The University of Adelaide is recognised as one of Australia’s most respected research intensive universities, committed to tackling the grand challenges of our time and with dedicated staff that are international leaders in their field.

Our undergraduate degrees are world-class, driven by cutting edge research and technology that encourages critical thinking, problem solving, teamwork and communication. The University is focused on preparing students for their careers through employability development activities and internships, while our Industry Engagement Priorities ensures close alignment with the needs of industry.

Studying at the University of Adelaide offers a high quality experience within a rich campus culture and outstanding facilities. Students are assisted in making a successful transition to university life through an international orientation program that provides an insight into local South Australian culture. The academic environment of the University pursues excellence, values creativity, and gives graduates the opportunity to make a major contribution to the world.

Vice-Chancellor and President
Professor Peter Rathjen
Founded in 1874, the University of Adelaide is Australia’s third-oldest university and consistently ranked in the top 1% globally and number one in South Australia. Our reputation for excellence and breaking new ground has been forged by a continuous stream of exceptional people. We proudly count among our distinguished alumni five Nobel Laureates and over 100 Rhodes Scholars. Australia’s first female prime minister and Supreme Court judge were also University of Adelaide graduates.

Today, our vibrant culture continues to attract some of the world’s best and brightest—academic leaders from all corners of the globe and students from more than 100 countries.

**Outstanding teaching**

University of Adelaide students learn with the guidance and support of exceptional academic staff. Operating at their disciplines’ cutting edge, they enthusiastically share their passion for new knowledge and encourage students’ own pursuits of world-changing discoveries.

The University also provides a wide range of student support services and opportunities, all of which are detailed in these pages. This nurturing environment—unwavering commitment to the highest teaching standards—enables students to fulfil their potential and make significant contributions to the world.

**Global research impact**

The University of Adelaide is committed to conducting world-class research with global, real-world impact. A member of Australia’s prestigious Group of Eight research-intensive universities, we enhance and sustain life for people and planet by addressing the world’s most significant challenges.

Our areas of particular strength include: food and wine; defence and security; health and medicine; engineering and technology; life sciences; mining and energy; and the environment.

* Economist Intelligence Unit Global Liveability Index 2018

---

**OUR NOBEL LAUREATES**

The Nobel Prize is an international award given yearly since 1901 for achievements in physics, chemistry, medicine, literature and peace. The University of Adelaide is associated with five Nobel Laureates, and has a long history of groundbreaking research and scholarship of international significance.

1915

* Sir William Henry Bragg and Sir William Lawrence Bragg: Physics
  For their services in the analysis of crystal structure by means of X-rays.

1945

* Sir Howard Walter Florey: Physiology or Medicine
  For the discovery of penicillin and its curative effect in various infectious diseases.

2003

* John M Coetzee: Literature
  For his contribution to literature.

2005

* Dr J Robin Warren: Physiology or Medicine (joint)
  For his discovery of the bacterium *Helicobacter pylori*, and its role in gastritis and peptic ulcer disease.

---

FACILITIES
THE UNIVERSITY HAS INVESTED OVER AUD $500 MILLION ACROSS OUR CAMPUSES SINCE 2011 IN A MAJOR CAPITAL WORKS PROGRAM, DELIVERING A SUITE OF WORLD-CLASS FACILITIES AND INFRASTRUCTURE.

Graduate attributes
The Adelaide education experience equips graduates with:
• career and leadership readiness
• deep discipline knowledge
• critical thinking and problem-solving skills
• teamwork and communication capabilities
• intercultural and ethical competency
• self-awareness and emotional intelligence.

Study Overseas
We are committed to providing all students with opportunities to study internationally. Students have the possibility of a ‘third country experience’ through a range of programs, including student exchange, study tours, summer and winter schools, internships and placements. With planning, there is no need to extend a degree to accommodate these experiences. Credit is usually awarded for the study undertaken.

Students participating in an exchange program remain enrolled as full-time students at the University of Adelaide while overseas, and continue to pay their usual tuition fees. They do not pay tuition fees at the host university. There are many exciting opportunities in the Americas, Europe, Asia-Pacific region and Africa.

To discover more, visit: adelaide.edu.au/study-overseas

# Includes the Entrepreneurship, Commercialisation and Innovation Centre (ECIC).
CAMPUSES

The University of Adelaide has three campuses in South Australia: North Terrace, Roseworthy and Waite.

**North Terrace**

The University’s main campus on North Terrace is renowned for its historic architecture and lively atmosphere. Located in the heart of Adelaide’s central business and shopping district, the campus is adjacent to the State Library, Festival Theatre, South Australian Museum, Art Gallery of South Australia, Adelaide Zoo, and Botanic Gardens.

The University’s Adelaide Health and Medical Sciences building is also within walking distance, in the South Australian Health and Biomedical Precinct.

**Waite**

The Waite campus is home to the internationally renowned Waite Research Institute—the largest agricultural research institute in the southern hemisphere and third largest in the world. A number of research partners are also co-located there. Staff and students work closely with these organisations, providing a unique opportunity for collaboration on national and international research projects. Research areas include wine, plant biotechnology, plant breeding, sustainable agriculture and land management.

The campus is located eight kilometres south of the city centre and is easily accessible by public transport and a Waite-North Terrace campus shuttle bus service. Campus services include a childcare centre, library, cafe, gym and sporting facilities.

**Roseworthy**

Roseworthy campus is an internationally renowned centre for excellence in dryland agriculture, natural resource management and animal production. Set on over 1,600 hectares of land, it is home to South Australia’s only veterinary school. It features an AUD $37 million veterinary clinic, where students can gain clinical experience while studying.

The campus is located 55 kilometres north of Adelaide and 10 kilometres from the town of Gawler (population 26,000). Access is available by a North Terrace-Roseworthy campus shuttle bus. Campus services include student accommodation, a swimming pool, library, cafe and fitness centre.

With all the advantages of a major city but few of the inconveniences, Adelaide offers an enviable lifestyle and ideal study environment.

**Why students love Adelaide**

**Australia’s most affordable mainland city**
Adelaide is one of the most affordable mainland cities in Australia. The cost of living in Adelaide is up to 19% lower than Sydney and Melbourne.*

**A truly liveable city**
Safe and relaxed, Adelaide ranked as one of the world’s top 10 most liveable cities.^

**Culturally diverse**
South Australians hail from over 120 different countries, creating a wonderful mix of cultures and influences. One in five South Australians were born overseas!

Adelaide is a great city for international students.

It has a bustling, energetic city centre and is renowned for its festivals, cultural life and sporting events. With great shopping, beaches, a café culture, affordable student accommodation and friendly residents, Adelaide offers a relaxed lifestyle with all the convenience of city living.

Student accommodation is more affordable in Adelaide than in many other Australian cities, and much of it is in the heart of the CBD. Many students can simply walk to their lectures.

For more information, visit: southaustralia.com
Adelaide is a vibrant city that’s easy to navigate. Broad, spacious boulevards accommodate an efficient network of public buses, trains and trams, with international students receiving the same discounts as locals.

CAFÉ CULTURE

Adelaide is one of Australia’s most cosmopolitan cities, with an array of cafés, restaurants and shops reflecting the diversity of its ethnic communities. Adelaide is reputed to have more cafés and restaurants per head of population than any other city in Australia.

SHOPPING

Adelaide boasts a range of shopping experiences comparable to anywhere in Australia. Within the CBD, Rundle Mall has the biggest concentration of department and chain stores, while within walking distance are trendy boutiques, pubs and cafes.

EASY TO GET AROUND

Adelaide is a vibrant city that’s easy to navigate. Broad, spacious boulevards accommodate an efficient network of public buses, trains and trams, with international students receiving the same discounts as locals.

HIT THE BEACH

Adelaide is a coastal city, with pristine white sandy beaches that attract thousands for relaxation and recreation in the summer. It takes just 20 minutes on the tram to get from the city centre to the beach.
STUDENT SUPPORT

Friendly staff are available to help students manage their studies, assist with student visa-related queries, help with health or disability needs, support students as they fit into their new life in Adelaide, and help solve personal problems. In addition, doctors at the North Terrace campus’ Health Practice can provide students with year-round health support.

International Student Support  Ongoing, one-on-one support from international student advisors, orientation and social programs for all students, and assistance with student visa-related queries. international.adelaide.edu.au/life-on-campus

Careers Service  Advice and workshops to help students develop employability skills, a Career Hub database of employment opportunities, and annual career-related events including the Careers Expo. adelaide.edu.au/student/careers

Writing Centre  Support with writing academic English through one-on-one advice from writing mentors, workshops, and comprehensive support resources. adelaide.edu.au/writingcentre

Maths Learning Centre  Help for all students to develop mathematics skills at every level, with drop-in sessions, lectures, games, and resources. adelaide.edu.au/mathslearning

Childcare  Full-time and part-time care for children of students and staff, located on the North Terrace and Waite campuses. adelaide.edu.au/childcare

Counselling Support  Professional and confidential one-on-one support for students encountering issues that affect their study and life. adelaide.edu.au/counselling

Disability Support  Support for all students who have an ongoing medical condition, to help them focus on their studies. adelaide.edu.au/disability

Elite Athlete Support  Support to help student athletes balance their academic and sporting commitments, by providing a flexible and responsive approach to study. adelaide.edu.au/eliteathletes

Health Practice  Comprehensive health care for all students and staff, including male and female doctors (GPs), health checks, immunisations, and mental health support. adelaideunicare.com.au

Library  One of the state’s most extensive research collections, quiet study spaces, and support from specialist research librarians. adelaide.edu.au/library

Peer Assisted Study Sessions (PASS)  Regular extra-curricular sessions led by student mentors to help students improve their grades in specific courses. adelaide.edu.au/pass

The University offers a range of support services to help international students succeed at university.
The University of Adelaide offers a stimulating environment where students are encouraged to take part in a wide range of extracurricular activities.

**Social programs**
international.adelaide.edu.au/life-on-campus/social-programs-clubs-and-sports

The University offers a variety of social programs to help international students adjust to their studies and make new friends. These include ongoing English conversation practise (Talking with Aussies), regular culturally-themed social nights (Language and Cultural Engagement program), a chance to connect with locals (Experience Adelaide), and opportunities to develop leadership and employability skills (Peer Mentor program).

**StudyAdelaide**
studyadelaide.com

StudyAdelaide provides information and support to students both before they arrive in Adelaide and after they settle into life in their new home. It conducts a busy schedule of events and activities each year. These include everything from a welcome ceremony with the Lord Mayor, international student awards, career advancement workshops, wine education functions, regional trips and social events, such as sports days.

The Fitness Hub
thefitnesshub.com.au
Students benefit from the advantages that come from choosing to study in a city where accommodation of all types, including our University-managed accommodation, is not only accessible but more affordable than in other Australian cities.

The University recommends students adopt the **RECAS** approach to identifying an accommodation option to suit their individual needs and support a positive educational experience.

- Research all available accommodation options
- Establish a realistic budget
- Consider the value of managed student accommodation
- Avoid extended temporary accommodation
- Seek assistance from the University Accommodation Service

Students unfamiliar with Adelaide are encouraged to consider living in managed student accommodation during their first year of university.

Managed student accommodation provides new students with the opportunity to become better acquainted with the city, settle into their academic program and make new friends, without having to worry about the challenges of the private rental market.

### Long-term student accommodation

**adelaide.edu.au/accommodation**

The University assists international students to obtain suitable longer-term housing. Students may choose any of the following options.

#### The University of Adelaide Village

The University of Adelaide Village is the largest of our accommodation properties. The Village is home to over 400 students, who experience the safety and security of having access to University staff on-site, 24 hours a day, seven days a week.

Students need only bring their personal belongings, as furniture, kitchen appliances, utilities (including electricity), phone and Internet are all included in the accommodation fees. The only additional costs are for meals (students must cook and clean for themselves) and the on-site, coin-operated laundry facilities.

#### Roseworthy Residential College

This accommodation is operated by the University and is only available to students of the University’s Roseworthy campus, offering them the opportunity to enjoy the benefits of on-campus residential living.

#### Independent residential colleges

There are five independent residential colleges situated in North Adelaide that offer accommodation to students. These independent residential colleges are privately owned and operated. They are not owned or operated by the University.

Students can contact the residential colleges directly to better understand what’s available. These residential colleges include: Aquinas, Lincoln, St Ann’s, St Mark’s and Kathleen Lumley College.

#### Commercial student accommodation

Commercial student accommodation refers to purpose-built off-campus student accommodation facilities, run by private management companies not affiliated with the University of Adelaide. These facilities offer fully-furnished, self-contained...
Apartments that give students flexibility to live alone or share with others. There are also rooms for couples.

In addition to rent, students may need to budget for additional expenses, including:
- gas
- electricity
- telephone connection (optional)
- Internet connection (optional).

Places in commercial student accommodation facilities are offered on a 6 or 12-month fixed-term lease. It's important to note that these facilities are not directly affiliated with the University of Adelaide and students are advised to inspect them before committing.

**Private rental and share accommodation**

Affordable share accommodation can also be found in the private rental market, so the University offers a rental database (adelaide.edu.au/accommodation) for our students’ exclusive use.

Our enrolled students can access the database from our Accommodation Service, Level 4, Hub Central, North Terrace campus, with a user name and password. The database is only promoted among the University community, and most accommodation listings are offered by people affiliated with us who would like to share their room/property with a University of Adelaide student.

Students wishing to find share or rental accommodation when they arrive in Adelaide are encouraged to book temporary accommodation in the first instance. Once in Adelaide, students should visit the University’s Accommodation Service for information on all available options and support in identifying and securing quality long-term living arrangements. Students are discouraged from sending money from offshore to secure share or rental accommodation prior to inspecting it.

**Accommodation for families**

Students accompanied by family members will find private rental accommodation in houses or apartments the most suitable accommodation option.

It’s easier for an individual student to initially travel to Adelaide on their own to arrange suitable permanent family accommodation. Spouses and children who arrive later can then move straight in.

**Arrival reception and temporary accommodation**

Temporary accommodation and arrival reception services are available to commencing international students. Eligible students can book an arrival reception service and be met by a University representative at Adelaide Airport, via a domestic or international flight. Students will then be transported to their accommodation.

Eligible students who choose not to secure long-term managed student accommodation for their arrival in Adelaide may also be eligible for seven nights of temporary accommodation booked through the University. It is important to note that temporary accommodation options arranged through the University are unlikely to be extended further than a period of seven nights due to high demand for short-term accommodation during the traditional student intake periods.

For more information on eligibility criteria, arrival reception and temporary accommodation services, contact:

**Accommodation Service**

Opening hours: Mon to Fri, 9am to 5pm

Skype: uoaaccommodation

For more information, visit: adelaide.edu.au/accommodation
As part of planning, applicants need to consider the financial requirements before applying at the University, and are advised to set a realistic budget.

Incidental costs
Prospective students should allow at least AUD $500 per year for textbooks and basic study materials. Depending on the degree, other costs may include: specialist equipment (e.g. laboratory coats, microscopes, stethoscopes); optional supplementary reading and academic program materials; field trips; and expenses such as thesis preparation, printing and binding.

Accommodation
Although living in Adelaide is more affordable than many other Australian cities, accommodation remains students’ largest variable expense. It can cost anywhere from around AUD $135 per week for share accommodation outside the city centre to AUD $259 per week (including electricity, water, gas and unlimited Wi-Fi) for University-managed accommodation within the city centre. The average rent for a private studio apartment in the CBD is approximately AUD $400 per week.

Application fee
An application fee of AUD $110 must be paid with the University of Adelaide undergraduate online application. An exemption may apply for some government or externally-sponsored students.

Tuition fees
International students are required to pay international student tuition fees, which cover the cost of teaching and many student support services. The indicative annual tuition fee quoted in this prospectus is based on the standard full-time enrolment load of 24 units per year, or 12 units per semester. The quoted fee is reviewed annually and may increase in future. Fees may also vary depending on enrolment load.

New international students are required to pay a tuition fee deposit when accepting an offer of admission. After enrolment, students are then invoiced for the balance of their fees in that enrolment period. The University invoices students (or their sponsor) each enrolment period according to students’ enrolment load.

Student Services and Amenities Fee
International students commencing in 2020 will be required to pay an annual Student Services and Amenities Fee. This covers activities such as clubs, sporting and recreational activities, and many other services. The fee was AUD $303 for 2019 and is indexed annually.

For more information, visit: adelaide.edu.au/student/finance/ssaf

Student Fees Refund Policy
All applicants must read the University’s policy on refunds and adjustments before accepting an offer of admission. The policy complies with all requirements for tuition fee refunds stipulated in the Education Services for Overseas Students Act 2000 (ESOS), associated Australian Government regulations, and the ESOS National Code of Practice (2018). For policy details, visit: adelaide.edu.au/policies/4343

For information about refund administration and refund amounts, visit: adelaide.edu.au/student/finance/refunds

Health and medical
Student visa holders and their dependants are required to have health insurance for the duration of their student visa through the Overseas Student Health Cover (OSHC) scheme. The University’s preferred OSHC provider is Allianz Global Assistance. Visit: allianzassistancehealth.com.au/en/student-visa-oshc

For additional information, please refer to: international.adelaide.edu.au/student-support/support-services
**Students with families**

International students who bring their families to Australia will need to take into account additional costs associated with health cover, housing, food, transport, childcare and education.

For information and advice, visit: internationalstudents.sa.edu.au/en/students/dependants

**Part-time work**

Many international students and their dependants hope to obtain part-time work to supplement funds for living costs. While this may be possible, we recommend students not rely on it for essential expenses. Obtaining a job is not guaranteed and can take time. Students should also be aware the workload for many degrees is intense, so they may not have time to undertake employment.

International students who do find part-time work should be aware that they have the same workplace rights as all other workers in Australia.

For more information on working while studying, visit: homeaffairs.gov.au/trav/stud

Additional details are also available at: fairwork.gov.au/find-help-for/visa-holders-and-migrants

**Change to permanent resident status**

Different quota restrictions (imposed by the University and the Australian Government) apply to admissions for international students than for Australian residents.

International students whose immigration status changes to Australian Permanent Resident will be required to transfer to a domestic fee-paying place. They may subsequently apply to transfer into a Commonwealth-supported place, depending on their degree.

**Scholarships**

A number of scholarships will be available for international students who wish to study at the University of Adelaide commencing in 2020. For information on the application process, minimum eligibility criteria and important deadlines, visit international.adelaide.edu.au/admissions/scholarships

A selection of scholarships are also available from the Australian Government. For information on these, visit: australiaawards.gov.au

All scholarship details are subject to change, so interested students are encouraged to check these websites regularly.

---

**STUDY-RELATED COSTS**

This should be viewed as a guide only, as costs can vary significantly from one student to another. These are basic living costs at the time of publication and do not include program tuition fees, costs for textbooks, other study-related needs, running a car, medical expenses, or any luxuries.

** The Department of Home Affairs requires all students to have health insurance for the duration of their visa. Visa length varies and is slightly longer than the length of a student’s degree. The fee quoted here is for 12 month’s cover.

# Approximate cost for standard examination only. Additional costs may be incurred if more comprehensive medical exams are required.

^ Surchage may apply to some subsequent student visa applications.
Students without the required level of English in an English test will need to satisfactorily complete an intensive English language program before being admitted to the University of Adelaide.

The University can arrange an appropriate Academic English Pre-enrolment English Program (PEP) in Adelaide at the English Language Centre (refer to page 24). These programs provide an alternative entry pathway for prospective students who have received offers to the University conditional upon English proficiency.

On successful completion of the PEP, students can be granted entry into the majority of degrees at the University.

The University accepts the following English language tests (except where otherwise specified):

- IELTS (International English Language Testing System) Academic Test
- TOEFL (Test of English as a Foreign Language)
- Pearson Test of English (Academic)
- Cambridge Certificate in Advanced English (CAE).

Other evidence of English proficiency may be accepted in individual cases.

For more information, visit: international.adelaide.edu.au/admissions/how-to-apply/admission-requirements#english-language-requirements

| Adelaide Medical School Bachelor of Medicine and Bachelor of Surgery (MBBS) | Overall band score of 7.0 and Band score of 7.0 in all bands | Paper-based: total score of 600 with a minimum of 5.0 in the Test of Written English (TWE) or Internet-based: total score of 94 with a minimum of 27 in writing, 23 in speaking and 24 in reading and listening | Overall score of 65 and Skills profile of 65 in writing, speaking, reading and listening | Overall score of 185 and Individual score of 185 in writing, speaking, reading and listening |
| Adelaide Nursing School Bachelor of Nursing | Overall band score of 7.0 and Band score of 7.0 in all bands | Paper-based: total score of 600 with a minimum of 5.0 in the Test of Written English (TWE) or Internet-based: total score of 94 with a minimum of 27 in writing, 23 in speaking and 24 in reading and listening | Overall score of 65 and Skills profile of 65 in writing, speaking, reading and listening | Overall score of 185 and Individual score of 185 in writing, speaking, reading and listening |

Applicants whose English test scores are slightly below their preferred degree’s requirements may choose to enrol in an appropriate Academic English Pre-enrollment English Program (PEP) as an alternative means for meeting the English language proficiency requirements. Students who successfully complete the PEP at the required standard will be eligible for direct entry to the degree nominated in their offer without any further English test requirements. This option is available to applicants in all degrees listed in the above table, except those marked with *. An offer to the PEP is included for eligible students. PEP entry requirements are listed at: adelaide.edu.au/elc/courses/pep

Other evidence of English proficiency may be accepted in individual cases.

* Applicants seeking entry to the degrees marked* must present the required IELTS/TOEFL/Pearson/CAE scores to meet the English language proficiency requirements and are not permitted to undertake an Academic English PEP pathway. These entry requirements are correct at the time of printing. For up-to-date information, visit: international.adelaide.edu.au/admissions/how-to-apply/admission-requirements The University of Adelaide reserves the right to make the final decision regarding admission to the University.
The University’s English Language Centre (ELC) provides outstanding academic English, general English programs and English teacher training services for international students and groups.

Academic English PEP Pathway
The University of Adelaide offers an academic English pathway for students who have not met their undergraduate degree's minimum English language entry requirements.

This is a direct entry pathway into further studies at the University of Adelaide. The length of the program depends on the applicant's English proficiency test score.

Students who successfully complete the Pre-enrolment English Program (PEP) at the required level do not need to sit another English test before entering their University degree.

The PEP is offered in lengths of 10, 15, 20 and 25 weeks. For more information on the PEP visit: adelaide.edu.au/elc/courses/pep

Academic English PEP Pathway - Extended
The PEP Extended 30 and 35 week courses combine General English for Academic Purposes (GEAP) classes, and Pre-enrolment English Program (PEP) classes.

Commencing in the GEAP allows students to develop the fundamental linguistic building blocks of grammar and vocabulary for academic level study, before progressing to English classes specifically tailored for students entering an award program.

• PEP Extended 30 week students will complete 5 weeks of GEAP before commencing 25 weeks of PEP classes.
• PEP Extended 35 week students will complete 10 weeks of GEAP before commencing 25 weeks of PEP classes.

Eligibility
To find out which Pre-enrolment English Program (PEP) they are eligible for, students should refer to the diagram opposite.

Other programs
Academic English (GEAP)
Our General English for Academic Purposes (GEAP) program is for students wishing to develop effective oral and written communication skills—and boost their learning confidence—at one of the most prestigious universities in Australia.

Delivered in the University of Adelaide’s academic environment and attracting students from all around the world, GEAP is offered in five levels of language proficiency—from elementary through to advanced. All levels focus on developing speaking, listening, reading and writing skills, with academic tasks added as the student’s proficiency increases. Students can choose to enrol for anywhere from five to 45 weeks.

Group Study Tour programs
Group Study Tour programs offer an ideal mix of academic excellence and cultural experience for groups of international students or professionals looking for a rewarding Australian experience.

Programs are tailored to each group’s specific needs and can be for any length of time, but are usually between two and eight weeks. Homestay accommodation can also be included.

Academic sessions can focus on general English tuition or a specific discipline or interest, while cultural activities include excursions to destinations of cultural, historical, geographical and social interest.

TOEFL Test
The Test of English as a Foreign Language Internet-based Test (TOEFL iBT) measures students’ proficiency in speaking, reading, writing and listening to ensure they can communicate their ideas and interact in real life, classroom and campus situations.

The TOEFL iBT is accepted at all Australian universities and can be taken at the University of Adelaide. Tests are held regularly throughout the year at our ELC. For more information and dates, visit: adelaide.edu.au/elc/toefl

Academic English Pathway program timelines and costs
In addition to the fees below, an enrolment fee of AUD $295 will apply to Academic English Pathway programs. For trimester dates and fees please visit adelaide.edu.au/elc
This diagram shows the IELTS scores required for entry into PEP programs of various lengths; and the amount of time it takes most students to become proficient enough to enter undergraduate degrees requiring an overall IELTS score of 6.5, with no band less than 6.0 (or equivalent). TOEFL, Pearson and CAE tests are also accepted.

* Students in PEP Extended 35 week and 30 week courses will first participate in General English for Academic Purposes (GEAP) classes until the 25 week PEP intake and then take classes with other PEP students.
Qualifications recognised for undergraduate entry

**Canada:** Provincial High School Diploma (e.g. Ontario Secondary School Diploma)

**Germany:** Abitur

**Hong Kong:** Hong Kong Diploma of Secondary Education

**India:** Higher Secondary School Certificate Examination through the Central Board of Secondary Education (CBSE), Indian School Certificate (ISC) or, Maharashtra, Karnataka, Andhra Pradesh, Telangana and Tamil Nadu State Board Exams

**Indonesia:** Indonesia SMA3 (Graduate Certificate of Completion)

**Malaysia:** Advanced Level Examination, STPM Examination, Unified Entrance Certificate (UEC), Matrikulasi

**Norway:** Vitnemal den Videregaende Skole

**People's Republic of China:** Gao Kao

**Singapore:** Advanced Level Examination

**Sri Lanka:** Advanced Level Examination

**Thailand:** Matayom 6, Thailand Certificate of Secondary Education

**United Kingdom:** Advanced Level Examination

**United States:** SAT/Advanced Placement (AP) in conjunction with completed US High School Diploma

**Vietnam:** Bang Tot Nghiep Pho Thong Trung Hoc

**Worldwide:** International Baccalaureate

For more information about deadlines, visit: international.adelaide.edu.au/admissions/how-to-apply

Applications should be aware of their specific degree’s admission and student visa requirements before applying to the University.

**Undergraduate entry requirements**

For general information on specific degree requirements, consult the relevant degree descriptions in this prospectus, or search Degree Finder: adelaide.edu.au/degree-finder

Qualifications recognised for undergraduate entry are shown on this page, and a table listing all degrees, prerequisites, and the minimum entry requirement for students completing these qualifications can be found on pages 100-105.

Students with qualifications obtained in the South Pacific islands, Japan, Korea, Philippines, Saudi Arabia or Taiwan are advised to complete a Foundation Studies program (see page 30) to prepare for entry into the University’s undergraduate degrees. International students must also meet English language requirements. See page 22.
Additional selection criteria
For some University of Adelaide degrees, other selection criteria are considered in addition to academic qualifications. For example, our music programs require applicants to undertake an audition. Medicine and dentistry applicants are required to undertake a Personal Qualities Assessment (PQA), and—if successful—attend an interview. Information about additional selection criteria is included in the degree information section of this prospectus.

Students aged under 18 at commencement of studies
Special arrangements are required for students aged under 18. Any student who has not turned 18 before their studies commence must either:
• live with a parent
• live with an eligible relative in Adelaide, or
• have their parents agree to guardianship arrangements organised by the University (additional fees apply).
Guaridanship arrangements include prescribed housing placements and compulsory welfare monitoring services up until the student’s eighteenth birthday. (Available only to students who will be 17 years of age upon commencement of studies.) For more information, visit: international.adelaide.edu.au/admissions/students-under-the-age-of-18

Deferral of admission
Applicants who have been offered a place in a degree may apply to defer their enrolment for up to two years from their original date of admission. Exceptions apply to some degrees, such as music degrees and some degrees in the Faculty of Health and Medical Sciences.

Credit for previous study
In some cases, international students may be credited with advanced standing (exemptions) on the basis of previous studies at another institution. If seeking advanced standing, detailed syllabuses (course outlines) of the subjects successfully completed must be submitted.

Student personal information
Under Australia’s strict privacy laws there are very limited circumstances in which the University can release personal or academic information about a student. Such information will usually only be released to Australian government departments where legislatively required or in a health or safety emergency. The University cannot release any information about a student’s results, attendance, application status or any other matters to their parents.

For more information on the University’s Privacy Policy and Management Plan, visit: adelaide.edu.au/policies/62

* APPLICANTS ARE ADVISED TO APPLY AT LEAST SIX WEEKS PRIOR TO THE COMMENCEMENT OF THEIR PREFERRED INTAKE, with the exception of those applying for the degrees listed above. Applicants who apply after that date will have their applications considered for the most suitable intake given their circumstances.

Note: Dates given are a guide only and are subject to change. Please see the Important University Dates website for up-to-date information: international.adelaide.edu.au/admissions/how-to-apply/application-deadlines
HOW TO APPLY
8 steps to enrolment

STEP 1
APPLICATION
Apply through one of the University’s official international representatives or via our online application system at: international.adelaide.edu.au/admissions/how-to-apply/apply-now

Payment and documents required
• A non-refundable AUD $100 application fee.
• Original or certified copies of student academic qualifications, transcripts, English language test results (if applicable) and any other supporting documents.
Copies can be certified by a justice of the peace, notary public, University of Adelaide official representative or staff member, police officer or examining authority.

Australian Year 12 applicants and International Baccalaureate applicants – special group procedure
International students currently completing an Australian Year 12 qualification (in Australia or in any other country) or International Baccalaureate in Australia apply through the South Australian Tertiary Admissions Centre (SATAC) via Uniweb, at: satac.edu.au
International Baccalaureate applicants who are studying overseas apply to: international.adelaide.edu.au/admissions/how-to-apply/apply-now

Medicine and Dental Surgery degree applicants
All applicants for these degrees must lodge their applications via the online application system before 30 June 2019 and pay the AUD $500 Personal Qualities Assessment fee.

Further information and contact details
For SATAC codes and University of Adelaide cut-off scores, visit: adelaide.edu.au/degree-finder
To apply directly to the University, visit: international.adelaide.edu.au/admissions/how-to-apply/apply-now

International representatives
For a full listing of the University’s international representatives visit: international.adelaide.edu.au/admissions/find-a-university-of-adelaide-agent

STEP 2
APPLICATION ASSESSMENT
All applications will be assessed. Successful applicants will be emailed directly (if they applied directly), or via their official representative.
Successful applicants will receive the following:
• Offer Statement
• Acceptance Agreement
• Genuine Temporary Entrant (GTE) Questionnaire*
• Payment Form
• Declaration of Financial Capacity
• Acceptance Information Leaflet.

Unsuccessful applicants will be informed by email.

Students studying an Australian Year 12 qualification
Examination results will be sent directly to SATAC by all relevant examining boards. When results are available, SATAC will email offer details directly to the email address nominated on the student’s SATAC application.
* Where applicable.

STEP 3
ACCEPT OFFER
• Complete and sign all pages of the Offer Statement and Acceptance Agreement.
• Complete the Declaration of Financial Capacity.
• Arrange payment of tuition fee deposit as per instructions in Offer letter.
• Arrange for payment of Overseas Student Health Cover (OSHC) for duration of visa.
• Arrange for payment of English language program fees (if applicable).
• Provide a copy of the Personal Details section of the student’s passport.

Conditional offers
Students who receive a conditional offer must either upload documentary evidence that they’ve met any outstanding conditions to their application or send this directly with their acceptance documentation. A new Offer of Admission will not be issued.
STEP 4
CONFIRMATION OF ENROLMENT
After receiving the acceptance documentation listed, the University sends applicants a Confirmation of Enrolment (CoE). Students should use the CoE to apply for an Australian student visa.

STEP 5
OBTAIN INTERNATIONAL STUDENT VISA
Applicants should lodge their student visa application immediately. This can be done with the assistance of a recognised University of Adelaide agent or representative. Or, if applying directly, by visiting homeaffairs.gov.au/trav/visa/Immi to create an ImmiAccount.

STEP 6
PREPARE FOR DEPARTURE
After making travel arrangements, students should consider their accommodation options by visiting adelaide.edu.au/accommodation While there, they can also book an airport pickup and temporary accommodation if required (fees apply).

STEP 7
ENROLMENT
Prior to orientation, students will receive information about obtaining their University login and password. Then, when enrolments open, students will be able to login to the Access Adelaide section of the University website and enrol.

STEP 8
ARRIVE AND ATTEND ORIENTATION
Students should aim to arrive in Adelaide in time to attend the international student orientation program. Participation in this program will help familiarise students with the city and campus, and provide a chance to meet staff and other students and make friends before commencing studies. For more information, visit: international.adelaide.edu.au/preparing-to-arrive/orientation

WELCOME TO THE UNIVERSITY OF ADELAIDE!
UNDERGRADUATE PATHWAYS

Programs to help international students prepare for tertiary study in Australia by bridging the gap between where their schooling ends and their university degree begins.

Foundation studies

Foundation studies programs are designed to meet the special needs of international students who do not meet the academic requirements for direct entry into University of Adelaide undergraduate degrees.

They are recommended for students with secondary qualifications from regions including the South Pacific islands, Japan, Korea, Philippines, Saudi Arabia or Taiwan.

Foundation programs help students develop the required level of language and independent study skills needed for successful university study, and provide a supportive environment where friendships can be developed with both international and Australian students.

Students are enrolled by the University and upon successful completion are guaranteed admission to most University of Adelaide degrees (provided they meet the degree’s minimum entry requirements).

The University of Adelaide College

college.adelaide.edu.au

The University of Adelaide College is our preferred pathway partner and provides students with dedicated pathways to undergraduate studies at the University. The College is located in the heart of the city of Adelaide, South Australia and enrolls approximately 800 students each year from Australia and around the world.

College students are part of the University of Adelaide; they often study on campus, share the University’s resources and facilities, and —like all our other students—can make the most of the university experience with access to the student union, clubs and societies.

The University of Adelaide College is an ideal choice for students who:

• are seeking an alternative entry pathway to a bachelor degree at the University of Adelaide as a result of not achieving the required grade (Degree transfer program)
• do not meet the high school (Year 12 or equivalent) standard to begin tertiary education at the University of Adelaide (Foundation Studies program)
Foundation studies programs are designed to meet the specific needs of international students who do not meet the academic requirements for direct entry into University of Adelaide undergraduate programs.

Foundation Studies

Students may access the College’s Foundation Studies program upon completing Year 11 or equivalent. The course is designed to provide students with the core subject knowledge, vital study skills and academic and pastoral support to seamlessly transition into the first year of undergraduate studies at the University of Adelaide.

The Foundation Studies program takes 8–10 months to complete, with intakes in February, July and October.

Degree Transfer

For students whose qualifications are just below the minimum academic requirements for admission into their chosen University of Adelaide undergraduate degree, the College offers a Degree Transfer program that enables entry into the second year of some programs.

The Degree Transfer program delivers the first-year syllabus and assessment of selected bachelor degrees at the University of Adelaide. The program includes additional learning support, especially for English language proficiency and difficult concepts in subjects such as mathematics.

Upon successful completion of the program, students are offered direct entry into the second year of university, with full credit for first-year subjects successfully completed in the undergraduate program (provided adequate scores are achieved).

Flexibility is provided through several intakes throughout the year, and course entry points.

ENGLISH

Pre-sessional General Academic English program available if required.

Foundation Studies

Degree Transfer

University Year 1

University Year 2

Foundation Studies and Degree Transfer programs (The University of Adelaide) CRICOS 00123M

English language programs (Kaplan) CRICOS 03127E

• require additional subjects, such as Specialist Mathematics, Maths Studies or a science discipline, to enter their bachelor degree (knowledge gap subjects).
Eynesbury College
eynesbury.navitas.com

Eynesbury College welcomes students from all over the world. Its education style is designed to give students the best opportunity to succeed and progress onto university. Eynesbury College programs have small classes, are flexible and provide an excellent range of academic and support services to ensure students are well prepared for successful university study.

Eynesbury is conveniently located in the centre of the city, close to the University of Adelaide, major retail shopping and the Adelaide Central Market.

Foundation Studies program

Eynesbury’s Foundation Studies program has successfully provided an excellent pathway into first-year degrees at the University of Adelaide for over 20 years. With a 95% student satisfaction rating for its teaching quality and student support, the program has a wide range of subjects, enabling flexibility and excellent academic preparation for university study.

The Foundation Studies program takes 9–11 months to complete, with intakes in January, April and October. An extended option is also available in January and October.

Diploma programs

Eynesbury offers diplomas of: Business; Computing and IT; and Engineering. These programs provide students with pathways into corresponding University of Adelaide degrees, with up to a full year of credit. The diplomas take 8–12 months to complete, with intakes in February, June and October.

Two-stage diplomas

Eynesbury College also offers two-stage diplomas in Business Studies, and Computing and IT Studies. These allow students with equivalent Year 11 qualifications to progress directly to Stage 2 of the diploma. Pathways into corresponding University of Adelaide degrees are available, with up to a full year of credit given. The two-stage diplomas take 16–24 months to complete, with intakes in February, June and October.

Other foundation studies programs

The University of Adelaide recognises all foundation programs taught by Australian universities (or their partnered providers). Other foundation programs will be considered on a case-by-case basis.

TAFE SA
tafesa.edu.au/international

The University of Adelaide offers formal pathways for many degrees in conjunction with TAFE SA. By studying a Certificate IV, Diploma or Advanced Diploma, students can often meet the entry requirements for University of Adelaide degrees*.

For some degrees, completed TAFE SA qualifications may also be counted as credit.

CRICOS Provider Number 00092B

* Students must also meet the English Language Entry Requirements.
University Senior College
usc.adelaide.edu.au

University Senior College (USC) is a senior secondary independent school based on the University of Adelaide’s grounds. The College is dedicated to supporting students through an academic pathway leading to university. It offers English language-intensive courses for overseas students (ELICOS) and the South Australian Certificate of Education (SACE, Years 11 and 12).

Students learn in a vibrant and stimulating environment that encourages collaboration, being located adjacent to numerous other research-oriented and otherwise significant organisations. These include the South Australian Museum, Adelaide Zoo, Adelaide Botanic Gardens, Art Gallery of South Australia, Migration Museum and Adelaide Magistrates Court.

The USC is committed to developing exceptional graduate attributes in students, all of which are embedded in its curriculum, mentoring program, student-led activities and student governance. Its specialist staff, many of whom are leaders in their fields, help every student flourish through personalised learning and intellectual challenge.

Modelling the belief to succeed, they work purposefully to provide the best opportunities and outcomes for students in the senior years. All SACE subjects are taught in classes that include local and international students.

USC is one of the biggest feeder schools to universities in South Australia (in particular the University of Adelaide), with over 90% of its graduates offered entry into their first preference degree.

International students will complete USC’s Intensive English Program before entering Year 11 classes. Additionally, students will develop their language skills in English, Mathematics, Science and Commerce subjects; as well as participate in intercultural learning opportunities.

For more information about USC, visit usc.adelaide.edu.au/international
CRICOS Provider Number 02375G

TEACHING AND LEARNING METHODS

The University of Adelaide offers an environment where academic excellence is celebrated and independent enquiry is encouraged.

Students are expected to assess and think critically about issues, rather than simply memorise information. To do well, students will need to consult different reference sources of information and evaluate, analyse and understand them.

Teaching methods vary between schools, but most degrees are structured around a program of lectures. Seminars, group discussions (tutorials), practicals and field trips are also often conducted.

**Academic degrees and courses**

To gain any University of Adelaide qualification, students must satisfactorily complete a specific academic degree. Each degree requires students to complete a certain number of courses.

Some degrees have compulsory courses and may or may not include electives. In other degrees, students can make their own selection of courses, with the advice and approval of the school or faculty in which they are enrolled.

Most courses are taught for one semester only, but some do continue for a full year. In all cases, assessment is provided throughout and at the end of the course.

**Units and levels**

Each degree is made up of courses (subjects) that have a unit value. As students progress through a degree, they’re taught courses of increasing depth and complexity at each level (e.g. starting at Level 1 and progressing to Advanced Level). Completion of a certain number of course units is required at each level in order to successfully finish the degree and be eligible for graduation.
Lectures
Lectures are formal sessions where a lecturer instructs a large group of students. Lectures are designed to give students a good starting point on a specific area of knowledge and identify the most important areas of the course. Students are expected to listen carefully and take notes. Lectures typically run for 50 minutes, but can last up to two hours.

Tutorials
Tutorials are small, weekly classes in which students are typically expected to discuss topics and concepts relating to the course. Discussions are led by a lecturer or tutor. Weekly assignments are often set and may involve a presentation to the group, written exercises or participation in group discussion. Attendance at tutorials is usually recorded, and tutorial participation can form part of the course assessment.

Student study commitment
In order to successfully pass, students need to commit appropriate time to their study. This includes not only formal contact time (e.g. lectures, tutorials, practicals), but informal non-contact time.

Extra non-contact hours will be required for all kinds of activities, including but not limited to: assessment tasks, reading, researching, note-taking, revising, writing, consulting with staff, and undertaking informal discussions with other students.

While the relative proportion of contact and non-contact time may vary from course to course, as a guide a full-time student should expect to spend a total of 48 hours per week on their studies during teaching periods.

Assessment
Most courses are assessed continuously through a number of different avenues. These vary depending on the school and degree, with common forms including: essays, assignments, practicals, tutorial papers, group-discussion participation, and end-of-semester exams.

ARCHITECTURE

* Salaries by study area, Graduate outcomes survey national report, Quality Indicators for Learning and Teaching (QILT), Australian National University, 2017
** QSWorld University Rankings by Subject 2018
Architecture and the related built environment disciplines are not merely about providing efficient shelter or high-yielding investment opportunities. They are also about great design and a desire to make the world a better, more habitable place.

Our university provides an ideal 'laboratory' in which to study and teach both. Based in a part of the world that experiences hot, sun-soaked summers and has always had to carefully manage water and energy resources, we’ve attracted many world-leading experts in sustainability; and the city we call home has arguably the largest and most dynamic creative arts scene in Australia. We aim to place architecture and the related disciplines at the intersection of these economic drivers.

Students of our School of Architecture and Built Environment benefit from opportunities to travel overseas and interstate as part of their degree, allowing them to learn valuable aspects of design from other cultures. Upon graduation, they will also be well placed to pursue their careers far and wide, with our postgraduate degrees being recognised by all relevant Australian professional accreditation bodies. These include the:

- Australian Institute of Architects
- Architectural Practice Board of South Australia
- Australian Institute of Landscape Architects
- Planning Institute of Australia
- Royal Institution of Chartered Surveyors

**Architecture points of difference**

- Learn from our Industry Professors—all practising architects with industry experience.
- Immerse yourself in other cultures and learn about their approach to design.
- Access our state-of-the-art model-making laboratory and computer-aided architectural design studios.

---

**FOUNDATION DEGREE**

- Master of Architecture
- Master of Landscape Architecture
- Master of Planning (Urban Design)
- Master of Planning
- Master of Property
- Master of Construction Management

---

**BACHELOR OF ARCHITECTURAL DESIGN**

**CRICOS CODE** 002782D

**INTERNATIONAL 2020 SELECTION RANK** 75

**INTERNATIONAL 2020 IB** 20

**DURATION** 3 years full-time

**CAMPUS** North Terrace

**INDICATIVE ANNUAL TUITION FEE (AUD)** $35,000

**INTAKES** February and July (students commencing in July must enrol in summer school to complete within 3 years)

**adelaide.edu.au/degree-finder**

**Search architectural**

Design goes far beyond the visual. It responds to possibilities and limits, to hopes and needs. It’s equal parts creative and calculated. Architectural design is about understanding landscapes and the way humans create places within them. Architecture, landscape architecture and urban design share the purpose of aiding society while creating structural works of art.

**What will you do?**

Our Bachelor of Architectural Design hones concrete skills and encourages big-picture thinking. You will:

- visit notable building sites, landscapes, gardens and exhibitions
- gain high-level practical design and model-making skills
- practise computer and hand based drawing techniques
- explore relevant theory, history, tradition and innovation
- consider issues of ecology and environment
- learn how to formulate effective proposals.

**Where could it take you?**

Our graduates apply design skills in all sorts of rewarding careers, and take on specialised roles through postgraduate study. You might restore beautiful old buildings or be a micro-home master. You could create and preserve natural landscapes and life cycles. Perhaps you’ll design the next iconic skyscraper or opera house.

**Professional accreditation**

Please note that to practise as an architect or landscape architect, you must complete a professionally accredited combination of degrees in your chosen discipline.

We offer the following choices:

- Bachelor of Architectural Design followed by Master of Architecture recognised by the Australian Institute of Architects and accredited by the Architectural Practice Board of South Australia.
- Bachelor of Architectural Design followed by Master of Landscape Architecture recognised and accredited by the Australian Institute of Landscape Architects.
- Bachelor of Architectural Design followed by either Master of Planning or Master of Planning (Urban Design) recognised and accredited by the Planning Institute of Australia.
- Bachelor of Architectural Design followed by Master of Property recognised and accredited by the Royal Institution of Chartered Surveyors.
- Bachelor of Architectural Design followed by Master of Construction Management recognised and accredited by the Royal Institution of Chartered Surveyors.
ARTS

Arts at the University of Adelaide gives you the skill set and qualification for a successful career well beyond your first job. With 34 majors and minors to choose from, your career options are as diverse as the study areas we offer. You’ll gain deep discipline knowledge paired with transferable skills in communication, problem solving and research in a flexible degree tailored to your interests.

“STUDYING HAS GIVEN ME THE OPPORTUNITY TO EXPLORE DIFFERENT TOPICS AND AREAS OF RESEARCH THAT I ENJOY, MEET INTERESTING PEOPLE AND BE AMONGST OTHERS WITH SHARED GOALS.”

Tiana Blazevic
Bachelor of Arts (Advanced)

Arts points of difference

• Cultivate in depth subject matter expertise and superior research skills
• Gain professional experience through an Arts Internship
• Customise your degree with multiple study areas for enhanced career options
**BACHELOR OF ARTS**

**CRICOS CODE** 00271B

**INTERNSHIPS**
- February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

**INDICATIVE ANNUAL TUITION FEE** $33,500

A Bachelor of Arts lets you dive into higher learning with flexibility and freedom. We support your interests in the broad and vital study of history, society, culture and creativity. The University of Adelaide is highest ranked for Arts in South Australia. From Classics to Criminology, Gender Studies to Geography—you can choose from the greatest number of study areas in the state.

**What will you do?**

Based on North Terrace, you’ll study in the centre of Adelaide’s cultural hub, surrounded by iconic establishments and festivals. You will:

- experience a modern learning program taught with a global perspective
- learn from deeply passionate and knowledgeable academics
- build a suite of skills in critical thinking, communication, and research
- form strong networks with your peers and teachers
- develop positive connections in government, business and the community sector through internships
- gain international experience through optional exchanges or study tours.

You’ll focus your interests in any of the following areas:

- Anthropology
- Art History and Visual Culture
- Asian Studies
- Australian Studies
- Chinese Studies
- Classics
- Creative Writing
- Criminology
- Cultural Studies
- Digital Humanities
- Economics
- Education

- English
- Film Studies
- French Studies
- Gender Studies
- Geography, Environment and Population
- German Studies
- History

- Indonesian Studies
- International Business*
- International Development
- Italian Studies
- Japanese Studies
- Linguistics
- Management*
- Marketing*
- Mathematical Sciences
- Media
- Modern Greek Studies
- Music
- Music Education (minor only)
- Philosophy
- Politics and International Relations
- Psychology*
- Sociology
- Spanish Studies

**Where could it take you?**

You could become a leader in government, media or the thriving international arts community. You might be a voice for those who’ve been mistreated in the workforce. Perhaps you’ll conduct life-changing research into mental health and wellbeing. With your strong understanding of human society, you’ll be ready to shape your place within it.

*These majors cannot be taken as a first major.

^ Further study is required to become a registered psychologist

Curious about a wide range of ideas and issues? High-achieving? Articulate? The Bachelor of Arts (Advanced) is a distinctive degree for inquisitive students who want to excel.

**What will you do?**

As a member of a small but distinctive community within the wider University, you’ll work to take your knowledge and skills to a higher level. You will:

- enrol in Level 2 courses from first-year
- partner with an individual academic mentor who’ll support and encourage your intellectual development
- take a set of courses specifically designed for high-achieving students
- research and write a major independent research project on a topic of your choice
- attend exclusive events such as guest presentations, workshops, seminars, industry talks and social gatherings
- have significant input into your study program’s design and running.

You’ll focus your abilities in any of the following areas:

- Anthropology
- Art History and Visual Cultures
- Asian Studies
- Australian Studies
- Chinese Studies
- Classics
- Creative Writing
- Criminology
- Cultural Studies
- Digital Humanities
- Economics
- Education
- English
- French Studies
- Gender Studies

**Search arts**
Creative artists are performers, designers, writers, animators, curators and directors. They keep the world of art and culture spinning. They make people think, laugh and feel.

Studying creative arts means practising new ways of making while learning from those who’ve inspired and entertained throughout history.

What will you do?
Our Bachelor of Creative Arts develops individual creativity and knowledge. You will:
• choose from production courses like creative writing, music and media techniques
• study theory in your areas of interest, from philosophy and ethics to art history and visual culture
• gain valuable work experience within the creative arts industry
• attend masterclasses with visiting international academics
• go behind the scenes of a major arts festival through our partnership with the Adelaide Festival
• network with leaders and artists at the field’s cutting edge.

You can also pursue your creative interests overseas with optional exchanges and study tours.

Where could it take you?
Creative Arts graduates follow and fashion all sorts of exciting career pathways. You could exhibit your work in national galleries, or spotlight new creative talent. You might publish fiction, biographies or reviews for film festivals. Perhaps you’ll nurture creativity in young people through music programs.

Criminology is the study of crime and society’s responses to it. It goes far beyond ‘whodunit’ into age-old questions of morality and fairness.

Criminologists study the stories and problems behind criminal acts. They work to understand crime through critical analysis.

What will you do?
Our Bachelor of Criminology strengthens your ‘criminological imagination’ as you:
• examine criminal and anti-social behaviour
• debate the causes and consequences of crime
• explore the role of inequality, power and politics
• consider violence, deviancy and policing
• learn about online, corporate and transnational crime
• question justice and corrections systems.

Where could it take you?
Criminology graduates go on to all sorts of fascinating careers. You could find yourself working in the field of cyber-defence. You could advocate to improve the prison system. You might want to become an investigative journalist and host your own gripping True Crime podcast.
Earth is home to 7 billion people—and we’re careless. Businesses dump waste into oceans. Loggers cut down precious forests. Nature suffers as a result.

Environmental policy aims to stop this happening, through mechanisms like rainforest protections, fishing guidelines and wildlife sanctuaries. Those who develop it are problem-solvers, standing between the environment and processes that exploit it.

What will you do?
Our Bachelor of Environmental Policy and Management challenges you to make a positive impact. You will:
- research how humans affect natural environments
- explore approaches to conservation and sustainability
- create policy and plans for managing environmental problems
- learn about climate change, biodiversity, population growth and resource scarcity.

There are also travel opportunities. We offer exchanges and study tours where you’ll tackle real-life problems in vulnerable communities.

Where could it take you?
Environmental expertise is in demand. You could spend your days outdoors as a park ranger or draw up plans for big business and government. You might set up programs to restore habitats for local wildlife. Perhaps you’ll work towards sustainability in remote communities, build policy around renewable energy, or get involved with ecotourism.

Why is there global inequality? Why are some countries poor, or struggling with conflict, while others forge ahead?
Our Bachelor of International Development equips you to tackle these and other big questions surrounding the world’s greatest political, economic, cultural and ecological challenges.

What will you do?
We’ll support you in developing the skills, knowledge and attributes needed to make a real and positive difference in the lives of others. You will:
- examine how government, business, non-governmental organisations and individuals influence development
- learn how development groups function and make money
- explore the major contributing factors leading to issues such as extreme poverty, poor health, fragile governance, inequality and environmental vulnerability
- analyse possible solutions to issues in the developing world
- practise a range of skills required in the field.

You can also get in-country experience by studying abroad. The University partners the Australian Consortium for ‘In-Country’ Indonesian Studies. We offer programs with Scope Global in Vietnam, Indonesia, Africa and Asia.

Where could it take you?
Graduates go on to all sorts of rewarding careers that focus on strengthening communities’ wellbeing in developing countries. You could be an international aid agency employee or humanitarian aid worker. You might provide hands-on support in disaster zones. Perhaps you’ll be a project officer or conduct research for a non-governmental organisation.

In what ways is the world changing? What influence do we have? How can we reduce conflict?
International relations is about interactions across oceans and borders. It examines the political and societal forces of international change. To study it is to delve into history, politics, economics, anthropology and law.

What will you do?
In our Bachelor of International Relations you can specialise in international security, global justice, human rights, global governance, rising powers, or global citizenship. In core studies you’ll:
- get to know key actors in global politics and the challenges they face
- consider relationships that involve power, authority, influence, conflict, cooperation, selfishness and altruism
- analyse political institutions and business-government relations
- learn about the history of globalisation and foreign-policy formation.

You can also boost your employability and cross-cultural awareness by:
- studying a language
- going on study tours
- enrolling in overseas exchange programs.

Where could it take you?
Our graduates emerge ready for exciting all over the world. You might find yourself at the United Nations as a human rights officer. You could work as a policy advisor or an intelligence analyst in a government agency or a non-governmental organisation. You might be a public relations expert or marketing consultant for an international business. Perhaps you’ll write political news. Or you could work in foreign affairs, strengthening partnerships and providing aid to developing countries.
Do you have a passion for languages? Are you fascinated by their complexity and deep entwinement with culture? Do you want to travel and connect in richer ways? In a changing world, the study of languages has never been more relevant.

What will you do?
Our Bachelor of Languages is interactive and immersive. Whether you’ve studied a language to Year 12 level (or equivalent) or are just setting out on your language journey, we offer different streams to cater to your depth of knowledge. You will:

- become proficient in one or more languages
- enhance your knowledge of the cultures they originate from
- heighten your awareness of language systems
- understand language’s role in society
- build a greater appreciation of cultural diversity.

Our majors are:
- Chinese Studies
- French Studies
- German Studies
- Indonesian Studies
- Italian Studies
- Japanese Studies
- Modern Greek Studies
- Spanish Studies.

You can also minor in Linguistics.

Where could it take you?
Language graduates have the upper hand in all sorts of exciting careers. You could find work as a foreign service officer in embassies, resolving international conflicts. You might translate for politicians or celebrities. You could become a professional linguist or help migrants access support.

Why fit yourself into a box when you could think outside it?
A liberal arts and sciences degree educates the whole human being. It explores knowledge and society. It shows what we learn from humanity’s greatest ideas, masterpieces and mistakes. What’s out there? What are the rules? Where do we fit in? It can include philosophy, history, literature, science—all the building blocks of culture and wisdom.

What will you do?
In our Bachelor of Liberal Arts and Sciences you’ll specialise based on your interests. In core studies:

- investigate the ethics and accuracy of knowledge itself
- debate cultural controversies and our future—censorship, aliens, artificial intelligence, genetic manipulation
- work towards small-group discoveries and pursue large personal projects
- explore Indigenous perspectives in Aboriginal studies
- intern with scientific and cultural groups.

If you love to travel you can also study overseas on exchange.

Where could it take you?
Liberal arts and sciences graduates can reflect and connect with the world in all kinds of ways. You might become a science journalist, interviewing thinkers in your own podcast. You could curate at a museum, write for government or end up in PR in Silicon Valley. Perhaps you’ll research and publish your own book.

"THE UNIVERSITY OF ADELAIDE HAS PROVIDED ME A RANGE OF OPPORTUNITIES TO EXPLORE MY INTERESTS AND DEVELOP SKILLS THAT WILL ASSIST ME IN MY CAREER."

Scott Hanel
Bachelor of International Relations with Bachelor of Laws
BACHELOR OF MEDIA

CRICOS CODE 041717A
INTERNATIONAL 2020 SELECTION RANK 70
INTERNATIONAL 2020 IB 24

CAMPUS North Terrace
DURATION 3 years full-time

INTAKES February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in Semester 1. Please contact the Faculty of Arts for help with planning your degree.

Search media

Media is everywhere: TV, radio, movies, magazines, video games, social networks. It’s all the forms of mass communication we engage with every day. Media professionals are analysers, creators and communicators. They understand people, technology and popular culture. They use words, images and sounds to tell stories and influence audiences.

What will you do?
Our Bachelor of Media offers eight different specialisations:

- CGI and Visual Effects
- Game Art
- Graphic Design
- Journalism
- Marketing
- Photographic Imaging
- Popular Music
- Sonic Arts.

Depending on your interests, you’ll get chances to:

- understand the media industry and issues shaping it
- gain real-world experience with major media networks and outlets
- read the news live on air to audiences of thousands
- record, mix, master and produce sonic projects
- design digital entertainment experiences
- explore Japanese media cultures through study tours in Kyoto.

Where could it take you?
Our graduates go on to all sorts of exciting media careers. In film alone you could write scripts, produce soundtracks or animate special effects. You might design posters, interview actors, promote on social media—even host the awards afterwards.

“UNIVERSITY HAS PLAYED A FUNDAMENTAL PART IN MY PROFESSIONAL DEVELOPMENT AND HAS ALLOWED ME TO GAIN A STRONG INSIGHT INTO THE MEDIA INDUSTRY.”

Carina Stathis
Bachelor of Media with Bachelor of Arts

BACHELOR OF PEACE AND CONFLICT STUDIES

Search peace

With widespread crisis and conflict around the globe, there is an urgent need for individuals who possess the knowledge, skills and creativity to help communities affected by conflict recover, reconcile, and rebuild through peacebuilding strategies and initiatives.

What will you do?
Our Bachelor of Peace and Conflict Studies is the first and only degree of its kind offered in South Australia. It will equip you with the knowledge and skills to make positive contributions to conflict resolution and peacebuilding initiatives around the world. You will:

- explore the history of peace, conflict, justice and human rights from a global perspective
- learn to manage, resolve and transform conflict through contemporary practices
- hear from professionals working in the humanitarian sector
- major or minor in a complementary discipline of your choice
- go on optional study tours to see how peace has successfully been built in nations affected by conflict
- be able to study abroad at international universities.

Where could it take you?
There are many exciting employment opportunities in the humanitarian, international development and peace-building sector, such as policy advisor, project officer, or aid agency worker.
## Bachelor of Philosophy, Politics and Economics

**CRICOS CODE**: 097520G  
**INTERNATIONAL 2020 SELECTION RANK**: 70  
**INTERNATIONAL 2020 IB**: 24

**CAMPUS**: North Terrace  
**DURATION**: 3 years full-time

**INTAKES**: February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning degree.

**INDICATIVE ANNUAL TUITION FEE**: $33,500

Understanding social complexities requires looking through more than one lens.

Students of philosophy, politics and economics are deeply acquainted with social and political institutions. They reason rigorously and reflect on moral and ethical values. They understand how resources must be managed and that economics influences everything.

### What will you do?

Our Bachelor of Philosophy, Politics and Economics has a structure unique in South Australia, and highly regarded internationally. You will:

- learn broadly across all three areas before focusing on your chosen discipline
- analyse complex political and economic scenarios
- critically debate morality, freedom and social justice
- understand and develop responses to pressing real-world problems
- benefit from contact and mentoring with experts and researchers
- gain practical insights from guest speakers within political and business communities
- career plan from early on and undertake an internship aligned with your degree.

### Where could it take you?

You’ll graduate career-ready and prepared to problem-solve at all levels of intricacy. You could advise on policy, write it or run for government yourself. You might move into research or media commentary. Perhaps you’ll assist global businesses with decision making as a consultant, or lead them to success as a CEO.

## Bachelor of Social Sciences

**CRICOS CODE**: 022494B  
**INTERNATIONAL 2020 SELECTION RANK**: 70  
**INTERNATIONAL 2020 IB**: 24

**CAMPUS**: North Terrace  
**DURATION**: 3 years full-time

**INTAKES**: February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

**INDICATIVE ANNUAL TUITION FEE**: $33,500

How do we reduce poverty? Where do inequalities stem from? Can we resolve cultural conflicts?

Social science is the study of human society and relationships. Social scientists conduct urgent, problem-driven research on social challenges, injustices and inequalities. They tackle complex issues—from the gender pay gap to the plight of refugees and climate change’s human impacts. Armed with in-depth analysis of the underlying issues, social scientists can then help policy makers respond effectively with appropriate solutions.

### What will you do?

Our Bachelor of Social Sciences draws from sociology, politics, geography and anthropology, criminology and gender, Aboriginal and Asian studies. Through these lenses you’ll:

- explore the many challenges of a globalised world
- take practical approaches to social justice issues
- learn to devise, carry out, and evaluate policy solutions
- build valuable research skills
- extract meaningful information from data
- design independent enquiry projects.

If you maintain a high GPA, you can also extract meaningful information from data

### Where could it take you?

Our graduates emerge informed and ready to bring about positive change. You could work on the front line providing humanitarian aid to those in need. You might further safety and support as a social inclusion officer in business. You could improve policy, write it or run for government yourself.

## Bachelor of Sociology

**CRICOS CODE**: 096480G  
**INTERNATIONAL 2020 SELECTION RANK**: 75  
**INTERNATIONAL 2020 IB**: 26

**CAMPUS**: North Terrace  
**DURATION**: 3 years full-time

**INTAKES**: February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

**INDICATIVE ANNUAL TUITION FEE**: $33,500

What divides us? What causes inequalities? How does the media influence our lives? Sociology is the study of human activity in societies. It’s concerned with group interactions and their consequences. It’s about questioning the social world and how it fits together.

Sociologists research human experience and offer new perspectives. They explore diverse topics—from race, gender and class, to religion, love and war.

### What will you do?

Our Bachelor of Sociology challenges you to think critically, promote positive social change and empower those in need. You will:

- identify societal trends and power structures
- debate and problem-solve around social issues
- study influential thinkers throughout history
- develop high-level research and analysis skills
- investigate areas of interest such as crime prevention, social control, globalisation, cultures and subcultures.

### Where could it take you?

You’ll graduate ready to make an informed and constructive difference. You might end up working as an advocate for at-risk youth. You could push to connect vulnerable groups with health and support services. Perhaps you’ll advise on human rights policy or run for government yourself.
With a diverse suite of cutting-edge, industry-driven degrees—and an enviable network of teaching staff and alumni—we provide an ideal platform from which to launch your high-impact career in the business world.

Led by our standout MBA*, our degrees offer you flexible study options across a wide range of study areas. Among them: economics, accounting, finance, marketing, management, international management, entrepreneurship and project management.

**Study with one of the world’s best**

Adelaide Business School and the University of Adelaide’s Entrepreneurship, Commercialisation and Innovation Centre (ECIC) are accredited by the international Association of Advanced Collegiate Schools of Business (AACSB). This is your guarantee that our staff, curriculum and learning outcomes are globally recognised as among the world’s elite.

Further hallmarks of our quality include: full membership in the European Foundation for Management Development; advanced-signatory status in the United Nations Principles for Responsible Management Education initiative; and accreditation by CPA Australia and Chartered Accountants Australia and New Zealand.

**Benefit from outstanding opportunities**

The University of Adelaide is also the only South Australian university with a dedicated School of Economics, which conducts our highly competitive Bachelor of Economics (Advanced). And through the University’s Entrepreneurship, Commercialisation and Innovation Centre you have the chance to participate in the Australian e-Challenge, a competition-based learning experience that develops strategic business thinking for early-stage entrepreneurial ventures.

You will graduate, as have thousands before you, ready to take your place in the world as a business leader.

* Ranked #5 in Australia by CEO Magazine (2018)

---

**Business points of difference**

- Ranked top-100 in the world for Accounting & Finance degrees and top-150 for Business & Management (highest in South Australia)*
- Australia’s oldest MBA program (55 years) and ranked #5 in Australia**[^]
- A strong focus on accounting, economics, finance, management, marketing, international business and commerce
- QS World University Rankings by Subject 2018
- ** CEO Magazine (2018)

---

**“MY DEGREE SIGNIFICANTLY STRENGTHENED MY ANALYTICAL, RESEARCH AND PROBLEM SOLVING SKILLS, AS WELL AS BEING ABLE TO COMMUNICATE EFFECTIVELY. THESE ARE EXACTLY THE TYPES OF SKILLS HIGHLY SOUGHT AFTER BY EMPLOYERS.”**

Yahdullah Haidari
Bachelor of Economics (Honours)
Our modern economy depends on good accounting. We need experts who understand and can explain the financial and social business environment to others. Accountants advise people through good times and bad. They dig for financial truth, consider consequences and work out the best path forward.

**What will you do?**

Our Bachelor of Accounting teaches fluency in the language of business and finance. You will:

- explore economic concepts, theories and analytical techniques
- learn the fundamentals of financial and management accounting
- understand auditing and taxation in depth
- study economics, business mathematics and business law
- consider technology’s role and ways to build positive client relationships
- work on industry projects and internships.

**Where could it take you?**

Accounting graduates are always in demand and enjoy both stability and variety. You might work with a charity, in education or for the government. Perhaps you’ll become chief financial officer at a company or manage budgets in the sporting world. You could even unmask financial deceptions as a forensic accountant.

**Professional accreditation**

Upon completion of the Bachelor of Accounting, you’ll be eligible to apply for associate membership to either Chartered Accountants Australia and New Zealand or CPA Australia. To achieve full membership, both bodies require an additional program of study and a stipulated length of work experience.

Our Bachelor of Accounting and Corporate Finance is more than just a vocational qualification. We support your growth as both a business professional and an individual. You will:

- explore financial and management accounting, auditing and taxation
- study management theory, business maths, business law and economics
- learn how financial managers make investment and financing decisions
- understand how financial instruments and capital markets are used to enhance returns and manage risks
- build critical thinking, communication and leadership skills.

**Where could it take you?**

You’ll graduate career-ready and able to adapt to the demands of a global economy. You might secure a job as a company auditor or investment consultant. You could track the expenses involved in corporate mergers and acquisitions. Perhaps you’ll take on a managerial role in a flourishing organisation.

**Professional accreditation**

Upon completion of the Bachelor of Accounting and Corporate Finance, you’ll be eligible to apply for associate membership to either Chartered Accountants Australia and New Zealand or CPA Australia. To achieve full membership, both bodies require an additional program of study and a stipulated length of work experience.

Understanding global contexts is more important to business than ever before. Economies are growing and changing. The world is increasingly interconnected. Our Bachelor of Business (Global) is flexible and designed to prepare you for a range of careers in business, industry or government.

**What will you do?**

A key feature of the degree is a compulsory international study experience. Your time overseas will change your frame of reference and educate you as a global citizen. You’ll also:

- explore economics, business mathematics and business law
- study statistics and the science of decision-making
- learn about cross-cultural communication and negotiations
- consider social responsibility and technology’s role in business
- build real-world skills through the University’s corporate links.

In second-year you’ll specialise in an area of interest:

- Accounting
- Corporate Finance
- International Business
- Management
- Marketing
- Entrepreneurship (minor only).

**Where could it take you?**

You could select the perfect imports as an international buyer. You might travel from one multinational branch to another (all expenses paid), supporting managers and boosting productivity in company branches. Perhaps you’ll find yourself negotiating trade deals with UK companies post Brexit.
Business leaders have vision. They take responsibility and tackle challenges. They devise solutions, drive progress and unite people to pursue common goals.

**What will you do?**

Our Bachelor of Business Management fast-tracks your self-confidence and initiative, priming you for leadership in today's business world. You will:

- learn to effectively manage people, resources and projects
- explore business finance and commercial law
- study strategic planning and the science of decision-making
- consider client relations, ethics and the role of technology
- build real-world skills through internships, industry projects and entrepreneurial challenges.

We also encourage learning in a wide range of specialised areas, adding diverse skills to your resume.

**Where could it take you?**

You could plan sales strategies for a video gaming enterprise or negotiate cross-border trade deals. You might design, launch and lead your own space travel start-up. Perhaps you'll keep a gourmet coffee franchise on track or protect company data in a cybersecurity role.

Want to strengthen your business skills with financial expertise? Relationships and vision are vital for business management. However, the ability to understand, analyse and use financial information is what makes a trusted business leader.

**What will you do?**

Our Bachelor of Business Management and Accounting gives you a significant advantage in today's business world. You will:

- study strategic planning and the science of decision-making
- understand the fundamentals of financial and management accounting
- take core courses in commercial law, data analytics and marketing
- learn to effectively manage people, resources and projects
- build real-world skills through internships, industry projects and entrepreneurial challenges.

We also encourage learning in a wide range of specialised areas, adding diverse skills to your resume.

**Where could it take you?**

You could keep company money matters above board as an auditor. You might spend your time liaising with investors. Perhaps you'll find creative ways to cut costs as a budget analyst, corporate treasurer, or financial controller.

**Professional accreditation**

Upon completion of the Bachelor of Business Management and Accounting, you'll be eligible to apply for associate membership to either Chartered Accountants Australia and New Zealand or CPA Australia. To achieve full membership, both bodies require an additional program of study and a stipulated length of work experience.
Supporting a corporation’s growth takes intelligence and skill. Corporate financiers balance funds and predict the best moves to make. They problem-solve, make decisions and take responsibility.

**What will you do?**
Our Bachelor of Corporate Finance builds professional skills, knowledge and discipline. You will:
- learn how financial managers make investment and financing decisions
- understand how financial instruments and capital markets are used to enhance returns and manage risks
- study management theory, business maths, business law, and economics
- work on industry projects and internships
- build critical thinking, communication and leadership skills.

If you want to focus your skillset you can also minor in specialised business areas—from Public Administration to Marketing and Entrepreneurship.

**Where could it take you?**
You’ll graduate ready to thrive in the corporate realm. You might build and maintain links with investors. You could negotiate billion-dollar mergers and acquisitions. Perhaps you’ll end up securing a top-paying job on Wall Street or in Hong Kong’s bustling Central business district.

---

Economists study the world through the analysis of decision-making in households, businesses and broader society. They examine details and put pieces together, always striving to understand the ‘big picture’. Armed with these insights, economists can give expert advice on business strategy, understand the background behind the news, influence public policy for a better world, and make informed personal financial decisions.

**What will you do?**
Our Bachelor of Economics sets you up to understand and shape our economy’s future. You will:
- learn how to break down complex issues into resolvable questions
- discover advanced techniques for analysing and managing data
- study how maths and statistics are applied to economics
- explore matters relating to the growth and stability of the whole economic system
- investigate social issues such as inequality, housing affordability, environmental management and depleting natural resources.

There are also opportunities for professional internships in Adelaide, other Australian cities and overseas.

**Where could it take you?**
Economics graduates go on to all sorts of exciting careers. You might be a high-stakes stockbroker, banker or financial planner, a data analyst in a government agency or health economist with a pharmaceutical group. You could be a demand planner in a big wine company. Perhaps you’ll end up working in journalism, foreign affairs or mobile game development.

---

Aspire to be a leader in business, policy or research? The Bachelor of Economics (Advanced) is a uniquely structured and specialised degree for students who want to stand out in their field.

**What will you do?**
Our advanced degree emphasises research and high-level analytical skills. You will:
- interact with and learn from eminent researchers, notable economists from abroad, and high-ranking economists practising in the private and public sector
- have the opportunity to partner with an academic mentor who’ll support and encourage your intellectual development
- access three unique courses specifically designed for high-achieving students
- benefit from small-group work, special activities and events with distinguished visitors.

Note: You must maintain a GPA of 5.0 or you’ll be required to transfer to the Bachelor of Economics. Conversely, if you enrol in the Bachelor of Economics you can transfer into the advanced degree after one, two or three semesters if you achieve a high enough GPA.

**Where could it take you?**
You might specialise in maths and statistics and become an econometrician, working in logistics and modelling transport infrastructure. You could write pioneering policy around education, taxation or mental health. Perhaps you’ll use behavioural economics to encourage people to recycle, or research the potential impacts of a universal basic income.
BACHELOR OF FINANCE

Studying finance means learning the art of money management. What are the ins and outs of the financial world? How can individuals and employers best reach their financial goals?

Finance professionals are pragmatic, quick-thinking and ambitious. They’re skilled problem-solvers who stay informed and get results.

What will you do?

Our Bachelor of Finance gives you the skills and knowledge to excel in finance. You will:

• understand wealth management and financial modelling in depth
• study valuation issues and financial markets
• explore international trade and finance
• learn about specialised financial institutions and their asset classes
• build critical thinking, problem-solving and communication skills.

If you’re interested in a more global perspective, we also offer the Bachelor of Finance (International), a specialised stream that emphasises adaptability and large scale insights.

Where could it take you?

You could work in commercial banking as a sales associate, trust officer or loan officer. You might become a financial adviser, helping people secure their dream homes and plan for retirement. Perhaps you’ll pursue data analysis or even manage a hedge fund.

Professional accreditation

Some Bachelor of Finance courses provide opportunities for gaining affiliate membership of the Financial Services Institute of Australia. They also cover material relevant for entry to the Chartered Financial Analysts and Financial Planning Association. Additionally, completing certain courses will enable you to obtain partial compliance with the Australian Securities and Investments Commission RG146 (tier 1 Compliance) in the areas of generic knowledge derivatives and securities.
BACHELOR OF INNOVATION AND ENTREPRENEURSHIP

Entrepreneurs and investors see the world for what it could be. In an ever-changing landscape, they take the risks to start up new businesses and social ventures. Successful entrepreneurs are savvy, resilient and well connected. At the University of Adelaide, we invest in your potential.

What will you do?
Our Bachelor of Innovation and Entrepreneurship gives you knowledge, access to networks and a growth mindset for success. You will:
• hone your ability to identify, assess and develop opportunities
• understand financial planning and management
• learn the business modelling behind innovations’ commercialisation
• start your own venture in the University’s ThinCLab incubator(s)
• get hands-on help from experienced mentors and professionals.

There are also unique opportunities for study in linked ThinCLab incubators in Singapore and France. In these locations you can:
• apply international perspectives and strategies to your ventures
• tap into supported international learning
• access different cultures, networks and opportunities.

Where could it take you?
You might shine a spotlight on an unexpected renewable energy source. You could explore ecotourism or virtual reality. Perhaps you’ll invest in a world-changing approach to everyday health care. This degree is also suitable if you want to be a corporate intrapreneur, driving innovative products and services for employers. You could even find alternative career pathways in government and not-for-profit sectors.

“I’VE BEEN ABLE TO EXPLORE MY PASSIONS AND LEARN FROM A VARIETY OF PROFESSIONALS WITH LEADERSHIP OPPORTUNITIES THAT HAVE PREPARED ME FOR MY CAREER.”

Mary Kelly
Bachelor of Innovation and Entrepreneurship
BACHELOR OF INTERNATIONAL BUSINESS

CRICOS CODE 097909G
INTERNATIONAL 2020 SELECTION RANK 75
INTERNATIONAL 2020 IB 26

CAMPUS North Terrace
DURATION 3 years full-time
INTAKES February and July

INDICATIVE ANNUAL TUITION FEE $41,000

adelaide.edu.au/degree-finder
Search business • international

Want to pursue a career in international business management?
More and more business experts are learning to operate at the global level. This requires a greater grasp of the commercial world and the skills to adapt in foreign environments.

What will you do?
Our Bachelor of International Business is all about analytical thinking and international awareness. You will:
• take foundational courses in business statistics, commercial law, management, marketing, accounting and finance
• study international business environments, operations and law
• learn about managing and marketing across cultures
• consider corporate responsibility in a global context
• develop decision-making and leadership skills.

Where could it take you?
You’ll emerge ready to use your global insights in a range of career roles. You might work across continents for a major multinational. You could be a trade analyst or developer. Perhaps you’ll help establish new international ventures and partnerships.

BACHELOR OF MARKETING

CRICOS CODE 097910D
INTERNATIONAL 2020 SELECTION RANK 75
INTERNATIONAL 2020 IB 26

CAMPUS North Terrace
DURATION 3 years full-time
INTAKES February and July

INDICATIVE ANNUAL TUITION FEE $41,000

adelaide.edu.au/degree-finder
Search marketing

Marketing is an essential part of any organisation. It’s about attracting consumers, building great relationships and improving brands.
Marketing experts are strategists, innovators and communicators. They craft irresistible experiences, delight customers and create value.

What will you do?
Our Bachelor of Marketing is highly future-oriented. You will:
• understand buyer mind-sets and behaviour
• learn modern marketing theories and research techniques
• develop business knowledge in accounting, finance, management, business statistics, and commercial law
• explore the roles of customer insights, strategy, market offers and brand management
• build the advanced analytic, decision-making and people skills needed for leadership roles.

Where could it take you?
Our graduates go on to all sorts of exciting marketing careers. You could shape the future of global food, fashion or tech brands. You might analyse consumer data and suggest sales strategies based on your research. Perhaps you’ll innovate on social media, connect with partners in public relations or represent the athletic elite as a sports agent.

BACHELOR OF PROJECT MANAGEMENT

CRICOS CODE 096701K
INTERNATIONAL 2020 SELECTION RANK 70
INTERNATIONAL 2020 IB 24

CAMPUS North Terrace
DURATION 3 years full-time
INTAKES February and July

INDICATIVE ANNUAL TUITION FEE $38,500

adelaide.edu.au/degree-finder
Search project management

Project management is about delivering successful results for business, government and the community. It requires passion, resolve and vision.
Project managers are expected to take charge of complex tasks and keep things on track. They recruit people, coordinate activities, organise and problem solve.

What will you do?
Our Bachelor of Project Management gives you the skills and knowledge to excel in the professional realm. You will:
• research project management practices and concepts
• assess and manage risk in a wide variety of project scenarios
• build the soft skills needed to motivate and lead teams
• develop specific knowledge in an industry or field of your choice
• study ways of fostering creativity and innovation.

Where could it take you?
Opportunities for qualified project managers are increasing at pace. You could guide a defence project or manage sporting events. You might work on the global stage, spearheading community projects in less developed countries. Perhaps you’ll lead an IT team in Silicon Valley or oversee development of a multi-storey tower in Dubai.

^ ‘A Smart Move: Future-proofing Australia’s Workforce’ report, PwC 2017
As a University of Adelaide computer science graduate you will effectively be equipped to program the future. Computer science and software engineering provide vital platforms for new discoveries in all aspects of modern life—from medicine and wireless communication, to defence and environmental protection.

"WHEN I FIRST STARTED HERE, I JOINED SOME CLUBS AND WENT TO SOME EVENTS. I MET SO MANY PEOPLE INTERESTED IN THE SAME THINGS SO I GUESS IT ALL STARTED FROM THERE. I STARTED ENJOYING LIFE, MAKING FRIENDS, MEETING PEOPLE, AND WORKING ON PROJECTS TOGETHER. I TRULY FELT LIKE THIS WAS NOW MY HOME."

Rohit Kumar · Bachelor of Computer Science

**Computer science/IT points of difference**

- Our highly sought-after graduates gain internships and employment at top technology companies.
- Degrees designed in consultation with industry leaders and continually enhanced to meet growing demand for graduates.
- Ranked 43 in the Academic Ranking of World Universities for Computer Science and Engineering.
BACHELOR OF COMPUTER SCIENCE

How can you specialise?

Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Computer Science you have five majors to choose from:

- Artificial Intelligence
- Computer Science
- Cybersecurity
- Data Science
- Distributed Systems and Networking.

Alternatively, you can choose a flexible major program with a little bit of everything, from gaming and graphics to computer vision and software engineering.

Where could it take you?

You could design robots or collective virtual reality spaces. You might work at Google as a software engineer. Perhaps you’ll legally break into systems as a white hat hacker to test their security. As technology continues to transform the jobs market, your computer science expertise will be highly sought-after by employers. Previous graduates have successfully secured roles with world leaders Microsoft, Google and IBM.

Professional accreditation

The Bachelor of Computer Science is accredited by the Australian Computer Society. It also gives you the necessary academic requirements for membership of the global Institute of Electrical and Electronic Engineers and the American-based Association for Computing Machinery.

* Academic Ranking of World Universities 2018

Ready to take your place in the technology revolution?

Our Bachelor of Computer Science features artificial intelligence and machine learning courses not available anywhere else in South Australia. It’s taught by world-class researchers and teachers within a faculty ranked first in Australia and 43 in the world for Computer Science and Engineering*.

What will you do?

Depending on your chosen major, you will:

- explore self-driving cars, robotic vision, machine learning and image recognition
- learn how to protect networks, data and software systems from attack and unlawful access
- apply cutting-edge data analysis techniques—such as machine and deep learning—to large sets of data
- design, make and study large-scale distributed software systems, including parallel, mobile and cloud-based environments.

How can you specialise?

Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Computer Science you have five majors to choose from:

- Artificial Intelligence
- Computer Science
- Cybersecurity
- Data Science
- Distributed Systems and Networking.

Alternatively, you can choose a flexible major program with a little bit of everything, from gaming and graphics to computer vision and software engineering.

Where could it take you?

You could design robots or collective virtual reality spaces. You might work at Google as a software engineer. Perhaps you’ll legally break into systems as a white hat hacker to test their security. * Academic Ranking of World Universities 2018

Ready to take your place in the technology revolution?

Our Bachelor of Computer Science (Advanced) is a distinctive degree for high-achieving students who want to tackle global questions in computer science and information technology.

The program is taught by world-class researchers and teachers within a faculty ranked first in Australia and 43 in the world for Computer Science and Engineering*. It features artificial intelligence and machine learning courses not available anywhere else in South Australia.

What will you do?

You will apply your skills to real-world challenges through self-directed learning and practical projects. Depending on your chosen major, you will:

- explore self-driving cars, robotic vision, machine learning and image recognition
- learn how to protect networks, data and software systems from attack and unlawful access
- apply cutting-edge data analysis techniques—such as machine and deep learning—to large sets of data
- design, make and study large-scale distributed software systems, including parallel, mobile and cloud-based environments.

We also set up opportunities within the program for displaying your talents to future employers.

Note: You’ll need to maintain a high grade point average throughout your studies to remain in this highly competitive degree.
How can you specialise?

You’ll have all the same major options as listed for the Bachelor of Computer Science.

Where could it take you?

With advanced technology skills, you’ll work on solving complex, real-world problems in our society. You could come up with multi-cloud solutions to tackle future security issues. You might develop a revolutionary algorithm. Perhaps you’ll program nanorobots that reverse aging or design the first unquestionably true artificial intelligence.

As technology continues to transform the jobs market, your computer science expertise will be highly sought-after by employers. Previous graduates have successfully secured roles with world leaders Microsoft, Google and Atlassian.

Professional accreditation

The Bachelor of Computer Science (Advanced) is accredited by the Australian Computer Society. It also gives you the necessary academic requirements for membership of the global Institute of Electrical and Electronic Engineers and the American-based Association for Computing Machinery.

ENGINEERING

*Academic Ranking of World Universities 2018*
The University of Adelaide is a world leader in engineering and technology. Studying these disciplines with us, you will learn from globally recognised academics at the cutting edge of research and discovery. You’ll graduate equipped with the knowledge and skills industry needs. And you’ll enjoy strong earning potential in diverse, high-impact careers.

**Full accreditation and global recognition**

Every University of Adelaide engineering degree is accredited by Australia’s peak professional engineering body, Engineers Australia. Our chemical engineering degrees are additionally accredited by the Institute of Chemical Engineers for 2020; and software and computer science by the Australian Computer Society. Consequently, every qualification’s quality is internationally recognised. Upon graduation, you’ll be perfectly placed to pursue lucrative opportunities at home and abroad.

---

**Engineering points of difference**

- Connect with industry employers at our Ingenuity expo - the largest university showcase in South Australia.
- Take advantage of our state-of-the-art technology to test ideas in a supportive, collaborative environment.
- Ranked 43 among universities globally for computer science and engineering—you’ll learn with some of the world’s foremost authorities in the field.

---

“I LIKED CHEMISTRY AND THOUGHT IT WOULD BE GOOD TO APPLY IT IN INDUSTRY ON A LARGE SCALE. TO COMBINE FINANCE HAS HELPED ME TO GET INTO A MANAGEMENT PATHWAY. THE COMBINATION OF DEGREES IS COMPLETELY DIFFERENT AND DOES NOT OVERLAP BUT DOES OFFER GOOD OPTIONS IN THE FUTURE.”

Omar Salih
Bachelor of Engineering (Honours) (Chemical) with Bachelor of Finance
Interested in a creative career that explores elements of both architectural design and engineering? Architectural and structural engineers visualise projects, plan, collaborate, test ideas and come up with high-tech building solutions. They design systems for some of the most innovative infrastructure in today’s society.

What will you do?
Our Bachelor of Engineering (Honours) (Architectural and Structural) brings together the disciplines of architecture and engineering together in a unique program. You will:
• learn in state-of-the-art facilities
• undertake practical projects and work on real-world simulations
• build skills in geotechnical engineering, construction and operation systems
• analyse material strengths, load and stress
• explore sustainability and architectural integrity
• pursue specialisations in your areas of interest
• gain eye-opening practical experience through an eight-week industry placement.

In your final year you will also collaborate with industry on a major design project.

Where could it take you?
You might plan underground infrastructure for renewable energy systems. Perhaps you’ll design blast-proof buildings in the defence sector, or sustainable housing systems. You’ll even have the option of continuing on to a Master of Architecture to become a qualified architect.

想成为工程师但不确定自己的学位选择？
这种灵活的学位入学点将帮助你确定，并且推进——最好的选择为你。

What will you do?
超过12个月，我们的灵活入学选择将引入你进入工程学的各个领域，计划、协作、测试想法并结合高科技建筑解决方案。他们设计了一些世界上最具有创新性的基础设施。

What will you do?
我们的工程学（荣誉）（建筑学和结构学）将整合建筑学和工程学的学科，创造出一个独特的项目。你将:
• 在最先进的设施中学习
• 进行实际项目并参与真实世界的模拟
• 建立工程地质学、建设与操作系统的技能
• 分析材料强度、载荷和应力
• 探索可持续性和建筑设计的完整性
• 追求你感兴趣的领域
• 获得为期八周的行业实践经验

在你的最后一年，你还将与行业进行一个重大设计项目。

Where could it take you?
你可能会规划地下基础设施以支持可再生能源系统。也许你会设计防爆建筑在防御行业，或者可持续的住房系统。你将甚至有可能继续在做一个的建筑学硕士来成为一位合格的建筑师。

化学工程师们利用最好的方法来转换原材料——像矿物或油——在我们能使用的产品中。他们设计可再生能源解决方案，新的和改进的药物，化学产品，化妆品和食品工厂。

What will you do?
我们的工程学（荣誉）（化学）是一个互动的项目，从第一年就开始。你会参与获奖和行业相关的研究人员和教师的项目，你将:
• 使用来自工程学、化学、数学和生物学的知识
• 进行在实验室中进行的规模生产
• 学习在实验室中的规模生产和商业生产
• 参与外部项目，如工程师无国界
• 获得通过为期八周的行业实践经验

How can you specialise?
选择一个专业是一个很好的方法来探索特定的兴趣，并进一步增强你未来的行业选择。在工程学（荣誉）（化学）你有三个选择，你可以从其中选择:
• 矿物加工
• 药物工程
• 可再生能源

Where could it take you?
你可能会用更好的方法来控制空气污染或将咸水变成淡水。你可能会工作在工艺啤酒厂，也许你会生产出一种可生物降解的塑料或移动到一个令人兴奋的组织工程世界。
BACHELOR OF ENGINEERING (HONOURS) (CIVIL)

What will you do?
Our Bachelor of Engineering (Honours) (Civil) has a strong focus on design. You’ll learn from award-winning academics in state-of-the-art facilities as you:

- study structural design and mechanics in depth
- master new technologies forming the basis of future design practice
- work on real-life projects
- interact with professionals through an industry-led design practice course
- gain eye-opening practical experience through an eight-week industry placement.

How can you specialise?
Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Engineering (Honours) (Civil) you have eight majors to choose from:

- Construction Management
- Defence Systems
- Environmental Engineering
- Geotechnical Engineering
- Renewable Energy
- Smart Technologies
- Structural Engineering
- Water Systems Engineering.

Where could it take you?
You might supervise major water projects or the building of sea-bridges. You could connect remote communities as a road and highway engineer. Perhaps you’ll design high-speed railways or help with the construction of Australia’s next state-of-the-art sport facility.

* Academic Ranking of World Universities 2018

Civil engineers design, build and maintain the infrastructure that underpins modern life. They make sure bridges, roads, tunnels, railways, dams, airports and water channels meet society’s needs in a sustainable way.

The University of Adelaide is ranked 31 in the world for Civil Engineering*.

"THE UNIVERSITY HAS GIVEN ME MANY OPPORTUNITIES TO IMPROVE ON MY SKILLS AND GET ME EXPOSED TO THE DIFFERENT ENVIRONMENTS, CONTINUOUSLY PUSHING MY BOUNDARIES IN ORDER TO BECOME A WELL-ROUND PERSON."

Vinh Dang
Bachelor of Engineering (Chemical and Pharmaceutical)

**Campus**: North Terrace  
**Duration**: 4 years full-time  
**Pre-requisites**: Mathematics and Physics

**Intakes**: February and July (students commencing in July may not have access to the full range of courses)  
**Indicative Annual Tuition Fee**: $43,000

Electrical and electronic engineers do so much more than keep the lights on! From smart devices to medical imagery and defence technologies, electrical and electronic engineering contributes to every aspect of modern life. The University of Adelaide is ranked 36 in the world for Electrical and Electronic Engineering*. We can set you up for a range of global career options in a field that's leading technological change.

**What will you do?**

Our Bachelor of Engineering (Honours) (Electrical and Electronic) is practical right from the first year. Working with our internationally renowned staff who are active in cutting-edge discoveries, you will:  
- study in state-of-the-art facilities, including 3D prototyping, autonomous vehicles, and electric machines labs  
- work on practical and relevant projects with industry partners  
- take core subjects in maths, physics, computing and systems engineering  
- gain eye-opening practical experience through an eight-week industry placement.

**How can you specialise?**

Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Engineering (Honours)(Electrical and Electronic) you have seven majors to choose from:  
- Communication Systems  
- Computer Engineering  
- Cybersecurity  
- Defence Systems  
- Medical Technologies  
- Renewable Energy  
- Smart Technologies.

**Where could it take you?**

You could work in artificial intelligence, industrial automation, e-commerce or cybersecurity. You might manage multimillion-dollar energy projects. Perhaps you'll help design the first purely electric aircraft.

*Academic Ranking of World Universities 2018

**Indicative Annual Tuition Fee**: $43,000

Want to design solutions to some of the planet’s most challenging problems? As populations expand and humanity demands more of our natural resources, environmental engineers work to combat negative impacts of human activities on the environment. They reduce waste, promote eco-design and strive to improve our environmental systems.

**What will you do?**

Our Bachelor of Engineering (Honours) (Environmental) will challenge and nurture you in a team environment. You will:  
- learn about connections between infrastructure, environment, society, and economy in the developed and developing world  
- develop technical skills for tackling integrated solutions to complex problems related to water, energy, food, pollution, waste, and natural hazards  
- learn from award-winning academics who are global experts in their field  
- apply your knowledge to real-world projects based on industry needs, with previous examples including urban water, integrated river management, development issues, strategic infrastructure planning and environmental protection  
- gain eye-opening practical experience through an eight-week industry placement.

**How can you specialise?**

Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Engineering (Honours)(Environmental) you have three majors to choose from:  
- Defence Systems  
- Renewable Energy  
- Smart Technologies.

**Where could it take you?**

You could manage coastal erosion, develop policy on energy futures or design recycling schemes. You might address development issues in Southeast Asia. Perhaps you’ll work for the United Nations or monitor the impacts of climate change on populated regions.

## Bachelor of Engineering (Honours)(Mechanical)

<table>

**Campus**: North Terrace  
**Duration**: 4 years full-time  
**Pre-requisites**: Mathematics and Physics

**Intakes**: February and July (students commencing in July may not have access to the full range of courses)  
**Indicative Annual Tuition Fee**: $43,000

Mechanical engineers work with ‘things that move’ from prosthetic limbs and robots to motor vehicles, aircraft and space stations. When it comes to new technologies, mechanical engineers are key. They design and develop innovative materials, processes and products to improve our lives and the world.

**What will you do?**

Our Bachelor of Engineering (Honours) (Mechanical) has strong links to industry and a focus on design and creativity. You will:  
- explore core mechanical engineering disciplines  
- complete design—build projects  
- gain hands-on experience in state-of-the-art facilities  
- benefit from internships and projects with experts in the field  
- gain eye-opening practical experience through an eight-week industry placement.

In your final year you’ll also apply your advanced capabilities in an industry-led design and build research project.

**How can you specialise?**

Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Engineering (Honours)(Mechanical) you have eight majors to choose from:  
- Aerospace Engineering  
- Defence Systems  
- Mechanical Engineering  
- Mechatronics and Robotics  
- Medical Technologies  
- Sports Engineering  
- Smart Technologies  
- Renewable Energy.
Where could it take you?

You could develop life-saving technology, or innovate in the sustainable energy field. You could be an aerospace or sports engineer. Perhaps you’ll plan, build and test robotic systems with artificial intelligence. Mechanical engineers are in high demand. Previous graduates have secured employment with organisations such as the European Space Station, Australian Institute of Sport, Boeing, BAE Systems, Santos, SAAB and AGL.

“UNI REWARDED THE EFFORT I PUT IN AND GAVE ME AWARENESS OF JUST HOW FAR AN ENGINEERING CAREER COULD TAKE ME. IT FOSTERED THE EXCITEMENT FOR THE SHIFTING ENGINEERING PROBLEMS OF TODAY AND CHALLENGED ME TO PURSUE THEM INTO THE FUTURE.”

Brett Jenkin
Bachelor of Engineering (Honours)
(Petroleum and Mechanical)
### BACHELOR OF ENGINEERING (HONOURS)(MINING)

**INTAKES** February and July (students commencing in July may not have access to the full range of courses)

**INDICATIVE ANNUAL TUITION FEE** $43,000

Mining engineers work with all aspects of ore extraction and processing. They gather valuable minerals or metals and provide a backbone industry for our society.

The reinvigoration of traditional mining, plus new advances—such as deep-sea and space mining—mean there’s an exciting future for mining engineers, with a wealth of job opportunities around Australia and overseas.

**What will you do?**

Ranked 15 in the world for Mining and Mineral Engineering*, the University of Adelaide offers the only mining engineering degree in South Australia. You will:

- take part in field trips to mining locations in Australia and overseas, with the option to complete an optional semester at another mining university
- work closely with experts to develop skills and networks for a successful career
- gain exposure to industry practices in world-class laboratories
- get eye-opening practical experience through an eight-week industry placement.

**How can you specialise?**

Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Engineering (Honours)(Mining) the available major is:

- Mine Automation.

**Where could it take you?**

Almost anywhere! With the highest employment rate of all engineering specialities at 92 per cent** and continuing significant job growth expected locally, nationally and globally, you’ll be in high demand.

You could design plans for how to approach newly discovered sites. Perhaps you’ll work in exciting developing fields like deep-sea or space mining.

**INTAKES** February and July* (students commencing in July may not have access to the full range of courses)

**INDICATIVE ANNUAL TUITION FEE** $43,000

Want to travel the world and face new challenges every day?

Petroleum engineering is one of the highest paid engineering fields internationally, with exciting opportunities for qualified graduates. Petroleum engineers help sustain society’s way of life by ensuring we can meet our energy demands. They provide oil and gas in efficient, safe and environmentally responsible ways.

**What will you do?**

Our Bachelor of Engineering (Honours) (Petroleum) is developed and taught by industry-trained experts—nationally and globally connected—through the University’s Australian School of Petroleum. This is Australia’s and Southeast Asia’s academic centre for petroleum research and education, and the only school of its kind in Australia. You will:

- learn about petroleum engineering, petroleum geoscience and the oil industry
- take courses in business and project management
- develop technical knowledge and network with potential employers
- undertake interactive projects and field trips
- gain eye-opening practical experience through an eight-week industry placement.

In your final year you’ll also carry out a major research project.

**Where could it take you?**

You could work for a range of oil, gas and energy companies, or find a role in a government agency. You might refine crude petroleum into gasoline or plastics. You could optimise extraction techniques. Perhaps you’ll design new equipment, supervise drillings, or take on managerial roles.

* Students must undertake Maths 1B in Summer School

---

### BACHELOR OF ENGINEERING (HONOURS)(PETROLEUM) WITH MAJORS

**INTAKES** February

**INDICATIVE ANNUAL TUITION FEE** $42,000

This degree is identical to our Bachelor of Engineering (Honours)(Petroleum), but with the addition of allowing you to undertake a major as part of your study. This makes it a five-year degree, rather than four.

Taking a major is a great way to pursue a topic of particular interest and enhance your future career options in that area.

**What can you specialise in?**

In the Bachelor of Engineering (Honours) (Petroleum) with majors you have four specialisations to choose from:

- Chemical Engineering
- Civil Engineering
- Mechanical Engineering
- Mining Engineering
From Silicon Valley to Berlin to Zhongguancun, software engineers use problem solving and creativity to develop new technologies that change the world. Software engineers are involved in the whole computer software lifecycle. They strategise, design, build, test, code and collaborate.

Studying software engineering will prepare you to drive software solutions that enhance our future for generations to come.

**What will you do?**

Our Bachelor of Engineering (Honours) (Software) combines software engineering’s underlying principles with strong technical and leadership skills. You will:

- tackle real-world, open-ended and complex programming problems
- take new and refreshed courses
- emphasise divergent thinking, collaborative learning and teamwork
- work with industry mentors
- pursue work experience and internship opportunities with some of the world’s best-known companies
- gain eye-opening practical experience through an eight-week industry placement.

**How can you specialise?**

Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Engineering (Honours) (Software) you have two majors to choose from:

- Defence Systems
- Smart Technologies

**Where could it take you?**

You could develop software for mobile robots and driverless cars. You might create and test video gaming experiences. Perhaps you’ll design apps or entirely new smart technologies. In the software engineering landscape, you can code your own adventure.

**International memberships**

In addition to full professional accreditation (see page 59), this degree also provides the necessary academic requirements for membership of the global Institute of Electrical and Electronic Engineers, and the American-based Association for Computing Machinery (ACM).

**“THROUGHOUT MY TIME AT UNIVERSITY, HELP WAS ALWAYS ACCESSIBLE. IT HAS BEEN A PLEASURE FOR ME TO LEARN FROM DIFFERENT PEOPLE AND GET VARIOUS OPINIONS. UNIVERSITY HAS DEFINITELY BEEN THE BEST TIME OF MY LIFE.”**

Dharshana Navaratnam
Bachelor of Engineering (Honours), (Petroleum)
HEALTH
With innovative teaching, hands-on experience and cutting edge research, a University of Adelaide undergraduate health-related degree will equip you for a rewarding career improving people’s health and wellbeing—and provide global opportunities.

Prepared career-ready graduates

The Faculty of Health and Medical Sciences is renowned for producing highly skilled graduates who are well regarded by industry. Our degrees will provide you with hands-on experience in real world environments, enabling you to develop the knowledge and confidence to become a future health leader.

World-class teaching, simulation and clinical skills facilities

State-of-the-art facilities, new teaching styles and the latest technologies are taking our degrees into the future and transforming health sciences education, research and patient care in South Australia. In 2017, the $246 million Adelaide Health and Medical Sciences building opened for teaching in the South Australian Biomedical Precinct.

Our world-class facilities include the: Dental Simulation Clinic; Ray Last laboratories, for bioskills, surgical skills and anatomy; and Adelaide Health Simulation. Located in the new AHMS building, Adelaide Health Simulation is the most high-tech health care teaching facility in Australasia. It includes 24 real-life simulation spaces, four critical-care operation theatres, eight acute-care ward suites, and four virtual home environments.

Peer Mentoring Program

Our Peer Mentoring Program offers you support in your transition to university. Senior-year students will guide and assist you in meeting new people, establishing friendships and developing an understanding of the expectations and requirements of university life.

For more information, visit: health.adelaide.edu.au/current-students/peer-mentoring

Incidental fees

Most Faculty of Health and Medical Sciences students will have additional costs over and above tuition fees. Depending on your degree, this could include things like: textbooks, equipment, required immunisations, clearance renewals, first aid certificates, travel and accommodation for placements, and student amenities fees.

For each degree’s specific fees, visit: adelaide.edu.au/student/finance/other-fees

Clinical placement requirements

To undertake the compulsory clinical placements in our medicine, dentistry or nursing degrees you must satisfy the following requirements.

• Australian Health Practitioner Regulation Agency (AHPRA) student registration
• first aid certificate (Oral Health and Dentistry only)
• immunisation and prescribed communicable infections (PCI) screening
• tuberculosis screening
• clinical placement deed poll
• basic life support training (Nursing only)
• manual handling training (Nursing only)
• hand hygiene training (Medicine and Nursing only).

For further information, visit: health.adelaide.edu.au/study-with-us/student-support/clinical-placements

Health points of difference

• Outstanding, state-of-the-art facilities—among the most technologically advanced in Australasia.
• High-quality, innovative teaching, with comprehensive student support.
• Students learn from—and with—internationally recognised health researchers and professionals.

“The University of Adelaide provided me so many opportunities to find my passion and drive for future endeavours. From the wide range of courses and topics to learn, studying at University has been a great life experience.”

Adrian Duran
Bachelor of Health and Medical Sciences (Honours)
**BACHELOR OF DENTAL SURGERY**

**What will you do?**
Our Bachelor of Dental Surgery supports you in becoming a highly skilled and patient-focused dentist. You will:

- build clinical experience starting in your very first year
- learn in Australia’s newest dental teaching hospital, in the state-of-the-art Adelaide Health and Medical Sciences building
- explore the full range of dental therapies—from complex restorative to preventative-based treatments
- practise using equipment in our Dental Simulation Clinic
- tackle real-life case scenarios in teams
- benefit from extensive placements across metropolitan and rural settings
- improve lives through community outreach programs.

**Where could it take you?**
You could work in a local or community dental clinic or provide dental care for people in the developing world. You might become a defence force dentist. Perhaps you’ll be a researcher, making new discoveries to improve oral health care.

**Professional accreditation**
The Bachelor of Dental Surgery is accredited by the Australian Dental Council.

---

**BACHELOR OF HEALTH AND MEDICAL SCIENCES**

**What will you do?**
Our degree supports you in developing relevant and transferable skills that are highly sought-after in research and health industries. You will:

- explore human biology and public health in depth
- gain hands-on research experience in world-class facilities
- enjoy cutting-edge virtual reality learning
- work in small groups to solve problems relating to health and disease
- undertake a year-long research placement or internship
- increase your understanding of global health issues with opportunities to study overseas.

You’ll also pursue a specialisation in one of a diverse range of areas:

- Neurosciences
- Clinical Trials
- Addiction and Mental Health
- Nutritional Health
- Public Health
- Medical Sciences
- Reproductive and Childhood Health.

**Where could it take you?**
You could work in a medical laboratory or clinical setting, seeing modern medicine improve vulnerable patients’ health. You might be the first to witness groundbreaking medical research results. Perhaps you’ll help populations make healthy choices, or change the environments in which people live, grow, work, and play, so that everyone can lead healthy lives.

Previous graduates have gone on to high-level, influential positions in a range of health organisations and government departments throughout Australia and abroad.

---

“**THE BEST PART OF THE BACHELOR OF DENTAL SURGERY IS INDISPUTABLY THE HANDS-ON COMPONENT OF THE DEGREE. DENTAL STUDENTS HAVE THE PRIVILEGE OF TAKING WHAT THEY LEARN AND APPLYING IT IMMEDIATELY.**”

Are you fascinated by the human body? Do you want to help tackle important health issues facing our world today? Studying health and medical sciences is mentally stimulating and hands-on. It’s about fighting disease through scientific research and actively promoting wellbeing. Our Bachelor of Health and Medical Sciences ranks first in the nation for teaching quality, and third in Australia for overall education experience*.

**What will you do?**
Our degree supports you in developing relevant and transferable skills that are highly sought-after in research and health industries. You will:

- explore human biology and public health in depth
- gain hands-on research experience in world-class facilities
- enjoy cutting-edge virtual reality learning
- work in small groups to solve problems relating to health and disease
- undertake a year-long research placement or internship
- increase your understanding of global health issues with opportunities to study overseas.

BACHELOR OF HEALTH AND MEDICAL SCIENCES
(ADVANCED)

You’ll also pursue a specialisation in research. Perhaps you’ll outsmart cancer in Medicine through groundbreaking resistance. You might win the Nobel Prize to prevent obesity or tackle antimicrobial vulnerable populations, develop policies, lead programs to improve the health of roles in your chosen career. You could for either higher studies or leadership.

You’ll emerge with enhanced skills and research skills. You will:
- Entrepreneurship, as well as applied clinical degree emphasises innovation and research and development of health and medical innovations.
- Learn about health collaborations and get hands-on training in our state-of-the-art Adelaide Health Simulation facility.
- Develop strategies for getting health discoveries into practice with the University’s Entrepreneurship, Commercialisation and Innovation Centre.
- Learn from award-winning health researchers.
- Undertake a year-long research placement or internship.

You’ll also pursue a specialisation in one of a diverse range of areas:
- Neurosciences
- Clinical Trials
- Addiction and Mental Health
- Nutritional Health
- Public Health
- Medical Sciences
- Reproductive and Childhood Health.

Where could it take you?
You’ll emerge with enhanced skills for either higher studies or leadership roles in your chosen career. You could lead programs to improve the health of vulnerable populations, develop policies to prevent obesity or tackle antimicrobial resistance. You might win the Nobel Prize in Medicine through groundbreaking research. Perhaps you’ll outsmart cancer with an innovative approach to treatment.

What will you do?
Our advanced health and medical sciences degree emphasises innovation and entrepreneurship, as well as applied clinical and research skills. You will:
- Explore health from cellular, system, individual and population perspectives.
- Study solutions to frontline healthcare problems in a unique ‘hacking health’ course.
- Learn about health collaborations and get hands-on training in our state-of-the-art Adelaide Health Simulation facility.
- Develop strategies for getting health discoveries into practice with the University’s Entrepreneurship, Commercialisation and Innovation Centre.
- Learn from award-winning health researchers.
- Undertake a year-long research placement or internship.

You’ll also pursue a specialisation in one of a diverse range of areas:

BACHELOR OF MEDICINE AND BACHELOR OF SURGERY

INDICATIVE ANNUAL TUITION FEE $38,500

Our Bachelor of Medicine and Bachelor of Surgery will provide you with the knowledge, confidence and skills to excel in healthcare. You will:
- Learn from clinicians in the new state-of-the-art Adelaide Health and Medical Sciences building.
- Work in small groups to solve problems relating to health and disease.
- Gain hands-on practical experience in simulated settings.
- Undertake clinical placements in hospitals and other health and medical organisations.

Where could it take you?
Adelaide Medical School graduates are respected in the industry for their knowledge and experience. They’re in-demand for positions in public hospitals, private practice, public health, teaching, clinical research, aid organisations, the defence forces and more.

You might become a general practitioner in rural Australia, providing vital services for your community. You could be a specialist paediatrician who works with children and their families. Perhaps you’ll pursue research and develop new knowledge about health and treatments.

Professional accreditation
The Bachelor of Medicine and Bachelor of Surgery is accredited by the Medical Board of Australia.

Professional accreditation
The Bachelor of Medicine and Bachelor of Surgery is accredited by the Medical Board of Australia.
Nursing is flexible, exciting and challenging. It’s a rewarding profession full of problem-solvers and pillars of strength. The Adelaide Nursing School is ranked first in South Australia for graduate employment and third in the nation for overall educational experience*.

What will you do?
Our Bachelor of Nursing supports you in becoming a confident and responsible registered nurse. You will:
• develop hands-on skills in high-tech simulation settings
• benefit from clinical and non-clinical placements across metropolitan and rural locations
• explore contemporary issues around health promotion, maintenance, advocacy and care
• undertake interprofessional learning with other health care students.

Where could it take you?
You’ll emerge with a professional qualification recognised Australia-wide, ready to pursue rewarding roles in rural communities, operating theatres, emergency wards, and a multitude of other health care environments. Note: if you join in the middle of the year, you’ll initially only be able to study this degree part-time. There are exceptions for international students, who’ll be issued an alternative study plan. For more information, visit adelaide.edu.au/degree-finder, search nursing and view refer to Degree Structure.

Professional accreditation
The Bachelor of Nursing is accredited by the Australian Nursing and Midwifery Accreditation Council. In Australia, all undergraduate programs leading to registration as a nurse must be accredited every five years. The curriculum at the University of Adelaide is subject to (re) accreditation with the Nursing and Midwifery Board of Australia from 2018.

Nurses are highly respected members of the community. They help treat patients in a variety of health care settings and touch lives with empathy, compassion and humour.
Are you fascinated by the human mind? Do you wonder what motivates our behaviour? Psychological science investigates the way people think, behave, feel and learn. It studies processes of the human mind—including personality, intelligence and memory—so that we can better understand ourselves.

What will you do?
Our Bachelor of Psychological Science nurtures creativity, analysis and communication skills. You will:
- learn about human development and the biological bases of behaviour
- investigate the mechanics of perception and learning
- explore the nature of motivation and emotion
- gain valuable experience with psychological tests
- develop counselling skills
- choose from over 35 majors and electives in related disciplines
- design and undertake meaningful research projects.

Where could it take you?
You could become a social psychologist, doing large-scale research to change the way we go about our lives. You might work in community services with people of all ages and backgrounds, or in market research and advertising. Perhaps you’ll go on to further study in the field and become a qualified psychologist.

Professional accreditation
This degree has been accredited by the Australian Psychology Accreditation Council. Upon graduating you’ll be eligible to apply for an honours year, followed by a two-year postgraduate qualification. This sequence of study will lead to professional registration as a psychologist.

Psychology is a fascinating field of study concerned with minds and mental health. Psychology students develop important skills that enable them to understand their own and others’ behaviour, help people, solve social problems, and critically analyse information.

What will you do?
Our new Honours Degree of Bachelor of Psychology (Advanced) will give you the knowledge and qualities needed to kickstart your career in psychology. You will:
- solve high-level problems and analyse human behaviour
- develop listening, empathy and interviewing skills
- explore cyber-psychology, human ethics, social media and online safety
- address real-world global issues and learn how psychology can make a difference
- gain valuable experience with psychological tests and counselling
- design and undertake meaningful research projects.

Note: You must maintain a GPA of 6.0 to progress through this degree.

Where could it take you?
Many different employers will value your skills and knowledge about human thinking and behaviour. You could work with children, the police, in education, health promotion, training and assessment, marketing, counselling, career guidance, research and more. You’ll also be eligible to apply for master-level courses that will enable you to become a registered psychologist.

Professional accreditation
This degree is conditionally accredited with the Australian Psychology Accreditation Council.

** QS World University Rankings by Subject 2018
As an Adelaide Law School graduate you will be well equipped to excel anywhere in the world. International legal aspects will be embedded early in your degree. You’ll have the opportunity to build international networks, through overseas study tours and exchange opportunities at leading universities around the globe. And you’ll be made practise-ready through real work in the community—both in the school’s free legal clinics, and via internships with leading national and international organisations.

Graduate Diploma in Legal Practice

If you want to practise law in Australia, you need to complete recognised practical legal training.

The University of Adelaide’s Graduate Diploma in Legal Practice (GDLP) satisfies that need. Whether you’re a local, interstate or international law graduate wanting to train for the legal profession, the Adelaide Law School’s GDLP program will give you the practical skills required to become a competent legal practitioner.

- **Flexible.** Study modes include intensive, weekend and after hours to help you balance work and family commitments.
- **Connected with the profession.** Our networks provide a significant opportunity to connect with the legal professionals in South Australia and build ongoing relationships.
- **Accelerated.** The program can be completed in 20 weeks.
- **Advocacy Clinic.** Undertake an exercise at the courts and train with skilled practitioners.
- **Placement.** We will organise work experience for you should you not be able to find your own placement. Many firms we deal with use our students exclusively.

To read more about our GDLP visit: law.adelaide.edu.au/postgraduate/graduate-diploma-in-legal-practice

**Law points of difference**

- International leaders in cutting edge areas of law, including space law.
- Over 135 years’ experience developing tomorrow’s leaders, successful in diverse careers.
- Access to an impressive global network, opening doors to international opportunities.

**Bachelor of Laws**

Studying law is about understanding our society and the power structures within it. Why do we have the laws we do? How have they evolved? How should we interpret them? Why do we have the laws we do? How have they evolved? How should we interpret them? Where could it take you?

In our Bachelor of Laws you can:

- explore legal concepts, processes and methods within common law principles and legal methodology
- build ethical reasoning, policy-based analysis and oratory skills
- gain rigorous knowledge of the areas of law necessary to undertake legal practice
- go deeper by choosing from our broad list of electives
- learn from legal professionals, former judges and international academics
- undertake internships in areas such as Public Law, Native Title Law and Human Rights Law
- form connections through the University’s Lex Salus, Next Steps and Law Students’ Society events.

**Where could it take you?**

Law can take you all over the world. You might advocate for asylum seekers or be a voice for the environment. With a little additional training (see Professional accreditation) you could guide innovative businesses as an in-house counsel or lead legal reform drafting new bills in government. Perhaps you’ll go on to prosecute criminals, or preside in a Supreme Court.

**Professional accreditation**

Our Bachelor of Laws is accredited by the Legal Practitioners’ Education and Admission Council in South Australia; and provides the academic foundation for admission to legal practice throughout Australia. To be admitted to practise in Australia, however, you must complete further practical legal training.

In South Australia, we—the University of Adelaide—together with the Law Society of South Australia, provide this additional training through our Graduate Diploma in Legal Practice. But if you intend to seek admission to practise elsewhere, you should seek advice from the admitting authority in the relevant jurisdiction. Upon graduation from the Bachelor of Laws and completion of the Graduate Diploma in Legal Practice, you’ll be eligible to be admitted to the Supreme Court of South Australia (with a restricted practising certificate). Once admitted, you can then apply for admission in any other Australian jurisdiction.
MATHEMATICAL SCIENCES

^ 'A Smart Move: Future-proofing Australia’s Workforce' report, PwC 2017
A degree in mathematical sciences from the University of Adelaide is your pathway to an exciting and rewarding future.

Our graduates are highly regarded by employers for their creativity, problem-solving abilities and research skills, honed through learning from our passionate and world-leading academic staff. You will emerge ready to choose your own path—from communications, defence and engineering to finance, health and manufacturing.

**Mathematical sciences points of difference**

- Graduates are sought after by a wide range of employers in diverse fields and for fundamental research.
- Study in a nurturing and empowering environment that has supported students to achieve outstanding results.
- Recognised as ‘above’ or ‘well above’ world standard by the Australian Research Council.

“STUDYING AT THE UNIVERSITY OF ADELAIDE IS A CHALLENGING BUT REWARDING EXPERIENCE. YOU NEED TO HAVE MORE RESPONSIBILITY FOR YOUR OWN LEARNING COMPARED TO STUDYING AT SCHOOL, BUT WILL HAVE MUCH MORE FREEDOM TO CHOOSE COURSES THAT INTEREST YOU.”

John Davey
Bachelor of Mathematical Science (Advanced)
Mathematics is both a logical and creative pursuit. It’s about curiosity, challenge, perseverance and passion. Millions of industries around the world depend on mathematical scientists. They analyse and interpret patterns, predict and model outcomes, solve problems and drive human progress.

**What will you do?**

Our Bachelor of Mathematical Sciences challenges you to explore the full breadth and depth of mathematical learning. You will:

- learn from award-winning researchers and teachers in state-of-the-art facilities
- build fundamental statistical and mathematical knowledge
- hone your creativity, rigour, logical thinking, professionalism and research skills
- delve into abstract theories that underpin modern science
- create, collect, analyse and model data.

**How can you specialise?**

Taking a major is a great way to pursue a topic of particular interest and further enhance your future career options in that area. In the Bachelor of Mathematical Sciences you have three majors to choose from:

- Applied Mathematics
- Pure Mathematics
- Statistics.

**Where could it take you?**

You could crunch numbers for business start-ups as a data scientist or work on modelling to predict the weather. You might be an actuary, applying probability and statistics to insurance and banking. Perhaps you’ll design digital games or pursue rocket science.

Want to drive progress through mathematics? Our Bachelor of Mathematical Sciences (Advanced) is a degree for high-achieving students who want to study mathematics and statistics while developing high-level research skills.

**What will you do?**

Alongside mathematical and statistical expertise, our advanced degree places a strong emphasis on research skills. You will:

- work with award-winning academics and researchers in state-of-the-art facilities
- access special programs designed for high-achieving students
- gain valuable exposure to the mathematical sciences research culture, through three exclusive Advanced Mathematical Perspectives courses.

You’ll need to maintain a GPA of 5.0 throughout your studies to remain in this highly competitive degree.

**How can you specialise?**

You’ll have all the same major options as listed for the Bachelor of Mathematical Sciences.

**Where could it take you?**

You will emerge with enhanced skills for either higher studies or expert roles in your chosen career.

You could be a defence scientist or economic researcher. You might enter the growing field of gaming design and performance analysis. Perhaps you’ll figure out the mathematical model behind a scientific breakthrough or even win the Fields Medal.

Enjoy mathematical challenges? Want to apply your skills to computer-based problems? Maths and computer science is a powerful combination. In an increasingly technological age, pairings like these are only becoming more valuable for a wide variety of careers.

**What will you do?**

Our Bachelor of Mathematical and Computer Sciences is a flexible degree. A program adviser will work with you to develop a study program tailored to your interests and career goals. You will:

- learn from world-class researchers and teachers in state-of-the-art facilities
- build fundamental statistical and mathematical knowledge
- explore complex computer systems and theories
- hone your creativity, rigour, logical thinking, professionalism and research skills

**How can you specialise?**

You’ll have all the same major options as listed for the Bachelor of Mathematical Sciences—Applied Mathematics, Pure Mathematics and Statistics—with the addition of Computer Science.

**Where could it take you?**

You could decode messages and breach security systems as a cryptanalyst. You might apply linear algebra in the design of virtual reality software. Perhaps you’ll develop theorems as an academic or land a job at a major firm in Silicon Valley or Zhongguancun.
“I’m enjoying my time at university and I thoroughly enjoy the content and the work I do. Each course leads very smoothly into the next and there is an overall linkage between many different mathematical courses and ideas in the degree.”

Liam Stoldt
Bachelor of Mathematical Sciences (Advanced)
MUSIC
With a distinguished history dating back to 1883, the University of Adelaide’s Elder Conservatorium is internationally respected as one of Australia’s leading music institutions. The conservatorium offers innovative degrees covering all professional areas of the music industry to meet the needs and aspirations of a wide variety of emerging musicians, performers, and creatives. You’ll find no better environment in which to launch your musical career.

Music points of difference

- South Australia’s home of music theatre and music education
- Learn from academic staff of international distinction
- Join masterclasses and visiting international artists through the Sia Furler Institute of Contemporary Music and Media

“STUDYING AT THE UNIVERSITY OF ADELAIDE DOESN’T FEEL LIKE A PLACE OF STUDY BUT RATHER, MY HOME—SOMEBEWHERE I LOVE TO BE. THE ELDER CONSERVATORIUM OF MUSIC HAS ALLOWED ME TO LIVE AND BREATHE CLASSICAL MUSIC—A DREAM THAT’S BEEN TURNED INTO A REALITY.”

Lucy Stoddart
Bachelor of Music (Classical Voice)
Creative artists are performers, designers, writers, animators, curators and directors. They keep the world of art and culture spinning. They make people think, laugh and feel. Studying creative arts means practising new ways of making while learning from those who’ve inspired and entertained throughout history.

**What will you do?**
Our Bachelor of Creative Arts develops individual creativity and knowledge. You will:
- choose from production courses like creative writing, music and media techniques
- study theory in your areas of interest, from philosophy and ethics to art history and visual culture
- gain valuable work experience within the creative arts industry
- attend masterclasses with visiting international academics
- go behind the scenes of a major arts festival through our partnership with the Adelaide Festival
- network with leaders and artists at the field’s cutting edge.

You can also pursue your creative interests overseas with optional exchanges and study tours.

**Where could it take you?**
Creative Arts graduates follow and fashion all sorts of exciting career pathways. You could exhibit your work in national galleries, or spotlight new creative talent. Perhaps you’ll nurture creativity in young people through music programs.

---

**BACHELOR OF MUSIC (ADVANCED)**

Want to become a master of your art? Committed to a career in music? High-achieving? The Bachelor of Music (Advanced) is a distinctive degree for passionate students who want to excel.

**What will you do?**
Our advanced music degree creates a unique environment where you can thrive creatively and reach your full potential. You will:
- benefit from more intensive, one-on-one tuition
- access special opportunities for higher-level study through masterclasses and professional placements
- take advanced classes in your specialisation
- become a member of a small but distinctive community within the wider University.

You’ll focus your abilities in one of following specialisations:
- Performance (Classical or Jazz or Voice)
- Creative Arts (Composition or Popular Music or Sonic Arts)
- Research Studies (Musicology or Music Education/Pedagogy)

Note: You must maintain a GPA of 5.0 or you’ll be required to transfer to the Bachelor of Music.

**Where could it take you?**
Your advanced professional training will give you significant employment advantages in the music industry. You could secure a place in a world-class symphony orchestra. You might perform internationally as an influential jazz virtuoso, or win an Academy Award for Best Score as a film composer. Perhaps you’ll discover an entirely new genre of music.

---

**BACHELOR OF MUSIC (CLASSICAL VOICE)**

Music majors work hard. They pour themselves into their passion. Our Bachelor of Music (Classical Voice) is about dedication. It is for those who love the performing arts and self-expression through song. Great singers entertain, inspire and move. They project humour, pathos, love and anger. They are a vital organ in the world’s body of culture and beauty.

**What will you do?**
Elder Conservatorium’s Classical Voice program welcomes you into a community as passionate about music and singing as you are. You will:
- listen to the greats and immerse yourself in music theory
- work with international performers and teachers
- sing in choirs and ensembles
- receive one-on-one tuition and language instruction (Italian, German and French)
- learn stagecraft and theatre skills
- perform in operatic and musical theatre productions.

**Where could it take you?**
You might grace the stage as an opera singer. You could travel the world as a professional chorister. You could even be the next great lieder singer. Specialised training will help you find your voice’s place.
Composition is a craft. From the music of Bach or Mozart to the film scores of Hans Zimmer, musical creations are some of humanity’s greatest achievements. Composers move, enchant and entertain. They conceive works of timeless beauty and reach audiences in ways words cannot.

**What will you do?**

Our Bachelor of Music (Music Composition) has both a strong focus on classical traditions and an acute ear for demands of the 21st century composer. You will:

- learn a broad range of stylistic approaches for composing music
- develop your compositional ‘voice’ through one-on-one tuition, lectures and tutorials
- study the principles of musical structure, notation and text setting, melodic writing, harmonic and rhythmic invention, counterpoint, and instrumental colour and texture
- consider the practical and work-related sides of creative music making
- explore music aesthetics, media and technology.

We also provide opportunities for ensemble performance and collaboration in film, dance and theatre.

**Where could it take you?**

You might fill concert halls and opera houses with live audiences or release albums recorded from home. You could compose award-winning film scores or TV series. Perhaps you’ll write for top-tier soloists or large-scale ballets.

Music’s creative and uplifting presence is essential in young people’s lives. Great music teachers help kids express themselves, take pride in what they do and appreciate new things. They give emerging musicians the skills and confidence they need to thrive.

**What will you do?**

Our Bachelor of Music (Music Education and Pedagogy) offers music-specific education courses and a personally tailored program to suit your interests and career aspirations. You will:

- build skills in your creative specialty
- learn methods for vocal and instrumental coaching
- explore key principles in 21st century music education
- develop lesson plans based on different approaches
- expand your creative abilities and musical skill set through teaching practice.

**Where could it take you?**

You could tutor in after-school programs or a private music studio. You might start a rock camp to empower young Australian musicians. Perhaps you’ll be the next Red Wiggle!

Note: further study is required to be eligible for South Australian teacher registration. Visit ua.edu.au/degree-finder and search master of teaching.

Do you want to do justice to great concertos and symphonies? To embody and share your passion?

Our Bachelor of Music (Music Performance – Classical) challenges you to reach the highest standards of professional performance.

**What will you do?**

You’ll receive one-on-one instrumental training and attend masterclasses in your specialisation.

We offer the following instruments:

- classical brass (trumpet, trombone, tuba, French horn, euphonium)
- classical keyboard (piano, organ, harpsichord)
- classical percussion
- classical strings (violin, viola, cello, double bass, guitar, harp)
- classical woodwind (flute, clarinet, oboe, bassoon, saxophone, recorder).

You’ll also:

- take classes in technique and repertoire
- pursue aural, theoretical and historical studies
- immerse yourself in ensemble activities, including orchestral and chamber music studies
- benefit from weekly performance opportunities with feedback from both staff and students.

**Where could it take you?**

You might lead grand voices to transcendental heights as an accompanist. You could travel the globe as an orchestral musician. Perhaps you’ll curate concerts or find international stardom as a soloist.
The Bachelor of Music (Music Performance – Jazz) welcomes you into one of Australia’s most vibrant and innovative jazz communities. Our staff and guest artists include some of the finest national and international jazz musicians and educators. Our graduates are performing, teaching, composing, arranging and recording throughout Australia, Europe, Asia, the U.S. and more.

What will you do?
Our curriculum covers traditional and contemporary theory and method and is committed to the highest standards of professional performance. You’ll receive one-on-one tuition and attend masterclasses within your specialisation. Options include:

• bass
• drums
• guitar
• keyboard
• trumpet
• trombone
• saxophone
• voice.

You’ll also:
• enjoy regular performances featuring big bands, jazz choirs, and Latin and small jazz ensembles
• take classes in theory, improvisation, arrangement and history
• learn about looping and sampling
• explore career paths, music business and world music
• benefit from weekly performance opportunities with feedback from both staff and students.

Where could it take you?
You might take your own music to the top. Where could it take you?

Musicology is the study of music in its cultural, social, historical and stylistic contexts. It’s about the way music ‘works’. And not just notes on a page or sounds in a recording. Music also affects individual actions, social behaviour and expression in both Western and non-Western societies.

What will you do?
Our Bachelor of Music (Musicology) takes your contextual knowledge of music to the next level. You will:

• explore different approaches to music research
• gain keen aural and analytical skills
• develop high-level understanding of music history and repertoire
• analyse live and recorded music
• build confidence in oral and written communication.

You can also pursue a wide range of studies in other areas. If you’re interested in performance, you can take ensemble classes subject to audition.

Where could it take you?
You could continue on in academia or pursue work in music and arts journalism. You might work for the Rock ’n’ Roll Hall of Fame in Ohio or archive in the Australian Jazz Museum. Perhaps you’ll publish a book about music and acculturation in First Nations communities.

Want to be a leader in contemporary music? To have unmatched insight? Like to shake up the industry? Studying popular music is about valuing your passion and pushing boundaries.

What will you do?
Our Popular Music degree equips you with the knowledge and skills needed to excel as a creative professional. You will:

• develop your own unique identity, presence and style as a song writer
• explore cutting-edge technologies for music production
• have 24/7 access to rehearsal and recording studios to develop your work
• collaborate in song writing and performance classes
• receive mentorship and business coaching from industry professionals
• research and analyse contemporary music
• showcase your original music through regular performances.

You can also expand your skills by studying electives outside music. A range of options are available in Arts, Business, Science or Media.

Where could it take you?
Our graduates go on to all sorts of exciting music careers. You could take to the stage, or work behind the scenes at major festivals. You might be a producer, coaching other artists in the studio. Perhaps you’ll write songs for pop stars or spend your work hours at concerts as a music journalist.

ADDITIONAL ENTRY REQUIREMENTS
Audition. For full details please refer to: music.adelaide.edu.au/future/auditions/requirements

INDICATIVE ANNUAL TUITION FEE $33,500

The creation and distribution of music and sound has been transformed by digital technology. It’s accelerated the growth of the arts, entertainment, creative and media industries into huge global enterprises.

Our Bachelor of Music (Sonic Arts) prepares you to play a leading creative role in this exciting landscape.

**What will you do?**

Sonic Arts incorporates all applications of contemporary technology to sound and music. You will:

- take courses in composition, studio recording, live performance and digital media
- have 24/7 access to specialised facilities, including production studios, recording rooms and digital audio laboratories
- research sound theory and music history
- collaborate on group performance projects
- learn from international artists and industry professionals.

You’ll follow your interests across a range of specialised courses and electives in:

- sound engineering
- music production
- film sound
- software design
- computer music composition
- instrument building
- computer game audio
- interactivity
- sound design.

**Where could it take you?**

You might invent instruments, write video game soundtracks or develop music software. You could tour the world as a live electronic musician. Perhaps you’ll be a producer, creatively advising, coaching and recording other artists in the studio.

INDICATIVE ANNUAL TUITION FEE $33,500

Inspired by rousing choruses, dancing and movement? Love, plot twists and performance? Want to take your passion to a professional level?

Live theatre entertainers are keen, creative and collaborative. They’re actors, singers, dancers, artists and engineers. They work hard to bring stories to life and entertain audiences around the world.

**What will you do?**

Our Bachelor of Music Theatre welcomes you into a vibrant community as enthusiastic about music theatre as you are. You will:

- study at the prestigious Elder Conservatorium in the centre of Adelaide’s cultural hub
- receive intensive, individualised training and feedback in music, dance and theatre
- develop broad cultural and interdisciplinary awareness
- build skills in communication, collaboration, self-confidence, physical presence and analytical insight
- benefit from the expertise of our highly accomplished and industry-active staff.

You’ll also gain valuable experience through University partnerships with Adelaide Festival, South Australian Film Corporation, Adelaide Cabaret Festival and Adelaide Fringe.

**Where could it take you?**

You could take local productions on tour or find yourself under the Broadway lights. You might become a choreographer and direct chorus lines. Perhaps you’ll work in sound production or build the amazing sets behind the stars.
75% FASTEST GROWING OCCUPATIONS REQUIRE STEM SUBJECTS*

RANKED IN TOP 150 WORLDWIDE* FOR SCIENCE

STEM GRADUATE SALARIES ALMOST 30% MORE THAN OTHER FIELDS**

SCIENCE

^ 'A Smart Move: Future-proofing Australia’s Workforce' report, PwC 2017

* QS World Ranking by Subject 2018

** Korn Ferry Hay Group 2016
It’s an exciting time to embark on study in science. Already one of the world’s fastest growing sectors, science is predicted to bring more human progress in the next 50 years than the previous 400 combined—and today’s students will drive that change.

Studying science at the University of Adelaide will give you a competitive edge in the global career market and prepares you for success as a science professional. You’ll develop a range of transferrable skills that employers want in industries beyond just traditional science, including business, finance, education and communications.

We actively partner with industry to ensure you’ll be equipped with the most up-to-date skills for your chosen career, and our cutting-edge facilities enable us to deliver specialised education with a focus on hands-on learning.

You will join a community of world-class scientific researchers and learn from experts in the field who are actively involved in internationally recognised projects. You’ll even have the chance to work with them.

The University of Adelaide is one of only three universities in the world to be involved with finding the Higgs boson, high-energy neutrinos from an active galaxy, as well as the Nobel Prize-winning discovery of gravitational waves. And University of Adelaide students were part of all three projects.

Science points of difference

- Number 1 graduate satisfaction in South Australia*
- 100% of Science research rated at or above world standard^* 
- Industry partners and research institutes of international significance co-located on campuses.

ASSUMED KNOWLEDGE Chemistry and Mathematics
INDICATIVE ANNUAL TUITION FEE $38,500

Agriculture is about understanding the land, animals, crops and community. For those seeking a career in the industry, our Bachelor of Agricultural Sciences is the degree of choice. It is ranked 42nd in the world and is the only agricultural science degree in South Australia*.

What will you do?
We give you the knowledge and skills needed to thrive in all areas of agriculture. You will:
• discover the physical, biological, technological and economic bases of modern agricultural systems
• go on field trips and excursions from first-year
• take classes in agribusiness, crop, livestock and soil sciences
• learn to manage diverse systems and natural resources
• access the latest research, innovation and technology through government and industry partners
• build practical skills through at least 450 hours of internships.

Where could it take you?
Within just a few months of finishing, 91% of our graduates find full-time employment**. In fact, on average there are five jobs available for every graduate in Australia and the industry is rapidly growing around the world***. You’ll be set to improve primary production outputs in both rural and city locations. You could work as a consultant, conduct sustainability research, advise on government policy or innovate in urban and vertical farming. You might get a job in ag media, connecting farmers to their customers. Perhaps you’ll come up with ways to increase farming efficiency using modern drone technology.

INDICATIVE ANNUAL TUITION FEE $38,500

BACHELOR OF APPLIED BIOLOGY

CRICOS CODE 098150G
INTERNATIONAL 2020 SELECTION RANK 75
INTERNATIONAL 2020 IB 25
CAMPUS Waite
DURATION 3 years full-time
INTAKES February and July
INDICATIVE ANNUAL TUITION FEE $38,500

Applied biology is about understanding the biology of plants, animals and microorganisms in order to solve real-world problems. It aims to produce healthier foods, a cleaner environment and a better standard of living. With 90% student satisfaction for this degree and ranking in the top 100 in the world for biological science*, we place you at the forefront of advances in the field.

What will you do?
In our Bachelor of Applied Biology you’ll:
• delve into molecular, microbial, animal and plant biology
• explore the world of biodiversity and sustainable food production
• learn about biochemistry in agricultural and medical sectors
• develop expertise and reliable research standards in the laboratory
• build professional skills through work placements.

You’ll focus your interests in any of the following specialisations:
• Plant Product Innovation
• Biochemistry
• Genetics
• Microbiology and Immunology.
You can also spend a semester at an overseas university and pursue placements through advanced courses.

Where could it take you?
You could create plant-based foods that combine new tastes with environmental sustainability and health benefits. You might research the treatment of depression using drugs made from Indian gooseberries. Perhaps you’ll develop non-toxic pesticides or more sustainable crop farming methods. You could work on genetic diseases or move into media and education, sharing science with politicians and the public.

* QSWorld University Rankings 2018 and Student Experience Survey Overall Experience Satisfaction Level 2015-16

“I HAVE A PASSION FOR FEEDING THE WORLD, SUCH AN IMPORTANT MATTER THAT CAN BE OFTEN FORGOTTEN. I ALSO LOVE WORKING OUTDOORS, SITTING AT A DESK EVERY DAY IS NOT FOR ME BUT STILL WANTED TO STUDY A SCIENCE DEGREE.”

Hannah McArdle
Bachelor of Agricultural Sciences
BACHELOR OF FOOD AND NUTRITION SCIENCE

Food is fundamental to our wellbeing. New approaches to food production and processing of food, as well as to our diet, are key for health and sustainability.

The global food and beverage market is estimated at over USD$5650 billion a year and growing rapidly. There’s a high demand for food and nutrition scientists able to tackle today's challenges and meet tomorrow's global needs.

What will you do?

Ranked third in Australia and best in South Australia for Food Science, Technology and Nutrition, our bachelor prepares you to educate and innovate in food. You will:

• understand food systems and production from 'farm-gate to fork'
• learn how to design, formulate, produce, package and market foods
• experiment with chemical composition and flavour combinations in the lab
• build experience in sensory evaluation and project management
• explore ways of developing sustainable, nutritious, safe and healthy food supplies
• gain hands-on industry experience through 120 hours of placement in a food, nutrition or health organisation.

Where could it take you?

You could work in public health, developing food and nutrition policy, regulations and resources. You might pursue microbiology and increase the nutrient density of plant-based protein products. Perhaps you’ll take on a role in food quality assurance, waste management or education. You’ll also be eligible to apply for registration as an associate nutritionist, or you could use the degree as a pathway into dietetics.

* Academic Rankings of World Universities by Subject 2018

Professional accreditation

Upon graduation you’ll be eligible to apply for registration as an associate nutritionist with the Nutrition Society of Australia, and graduate membership of the Australian Institute of Food Science Technology.

BACHELOR OF SCIENCE

Love science but not sure which path to take?

Our Bachelor of Science lets you design your own degree based on your strengths and emerging interests. From chemistry to palaeontology, genetics to geophysics we support your scientific curiosity.

The degree is ranked best for Science in South Australia, and among the top 150 in the world*. It also has the highest graduate satisfaction ranking for Science in the state**.

What will you do?

You’ll learn from world-class researchers who are experts in their field as you:

• engage with new ideas through discovery and active learning
• develop deep discipline knowledge through a major
• build highly sought-after skills in communication, critical thinking and creative problem solving
• access internationally significant research facilities
• develop connections in the science world through internships
• gain global experience with optional exchanges or study tours.

You can pursue any of the following major areas of study:

• Biochemistry
• Chemistry
• Ecology
• Evolutionary Biology
• Geology
• Genetics
• Geophysics
• Microbiology and Immunology
• Palaeontology
• Physics
• Theoretical Physics
• Soil Science.

Where could it take you?

You could surround yourself with plants as a botanist, work in stem cell research, take up teaching or apply your skills in the business world. You might help the public engage with science through games and apps. Perhaps you’ll launch your career as a space entrepreneur—just one of many exciting new science roles starting to emerge.

* QILT 2017 Science and Mathematics
** QS World University Rankings by Subject 2018
BACHELOR OF SCIENCE (ADVANCED)

Love scientific enquiry and research? Aspire to be outstanding in your field? The Bachelor of Science (Advanced) is a distinctive vocational degree for high-achieving students who want to excel in their chosen career.

What will you do?
Our advanced degree challenges you to take your scientific training and research skills to the next level. You will:
• take part in structured research activities and seminars normally only available to honours and postgraduate students
• link with academic mentors and staff in cutting-edge research areas
• receive advanced research training and access to research laboratories
• gain breadth of experience through lab placements and a semester-long research project
• work on further projects that can be developed for an honours year and post-graduate study (master degree or PhD).
You’ll design your own degree from a broad range of science majors:
• Biochemistry
• Chemistry
• Ecology
• Evolutionary Biology
• Geology
• Genetics
• Geophysics
• Microbiology and Immunology
• Palaeontology
• Physics
• Theoretical Physics
• Soil Science.

Where could it take you?
You’ll graduate with enhanced research and project management skills for further study or leadership roles in your chosen specialisation. You could solve global ecology challenges or win the Nobel Prize as a quantum physicist. You might spearhead an entirely new career in space entrepreneurship, genomic editing, or stem cell engineering. Perhaps you’ll communicate science as an educator or politician. Whatever you choose, you’ll be prepared to lead the world.

BACHELOR OF SCIENCE (ANIMAL BEHAVIOUR)

Love interacting with animals? Fascinated by pets and their personalities? Animal behaviour is psychology for the animal kingdom. It’s about understanding the science behind why animals act in certain ways, how we should work with them, and how we can look after their futures. It even informs our understanding of human behaviour.

What will you do?
Our Bachelor of Science (Animal Behaviour) gives you the knowledge and skills to pursue a rewarding career in a growing industry. You will:
• study core courses in psychology
• learn about animal development and the biological bases of behaviour
• explore your interests through research projects and case studies
• choose from a broad range of animal science courses, including livestock, horses, wildlife, insects and companion animals
• draw on the University’s expertise in animal science and veterinary bioscience from the internationally renowned Roseworthy campus.
There’s also a strong practical element, with opportunities for industry experience, field work and study tours.

Where could it take you?
You could consult with exotic pets, prepare greyhounds for adoption or work in animal management for local government. You might ready dogs for roles guiding the visually impaired, detecting in customs, or even comforting children with autism and anxiety. Perhaps you’ll host your very own animal science show on TV.
**BACHELOR OF SCIENCE (ANIMAL SCIENCE)**

**CAMPUS** Roseworthy  
**DURATION** 3 years full-time  
**INTAKES** February

**ASSUMED KNOWLEDGE** Chemistry and Mathematics  
**INDICATIVE ANNUAL TUITION FEE** $38,500

We rely on animals for so much—labour, entertainment, companionship. Animal science is essential for keeping the animals under our charge housed, fed, healthy and safe.

Animal scientists research new technologies and approaches to managing animal production and welfare, develop and run breeding programs, regulate animal feed and products, and work to decrease agriculture’s environmental impact.

**What will you do?**

Our Bachelor of Science (Animal Science) prepares you for success in the lab and the field. You will:

- explore animal physiology, nutrition, reproduction, breeding and management
- study in a range of specialised areas including livestock, horses, wildlife, companion animals and laboratory animals
- gain practical skills working with experts in the field
- carry out individual and team research projects
- access our AUD $37 million purpose-built veterinary teaching and research facilities.

You’ll also exciting opportunities to complete work experience in relevant industries.

**Where could it take you?**

You could provide farmers with ways to improve the health and welfare of livestock. Perhaps you’ll get a job as a nutritionist developing diets for companion or production animals, or work in a wildlife park or zoo. You might research laboratory animal housing, or ways to detect or control diseases that affect our wildlife.

**CAMPUS** North Terrace  
**DURATION** 3 years full-time  
**INTAKES** February and July (students commencing in July may have a slightly limited selection of courses)

**PREREQUISITES** Chemistry and one other subject chosen from Mathematics, Physics, Biology or Geology

**ASSUMED KNOWLEDGE** Mathematics  
**INDICATIVE ANNUAL TUITION FEE** $38,500

Do you have an interest in medical biology and human health? Are you keen to discover more about human disease, from its cause and diagnosis through to novel treatments and cures?

Biomedical scientists are vitally important. They advance world-changing discoveries to improve people’s health and quality of life.

The University of Adelaide is ranked in the top 100 in the world for Biological Sciences and best in South Australia*.

**What will you do?**

Our Bachelor of Science (Biomedical Science) gives you the knowledge and skills to access an emerging global sector. You will:

- build a broad knowledge base in medical and molecular biology
- explore normal and abnormal functions of the human body
- learn directly from world-class biomedical researchers and educators
- carry out extensive biomedical research projects
- gain real-world practical insights from industry lecturers and placements.

Areas of specialisation include:

- Biochemistry
- Genetics
- Microbiology and Immunology.

**Where could it take you?**

You could be running a laboratory, performing cutting-edge cancer research or modifying genes for vaccines. You might design drugs for the pharmaceutical industry. Perhaps you’ll work directly with patients after completing a degree in postgraduate medicine or allied health.

* QS World University Rankings by Subject 2018

---

“I LOVED THE PRACTICAL WORK WE DID ALONGSIDE EXPERTS IN THE FIELD AND OPPORTUNITIES TO HELP WITH RESEARCH. I USE KNOWLEDGE I GAINED FROM MY DEGREE REGULARLY IN MY CAREER AS A ZOOKEEPER.”

Michelle Birkett  
Bachelor of Science (Animal Science)  
Zookeeper, Adelaide Zoo
BACHELOR OF SCIENCE (BIOTECHNOLOGY)

Our biotechnology degree focuses on biology and technology, leading to the development of new products for feeding, fuelling and healing the world. This might include vaccine, antibiotic or hormone production, and genetic modification.

It’s a fast-evolving industry with huge potential for improving global health and wellbeing. When we modify living things, all sorts of marvels become possible.

Top 100 in world for Biological Sciences (QS World Rankings by subject, 2018). The demand for nature-based tourism is only growing, already accounting for around 20% of global travel*.

What will you do?

Our Bachelor of Science (Biotechnology) combines traditional science with aspects of engineering and computer science. You will:

- delve into molecular, genetic, animal and plant biology
- experiment with protein separation, fermentation, genomics and proteomics
- use revolutionary gene editing technology in Australia’s first Genome Editing Facility
- explore microbial biotechnology and bioprocess engineering
- learn how to produce food, drugs and other products
- consider social and ethical issues, patents and waste management.

Where could it take you?

You could concoct world-changing pharmaceutical drugs in the lab. You might work to clone animals. Perhaps you’ll aid in the development and implementation of modern techniques for disease prediction and treatment.

---

BACHELOR OF SCIENCE (ECOTOURISM)

Our ecotourism degree develops scientists and explorers who care about our planet. It’s for those who are fascinated by the natural world and wish to share its wonders with others.

Ecotourism experts work within a growing nature-based tourism industry, along with governments and communities, to build cultural and environmental awareness. They develop and provide content for tourists, while promoting conservation and the value of science.

The demand for nature-based tourism is only growing, already accounting for around 20% of global travel*.

What will you do?

Our Bachelor of Science (Ecotourism) gives you the skills and knowledge to excel in a flourishing industry. You will:

- specialise in Geotourism or Nature Based Tourism
- blend studies in geology, biology, botany and zoology
- build multicultural knowledge and sensitivity
- get outdoors for real-world research projects on active ecotourism sites
- go on national field trips.

You’re also free to take your studies overseas on exchange or study tours.

Where could it take you?

You might own your own company or work within a large tourism and hotel network. You could guide groups into the Australian outback, through rainforests where glow worms light up the night or under plummeting waterfalls. Perhaps you’ll develop government legislation for environmentally sustainable tourism operations. You could even utilise your science and communication skills in media or education, making environmental sciences accessible to the general public and future generations.

---

BACHELOR OF SCIENCE (HIGH PERFORMANCE COMPUTATIONAL PHYSICS) (HONOURS)

Our Bachelor of Science (High Performance Computational Physics) (Honours) gives you the skills and knowledge to excel in a flourishing industry. You will:

- specialise in Geotourism or Nature Based Tourism
- blend studies in geology, biology, botany and zoology
- build multicultural knowledge and sensitivity
- get outdoors for real-world research projects on active ecotourism sites
- go on national field trips.

You’re also free to take your studies overseas on exchange or study tours.

Where could it take you?

You might own your own company or work within a large tourism and hotel network. You could guide groups into the Australian outback, through rainforests where glow worms light up the night or under plummeting waterfalls. Perhaps you’ll develop government legislation for environmentally sustainable tourism operations. You could even utilise your science and communication skills in media or education, making environmental sciences accessible to the general public and future generations.

BACHELOR OF SCIENCE (MARINE BIOLOGY)

CRICOS CODE 057802F
INTERNATIONAL 2020 SELECTION RANK 75
INTERNATIONAL 2020 IB 20
CAMPUS North Terrace
DURATION 3 years full-time
INTAKES February and July
ASSUMED KNOWLEDGE Chemistry and Mathematics
INDICATIVE ANNUAL TUITION FEE $38,500

Marine biology is the study of our planet’s largest and most diverse ecosystem—the sea.
Marine biologists observe, preserve and discover ocean life, from tiny shelled creatures and thriving underwater forests to flashing squids and roving sharks.

What will you do?
Our Bachelor of Science (Marine Biology) emphasises expertise in the lab and experiential learning out in the elements.
We are in the top 100 in the world for Biological Sciences (QS World Rankings by subject, 2018). You’ll learn from nationally and internationally acclaimed researchers as you:
• build core knowledge in biology, statistics and communication
• explore ecological and evolutionary science
• dive into marine biology, coastal management and specialised research methods
• gain extensive field experience
• access equipment used in pioneering research around the world.

This degree prepares you for work on temperate seas—from sub-polar to subtropical. This is because there’s a high demand for graduates skilled in temperate marine biology.

Where could it take you?
You could explore future life in a high-CO2 world, dive on underwater volcanoes or lead oceanic ecotours. You might study the effects of climate change on our reefs or research the impact of microplastics in fish. Perhaps you’ll make documentaries to educate the wider public or discover totally new marine species.

BACHELOR OF SCIENCE (MINERAL GEOSCIENCE)

CRICOS CODE 064433A
INTERNATIONAL 2020 SELECTION RANK 75
INTERNATIONAL 2020 IB 20
CAMPUS North Terrace
DURATION 3 years full-time
INTAKES February and July
PREREQUISITES Two subjects chosen from Biology, Chemistry, Geology, Mathematics and Physics
INDICATIVE ANNUAL TUITION FEE $38,500

Mineral geoscience is all about Earth’s mineral resources—their nature, origin, distribution, discovery and uses.
Geoscientists explore for metallic and non-metallic deposits and find environmentally safe ways to dispose of waste materials from mining.

What will you do?
Our Bachelor of Science (Mineral Geoscience) prepares you for an interesting, well-paid and diverse career in the minerals and energy sector. You will:
• take integrated and extended geology and geophysics courses
• learn about mining, engineering and mineral resources
• build broad industry understanding
• benefit from extensive field work and direct exposure to geoscience professionals.

You could also choose to undertake international study opportunities, including travelling with a tour guide to remote areas and exploring the world’s best preserved piece of intact oceanic crust as part of the Oman Geology Study Tour.

Where could it take you?
Mineral geoscience graduates are in high demand. You might work in exploration, making the calls on where next to drill for diamonds. You could journey below the surface as an underground mine geologist. Perhaps you’ll work on solutions for repairing mining’s environmental impacts.

“I BEGAN BY LEARNING ABOUT MY MAIN PASSION, MARINE BIOLOGY AND COMPLETED MY UNDERGRADUATE AND HONOURS DEGREES IN THIS AREA. I’M NOW A BIOLOGY AND SCIENCE TRAINED TEACHER, AND MY EXPERIENCES FROM THESE DEGREES HAS HELPED IN MY CAREER.”

Jordon Della-Pietra
Bachelor of Science (Marine Biology) and Master of Teaching

Mathematics and Physics

**INDICATIVE ANNUAL TUITION FEE** $38,500

 WANT to delve into the depths of our solar system? Explore the universe’s most distant galaxies? This is the number one degree in South Australia for Astronomical and Space Sciences research, and has a 90% student satisfaction ranking*.

**What will you do?**
Our Bachelor of Science (Space Science and Astrophysics) places a strong emphasis on maths and physics. You will:
- discover the fundamental processes that define our planet and universe
- unravel the mysteries of space through core training in astronomy and space science
- gain direct access to experts in the field
- supplement learning with other science, geoscience, and maths programs
- develop problem solving skills critical to modern careers in physics, high-tech and space industries, and big data science.
You’ll also have opportunities to take part in project work with established scientists.

**Where could it take you?**
You might research the formation of distant galaxies? Perhaps you’ll work in an geomagnetic storms for a national weather service. Perhaps you’ll direct a planetarium. You could forecast stars with a national space agency or carry out research equine, zoo animal or wildlife medicine. Perhaps you’ll even work in biotechnology, managing programs to prevent disease and pollution.

**Professional accreditation**
Our Bachelor of Science (Space Science and Astrophysics) is 84th in the world for Life Sciences and Medical degrees* and rated ‘well above world standard’ by Excellence in Research Australia**.

**PREREQUISITES**
Mathematics and Chemistry

**ASSUMED KNOWLEDGE**
Physics an advantage

**ADDITIONAL ENTRY REQUIREMENTS**
Applicants must complete a written questionnaire and undergo an interview (if offered). Applicants will also be required to acknowledge their understanding of the Inherent Requirements and Vaccination Guidelines. These documents can be found under ‘useful links’ by searching this degree on Degree Finder.

**INDICATIVE ANNUAL TUITION FEE** $47,000

Veterinarians are dedicated to animals’ wellbeing. They’re scientists, surgeons, carers, and lifelong learners.

Our Bachelor of Science (Veterinary Bioscience) is 84th in the world for Life Sciences and Medical degrees* and rated ‘well above world standard’ by Excellence in Research Australia**.

**What will you do?**
You’ll enjoy the smallest class size of any veterinary program in Australia. This means more personalised attention from our highly experienced teachers and researchers as you:
- explore animals’ anatomy, physiology and behaviour and identify the pathogenic organisms that attack them
- learn about animal handling and husbandry
- experience real industry settings including farms and intensive production facilities through multiple industry placements—possibly even overseas
- undertake significant hands-on animal work, starting in semester 1
- access our AUD $37 million purpose-built veterinary teaching and research facilities.
You’ll also complete at least 12 weeks of Animal Husbandry Extra Mural Studies across the degree. Undertaken during University vacations, this will give you specific experience with particular groups of animals, especially cattle, sheep and horses.

**Where could it take you?**
This degree is the first part of our veterinary science program. Upon graduation you’ll gain direct entry into the Doctor of Veterinary Medicine, which you must also complete to register and practise as a veterinarian.

Once you have, you could work in a private practice, or start your own. You might travel from farm to farm treating livestock on-site, or research equine, zoo animal or wildlife medicine. Perhaps you’ll even work in biotechnology, managing programs to prevent disease and pollution.

**Professional accreditation**
Our veterinary science program is accredited by the Australasian Veterinary Boards Council (AVBC), the Veterinary Surgeons’ Board of Hong Kong and the Royal College of Veterinary Surgeons (UK). This means when you graduate from your Doctor of Veterinary Medicine, you’ll be eligible for registration as a veterinarian in Australia, New Zealand, South Africa, Singapore, the United Kingdom and Hong Kong.

* QS Stars QS World University Rankings by Broad Subject Area 2018 and 2015 Excellence in Research for Australia
Wildlife is vanishing throughout the world. Many species will disappear during your working life. Do you want to halt this trend and reverse imminent species loss? Our Bachelor of Science (Wildlife Conservation Biology) gives you the knowledge and skills to safeguard our ecosystems and protect the future of wildlife in crisis. Top 100 in world for Biological Sciences (QS World Rankings by subject, 2018).

**What will you do?**

This degree is hands-on and prepares you to champion biodiversity conservation in both theory and practice. You will:
- learn to identify plants and animals in natural settings
- conduct field research as part of long-term, on-going monitoring programs
- apply theory and research to pressing conservation problems
- consider the field’s social, political and economic constraints
- develop the skills to plan, execute and monitor habitat restoration programs for declining species

You’ll also gain valuable experience and connections with established Australian and global organisations, such as BioR, Conservation International and the multi-award-winning Arid Recovery. That includes spending five days with the latter near Roxby Downs in outback South Australia, learning to trap, handle and record data on small mammals and reptiles.

**Where could it take you?**

Our conservation graduates go on to all sorts of exciting and rewarding careers. You might reconstruct local habitats or lead breeding programs in sanctuaries. You could monitor animals’ movements with satellite tracking and other remote techniques. Perhaps you’ll work in academia, researching your passion and inspiring the next generation of conservationists.

Artificial intelligence and technical innovation are expanding rapidly. Change has become the only constant. Fluency in both science and entrepreneurship will set you up to embrace, benefit and thrive financially in a transforming world. Entrepreneurs and scientific innovators find solutions and open doors. They bring evidence-based ideas under the spotlight and work fearlessly until new realities emerge.

**What will you do?**

Our Bachelor of Science and Entrepreneurship will teach you about technologies driving change and how to seize the opportunities they bring. You will:
- develop deep discipline knowledge in your chosen science area
- apply science skills to real-world problems and business opportunities
- consider start-up funding, marketing, risks and ethics
- develop business plans for potential ventures
- spend a quarter of your time learning from industry experts in the University’s Entrepreneurship, Commercialisation and Innovation Centre
- access the University’s ThincLab incubator(s).

You can also earn course credit by taking part in the Australian eChallenge—a competition-based learning experience that develops strategic business thinking for early-stage entrepreneurial ventures.

**Where could it take you?**

We can’t wait to find out! You might clear early-stage entrepreneurial ventures. Develops strategic business thinking for entrepreneurship.

Great wine is central to Australia’s—and particularly South Australia’s—identity. In fact, Adelaide is one of the great wine capitals of the world with over 200 cellar doors within an hour of the CBD. Seventy percent of Australian wine research happens at the University of Adelaide’s Waite campus. Our winemakers are innovators, economic drivers and cultural leaders.

**What will you do?**

Our Bachelor of Viticulture and Oenology teaches best-practice techniques for growing wine grapes and making wine. You will:
- study at the largest agricultural teaching and research precinct in the southern hemisphere
- make wine in our state-of-the-art Hickinbotham Roseworthy Wine Science Laboratory
- build hands-on scientific and technological skills in the vineyards and working winery at our Waite campus
- learn from more than 150 researchers and partners in wine and grape science
- access cutting-edge research at the Australian Research Council Training Centre for Innovative Wine Production
- complete an industry placement in viticulture and/or oenology.
- There are also opportunities to study and gain experience overseas.

**Where could it take you?**

You’ll graduate as a fully trained winemaker or viticulturist. You could manage your own winery or vineyard. You might work with the latest technologies to develop innovations and efficiencies in related industries. Perhaps you’ll focus on sustainable and natural practices, building an organic, biodynamic or solar-powered future for the wine industry.

TEACHING

  (UniSA ranked 101-150, Flinders ranked 151-200)

The University of Adelaide’s Bachelor of Teaching double degrees are the first step towards a rewarding career in which you can inspire, challenge and guide the young people who will become society’s leaders of tomorrow. Each degree provides you with a professional qualification that is recognised for teacher registration in South Australia, other states of Australia and, in most cases, overseas.

You will major in two subject areas to teach in the middle or secondary years of schooling (7-10 and 8-12 respectively).

You’ll explore educational issues and practice, and undertake a professional experience placement in a school every year of the degree. You will also learn wellbeing strategies that help you consider the needs of the learners in your class as well as yourself.

And through our unique e-learning program you’ll develop skills to teach the next generation of citizens in a rapidly changing technological world.

Teaching points of difference

• Major in two subject areas to teach in the middle or secondary years of schooling
• Graduate with two degrees including one from Arts, Music, Science, Mathematical and Computer Sciences or Economics
• Gain professional classroom experience from first year

“The University of Adelaide has a certain prestige about it. Employers have come to expect exceptional graduates from Adelaide Uni. I believe that having a degree from the University of Adelaide puts me in a favourable position when applying for work.”

Denise Reid
Bachelor of Arts with Bachelor of Teaching
The middle school years (7-10) are an exciting time. Students are working out who they are, what’s important to them and where the answers to these questions could take them.

Our Bachelor of Teaching (Middle) with Bachelor of Arts gives you the skills to engage growing young people in the vital study of history, society, culture and creativity.

What will you do?
The arts covers a broad range of learning areas, including Languages, History, Geography, Legal Studies, Psychology and English. Over the course of the degree you will:
• build expertise in the two subjects you intend to teach
• explore educational issues, curriculum and practice relevant to the middle years
• work with inspiring teachers and researchers
• gain professional experience and connections through extensive school placements.

Where could it take you?
You’ll graduate with the skills and knowledge to respond to the intellectual, social and emotional needs of students in the middle years. You will be fully qualified to register as a teacher Australia-wide. If you’d like to teach overseas, your degree will be valid in most other countries. An education background will also prove invaluable in a wide range of careers servicing communities outside the classroom.

With an uncertain future ahead, a science savvy populace is more important than ever. Great middle school science teachers tap into the natural curiosity and imaginative thinking of young people in years 7-10. They build a strong foundation of knowledge and inspire a spirit of discovery.

What will you do?
Our Bachelor of Teaching (Middle) with Bachelor of Science offers specialisations in Biology, Chemistry, Earth and Environmental Science, Physics and/or another approved area. You will:
• build expertise in the subjects you intend to teach
• explore educational issues, curriculum and practice relevant to the middle school years
• work with inspiring teachers and researchers
• gain professional experience and connections through extensive school placements.

Where could it take you?
You’ll graduate with the skills and knowledge to respond to the intellectual, social and emotional needs of students in the middle years. You will be fully qualified to register as a teacher Australia-wide. If you’d like to teach overseas, your degree will be valid in most other countries. An education background will also prove invaluable in a wide range of careers servicing communities outside the classroom.

Music in the middle school years (7-10) provides a much-needed environment of acceptance, creativity and self-expression. Music specialist teachers encourage, test and inspire emerging musicians.

Our Bachelor of Teaching (Middle) with Bachelor of Music sets you up for a rewarding career focused around your passion.

What will you do?
• Build expertise in both music and an additional non-music teaching area.
• Explore educational issues, curriculum and practice relevant to the middle school years.
• Work with inspiring teachers and researchers.
• Gain professional experience and connections through extensive school placements.

Where could it take you?
You’ll graduate with the skills and knowledge to respond to the intellectual, social and emotional needs of students in the middle years. You will be fully qualified to register as a teacher Australia-wide. If you’d like to teach overseas, your degree will be valid in most other countries. An education background will also prove invaluable in a wide range of careers servicing communities outside the classroom.

Secondary school teachers can have a profound influence on young people’s lives. They challenge, encourage and inspire. They appreciate the arts as vital to a well-rounded education.

Our Bachelor of Teaching (Secondary) with Bachelor of Arts provides a unique pathway to a rewarding career.

**What will you do?**

You’ll build deep understanding of the subjects you intend to teach, selecting from:

- Classroom music  
- Economics  
- English  
- Geography  
- History  
- Languages (Chinese, French, German, Indonesian, Italian, Japanese, Modern Greek, Spanish)  
- Linguistics (ESL*)  
- Legal Studies (minor only)  
- Media  
- Psychology.

You’ll also:

- explore educational issues, curriculum and practice relevant to the secondary years  
- work with inspiring teachers and researchers  
- gain professional experience and connections through extensive school placements.

**Where could it take you?**

### Notes

1. Additional note for international students undertaking an Australian Year 12 qualification: students will be required to meet specific prerequisites including passing a designated English subject. Refer to satac.edu.au for more information.

2. A Level results are calculated on the aggregate score from three A Level subjects (or two A Level subjects and two AS level subjects where A=5, B=4, C=3, D=2, E=1 for A Level subjects, and A=2.5, B=2.0, C=1.5, D=1.0, E=0.5 for AS Level subjects. AS Scores from Edexcel/Pearson GCE or GCSE or General Paper or language subject in the applicant’s first language are excluded from the calculation. A subject can only be counted once at either A Level or AS Level.

3. Students commencing in July may have a slightly limited selection of courses.

4. AP results are calculated on the aggregate numeric score of 3 AP subjects in conjunction with an American High School Diploma.

5. HKDSE results are calculated on the aggregate score of five subjects where 5** = 6, 5* = 5.5, 5 = 5, 4 = 4, 3 = 3. Category B and C subjects may not be used to calculate an entry score.

6. Best five subjects excluding language subjects. Students must achieve numerical score lower than that listed. UEC grades A1=1, A2=2, B3=3, B4=4, B5=5, B6=6, C7=7, C8=8.

7. Average of best six subjects.

8. Indian School Certificate (ISC) and Central Board of Secondary Education (CBSE) – Senior

School Certificate Examination. Best three subjects, excluding language and non-academic subjects.

10. SAT undertaken after March 2016 - Aggregate of Evidence Based Reading and Writing and excluding language and non-academic subjects. Acceptable State Board Examinations: Maharashtra, Karnataka, Andhra Pradesh, Tamil Nadu, Telengana.

11. Indonesian SMA3 (Graduate Certificate of Completion).

12. Successful completion of Matayom 6 (Certification of Secondary Education), GPA on a 4 point scale where A=4, B=3, C=2, D=1, F=0.

13. Average of best three subjects.

14. Other selection criteria (test/oral assessment) apply in addition to academic performance. Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applications will be ranked on merit. In addition to academic performance, other selection criteria may affect merit ranking.

15. Specific selection criteria (audition) applies in addition to academic performance in Year 12.

16. Not all disciplines have July entry.

17. Mid-year entry students will be required to enrol in Summer School (Jan to Feb) in order to complete the program within the three year duration.

18. Other non-academic selection criteria may apply.

19. If studied Year 12 prior to 2017 the equivalent subject was called Mathematical Studies.

20. Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applicants will be ranked on merit.

21. Students must undertake Maths 1B in Summer School.

**NOTES**

1. Additional note for international students undertaking an Australian Year 12 qualification: students will be required to meet specific prerequisites including passing a designated English subject. Refer to satac.edu.au for more information.

2. A Level results are calculated on the aggregate score from three A Level subjects (or two A Level subjects and two AS level subjects where A=5, B=4, C=3, D=2, E=1 for A Level subjects, and A=2.5, B=2.0, C=1.5, D=1.0, E=0.5 for AS Level subjects. AS Scores from Edexcel/Pearson GCE or GCSE or General Paper or language subject in the applicant’s first language are excluded from the calculation. A subject can only be counted once at either A Level or AS Level.

3. Students commencing in July may have a slightly limited selection of courses.

4. AP results are calculated on the aggregate numeric score of 3 AP subjects in conjunction with an American High School Diploma.

5. HKDSE results are calculated on the aggregate score of five subjects where 5** = 6, 5* = 5.5, 5 = 5, 4 = 4, 3 = 3, 2 = 2, 1 = 1, 0 = 0.5, E = 0.5. Category B and C subjects may not be used to calculate an entry score.

6. Best five subjects excluding language subjects. Students must achieve numerical score lower than that listed, UEC grades A1=1, A2=2, B3=3, B4=4, B5=5, B6=6, C7=7, C8=8.

7. Average of best six subjects.

8. Indian School Certificate (ISC) and Central Board of Secondary Education (CBSE) – Senior.

Australian Certificate of Education (SACE) or equivalent and Audition/Interview and Musicanship test.

School Certificate Examination. Best three subjects, excluding language and non-academic subjects.

Best three subjects, excluding language and non-academic subjects. Acceptable State Board Examinations: Maharashtra, Karnataka, Andhra Pradesh, Tamil Nadu, Telengana.

SAT undertaken after March 2016 - Aggregate of Evidence Based Reading and Writing and Mathematics scores in conjunction with American High School Diploma.

Indonesia SMA3 (Graduate Certificate of Completion).

Successful completion of Matayom 6 (Certification of Secondary Education), GPA on a 4 point scale where A=4, B=3, C=2, D=1, F=0.

Average of best three subjects.

Other selection criteria (test/oral assessment) apply in addition to academic performance. Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applications will be ranked on merit. In addition to academic performance, other selection criteria may affect merit ranking.

Specific selection criteria (audition) applies in addition to academic performance in Year 12.

Not all disciplines have July entry.

Mid-year entry students will be required to enrol in Summer School (Jan to Feb) in order to complete the program within the three year duration.

Other non-academic selection criteria may apply.

If studied Year 12 prior to 2017 the equivalent subject was called Mathematical Studies.

Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applicants will be ranked on merit.

Students must undertake Maths 1B in Summer School.

</table>

**NOTES**

1. Additional note for international students undertaking an Australian Year 12 qualification: students will be required to meet specific prerequisites including passing a designated English subject. Refer to satac.edu.au for more information.

2. A Level results are calculated on the aggregate score from three A Level subjects (or two A Level subjects and two AS level subjects where A=5, B=4, C=3, D=2, E=1 for A Level subjects, and A=2.5, B=2.0, C=1.5, D=1.0, E=0.5 for AS Level subjects. AS Scores from Edexcel/Pearson GCE or GCSE or General Paper or language subject in the applicant’s first language are excluded from the calculation. A subject can only be counted once at either A Level or AS Level.

3. Students commencing in July may have a slightly limited selection of courses.

4. AP results are calculated on the aggregate numeric score of 3 AP subjects in conjunction with an American High School Diploma.

5. HKDSE results are calculated on the aggregate score of five subjects where $5^* = 6, 5^* = 5.5, 5 = 5, 4 = 4, 3 = 3$, Category B and C subjects may not be used to calculate an entry score.

6. Best five subjects excluding language subjects. Students must achieve numerical score lower than that listed, UEC grades A1=1, A2=2, B3=3, B4=4, B5=5, B6=6, C7=7, C8=8.

7. Average of best six subjects.

8. Indian School Certificate (ISC) and Central Board of Secondary Education (CBSE) – Senior

Glossary

Advanced standing Status/credit/exemptions granted on the basis of work already completed at another post-secondary institution.

Articulation agreement A formal agreement where study at selected institutions may be counted towards University of Adelaide qualifications.

Assumed knowledge Previously acquired knowledge that will enable understanding of a course or degree.

Bachelor degree An undergraduate qualification gained after a minimum of three years full-time study. A bachelor degree is made up of a range of core (compulsory) courses and elective courses, usually delivered via lectures and tutorials.

Campus The grounds of a university or other institution of higher education.

Combined degree A combined degree program allows students to complete the requirements of two degrees in less time than when completed separately. Successful completion results in the award of two degrees in less time than when completed separately. A student may not graduate until the requirements for both degrees have been met.

Confirmation of Enrolment The document sent by the University after receipt of the tuition fee deposit. May be used as proof of student status to apply for a student visa.

Core course A compulsory subject taken as part of a program of study.

Course An individual subject taken as part of a program of study.

Coursework program A degree structured around particular courses, usually delivered via lectures and tutorials.

CRICOS Commonwealth Register of Institutions and Courses for Overseas Students.

DHA Department of Home Affairs.

Diploma Some schools in the University offer diplomas, which usually consist of 1-2 years of full-time coursework, delivered via lectures and tutorials.

Discipline A field or area of study, e.g. engineering, architecture, nursing.

Double degree A double degree program allows students to complete the requirements of two degrees in less time than when completed separately. Successful completion results in the award of two degrees with separate parchments. A student may graduate from each degree as soon as the requirements for each degree have been met. For example: Bachelor of Engineering (Chemical) with Bachelor of Arts.

Elective course A non-compulsory subject that may be chosen as part of a program of study.

Exchange agreement An agreement between universities allowing students to undertake 1-2 semesters of their degree at an overseas institution.

Extra admission requirements Requirements, in addition to the specified qualifications, needed for a student to be accepted into a particular degree, e.g. audition, interview, portfolio submission, personal qualities assessment.

Full-time study A standard full-time study load consists of 24 units per academic year, and 12 units per semester. The University and the DHA considers a 75% study load (9 units per semester or trimester) a full-time load. While international students can enrol in a 75% study load, this isn’t recommended as it may result in not completing their degree within the standard duration. International students are required by DHA to complete within the specified duration of the degree.

Faculty An academic branch in the University, consisting of various schools, e.g. the Faculty of Health and Medical Sciences.

GEAP (General English for Academic Purposes) A course for students looking to improve their English for a variety of reasons, such as to assist with future study or their career. GEAP by itself is not a direct entry pathway to undergraduate or postgraduate study at the University of Adelaide.

Honours Honours is a one-year full-time (or equivalent part-time) program that allows students to consolidate learning from their undergraduate studies by undertaking research and a thesis.

IELTS The International English Language Testing System, an internationally recognised UK-based test for English language assessment, essential for student visa requirements.

Indicative annual tuition fee The indicative annual tuition fee quoted in this prospectus is based on the standard full-time enrolment load of 24 units per year or 12 units per semester. These fees cover the cost of teaching and the cost of student support services. The quoted fee is reviewed on a yearly basis. Propective students should be aware that their fees may increase each year and that they are liable for these fees upon acceptance of their offer. Each student will be advised of their fee schedule in their offer of admission to the University. Fees may vary depending on enrolment load, e.g. if students ‘overload’ or ‘underload’, fees may be increased or decreased accordingly. All fees listed are in Australian dollars (AUD$).

Lecture A class on a specific topic presented by a lecturer to a large group of students.

Level A stage or period of study (generally one year in duration) within a degree, e.g. Level 1, 2, 3. The depth and complexity of courses increases through each level.

Major sequence A combination of approved courses leading to specialisation within a field of study, completed over one or more years of a degree.

OSHF Overseas Student Health Cover is compulsory health insurance that provides basic and emergency health cover. It is an essential requirement for international students to obtain a student visa.

Part-time study Any study load that is less than 75%, or 18 units a year. Note that under current student visa regulations, part-time study is not recommended for international students as they are required by the DHA to complete within the specified duration of their degree.

PEP (Pre-enrolment English Program) A direct entry pathway English language program for students that have not met the entry requirements for their chosen award program.

Prerequisites To be eligible for some degrees, particularly in the areas of Science, Engineering, Mathematics and Computer Science, applicants are required to have passed specific subjects called prerequisites.

Program A series of courses making up a particular qualification, e.g. Bachelor of Commerce.

Selection Rank A score that is given to a degree and used as part of the Admissions process.

Semester The standard length of an individual course. University courses are taught in two semesters: semester 1, from February/March until late June, and semester 2, from July/August until November.

Seminar A small class similar to a tutorial, involving presentations by students.

TOEFL Test of English as a Foreign Language, an internationally recognised US-based English language test.

Tutorial Small, weekly classes led by a tutor or lecturer, where students discuss issues relevant to a particular course.

Unit A value assigned to courses identifying the amount of work involved. Full-time students normally undertake 24 units of study a year.
LIVE AND STUDY IN THE HEART OF ADELAIDE CITY
KAURNA ACKNOWLEDGEMENT

We acknowledge and pay our respects to the Kaurna people, the original custodians of the Adelaide Plains and the land on which the University of Adelaide’s campuses at North Terrace, Waite, and Roseworthy are built. We acknowledge the deep feelings of attachment and relationship of the Kaurna people to country and we respect and value their past, present and ongoing connection to the land and cultural beliefs. The University continues to develop respectful and reciprocal relationships with all Indigenous peoples in Australia, and with other Indigenous peoples throughout the world.
