The Bachelor of Teaching double degree prepares students for teaching in secondary schools.

The double degree enables students to pursue other interests while studying education. Disciplines are available in many fields, including: accounting, business studies, economics, English, geography, history, information technology, languages, science and English as a second language (ESL). Bachelor of Teaching students are also able to study a combination of science, maths and information technology (IT) subjects not offered at other local institutions. Teachers with a focus in these areas are currently in demand within the profession. The University of Adelaide is an innovative, research intensive university. Consequently, there is a strong connection between research and discovery and the teaching curricula. Courses are informed by the latest research findings and knowledge, meaning degrees and the topics studied are up to date and relevant.

Teaching placements
In the second semester of their first year, teaching students participate in an observation placement in a local primary school. This provides professional experience working with school students, teachers and a school community. In the third year, students are placed in country secondary schools for one week to gain valuable experience and build on the theoretical knowledge they have acquired.

In the fourth year of the degree, students participate in two professional placements in secondary schools in metropolitan and country South Australia. These placements provide hands-on experience in the subject area of a student’s degree. Students in fourth year may also elect to participate in the internship program that is held in association with a number of Adelaide schools.

Upon graduation, students can register to work as teachers in South Australia and in popular overseas locations, such as Hong Kong, Singapore, the United Kingdom and the United States. University of Adelaide teaching graduates are highly sought after by local schools that are keen to employ new graduates each year. University of Adelaide teaching graduates have the potential to become leading educators in South Australia and beyond.

More about placements
Throughout the teaching degree, there are a number of professional experience placements opportunities. These include the country secondary school placement and internship placements with partner schools. The country secondary school placement is undertaken in year three of the degree. Students are asked to make a contribution towards the cost for this placement. In the final year, students undertake two professional experience placements (in a participating school) as their internship placements. Opportunities exist with some of Adelaide’s best-known schools. These schools are dedicated to providing teaching students with mentoring, knowledge development and hands-on teaching practice. To participate in the internship program, students are asked to apply to the partnering school via the University’s School of Education. Places are limited and highly sought after.

Working with minors
All students enrolled in teaching degrees will be required to obtain a child-related employment screening certificate. Without a current certificate, students cannot participate in professional experience placements at levels 1, 3 and 4, which are core components of the teaching degrees. Further information regarding the clearance certificate can be found by visiting the School of Education’s website.

Student study commitment
To successfully complete courses, students will need to allocate an appropriate time commitment to their study. In addition to the formal contact time required for each course (e.g. lectures, tutorials, teaching practicums) students will need to allocate non-contact time. Non-contact time will be required for a range of activities, which may include, but are not limited to: assessment tasks, reading, researching, note-taking, revising, writing, consulting with staff, and informal and formal discussion with other students.

While the relative proportion of contact and non-contact time may vary from course to course, as a guide, a full-time student would expect to spend, on average, a total of 48 hours per week on their studies during teaching periods. The workload for undergraduate programs is eight courses per year (full-time).

The workload for undergraduate programs is 24 units per year (full-time).
Fit uni into life

Attendance at university is less structured than time spent at high school. The hours spent on campus in lectures, tutorials, practicals or in the field—known as ‘contact hours’—depend on the program students enrol in, study mode selected (internal, external, online or flexible learning) and course choices.

This diary snapshot is only one example of how a student may choose to schedule their university study and life.
Life experience through Global Learning

All students will have the opportunity to study overseas through a range of programs, including student exchange, study tours and summer and winter schools.

There are many exciting opportunities in Europe, Asia, the Americas and Africa.

For information visit: www.adelaide.edu.au/global-learning

Aboriginal and Torres Strait Islanders

The University of Adelaide values diversity where the rich cultures of Aboriginal and Torres Strait Islanders are taught, supported and celebrated. Wirulu Yarlu provide a range of services, schemes and preparation programs that are designed to support your desire to gain educational outcomes.

Wirulu Yarlu is a place where students can soar to new heights.

For information visit: www.adelaide.edu.au/wirulu-yarlu

Small group discovery

There is a commitment to give all students the opportunity to learn in small groups, peer-to-peer and under the guidance of leading academics and researchers.

This experience will enhance students initiative and creativity maximising studying in a research intensive university.

For information visit: www.adelaide.edu.au/VCO/beacon/small-group

Advanced Bachelors

High achieving students who are inspired by the opportunity to contribute to the world’s important discoveries and research advancements should consider the Advanced Bachelors degrees.

These programs provide a unique close quarters learning experience with academics of international distinction.

**Friday, October 2016**

9-4pm school observation

*Finish report this weekend!*
The major and minor subject sequences are taken as part of the Bachelor of Arts program in the subject areas of the student's choice. Six semesters of study in a subject area is the general requirement for teaching a subject up to Year 12 level. In each of these years students also take education courses designed to provide an ongoing orientation to educational issues and practice. The first and third year education courses include observation and experience in school contexts. The final year is taken up entirely with education studies, which are organised around two five-week periods of teaching practice in secondary schools – one in the Adelaide metropolitan area, the other in country South Australia.

**Program structure**

The Bachelor of Teaching is designed primarily for students who have not already commenced university study. Students who have commenced a degree should consider completing their degree and then applying for a postgraduate education program.

**Areas of specialisation**

The Bachelor of Teaching double degree program with the Bachelor of Arts is designed for students who wish to become secondary school teachers in the following teaching areas:

- English
- History
- Geography
- Languages
  - (Indonesian Studies, Japanese Studies, Chinese Studies, French Studies, German Studies, Spanish Studies, Italian Studies, Modern Greek Studies, English as a Second Language)
- Psychology.

For further information about these specialisations, visit the Faculty of Arts website.

Bachelor of Teaching graduates are required to have two teaching specialisations in which they are qualified to teach.

**Potential careers**

The teaching program is recognised by education departments in all states of Australia and by most teacher-employing authorities overseas. There are job opportunities for graduates in most subjects, particularly in country areas.

**Professional accreditation**

The double degree program provides a professional qualification that is recognised for teacher registration purposes in South Australia. In most cases the qualification is portable to other states and countries.
Bachelor of Teaching with Bachelor of Economics

Why study the Bachelor of Teaching with Bachelor of Economics?

The Bachelor of Teaching degree program prepares students for teaching in secondary schools. The program is offered as a double degree only and is designed for students who are beginning tertiary study. The primary focus in the first three years of the degree is on completing a major sequence in two different subject areas usually taught at senior secondary level. A major sequence consists of courses taken over three consecutive years of study. Six semesters of study in a subject area is the general requirement for teaching a subject up to Year 12 level.

The major subject sequences are taken as part of the Bachelor of Economics program in the subject areas of the student’s choice. In each of these years students also take education courses designed to provide an ongoing orientation to educational issues and practice. The first and third year education courses include observation and experience in school contexts. The final year is taken up entirely with education studies, which are organised around two five-week periods of teaching practice in secondary schools—one in the Adelaide metropolitan area, the other in country South Australia.

Program structure

The Bachelor of Teaching is designed primarily for students who have not already commenced university study. Students who have commenced a degree should consider completing their degree and then applying for a postgraduate education program.

Areas of specialisation

The Bachelor of Teaching double degree program with the Bachelor of Economics is designed for students who wish to become secondary school teachers in economics and another one of the following teaching areas:

- English
- History
- Geography
- Languages

Curriculum and Methodology courses

- Biology Curriculum and Methodology
- Chemistry Curriculum and Methodology
- Physics Curriculum and Methodology

Information Technology
- Information Technology Curriculum and Methodology

General
- Alternative Curricula
Diploma in Languages

SATAC Code: 316171
Duration: 1 year full-time (or part-time equivalent)
Location: North Terrace campus

Additional entry requirements: Applicants must be enrolled in an undergraduate degree, postgraduate degree or combined degree program, or have completed an undergraduate degree at a recognised tertiary institution.

Why study the Diploma in Languages?
The Diploma in Languages consists of studies in a single language over three years and is available to all domestic students who are enrolled in any undergraduate bachelor degree or postgraduate studies at the University of Adelaide, or who are enrolled in an undergraduate degree or combined degree program at another recognised tertiary institution, or who have been awarded an undergraduate degree from a recognised tertiary institution. All languages are available at either beginners or advanced level.

Students who graduate with the Diploma in Languages and a bachelor degree or postgraduate qualifications will have a more rounded educational experience, and bring a valuable additional skill to their professional and personal life. The benefits to be gained from adding a language skill to your chosen field of study are substantial. Some of the practical and cultural benefits are:

- enhanced employment prospects
- the possibility of studying in your chosen field overseas (at postgraduate level or as part of an undergraduate exchange program)
- the possibility of competing for overseas study scholarships (most foreign embassies offer these, e.g. for science students)
- access to resources and materials published in a foreign language
- the possibility of interacting with students in other countries studying in the same area
- greater understanding of people of other cultures through insights into their ways of thinking and cultural and linguistic practices

Program structure
Students reduce the study load in their bachelor degree each year to accommodate the three-year language sequence. Their studies toward their degree extend over an extra year to ensure it fits and they meet all criteria. This means, for example, that students may graduate with a Bachelor of Economics, Science or Arts, and a Diploma in Languages, in four years of full-time study. Students may graduate from the Diploma in Languages at the same time as, or after, graduating from their concurrent degree.

For a postgraduate study plan incorporating the Diploma in Languages please contact the Faculty of Arts for more information.

Areas of specialisation
Languages currently offered are:
- Chinese Studies
- French Studies
- German Studies
- Indonesian Studies
- Italian Studies
- Japanese Studies
- Modern Greek Studies
- Spanish Studies

Potential careers
The benefits to be gained from adding a language skill to your chosen field of study are substantial. Some of the practical and cultural benefits include enhanced employment prospects and the possibility of working or studying in your chosen field overseas (at post-graduate level or as part of an undergraduate exchange program).

The School of Education

The School of Education, in the Faculty of the Arts provides innovative learning experiences for undergraduate and postgraduate students and professional teachers, trainers and education consultants who wish to develop or strengthen their expertise. The school offers a range of undergraduate, postgraduate and research degrees. These include:

- Bachelor of Teaching (as a double degree)
- Graduate Diploma for Teacher Education
- Professional Certificate of Education
- Graduate Certificate in Education
- Masters of Education
- Masters of Research Studies
- Doctor of Education
- PhD for research education and education leadership
- Higher education and online education courses to develop expertise in a tertiary environment.

Scholarships and prizes

There are a number of scholarships that students can apply for during the course of their studies that may ease the financial costs of undertaking a degree. There are also several prizes awarded to acknowledge students’ high achievements.

Scholarships for graduating students

DD Harris Geography Teaching Scholarship

Don Harris was a highly esteemed geography teacher and author whose contribution to the study and teaching of geography in South Australia extended over six decades. The Geography Teachers’ Association of South Australia offers up to three scholarships in his name annually. The DD Harris scholarships seek to encourage three newly graduated teachers, one from each of the South Australian universities—the University of Adelaide, Flinders University and the University of South Australia, who possess strong academic backgrounds in geography at tertiary level, and who are likely in the future to significantly contribute to geography teaching in South Australia.

Awards and prizes

- The Smolicz Languages Education Travel Award
- Australian Veterans’ Children Assistance Trust (AVCAT) Scholarships

The Australian Veterans’ Children Assistance Trust (AVCAT) is a national independent charity administering tertiary scholarships to the children and grandchildren of ex-servicemen and women, helping them to a better future through higher education. This scholarship is kindly donated by anonymous donors. Each scholarship is worth $4000 per year for four years. For children and grandchildren of veterans of the Australian Defence Force (ADF), preference is given to those studying teaching, nursing, engineering and science. For more information on...
these scholarships visit www.avcat.org.au, select About us from the menu and then Our Scholarships. The AVCAT scholarships are just a small sample of the scholarships available to University of Adelaide students. Visit www.adelaide.edu.au/scholarships to read about others.

**Awards for graduating students**

- Australian Society of Music Education
- Geography Teacher Association
- History Teachers Association
- Mathematical Association of South Australia
- South Australian English Teachers Association
- South Australian Science Teachers Association

For further details visit education.adelaide.edu.au/about and select Scholarships from the menu.

---

**Group of Eight**

[www.go8.edu.au](http://www.go8.edu.au)

The University of Adelaide is a member of the Group of Eight (Go8), a coalition of Australia’s leading research intensive universities. Group of Eight universities provide opportunities for all students to benefit from a world-class education, while enhancing Australia’s wellbeing and prosperity, responding to local and global challenges, and contributing to the global knowledge economy through their teaching and research activities.

---

**Open Day**

**Sunday 16 August 2015**

Open Day offers important information for future students and parents, as well as entertainment, tours and exhibitions for the whole family. Everyone is invited to discuss study and career options with the University’s friendly staff and explore the University campus.

For more information visit the Open Day website or call Ask Adelaide.

How to apply
Applications to University of Adelaide undergraduate programs are made online via SATAC: www.satac.edu.au
The application closing date for 2016 entry is 30 September 2015. Bachelor of Medicine and Bachelor of Surgery, and Bachelor of Dental Surgery applicants should refer to the UMAT website for information on the Undergraduate Medicine and Health Sciences Admission Test, including application and test dates: umat.acer.edu.au
International students should refer to: international.adelaide.edu.au/apply

Entry pathways
There are many pathways applicants can take to apply to the University of Adelaide, including SACE, IB, STAT, TAFE, preparatory programs, foundation study and more. To find out more about the available pathways, visit www.adelaide.edu.au/study and select ‘Entry Pathways’ from the menu.

Fees and costs
In 2015, student contributions for Commonwealth supported students studying an equivalent full-time study load were as follows.

- Band 1: humanities, behavioural sciences, social studies, foreign languages, visual and performing arts, education, nursing, clinical psychology. $6,152
- Band 2: computing, built environment, allied health, other health, engineering, surveying, agriculture, science, mathematics, statistics. $8,768
- Band 3: law, dentistry, medicine, veterinary science, accounting, administration, economics, commerce. $10,226

These annual fees are indicative only as actual charges are determined at the course level based on the area of study. Fees may increase in 2016.

HECS Higher Education Loan
This program, known as HECS-HELP, assists eligible students to pay their student contribution. Further information is available at: www.studyassist.gov.au

Scholarships
The University of Adelaide has a range of scholarships available to students from a variety of backgrounds and academic levels. Comprehensive information about scholarships, and how to apply, can be obtained by contacting us (refer below for details) or visiting the scholarships website: www.adelaide.edu.au/scholarships

Student Services and Amenities Fee
Students are charged an annual Student Services and Amenities Fee (SSAF) to assist with the funding of student services and amenities at the University. In 2015, the SSAF amount for full-time students was $281, and for part-time students it was $210. Eligible students may defer this fee to an SA-HELP loan. For further information about the SSAF and SA-HELP visit www.adelaide.edu.au/student/finance and select ‘Other Fees and Charges’.

Additional costs
Students may be required to pay for specialist equipment, reading materials, etc. Students are advised not to purchase any equipment until they receive their faculty/school handbook, available during orientation. For more information on other program-related fees and charges, visit www.adelaide.edu.au/student/finance and select ‘Other Fees and Charges’.

Bonus points
For 2016 entry, SATAC will centrally administer a new South Australian Universities Bonus Scheme. The two new schemes are the SA Universities Equity Scheme and the SA Language, Literacy and Mathematics Bonus Scheme. For more details, please visit www.adelaide.edu.au and search “bonus points”.

Program intake
Many undergraduate programs will allow students to begin study in February or July. Please refer to individual programs on Degree Finder (www.adelaide.edu.au/degree-finder) to check whether midyear entry is available.

Where Degree Finder states ‘subject to availability’ applicants should contact Ask Adelaide (refer below for details) to check whether midyear entry is available.

Deferring your studies
Most undergraduate programs can be deferred for up to two years. Please refer to specific programs for exceptions. Music programs may not be deferred.

English language requirements for international students
All international students undertaking an Australian year 12 program are required to achieve a Pass grade or above in one of the approved English as a Second Language or English language subjects. If an applicant attempts, but does not pass, the English language subject then alternative options, such as an acceptable English language proficiency test result, may be arranged. Details of recognised subjects and recognised tests and requirements are available by visiting international.adelaide.edu.au/apply, selecting ‘Admissions Information’ from the menu, then ‘English Language Requirements’. Successful completion of the International Baccalaureate (IB) diploma meets the English language requirements of the University of Adelaide.

Permanent residency
International students who have studied an Australian year 12 program or the IB and expect to be granted Australian permanent residency before the commencement of their university study must contact the International Office. To contact the International Office for more information, visit international.adelaide.edu.au, select ‘About Us’ from the menu, then ‘International Office’ and ‘Enquire Now’.

Accommodation
The University understands that finding the right accommodation is important to successful study. For accommodation options and costs please visit: www.adelaide.edu.au/accommodation

Who to contact with any questions
Ask Adelaide’s friendly and skilled staff can address all program enquiries over the phone or online. If they do not have the answer enquirers will be referred to faculty/school/discipline staff for expert advice.
