

THE UNIVERSITY
of ADELAIDE

INDUSTRY PhD PROGRAM

The University of Adelaide and CSIRO are looking for leading industry partners to help develop the next generation of researchers.

adelaide.edu.au

in collaboration with

**AUSTRALIA HAS
STRONG RESEARCH
CAPABILITY WHICH WE
NEED TO TRANSLATE
INTO INNOVATIVE
PRODUCTS AND
SERVICES.**

Why do this?

- Australia has excellent research institutions and innovative industries, both of which can benefit from enhanced collaboration.
- It is important to expand opportunities for work-ready and industry-focused research training and experiences, and encourage the mobility between research, industry and government sectors.
- We are all affected by accelerating trends in digital disruption, technological transformation, globalisation, etc.
- Working together industry and academia can contribute, through innovation and engagement, to the economic and social well-being of Australia.

Value proposition to your company

We are looking for industry leaders to be part of an elite industry-focused research training program with the University of Adelaide and CSIRO.

As an innovative industry leader you can:

- be involved in the selection and mentoring of PhD students motivated to have a career in industry;
- support the development of PhD students, supervised by leading researchers in state-of-the-art research facilities, on topics directly related to your industry's needs;
- access new knowledge, and support the development of your current and potential future highly-skilled workforce in a cost-effective manner;
- develop networks with top applied research experts in your field; and
- be recognised for your role in an influential industry research network.

Your contribution

We are asking industry partners to:

- help develop the program;
- collaborate with the University of Adelaide and CSIRO to define the research projects;
- make a financial contribution towards a PhD student's operating and development expenses;
- work with the University of Adelaide and CSIRO to select PhD students for your research project;
- offer a minimum six month internship to the PhD student;
- dedicate staff time to mentoring, supervising and assessing PhD students.

The University of Adelaide and CSIRO contribution

The University of Adelaide and CSIRO will:

- administer and support the program;
- provide a \$40k p.a. scholarship;
- provide a tailored program of coursework and skills development to the PhD student;
- deliver access to world-leading researchers and infrastructure.

Timelines

The program will be launched in Q3 2018, with the first PhD students starting in early 2019. To meet these timelines, we are looking to involve industry partners in project design from June 2018, and advertise for students in Q3 or Q4 2018.

Access to world-leading researchers and infrastructure

An elite industry-focused research training program

A four year program, minimum six month industry internship

\$60k from industry, with \$160k from the University of Adelaide and CSIRO

A \$40k p.a. scholarship to attract top PhD students

Simple IP arrangement

PhD students work in industry defined research areas

Career and professional development

Three-way supervision by the University of Adelaide, CSIRO and an industry partner
