEMATICAL SCIENCES

* Excellence for Research in Australia (ERA), December 2015
^ ‘A Smart Move: Future-proofing Australia’s Workforce’ report, PwC 2017
In today’s highly technical environment, a degree in mathematical sciences teaches students the universal language required to describe, model and understand the world around them.

A postgraduate degree in mathematical sciences from the University of Adelaide provides you with valuable training in rigor and logical thinking. Our graduates are highly regarded for their creativity, problem-solving abilities and research skills, and pursue successful careers in their chosen specialisation—Applied Mathematics, Pure Mathematics or Statistics—in a wide range of industries.

Choose a specialisation

The Applied Mathematics specialisation assists you to gain an in-depth understanding of mathematical theories and their practical application in the world around us. It covers topics such as mathematical methods, fluid mechanics, computational mathematics, financial modelling, mathematical biology and applied probability.

The Pure Mathematics specialisation enables you to study the abstract theories built by logical deduction that underpin modern science and technology. This discipline is fundamental to applied mathematics, statistics, computer science, and mathematical physics.

The Statistics specialisation equips you with the skills needed to effectively collect, analyse and model data from a range of sources—including surveys, experiments and other studies that generate numerical data—to solve complex, real-world problems.

2015 Rhodes Scholar for South Australia

The University of Adelaide holds a strong tradition of research and teaching excellence across the disciplines of Applied Mathematics, Pure Mathematics and Statistics. We are proud of our students’ achievements, including the 2015 Rhodes Scholar for South Australia.

Be career ready

A postgraduate degree in mathematical sciences from the highly ranked University of Adelaide equips you with the theoretical and practical expertise to stand out in your chosen profession, opening the door to career opportunities in specialist areas such as finance, commerce, information technology, scientific research and logistics, and teaching.

“THE ACADEMIC STAFF ARE INSPIRATIONAL AND HAVE SUPPORTED ME TO GAIN THEKNOWLEDGE, SKILLS AND CONFIDENCE TO CONTRIBUTE TO THE FUTURE OFMATHEMATICAL SCIENCES.”

Qinhong Xian
Master of Mathematical Sciences

MASTER OF MATHEMATICAL SCIENCES

What will you do?

• Develop advanced research skills as you learn from award-winning academics in state-of-the-art facilities.
• Take your mathematical knowledge to an advanced level through a major of your choice.

Majors are available in:

• Applied Mathematics—use mathematical techniques to answer questions about the world around us. These might come in the form of insights, explanations, solutions or predictions.
• Pure Mathematics—study abstract theories built by logical deduction that underpin modern science and technology.
• Statistics—solve real-world problems through the collection, analysis and modelling of data.

Where could it take you?

Our maths graduates go on to all sorts of fascinating careers in technology-led industries. You could help build business start-ups as a data scientist or enter the growing field of gaming design and performance analysis. You might be an actuary, applying probability and statistics to insurance and banking. Perhaps you’ll take your research to the next level in academia.
MUSIC

DEVELOP QUALITIES
ESSENTIAL FOR A
SUCCESSFUL MUSIC CAREER

LINKS WITH
EDUCATIONAL AND
PROFESSIONAL BODIES

PART OF A VIBRANT
COMMUNITY
OF MUSICIANS
With a distinguished history dating back to 1883, the Elder Conservatorium was the first tertiary music school in Australia, and is widely respected as one of the country’s most innovative music institutions.

Through its postgraduate degrees, covering all professional areas of the music industry, it encourages the development of new parameters of artistic and scholarly endeavour that contribute to the advancement of knowledge and practice in the art of music. Over the years, the Conservatorium has been a pioneer and a leader. It was one of the first institutions to offer degrees in performance and music composition and more recently, the first electronic music studio.

The Elder Conservatorium also has one of Australia’s longest established and most vibrant Jazz programs and has established innovative partnerships with major cultural organisations including the State Opera, the Adelaide Symphony Orchestra, the Australian String Quartet and the Australian Ballet.

We offer degrees for those wishing to become teachers in a variety of settings, or for musicians who wish to focus on performance and technical mastery of a specific area.

“STUDYING AT THE UNIVERSITY OF ADELAIDE DOESN’T FEEL LIKE A PLACE OF STUDY BUT RATHER, MY HOME—SOMEBE I LOVE TO BE. THE ELDER CONSERVATORIUM OF MUSIC HAS ALLOWED ME TO LIVE AND BREATHE CLASSICAL MUSIC—A DREAM THAT’S BEEN TURNED INTO A REALITY.”

Lucy Stoddart
Bachelor of Music (Classical Voice)
**GRADUATE DIPLOMA IN MUSIC (PERFORMANCE AND PEDAGOGY)**

**CRICOS CODE 056485M**  
**CAMPUS** North Terrace  
**DURATION** 1 year full-time  
**INTAKES** February, July  
**INDICATIVE ANNUAL TUITION FEE** $36,000  

Music education is a rewarding and invigorating area to work in. It challenges and inspires musicians all around the world. This one-year degree combines performance studies in your specialisation with the theory, method and practice of teaching.

**What will you do?**

Our Graduate Diploma in Music (Performance and Pedagogy) advances your technical mastery as you:
- undertake weekly one-to-one lessons with performance staff
- build pedagogical skills and knowledge through seminars and workshops
- gain hands-on experience through teaching practise in selected schools and colleges
- perform two minor recitals with pedagogy related content.

**Where could it take you?**

You’ll graduate ready to pursue duel careers in music performance and education. You could play in an orchestra while running a private music studio. You might be a soloist with an after-school program, rock camp or community choir. Perhaps you’ll play chamber music as well as teaching on school and college campuses.

---

**GRADUATE DIPLOMA IN MUSIC PERFORMANCE**

**CRICOS CODE 013935A**  
**CAMPUS** North Terrace  
**DURATION** 1 year full-time  
**INTAKES** February, July  
**INDICATIVE ANNUAL TUITION FEE** $36,000  

Our Graduate Diploma in Music Performance challenges you to reach the highest standards of professional performance. It’s a one-year, skill-based degree focusing on traditional approaches to classical or jazz performance.

**What will you do?**

- Advance technical mastery within your specialisation.
- Benefit from weekly one-to-one lessons with performance staff.
- Prepare one major and one minor recital.
- Negotiate your own learning outcomes and modes of assessment for an individualised creative project.

**Where could it take you?**

You might travel the globe as an orchestral musician. You could grace the stage of every jazz venue in New Orleans and New York. Perhaps you’ll curate concerts, teach in private studios or find international stardom as a soloist.

---

**MASTER OF MUSIC (PERFORMANCE STUDIES)**

**CRICOS CODE 064439F**  
**CAMPUS** North Terrace  
**DURATION** 2 years full-time  
**INTAKES** February, July  
**INDICATIVE ANNUAL TUITION FEE** $36,000  

Our Master of Music (Performance Studies) challenges you to reach the highest standards of professional performance. It’s an intensive, skill-based degree focusing on traditional approaches to classical or jazz performance.

**What will you do?**

- Advance technical mastery within your specialisation.
- Benefit from weekly one-to-one lessons with performance staff.
- Prepare and present programs of major repertoire.
- Study leading twentieth century and contemporary composers.
- Negotiate your own learning outcomes and modes of assessment for creative projects.
- Develop advanced solo and ensemble performance skills.

**Where could it take you?**

You might travel the globe as an orchestral musician. You could grace the stage of every jazz venue in New Orleans and New York. Perhaps you’ll curate concerts, teach in private studios or find international stardom as a soloist.

"UNIVERSITY HAS BEEN AN EXCELLENT WAY FOR ME TO EXPLORE MY INTERESTS AND DEVELOP MY PROFESSIONALISM. I HAVE LEARNED HOW TO DEVELOP AND COMMUNICATE MY IDEAS. THE CULTURE OF UNIVERSITY HAS ENCOURAGED ME TO FIND NEW WAYS OF UNDERSTANDING THE WORLD."

Nikki Huggard
Bachelor of Music (Classical Voice)
**SCIENCES**

* QS World University Ranking by Subject 2018

* 75% FASTEST GROWING OCCUPATIONS REQUIRE STEM SUBJECTS
* 150 RANKED IN TOP 150 WORLDWIDE FOR SCIENCE
* STATE OF THE ART FACILITIES
As the global career market rapidly changes, graduates need skills beyond traditional science to adapt and succeed.

The University of Adelaide provides students with a high-quality foundation in science, plus skills in business, enterprise and communication. Our students graduate as highly capable science professionals. We actively partner with industry to make sure our students are equipped with the most up-to-date skills for their chosen career. Our world-class facilities enable us to deliver specialised education with a focus on hands-on learning, such as our $37million veterinary teaching hospital and working vineyard and winery.

Teaching led by world-class research
The University of Adelaide brings together many different strands of science and staff from around the globe to conduct world-class research. Their work informs our teaching and gives students the unique opportunity to work with them on national and international projects. Our campuses are home to a number of co-located industry partners, affiliated researchers and research institutes of international significance. This means our students have the chance to participate in cutting-edge discovery and gain valuable practical experiences while they study.

“WHilst studying my Bachelor of Viticulture and Oenology I heard that the University of Adelaide offers one of the best wine degrees in the world. I made up my mind to continue my career in this industry and the University of Adelaide became my first choice to expand my knowledge further.”

Lester Yang
Winemaker, Pernod Ricard Winemakers
DOCTOR OF VETERINARY MEDICINE

CRICOS CODE 086311G CAMPUS Roseworthy
DURATION 3 years full-time INTAKES February
INDICATIVE ANNUAL TUITION FEE $62,000
adelaide.edu.au/degree-finder

Our Doctor of Veterinary Medicine provides the necessary training and qualifications for registration as a veterinarian. Most students enter this program after completion of the Bachelor of Science (Veterinary Bioscience) at the University of Adelaide. If you have an equivalent degree, you may also be eligible for entry. However, there are currently no equivalent Bachelor degrees within Australia. Generally, equivalence is found with a completed veterinary program from an overseas institution.

What will you do?
• Learn about the causes, diagnosis and treatment of diseases of domesticated animals including dogs, cats, horses, ruminants, camelids, pigs and poultry
• Explore wildlife ecology, conservation medicine and ecohelth
• Hone your scientific and technical skills for research and clinical practice
• Gain advanced professional experience through a structured internship program
• Complete a further 23 weeks of extramural practical work.

Where could it take you?
You could work in clinical veterinary practice, treating small and/or large animals. You might work in biosecurity, managing programs to prevent disease incursion. Perhaps you’ll be a researcher or pursue pathways to government work, academia, consultancy, discipline specialisation (e.g. surgery, dermatology) or species specialisation (e.g. equine, wildlife, zoo animal).

Note: This program cannot be studied part-time.

MASTER OF BIOINFORMATICS

CRICOS CODE 092945M CAMPUS North Terrace
DURATION 2 years full-time INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $40,500
adelaide.edu.au/degree-finder

Bioinformatics is about managing, analysing and interpreting biological data. It’s a still-new science that’s developing at lightning speed thanks to fast-evolving technology and advances in genomics and proteomics.

What will you do?
Our Master of Bioinformatics prepares you to meet the growing demand for experts in the field. You’ll develop competitive analytical and research skills as you:
• explore technology platforms for data generation
• apply bioinformatic analyses to real world problems in human health and agriculture
• examine interlinked issues in translational bioinformatic research, translation and development
• choose electives in particular areas of interest
• conduct a major research project.

Where could it take you?
You might analyse how alternative medicines alter gene expression in cancers. You could look at ways to accelerate and improve the growth of food crops. Perhaps you’ll design new methods for detecting disease or food allergens.

MASTER OF BIOTECHNOLOGY (BIOMEDICAL)

CRICOS CODE 072995M CAMPUS North Terrace
DURATION 2 years full-time INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $40,500
adelaide.edu.au/degree-finder

Our Master of Biotechnology (Biomedical) focuses on innovative technologies for disease prediction and treatment.

What will you do?
• Learn from active researchers in biomedical science.
• Gain the latest industry insights from lab placements.
• Take courses in entrepreneurship, innovation and intellectual property management.
• Undertake a one-year independent research project.

You’ll also gain access to the following internationally-renowned research facilities and centres:
• Adelaide Proteomics Centre (APC)
• Adelaide Microarray Centre (SAHMRI)
• SA Genome Editing Facility (SAGE)
• Genomics Facility (SAHMRI)
• Confocal Microscopy
• Adelaide Microscopy
• Bioinformatics Hub.

Where could it take you?
You’ll be at the cutting-edge of biotechnology, where major advances are influencing important issues such as vaccines, cancer and stem cell therapies. Due to the strong research focus, this degree is often used as a pathway to a PhD in biotechnology and biomedical science.
MASTER OF VITICULTURE AND OENOLOGY

Adelaide is one of the great wine capitals of the world with over 200 cellar doors within an hour of the CBD. Our winemakers are innovators and cultural leaders within a sector helping drive the nation’s economy. In fact, 70 percent of Australian wine research happens at the University of Adelaide’s Waite campus.

This intensive two-year degree has an international reputation for excellence. It’s suited to students with a relevant bachelor degree or equivalent in a science field.

What will you do?
• Study at the largest agricultural teaching and research precinct in the Southern Hemisphere
• Make wine in our state-of-the-art Hickinbotham Roseworthy Wine Science Laboratory
• Build hands-on scientific and technological skills in the vineyards and winery
• Learn from over 150 researchers and partners in grape and wine science
• Access cutting-edge research at the Australian Research Council Training Centre for Innovative Wine Production
• Undertake a research project and submit a thesis of 10,000 words, or complete a professional placement of at least 10 weeks (375 hours).

Where could it take you?
You could manage a vineyard or winery. You might experiment with the latest technologies to innovate and develop efficiencies in related industries. Perhaps you’ll focus on sustainable and natural practices, building an organic, biodynamic or solar-powered future for the wine industry.

“I’VE GAINED WORLD-CLASS TRAINING, SKILLS AND INDUSTRY EXPERIENCE WITH THE LATEST TECHNOLOGIES FROM MY STUDIES WITH THE UNIVERSITY OF ADELAIDE, WHICH HAVE HELPED ME TO RAPIDLY INTEGRATE INTO MY CURRENT ROLE AT A CONTRACT RESEARCH ORGANISATION BASED IN SHANGHAI, CHINA.”

Yunyu Lao
Master of Biotechnology (Biomedical) and Bachelor of Science
Scientist I at HD Biosciences Co. Ltd. (Shanghai, China)

### NOTES

1. Students satisfactorily completing all courses may expect to complete an academic program within the normal duration of that degree. Students who have failed courses, or students needing to complete prerequisite courses will take longer.
2. The international student Indicative Annual Tuition Fee quoted above is for a standard full-time load of 24 units per year (or 12 units per semester). Tuition fees are reviewed and indexed on a yearly basis and may be subject to annual increases. Prospective students should be aware that their fees may be subject to an increase each year and that they are liable for these fees upon acceptance of their offer. The fees cover the cost of teaching and the cost of student support services. All fees listed are in Australian dollars (AUD$).
3. External degree: to apply, please contact the relevant school/department as stated in the detailed degree information in this prospectus.
4. Available online only.
5. Available in both internal and external modes; to study externally, please contact the relevant school/discipline as stated in the detailed degree information in this prospectus.

Business Administration* | 45 | 1 year | $48,500 | Jan, May, Sep | Bachelor degree or equivalent plus 2 years relevant work experience OR at least 7 years work experience AND GMAT Test Score of 500. All applicants must adequately meet the attributes of Leadership, Communication, Team Skills, Motivation and Business Skills. Applicants may demonstrate they meet the work experience and attributes via their CV, essay responses or interview.
Business Law | 76 | 1 year | $42,500 | Feb, Jul | Bachelor degree or equivalent (not available to applicants with a Bachelor of Law or equivalent).
Commerce | 46 | 1 year | $44,000 | Feb, Jul | Bachelor degree or equivalent.
Computer Science | 52 | 1 year | $42,000 | Feb | Bachelor degree or equivalent in a field other than computer science or computing engineering.
Counselling and Psychotherapy | 70 | 1 year | $36,500 | Feb | Bachelor degree or equivalent. All applicants must submit a CV and attend an interview (by phone or Skype).
Cyber Security | 53 | 1 year | $42,000 | Feb, Jul | Bachelor degree or equivalent (students with a Bachelor of Computer Science will be required to complete foundation courses as electives).
Entrepreneurship and Innovation* | 47 | 1 year | $21,250 | Jan, May, Sep | Bachelor degree or equivalent.
Environmental Policy and Management | 39 | 1 year | $35,500 | Feb, Jul | Bachelor degree or equivalent.
Global Food and Agricultural Business* | 47 | 1 year | $42,500 | Jan, May, Sep | Bachelor degree or equivalent.
International Addiction Studies* | 72 | 2 years | Visit www.ipas.vcu.edu | August | All applicants must meet the admission entry requirements as set out by the Virginia Commonwealth University at www.ipas.vcu.edu.
International Trade and Development* | 48 | 1 year | $42,500 | Jan, Sep | Bachelor degree or equivalent. Please note that the Graduate Diploma in International Trade and Development is currently only offered as an exit strategy from the Master of International Trade and Development, rather than an entry point. Applicants are advised to apply for the Master of International Trade and Development.
Interpreting, Translation and Transcultural Communication | 38 | 1 year | $35,500 | Feb | Bachelor degree or equivalent.
Legal Practice | 76 | 1 year | $17,000 | Feb, Apr, Jul, Oct | Bachelor of Laws or equivalent. Applicants must provide a letter from the Law Society of South Australia that confirms accreditation of their course if their degree is awarded by an institution other than the University of Adelaide or University of South Australia.
Marine Engineering | 63 | 1 year | $44,000 | Feb, Jul | Bachelor degree or equivalent.
Music (Performance and Pedagogy) | 82 | 1 year | $36,000 | Feb, Jul | Bachelor of Music or equivalent plus audition. Additional information is required at the time of application but must be submitted online via the Faculty website - refer - Degree Finder - Entry Requirements - Additional Entry Requirements.
Music Performance | 82 | 1 year | $36,000 | Feb, Jul | Bachelor of Music or equivalent plus audition. Additional information is required at the time of application but must be submitted online via the Faculty website - refer - Degree Finder - Entry Requirements - Additional Entry Requirements.
Nursing Science | 69 | 1 year | $33,500 | Feb, Jul | Bachelor of Nursing or equivalent and registration (or eligible for registration) as a nurse in Australia or New Zealand; or have at least 2 years’ experience as a registered nurse in the field of specialisation to be undertaken.
Professional Accounting | 49 | 1 year | $44,000 | Feb, Jul | Bachelor degree or equivalent.
Public Health | 71 | 1 year | $36,500 | Feb, Jul | Bachelor degree or equivalent.
Viticulture and Oenology | 87 | 1 year | $45,000 | Jul | Bachelor degree or equivalent.
Wine Business* | 49 | 1 year | $44,000 | Jan, May, Sep | Bachelor degree or equivalent.

NOTES
1. Students satisfactorily completing all courses may expect to complete an academic program within the normal duration of that degree. Students who have failed courses, or students needing to complete prerequisite courses will take longer.
2. The international student Indicative Annual Tuition Fee quoted above is for a standard full-time load of 24 units per year (or 12 units per semester). Tuition fees are reviewed and indexed on a yearly basis and may be subject to annual increases. Prospective students should be aware that their fees may be subject to an increase each year and that they are liable for these fees upon acceptance of their offer. The fees cover the cost of teaching and the cost of student support services. All fees listed are in Australian dollars (AUD$).
3. External degree: to apply, please contact the relevant school/department as stated in the detailed degree information in this prospectus.
4. Available online only.
5. Available in both internal and external modes; to study externally, please contact the relevant school/discipline as stated in the detailed degree information in this prospectus.

92 2020 postgraduate coursework degree summary
6. All applicants must submit a portfolio and a Curriculum Vitae to Admissions. The portfolio should be of the applicant’s own work (uploaded as a .pdf or link to their online application, or by mail as a CD/DVD) demonstrating manual graphic skills and ability through freehand drawing or sketches, skills in relevant design-related areas, as well as familiarity using a Computer-Aided Design (CAD) software package.

7. Delivered on a trimester basis. Trimesters are compressed study periods which usually run from late January to May, May to August and September to November.

8. A total tuition fee for 12 units of study is provided for Graduate Certificates.

9. Trimester 2 delivery considered on a case-by-case basis.

10. A GPA requirement may apply in addition to the minimum requirements specified below. GPA (Grade Point Average) is a numerical index that summarises academic performance on a scale of 0 to 7.0.

11. Offered part-time and available to non-student visa holder only.

12. Applicants considered for July intake on a case-by-case basis.

13. See full program entry for additional entry requirements.

2020 postgraduate coursework degree summary 93
Advanced standing: Status/credit/exemptions granted on the basis of work already completed at another post-secondary institution.

Articulation agreement: A formal agreement where study at selected institutions may be counted towards University of Adelaide qualifications.

Assumed knowledge: Previously acquired knowledge that will enable understanding of a course or degree.

Bachelor degree: An undergraduate qualification gained after minimum of three years full-time study. A bachelor degree is made up of a range of core (compulsory) courses and elective courses, usually delivered via lectures and tutorials.

Campus: The grounds of a university or other institute of higher education.

Combined degree: A combined degree program allows students to complete the requirements of two degrees in less time than if the degrees were completed separately. Successful completion results in the award of a single parchment listing the combined degrees. A student may not graduate until the requirements for both degrees have been met.

Confirmation of Enrolment: The document sent by the University after receipt of the tuition fee deposit. May be used as proof of student status to apply for a visa.

Core course: A compulsory subject taken as part of a program of study.

Course: An individual subject taken as part of a program of study.

Coursework program: A program of study structured around particular courses, usually delivered via lectures and tutorials.

CRICOS: Commonwealth Register of Institutions and Courses for Overseas Students.

DHA: Department of Home Affairs.

Diploma: Some schools in the University offer diplomas, which usually consist of 1-2 years of fulltime coursework, delivered via lectures and tutorials.

Discipline: A field or area of study, e.g. engineering, architecture, nursing.

Double degree: A double degree program allows students to complete the requirements of two degrees in less time than if the degrees were completed separately. Successful completion results in the award of two degrees with separate parchments. A student may graduate from each degree as soon as the requirements for each degree have been met. For example: Bachelor of Engineering (Chemical) with Bachelor of Arts.

Elective course: A non-compulsory subject that may be chosen as part of a program of study.

Exchange agreement: An agreement between universities allowing students to undertake 1-2 semesters of their degree program at an overseas institution.

Extra admission requirements: Requirements, in addition to the specified qualifications, needed for a student to be accepted into a particular program, e.g. audition, interview, portfolio submission, personal qualities assessment.

Full-time study: A standard full-time study load consists of 24 units per academic year, and 12 units per semester. The University and the DHA considers a 75% study load (9 units per semester or trimester) a full-time load. While international students can enrol in a 75% study load, it is not recommended as it may result in their not completing their program within the standard duration. International students are required by DHA to complete within the specified duration of the degree.

Faculty: An academic branch in the University, consisting of various schools, e.g. The Faculty of Health Sciences.

GEAP (General English for Academic Purposes): A course for students looking to improve their English for a variety of reasons, such as to assist with future academic study or their future career. GEAP by itself is not a direct entry pathway to undergraduate or postgraduate study at the University of Adelaide.

Honours: Honours is a one-year full-time (or equivalent part-time) degree that allows students to consolidate learning from their undergraduate studies by undertaking research and a thesis.

IELTS: The International English Language Testing System, an internationally recognised UK-based test for English language assessment, essential for student visa requirements.

Indicative annual tuition fee: The indicative annual tuition fee quoted in this prospectus is based on the standard full-time enrolment load of 24 units per year or 12 units per semester. The fees cover the cost of teaching and the cost of student support services. The quoted fee is reviewed on a yearly basis. Prospective students should be aware that their fees may increase each year and that they are liable for these fees upon acceptance of their offer. Each student will be advised of their fee schedule in their offer of admission to the University. Fees may vary depending on enrolment load, e.g. if students ‘overload’ or ‘underload’, fees may be increased or decreased accordingly. All fees listed are in Australian dollars (AUD$).

International student: You are considered to be an overseas student if you are not an Australian citizen, Australian permanent resident, New Zealand citizen, or holder of an Australian permanent resident humanitarian visa.

Lecture: A class on a specific topic presented by a lecturer to a large group of students.

Level: A stage or period (generally one year in duration) within a degree, e.g. Level 1, 2, 3. The depth and complexity of courses increases through each level.

Major sequence: A combination of approved courses leading to specialisation within a field of study, completed over one or more years of a degree.

Part-time study: Any study load that is less than 75%, or 18 units a year. Note that under current student visa regulations, part-time study is not recommended for international students as they are required by the DHA to complete within the specified duration of their degree.

PEP (Pre-enrolment English Program): A direct entry pathway English language program for students that have not met the entry requirements for their chosen award program.

Program: A series of courses making up a particular qualification, e.g. Bachelor of Commerce.

Semester: The standard length of an individual course. University courses are taught in two semesters: semester 1, from February/March until late June; and semester 2, from July/August until November.

Seminar: A small class similar to a tutorial, involving presentations by students.

Trimester: Trimesters are compressed study periods which usually run from late January to May, May to August and September to November.

Tutorial: Small, weekly classes led by a tutor or lecturer, where students discuss issues relevant to a particular course.

Unit: A value assigned to courses identifying the amount of work involved. Full-time students normally undertake 24 units of study a year.
LIVE AND STUDY IN THE HEART OF ADELAIDE CITY
KAURNA ACKNOWLEDGEMENT

We acknowledge and pay our respects to the Kaurna people, the original custodians of the Adelaide Plains and the land on which the University of Adelaide’s campuses at North Terrace, Waite, and Roseworthy are built. We acknowledge the deep feelings of attachment and relationship of the Kaurna people to country and we respect and value their past, present and ongoing connection to the land and cultural beliefs. The University continues to develop respectful and reciprocal relationships with all Indigenous peoples in Australia, and with other Indigenous peoples throughout the world.
